

Act 250 – Critical Resource Areas

Act 250 proposed Critical Resource Area (CRA) includes:

- River Corridors
- Wetlands (Class I & II and Hydric Soils)
- Elevation (greater than or equal to 2000 feet)
- Slope (greater than or equal to 15%) *and* Shallow Depth to Bedrock (less than or equal to 20 inches) (intersect)

Critical Resource Area was assessed by acreage across the State, Agricultural Land, and Farmsteads:
