

**TELEHEALTH; CONNECTIVITY; FUNDING OPPORTUNITIES**

***Proposals from VBQHC highlighted in yellow***

Sec. X. TELEHEALTH; CONNECTIVITY; FUNDING OPPORTUNITIES

(a) The Vermont Program for Quality in Health Care, Inc., shall consult with its Statewide Telehealth Workgroup, the Department of Public Service, and organizations representing health care providers and health care consumers to identify:

(1) areas of the State that do not have access to broadband service and that are also medically underserved or have high concentrations of high-risk or vulnerable patients, or both, and where equitable access to telehealth services would result in improved patient outcomes or reduced health care costs, or both; and

(2) opportunities to use federal funds and funds from other sources to increase Vermonters' access to clinically appropriate telehealth services, including opportunities to maximize access to federal grants through strategic planning, coordination, and resource and information sharing.

(b) Based on the information obtained pursuant to subsection (a) of this section, the Vermont Program for Quality in Health Care, Inc., and the Department of Public Service, with input from organizations representing health care providers and health care consumers, shall provide technical assistance to support health care providers eligible efforts to pursue available funding opportunities in order to increase Vermonters' access to clinically appropriate telehealth services via information dissemination and technical assistance to the extent feasible under the current billback funding mechanism under 18 V.S.A. § 9416(c).

(c) In coordinating and administering the efforts described in this section, the Vermont Program for Quality in Health Care, Inc. shall use federal funds to the greatest extent possible.
