# Who would benefit from a medical deduction as written in S.126?

- By income, the impact hits across the income distribution, with slightly higher benefits for those with between \$70,000 and \$150,000 in AGI

# Catastrophic vs. Continuing Care

- The medical expenses deduction is used for numerous purposes.
- How much of it is used for continuing care facilities and how much of it is used for catastrophic, non-continuing care?
- Caveat: difficult to discern exactly.
  - The data is not broken out on the return
