## ***DRAFT FISCAL NOTE***

Date: March 20, 2019

Prepared by: Graham Campbell

### **Revenue Bill-Alternative Proposal> – Draft 4.1**

*<Enter URL of bill version here>*

### **Bill Summary**

This bill makes numerous changes to various state revenue sources. These include:

- Changing the definitions of “operator” and “rent” to include online travel agencies (OTAs) and their associated transaction fees or commissions
- Reducing the percentage exclusion within the current capital gains exclusion from 40% to 20%.
- Expanding the cap on the Downtown and Village Center Tax Credit program
- Expanding the cap on the Affordable Housing Tax Credit and the Vermont Housing Finance Agency’s First Time Homebuyer Tax Credit.
- Increasing the estate tax exclusion over three years
- Making significant changes to the Land Gains Tax such that it would only apply to a small number of land transfers.
- Expands the tax base for the Property Transfer Tax and Clean Water Surcharge to include transfers of controlling interests in a property.
- Updates the Fuel Tax to include any nonprofit in Vermont.

### **Fiscal Impact**

This bill would generate an additional \$7.5 million in total State revenues (Table 1). This revenue impact is spread across different funds:

- \$4.6 million in General Fund revenues. The positive revenue impact in the General Fund is expected to decrease in future fiscal years as the estate tax exclusion is fully phased-in.<sup>1</sup>
- \$930,000 in Education revenues and growing modestly in future fiscal years.

---

<sup>1</sup> H.97 (Budget Adjustment) also contains a change to the distribution of funds from the Department of Taxes Computer Modernization Fund to the General Fund from 80% to 40%. That change generates an additional \$4.8 million for the General Fund. The House Budget bill furthers that change from 40% to 30% generating an additional \$1.2 million.

- \$1.97 million in special fund revenues and growing in future fiscal years. The overall revenue impact in the General Fund is expected to remain positive relative to current law in future fiscal years, although it decreases as the estate tax exclusion is fully phased-in.

Table 1: H.XXX Revenue Estimates				
Section	Provision	Revenue Impact (millions)		
		FY2020	FY2021	FY2022
<b>General Fund</b>				
1	Capital Gains Exclusion Pct Exclusion from 40% to 20% (Effective July 1, 2019)	\$2.59	\$5.18	\$5.18
2	Expansion of First Time Homebuyer Credit	-\$0.13	-\$0.25	-\$0.38
2	Expansion of Affordable Housing Credit	-\$0.13	-\$0.25	-\$0.38
3	Downtown Tax Credit Expansion	-\$0.20	-\$0.20	-\$0.20
4-5	Raise Estate Tax Exclusion to \$5m by FY22 (\$4.25m Effective Jan 1, 2020)	\$0.00	-\$4.48	-\$7.61
6-7	Updating M&R Tax for Online Travel Agencies (OTAs)	\$2.78	\$3.10	\$3.18
8-14	Controlling Interest changes to Property Transfer Tax	\$0.47	\$0.71	\$0.82
15-16	Land Gains Tax only applies to subdivided land within 6 years (Effective Jan 1, 2020)	-\$0.78	-\$1.60	-\$1.67
<b>Subtotal General Fund</b>		<b>\$4.61</b>	<b>\$2.21</b>	<b>-\$1.06</b>
<b>Education Fund</b>				
6-7	Updating M&R Tax for Online Travel Agencies (OTAs)	\$0.93	\$1.03	\$1.06
<b>Subtotal Education Fund</b>		<b>\$0.93</b>	<b>\$1.03</b>	<b>\$1.06</b>
<b>Special Funds</b>				
6-7	Updating M&R Tax for Online Travel Agencies (OTAs)- PILOT Fund	\$0.19	\$0.19	\$0.20
8-14	Controlling Interest: Department of Taxes, Property Valuation and Review Fund	\$0.03	\$0.04	\$0.05
8-14	Controlling Interest: Housing and Conservation Trust Fund	\$0.71	\$1.10	\$1.20
8-14	Controlling Interest: Municipal and Regional Planning Fund	\$0.24	\$0.36	\$0.42
8-14	Controlling Interest: Clean Water Fund	\$0.20	\$0.30	\$0.40
17	Fuel Tax language updated to include non-profits and updates sunset	\$0.60	\$0.60	\$0.60
<b>Subtotal Special Funds</b>		<b>\$1.97</b>	<b>\$2.59</b>	<b>\$2.87</b>
<b>Total Revenue Impact</b>		<b>\$7.51</b>	<b>\$5.83</b>	<b>\$2.87</b>

