

March 2020

Enterprise Holdings, the 62-year old, family owned company that operates the Enterprise Rent-A-Car, National Car Rental and Alamo Rent A Car brands across Vermont plays an integral part in Vermont's, and the nation's, transportation industry and economy. We provide essential transportation services to government agencies, emergency responders, logistics companies and other essential businesses and local/state/federal government agencies. Being an integral provider of temporary and interim transportation for businesses and residents of Vermont, we are an essential service that must remain operational throughout our current COVID-19 crisis.

Please note that Enterprise Holdings takes its role as an industry leader very seriously, but never more so than when times are difficult. We want you to know that we are ready to support any transportation needs Vermonters and Vermont's government agencies may encounter in responding to this crisis.

Enterprise has already implemented ways to help our neighbors, customers and partners deal with transportation challenges as this pandemic suddenly changes so many lives and plans.

For example, with colleges and universities announcing campus closures, many students need last-minute transportation to get home to their families. As a result, the Enterprise Rent-A-Car network is now waiving its young renter fee and reducing the minimum age to rent a vehicle – from 21 to 18 years old – for college students in the U.S. and Canada.

In addition, Enterprise Holdings has likewise reduced its minimum age to 18 years old for all members of the U.S. military and government employees renting for personal needs. This is just another reflection of Enterprise's military heritage and our longtime commitment to supporting members of the military and their families.

Enterprise is here to serve where and when needed, and we ask that you be in touch with us should you have any questions or suggestions. You will find additional information links below.

Thank you.

Dean Thompson
Vice President
Enterprise Holdings
