Surprenant of Barnard, Troiano of Stannard, White of Bethel,
and Yantachka of Charlotte

Referred to Committee on

Date:

Subject: Energy; climate change; housing; weatherization; labor; economic development

Statement of purpose of bill as introduced: This bill proposes to perform green housing retrofits of, and to install rooftop solar panels on, income-qualifying homes; to support an equitable transition to a zero-carbon building sector by 2040; to create high-quality union jobs and to prioritize the unionized workforce in conducting retrofits and workforce development programs; to
create a progressive funding structure for retrofits and to prioritize households
with annual incomes of less than $50,000.00; and to ensure that energy is
affordable for lower-income Vermont residents.

An act relating to performing green housing retrofits and installing rooftop
solar panels, supporting an equitable transition to a zero-carbon building
sector, creating high-quality union jobs and prioritizing the unionized
workforce for conducting retrofits and workforce development, creating a
progressive funding structure and prioritizing households with annual
incomes of less than $50,000.00, and ensuring that energy is affordable for
lower-income Vermont residents

It is hereby enacted by the General Assembly of the State of Vermont:
