

1 TO THE HONORABLE SENATE:

2 The Committee on Education to which was referred Senate Bill No. 40
3 entitled “An act relating to testing and remediation of lead in the drinking
4 water of schools and child care facilities” respectfully reports that it has
5 considered the same and recommends that the bill be amended by striking out
6 all after the enacting clause and inserting in lieu thereof the following:

7 Sec. 1. 18 V.S.A. chapter 24A is added to read:

8 CHAPTER 24A. LEAD IN DRINKING WATER OF SCHOOLS AND
9 CHILD CARE FACILITIES

10 § 1241. PURPOSE

11 The purpose of this chapter is to require all school districts, supervisory
12 unions, independent schools, and child care providers in Vermont to:

13 (1) test drinking water in their buildings and child care facilities for lead
14 contamination; and

15 (2) develop and implement an appropriate response or lead remediation
16 plan when sampling indicates unsafe lead levels in drinking water at a school
17 or child care facility.

18 § 1242. DEFINITIONS

19 As used in this chapter:

20 (1) “Action level” means three parts per billion (ppb) of lead.

1 (2) “Building” means any structure, facility, addition, or wing that may
2 be occupied or used by children or students.

3 (3) “Child care provider” has the same meaning as in 33 V.S.A. § 3511.

4 (4) “Child care facility” or “facility” has the same meaning as in 33
5 V.S.A. § 3511.

6 (5) “Commissioner” means the Commissioner of Health.

7 (6) “Department” means the Department of Health.

8 (7) “Drinking water” has the same meaning as in 10 V.S.A. § 1671.

9 (8) “First-draw sample” means a 250 milliliter sample of drinking water
10 that:

11 (A) has been standing in plumbing pipes at least eight hours and no
12 more than 18 hours;

13 (B) is collected without flushing the tap; and

14 (C) is conducted before a building or child care facility opens or is in
15 use.

16 (9) “Flush sample” means a sample of drinking water from an outlet
17 that:

18 (A) is taken from the outlet after the water has run for 30 seconds;

19 and

20 (B) is conducted before a building or child care facility opens or is in
21 use.

1 (10) “Independent school” has the same meaning as in 16 V.S.A. § 11.

2 (11) “Outlet” means a drinking water fixture currently or potentially
3 used for consumption or cooking purposes, including a drinking fountain, ice
4 machine, or a faucet.

5 (12) “Potable water” means water sufficient for consumption and free
6 from impurities in amounts sufficient to cause disease or harmful physiological
7 effects with the bacteriological, chemical, physical, or radiological quality
8 conforming to applicable rules or standards adopted by the Agency of Natural
9 Resources and the Department of Health.

10 (13) “School district” has the same meaning as in 16 V.S.A. § 11.

11 (14) “Supervisory union” has the same meaning as in 16 V.S.A. § 11.

12 § 1243. TESTING OF DRINKING WATER

13 (a) Scope of testing.

14 (1) Each school district, supervisory union, or independent school in the
15 State shall test drinking water in the buildings it owns, controls, or operates for
16 lead contamination as required under this chapter.

17 (2) Each child care provider in the State shall test drinking water in a
18 child care facility it owns, controls, or operates for lead contamination as
19 required under this chapter, unless otherwise required to test for lead in
20 drinking water under State law.

21 (b) Initial sampling.

1 (1) On or before January 1, 2020, each school district, supervisory
2 union, independent school, or child care provider in the State shall collect a
3 first-draw sample and a flush sample from each outlet in each building it owns,
4 controls, or operates. Sampling shall occur during the school year of a school
5 district, supervisory union, or independent school.

6 (2) At least five days prior to sampling, the school district, supervisory
7 union, independent school, or child care provider shall notify all staff and all
8 parents or guardians of students in writing or by electronic means of:

9 (A) the scheduled sampling;

10 (B) the requirements for testing, why testing is required, and the
11 potential health effects from exposure to lead in drinking water;

12 (C) information regarding how the school district, supervisory union,
13 independent school, or child care provider shall provide notice of the sample
14 results; and

15 (D) how the school district, supervisory union, independent school,
16 or child care provider shall respond to a sample that exceeds the action level.

17 (3) The Department may adopt a schedule for the initial sampling by
18 school districts, supervisory unions, independent schools, and child care
19 providers.

20 (c) Continued sampling. After January 1, 2020, each school district,
21 supervisory union, independent school, or child care provider in the State shall

1 sample each outlet in each building or facility it owns, controls, or operates for
2 lead according to a schedule adopted by the Department by rule under section
3 1247 of this title.

4 (d) Methodology. Prior to adoption of the rules required under section
5 1247 of this title, sampling under this section shall be conducted according to a
6 methodology established by the Department of Health, provided that the
7 methodology shall be at least as stringent as the sampling methodology
8 provided for under the U.S. Environmental Protection Agency’s 3Ts for
9 Reducing Lead in Drinking Water in Schools.

10 (e) Laboratory analysis. All first-draw samples and flush samples required
11 under this section shall be sent by the Department of Health to a laboratory
12 approved by the Commissioner to conduct analyses of drinking water under
13 this chapter.

