please give more money to CIS so more people can get help like me. CIS has helped me in many ways such as help sustaining my now permanent housing for myself and my children. They have helped with my child's growth in motor skills and many other aspects in my child's life to keep a happy and healthy relationship with him. Helping me with some important items that is needed to make sure my child and myself are in not in need (example:donated diapers, clothing, misc.) I believe CIS is one of the most important programs in this town and needs to remain stable in order to help family's in need.
