

## Stop 5G in VT Now!

**Vermont H.513** - *An act relating to broadband deployment throughout Vermont* - is most likely going to be voted into law within days to maybe two weeks. **The way the bill is currently written, 5G is a Trojan Horse, concealed inside the term “broadband.”** We believe that most legislators do not understand this.

Please contact committee members listed below as well as your own Senator(s) to ask them to amend the language in Bill H.513 to:

1. Remove Bill H. 513 Sections 19a (1) and (2) because they allow 5G to be implemented under the cover of broadband expansion.
2. Place a stay on the attachment of 5G antennas to poles and towers until proven safe and reliable, including 4G antennas that can be upgraded to 5G via software.

If you are pressed for time, reach out to the Committee Assistants and ask them to share your comments with the committee members. You can also leave messages for any Senator by calling the Sargent-in-Arms at 802-828-2228. Although making calls takes a little more time and effort than sending emails, calls are much more effective.