14 § 1244. RESPONSE TO ACTIONABLE LEVEL; NOTICE; REPORTING

15 If a sample of drinking water under section 1243 of this title indicates an
16 exceedance of the action level at an outlet, the school district, supervisory
17 union, independent school, or child care provider that owns, controls, or
18 operates the building or facility in which the outlet is located shall conduct
19 remediation to eliminate or reduce lead levels in the drinking water from the
20 outlet. In conducting remediation, a school district, supervisory union,
21 independent school, or child care provider shall, at a minimum:

1 (1) prohibit use of the outlet until a lead remediation plan or other
2 remediation approved by the Commissioner is implemented to mitigate the
3 lead level of the outlet;

4 (2) after a lead remediation plan or other approved remediation is
5 implemented, retest the outlet until results indicate that the lead levels are at or
6 below the action level;

7 (3) provide occupants of the building or child care facility an adequate
8 supply of potable water for drinking and cooking until remediation is
9 performed;

10 (4) submit any laboratory analysis to the Department within one
11 business day of receiving the laboratory report;

12 (5) notify all staff and all parents or guardians of students of the test
13 results, in writing or by electronic means, within 10 business days after receipt
14 of the laboratory report; and

15 (6) submit subsequent laboratory analyses and lead remediation plans to
16 the Department as they are completed.

17 § 1245. RECORD KEEPING; PUBLIC NOTIFICATION; DATABASE

18 (a) Record keeping. The Department of Health shall retain all records of
19 test results, laboratory analyses, lead remediation plans, and waiver requests
20 for 10 years following the creation or acquisition of the record. Records

1 produced or acquired by the Department under this chapter are public records
2 subject to inspection or copying under the Public Records Act.

3 (b) Public notification. On or before March 1, 2020, the Commissioner
4 shall publish on the Department website the data from testing under section
5 1243 of this title so that the results of sampling are fully transparent and
6 accessible to the public. The data published by the Department shall include a
7 list of all buildings or facilities owned, controlled, or operated by a school
8 district, supervisory union, independent school, or child care provider at which
9 an outlet exceeded the action level within the previous two years of reported
10 samples. The Commissioner shall publish on the Department’s website a
11 report of an outlet that exceeds the action level within two weeks of receipt of
12 the report under section 1244 of this title. The Secretary of Education shall
13 include a link on the Agency of Education website to the Department of Health
14 website required under this subsection.

15 § 1246. LEAD REMEDIATION PLAN; GUIDANCE

16 (a) Consultation. When a laboratory analysis of a sample of drinking water
17 from an outlet at a building or facility owned, controlled, or operated by a
18 school district, supervisory union, independent school, or child care provider
19 exceeds the action level, the school district, supervisory union, independent
20 school, or child care provider shall consult with the Commissioner regarding
21 the development of a lead remediation plan or other necessary response.

1 (b) Guidance; lead remediation plan. The Commissioner, after consultation
2 with the Secretary of Natural Resources and the Secretary of Education, shall
3 issue guidance on development of a lead remediation plan by a school district,
4 supervisory union, independent school, or child care provider. The guidance
5 provided by the Commissioner shall reference the U.S. Environmental
6 Protection Agency’s 3Ts for Reducing Lead in Drinking Water in Schools.

7 § 1247. RULEMAKING

8 On or before November 1, 2020, the Commissioner, after consultation with
9 the Secretary of Natural Resources and the Secretary of Education, shall adopt
10 rules regarding the implementation of the requirements of this chapter. The
11 rules shall include:

12 (1) requirements or guidance for taking samples of drinking water from
13 outlets in a building or facility owned, controlled, or operated by a school
14 district, supervisory union, independent school, or child care provider;

15 (2) the frequency of sampling required, including additional sampling
16 requirements when there is an exceedance of the action level at an outlet;

17 (3) requirements or guidance for transferring samples to laboratories;

18 (4) requirements for approval of a laboratory to conduct sampling under
19 this chapter;

20 (5) the method or form for reporting an exceedance of the action level to
21 the Department;

1 (6) requirements for implementation of a lead mitigation plan or other
2 necessary response to a reported exceedance of the action level;

3 (7) conditions or criteria for the waiver of sampling required under this
4 chapter; and

5 (8) any other requirements that the Commissioner deems necessary for
6 the implementation of the requirements of this chapter.

7 § 1248. ENFORCEMENT; PENALTIES

8 In addition to any other authority provided by law, the Commissioner of
9 Health or a hearing officer designated by the Commissioner may, after notice
10 and an opportunity for hearing, impose an administrative penalty of up to
11 \$500.00 for a violation of the requirements of this chapter. The hearing before
12 the Commissioner shall be a contested case subject to the provisions of 3
13 V.S.A. chapter 25.

14 Sec. 2. 16 V.S.A. § 4001(6) is amended to read:

15 (6) “Education spending” means the amount of the school district
16 budget, any assessment for a joint contract school, career technical center
17 payments made on behalf of the district under subsection 1561(b) of this title,
18 and any amount added to pay a deficit pursuant to 24 V.S.A. § 1523(b) that is
19 paid for by the school district, but excluding any portion of the school budget
20 paid for from any other sources such as endowments, parental fundraising,

1 federal funds, nongovernmental grants, or other State funds such as special
2 education funds paid under chapter 101 of this title.

3 * * *

4 (B) For purposes of calculating excess spending pursuant to 32
5 V.S.A. § 5401(12), “education spending” shall not include:

6 * * *

7 (xi) Costs incurred by a school district or supervisory union when
8 sampling drinking water outlets, implementing lead remediation, or retesting
9 drinking water outlets as required under 18 V.S.A. chapter 24A.

10 Sec. 3. APPROPRIATIONS; SAMPLING OF DRINKING WATER

11 OUTLETS IN SCHOOLS

12 In addition to any other funds appropriated to the Department of Health
13 (Department) in fiscal year 2019, \$1,000,000.00 is appropriated to the
14 Department in fiscal year 2019 for the purpose of paying for or reimbursing
15 schools for the costs of sampling drinking water outlets, implementing
16 remediation, and retesting drinking water outlets under the requirements of 18
17 V.S.A. chapter 24A.

18 Sec. 4. EFFECTIVE DATE

19 This act shall take effect on passage.
