## Overview

### Product Description

This is one our best sellers in our retail store. Imagine you're 9 and your mom let you get whatever you wanted at the store and you chose the most sugar-filled, sour powder you could find. The kind that stains your tongue blue and bites at the back of your mouth with a sweet and sour punch! With hints of fruit and candy after notes, it'll bring out your inner child. \*This juice will need steeping and airing out even after delivery to bring out the fullest flavor.

Made with the highest quality ingredients our E-Juice is 100% USA made. Your order will be custom filled when it is placed, instead of having an old juice with and unknown manufactured date you will only receive the freshest quality juice available. Ingredients used in our E-Juice are USP food grade. We are confident our 100% USA made E-Juice will not only taste good but also calm your nicotine needs. Steeping(aging) may be required in order to bring out the fullest flavor of our juice. You must be 18 years of age to purchase this product.
