Town Highway Maps

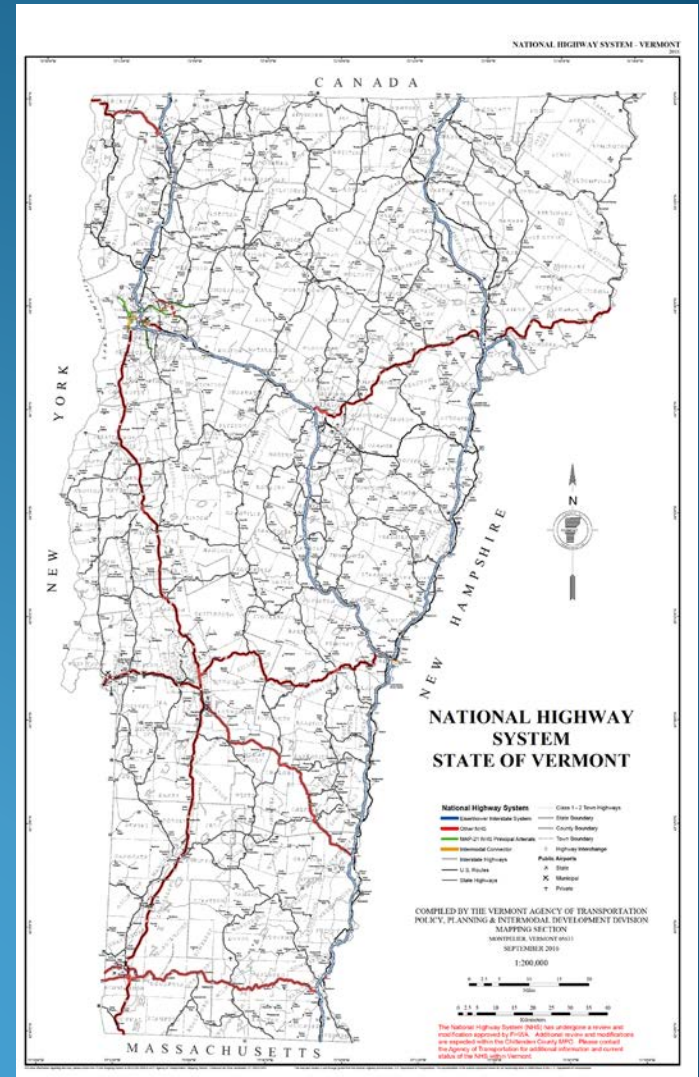

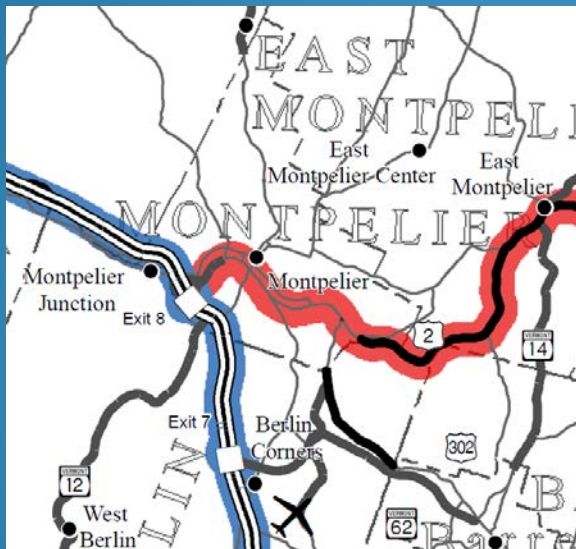

The Mapping Section produces 319 individual Town Highway Maps of each municipality in Vermont.