## Explanation/Methodologies

### Section 2: Expansion of the Affordable Housing and Down Payment Assistance Tax Credits

Section 2 of the bill expands two existing credits administered by the Vermont Housing Finance Agency (VHFA): the Affordable Housing Tax Credit and the Down Payment Assistance Tax Credit.

The current first year credit allocation for the Affordable Housing Credit is \$300,000 for a maximum limit of \$1.5 million over any 5 year period. The bill proposes to raise the first year credit allocation to \$425,000, for a maximum 5 year allocation of \$2.125 million.

The current first year credit allocation for the Down Payment Assistance Tax Credit is \$125,000. The bill proposes to raise the first year credit allocation to \$250,000 and extends the program through FY2026. Because the program was set to expire in FY22, all credits awarded thereafter would be new fiscal cost relative to current law.

Each of these tax credits are 5 year tax credits, meaning a claimant claims the credit for 5 consecutive years. As such, the total credits awarded in a given year are the current year's first year credit allocation, plus any credits from the previous five years. For any increase in the size of first year credit allocations, the fiscal impact increases each year by the size of that increase over the next five years.

The FY20 impact of increasing first year credit allocations of the Affordable Housing Tax Credit and the Down Payment Assistance Tax Credits is \$125,000 each, for a total of \$250,000. However, in FY21, the fiscal impact is the sum of the impact FY20's second year fiscal impact (\$250,000) plus the first year impact in FY21 (\$250,000) for a total fiscal impact of \$500,000. This continues over the next five years. Table 2 details the complete fiscal impact of the expansions over the next 5 fiscal years.

**Table 2: Fiscal Impacts of Tax Credit Expansions in Section 2 (GF)**

	FY20	FY21	FY22	FY23	FY24
Expansion of Affordable Housing Credit	\$125,000	\$250,000	\$375,000	\$500,000	\$625,000
Expansion of Down Payment Assistance Credit	\$125,000	\$250,000	\$375,000	\$625,000	\$875,000
<b>Total</b>	<b>\$250,000</b>	<b>\$500,000</b>	<b>\$750,000</b>	<b>\$1,125,000</b>	<b>\$1,500,000</b>

#### Sections 4 and 5: Raising the estate tax exclusion

Currently, the estate tax is 16% on the value of any estate over the exclusion amount of \$2.75 million

The bill proposes to raise the estate tax exclusion over the course of three years. Beginning July 1, 2019, the estate tax exclusion rises from \$2.75 million to \$3.5 million. On January 1, 2020, the exclusion rises to \$4.25 million. On January 1, 2021, the exclusion rises to \$5 million.

**Relative to current law, raising the exclusion is expected to cost the State \$820,000 in FY2020. In FY2021, the cost increases to \$5.34 million, increasing further to \$7.61 million in FY2022 once the bill is fully phased-in.**

**Sources:** Department of Taxes data, January 2019 Consensus Revenue Forecast.

#### Section 6-7: Online Travel Agencies (OTAs)

Under current law, online travel agencies<sup>2</sup> (OTA) themselves are not required to remit the 9% rooms tax. In a typical transaction, when a customer reserves a room through an OTA, the OTA

<sup>2</sup> These include most online travel websites, including Expedia, booking.com, Priceline, but also includes booking websites for short term rentals, including AirBnB, HomeAway, and VRBO.

collects the 9% tax on the *listed* price of the room. The OTA then forwards an agreed-upon room rate to the operator (which is often 15-20% less than the listed room rate) plus the 9% rooms tax on only that agreed-upon rate. The operator remits the 9% tax on the agreed-upon rate to the Department of Taxes. The OTA keeps the 9% rooms tax on the difference between the listed rate and the agreed-upon rate.

