

The Office of the State Auditor asked the Department of Vermont Health Access (DVHA) to provide the number of Medicaid members who reported on their health care application that they are employed by certain businesses, as well as the aggregate claims paid for these members for FY17, FY18, and FY19 to date. The State Auditor identified the businesses as designated VEGI firms.

This information is contained in the tables below. Please note:

- Data was pulled on November 29, 2018.
- Data is pulled from DVHA's VHC enrollment system and the MMIS. It reflects MAGI-based Medicaid members only. (Enrollment data on non-MAGI Medicaid enrollees is stored in a separate system managed by DCF.)
- The report queried employers exactly as listed in the spreadsheet provided to DVHA. Because the employer name is an open field in the enrollment system and there can be many variations on how a company's name is written, the data is not very reliable.

Aggregate number of MAGI-based Medicaid members employed by designated businesses as of November 29, 2018:

	SFY		
	2017	2018	2019
	Count	Count	Count
Unique Recipients	342	353	247

Aggregate amount of payments made to providers on behalf of above members as of November 29, 2018:

	SFY		
	2017	2018	2019
	Sum	Sum	Sum
Paid Amount	1,682,357.17 \$	1,581,879.41 \$	632,488.22 \$