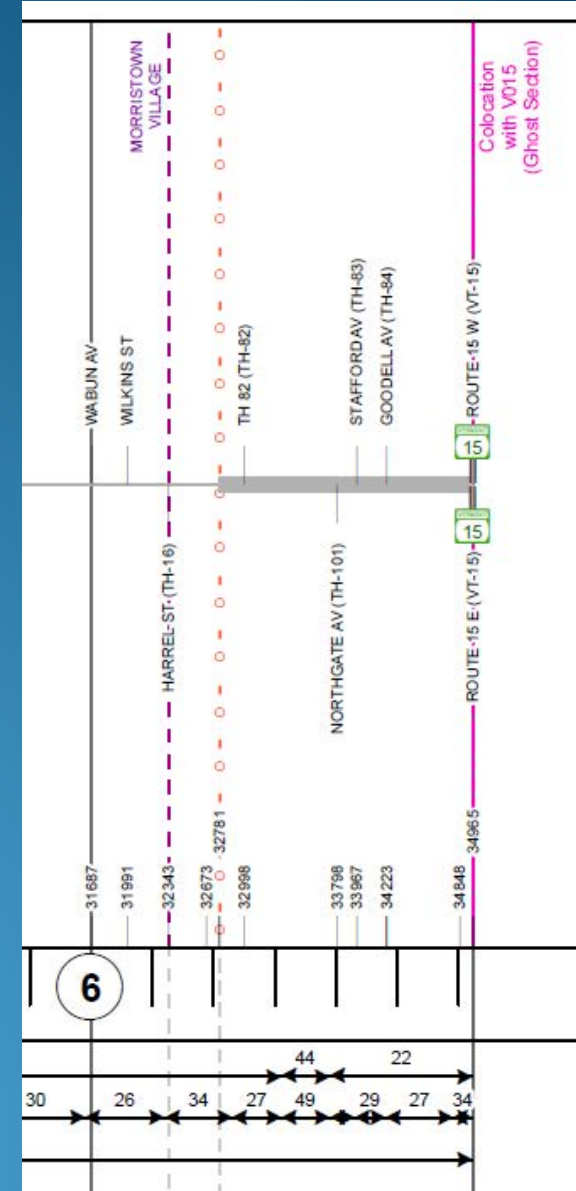

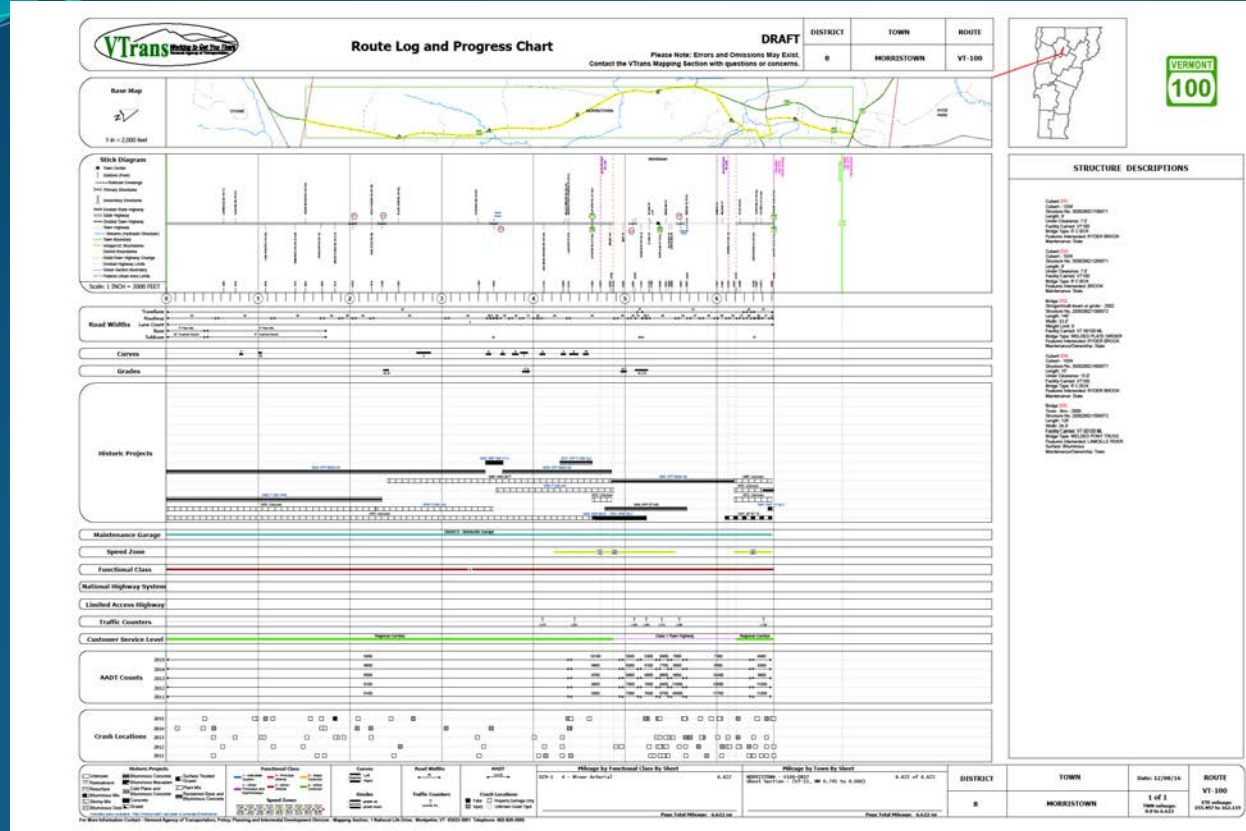

<http://vtransmaps.vermont.gov/mapsftp/current.asp>

National Highway System and Functional Classification of Highways

In 2016, the Mapping Section took over the responsibility of mapping the National Highway System (NHS) and the Functional Classification of the highways. This includes coordination with Regional Planning Commissions and FHWA.