The following example illustrates this process:

Listed Price online for Hotel room	\$100
OTA collects 9% rooms tax on listed price	$\$100 \times 9\% = \$9$
OTA sends Hotel 80% of listed rate	\$80
<b>OTA sends Hotel rooms tax on listed rate</b>	<b><math>\\$80 \times 9\% = \\$7.20</math></b>
OTA keeps 20% service charge on listed rate	\$20
<b>OTA keeps rooms tax collected on listed rate</b>	<b><math>\\$20 \times 9\% = \\$1.80</math></b>
Hotel remits rooms tax to Department of Taxes	\$7.20
Rooms tax left unremitted by OTA	\$1.80

This section requires OTAs (“booking agents”) to remit the rooms tax on all amounts collected by the OTA. In the example above, the OTA would be required to collect and remit to the Department of Taxes both the \$7.20 it was previously sending to the Hotel, but also the \$1.80 in rooms tax it was previously keeping.

JFO estimates that requiring OTAs to collect and remit rooms tax on all amounts listed by the OTA will generate approximately \$2.8 million in additional meals and rooms tax revenue in FY 2020 and growing in future fiscal years. 75% of this revenue will go to the General Fund and 25% will go to the Education Fund.

<b>Fiscal Year</b>	<b>FY 2020</b>	<b>FY 2021</b>	<b>FY 2022</b>
<b>Total Estimate</b>	\$2.7	\$3.1	\$3.2
Of which: General Fund	\$2.0	\$2.3	\$2.4
Of which: Education Fund	\$0.7	\$0.8	\$0.8

In addition to this revenue, the section also requires booking agents to remit the rooms tax on all amounts collected at the point of sale. Booking agents include websites that list short-term rental properties, in addition to websites that list traditional hotels and motels. Under current law, rooms tax is due on short-term (or any) rentals if the operator rents the room for greater than 15 days in a calendar year, and remittance of the tax is the responsibility of the operator, not the booking agent. The Department of Taxes and JFO have estimated that there is 40%

noncompliance<sup>3</sup> amongst short-term rentals who use booking agents other than AirBnB<sup>4</sup>. This section would require booking agents to collect on behalf of those noncompliant operators.

JFO estimates that closing the noncompliance gap amongst short term rentals would generate an additional \$1 million in rooms tax in FY 2020 and growing in future fiscal years. 75% of this revenue will go to the General Fund and 25% will go to the Education Fund.

<b>Fiscal Year</b>	<b>FY 2020</b>	<b>FY 2021</b>	<b>FY 2022</b>
<b>Total Estimate</b>	\$1.0	\$1.1	\$1.2
Of which: General Fund	\$0.77	\$0.83	\$0.87
Of which: Education Fund	\$0.23	\$0.28	\$0.29

In total, JFO estimates that in total, this section will raise rooms tax revenues by \$3.8 million in FY2020, growing to \$4.2 million in FY21 and \$4.4 million in FY2022. 75% of this revenue will go to the General Fund and 25% will go to the Education Fund.

<b>Fiscal Year</b>	<b>FY 2020</b>	<b>FY 2021</b>	<b>FY 2022</b>
<b>Total Estimate</b>	\$3.7	\$4.2	\$4.4
Of which: General Fund	\$2.8	\$3.1	\$3.3
Of which: Education Fund	\$0.9	\$1.1	\$1.1

## Sections 8 to 14: Controlling Interest Changes to the Property Transfer Tax

This estimate represents baseline revenues for typical year-to-year controlling interest transfers. However, this revenue could be very volatile due to large one-time controlling interest transfers in any given year. The additional revenue generated by these sections could be significantly higher in any single year due to these large one-time events.

