32	<p>The Office of Risk Management workers' compensation program serves all State employees injured on the job. We contract with a third party administrator (TPA) to adjust and manage claims. Risk Management provides oversight and director to the TPA. Our goal is to ensure that injured State employees' claims are handled in a professional, thorough, and caring manner to help ensure that employees will return to their work, home, civic and social life and activities to the best of their ability. Detailed workers' compensation claim data is available on the TPA's electronic claims system and is used to examine trends and determine areas in which to focus. We look closely at lost time claims. When an employee cannot work due to an injury, it negatively impacts the employee, their family, co-workers and manager. Our TPA works hard to ensure the injured worker receives quality medical care at a fair price. Medical bills are carefully reviewed for duplicates, non-work related procedures, errors and statutory discounts. Each year, an independent claims auditor reviews risk management and the TPA's claims handling process and procedures. Since the retention of the TPA, the percentage of areas meeting or exceeding best practices has increased dramatically.</p>

32	The Office of Risk Management's loss prevention program and workplace safety program serves all State employees. Our goal is to minimize loss exposure and improve workplace safety across State Government. We contract with a TPA to perform workplace safety activities. Risk Management provides oversight and direction to the TPA. A key metric we review is the incidence rate, which is the number of OSHA recordable injuries and illnesses per 100 full time employees. We also review OSHA's Bureau of Labor Statistics (BLS) incidence rates for state governments nationally as a benchmark for the State of Vermont. The latest published incidence rates are for CY 2017. We cannot not project the BLS incidence rates in 2018 to 2020, so those columns are N/A. It is a very positive indicator that State of Vermont government has lower incidence rates than the national average rate for state governments. Providing a safe workplace increases productivity as well as morale. Risk Management and the TPA work with departments to develop loss prevention programs tailored to their needs, offer in person and online safety training and reports on loss trends and areas of concern. In 2017, we had many group presentations on loss control while introducing PMA to almost four thousand state employees. In addition, we had many employees take courses in our new online safety training program. The number of employees training in loss control and safety was lowered in 2018 to the reflect the online training, group training meetings and ergonomic assessments.