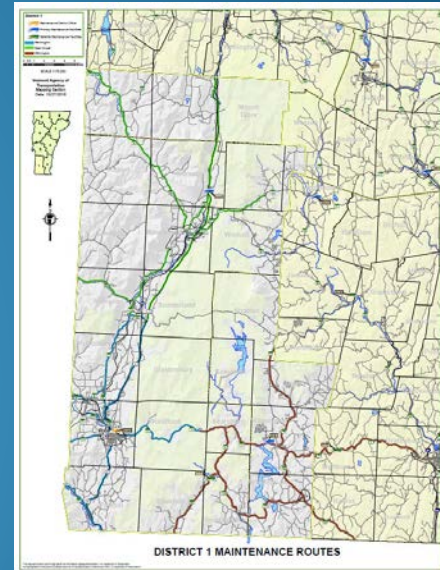

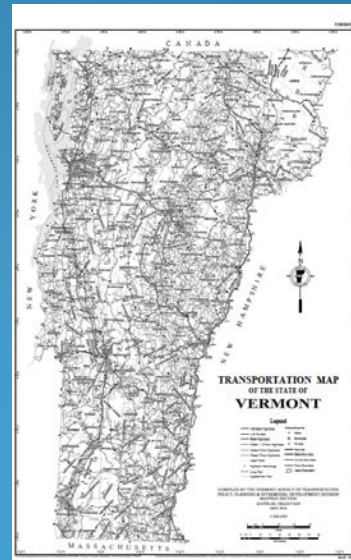

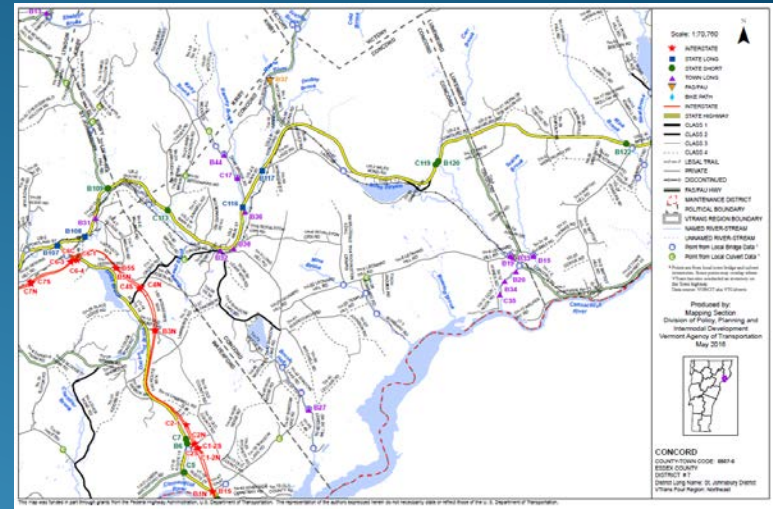

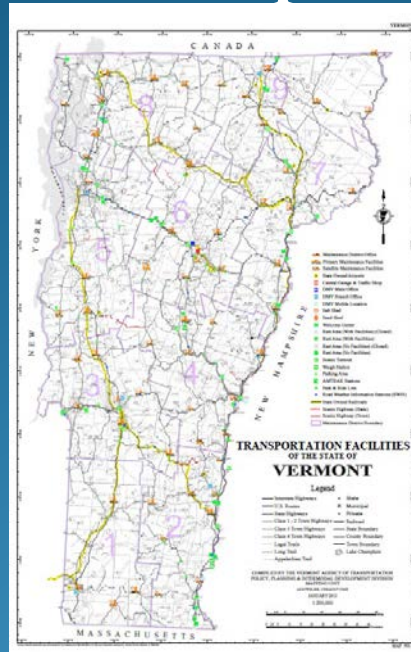

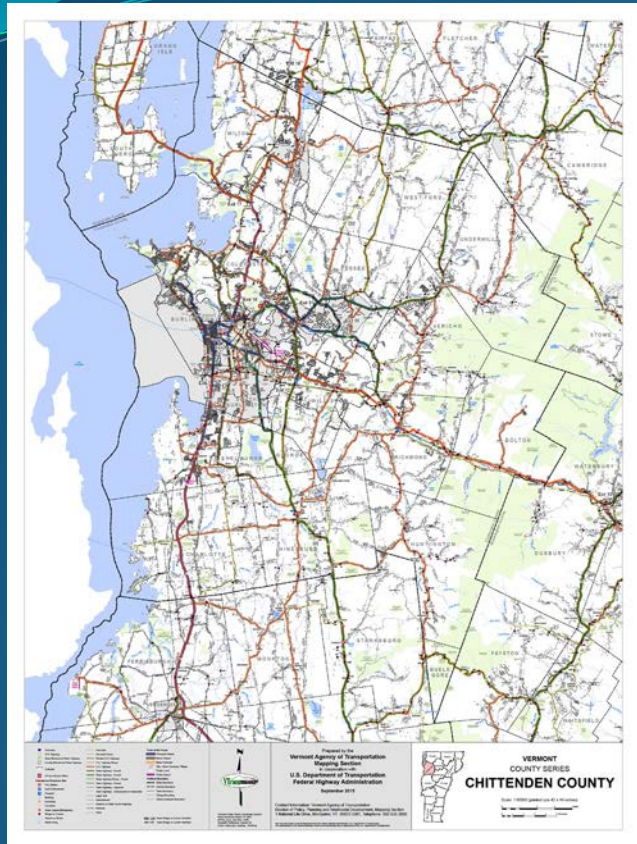

Route Logs – Straight Line Diagrams

The Section produces approximately 1600 Route Logs, which are straight line diagrams of the federal aid highway system, providing detail on geometrics, projects, AADT, crashes and other pertinent information.

Standard Map Production

Mapping produces a series of standard maps that are available on-line, including the Town & County Map Series, Federal Urban Area Maps, State Highway Map, District Map, and more.

Additional Mapping Related Projects

Mapping has worked on the statewide acquisition of lidar data, and is currently working on the statewide property parcel mapping project, development of intersection data for use in safety analysis, and support for VTrans projects.