The Joint Fiscal Office estimates that this section will generate an additional \$1.6 million in baseline property transfer tax revenue in FY20 and growing in future years. The property transfer tax contains two components<sup>6</sup>:

- Property transfer tax revenues themselves which are allocated in the following fashion:
  - The first 2% are these revenues are retained for the Department of Taxes for administration costs
  - The remaining 98% are dedicated as follows:
    - 33% to the General Fund
    - 50% to the Housing and Conservation Trust Fund
    - 17% to the Municipal and Regional Planning Fund
- The Clean Water Surcharge (0.2%), the revenues of which are dedicated to the Clean Water Fund

<b>Fiscal Year</b>	<b>FY2020</b>	<b>FY2021</b>	<b>FY2022</b>
<b>Total Revenue</b>	<b>\$1.68</b>	<b>\$2.56</b>	<b>\$2.90</b>
Of which: Department of Taxes Property Valuation and Review Fund	\$0.03	\$0.04	\$0.05
Of which: Housing and Conservation Fund	\$0.71	\$1.1	\$1.2
Of which: General Fund	\$0.47	\$0.71	\$0.82
Of which: Municipal and Regional Planning Fund	\$0.24	\$0.36	\$0.42
<b>Of which: Clean Water Fund</b>	<b>\$0.23</b>	<b>\$0.35</b>	<b>\$0.41</b>

This estimate is based upon data from other states that have similar controlling interest provisions within their property transfer taxes. Based upon these other state experiences, revenues from controlling interest transfers tend to increase year over year for the first two to three years as practitioners become more adept at applying the law to controlling interest transfers. This explains the ramp up in revenues in succeeding fiscal years.

---

<sup>6</sup> In previous fiscal years, the Legislative budget and the Administration's proposed budgets have allocated a certain amount of property transfer tax revenue to these funds. The remaining property transfer tax revenues are then distributed to the General Fund, notwithstanding the statute on the allocation of the various funds.

Administrative costs for the section of the bill are expected to be minimal for the Department of Taxes. However, it is possible additional resources may be needed in the future should the Department discover future needs to ensure compliance.

**Sources:**

This estimate relied upon data from the Connecticut and Maine Departments of Revenue, the Department of Taxes 2018 Property Valuation and Review Annual Report<sup>7</sup> and the January 2018 Consensus Revenue Forecast.

This estimate assumes that the vast majority of controlling interest sales will pay the 1.25% property transfer tax rate. Transfers that pay this tax are non-principal residences and principal residences on the marginal value above \$100,000

Sections 15-16: Land Gains Tax

These sections of the bill redefine the definitions of land transfers subject to the tax. Should this bill become law, only land subdivided by the transferor within six years prior to the sale or exchange would be subject to the tax. This section also exempts land transferred in a downtown development district, a village center, or new town center development.

Together, these changes would greatly reduce the current tax base for the land gains tax. In 2017, of all returns that submitted a land gains tax, less than 15% had been subdivided and paid land gains tax totaling around \$400,000. The further exemption of land within a downtown or village center district would further narrow the subset of properties subject to the tax.

**As such, JFO estimates that this section of the bill will reduce General Fund revenues by \$1.55 million in FY20, growing modestly in future fiscal years.** As the current land gains tax generates between \$1.6 and \$1.75 million per year, these changes will reduce revenues from the tax by 88%. The number of returns that would be required to complete a land gains return is expected to drop significantly.

## Section 17: Fuel Tax

This section clarifies that all Vermont entities, with the exception of State, local or Federal governments shall pay the Fuel Tax. Current statute states that any residence or business shall pay the Fuel Tax, which exempts nonprofit agencies.

**The inclusion of nonprofit agencies' fuel purchases is expected to generate \$600,000 in FY20.** All these additional revenues will be dedicated to the Weatherization Fund.
