Statement of purpose of bill as introduced: This bill proposes to allow the Secretary of Human Services to adopt emergency rules if new State or federal law or guidance requires the State to adopt or amend its rules regarding Medicaid or the Vermont Health Benefit Exchange in a time frame that cannot be accomplished using the regular rulemaking process. It would eliminate the duty of the Vermont Health Benefit Exchange to collect Exchange plan premium payments and would remove a visit limit for preventive dental services in the Medicaid program. The bill would allow the Director of Pharmacy Services for the Department of Vermont Health Access or designee, and a designee of the Department’s Medical Director, to query the Vermont Prescription Monitoring System. It would also consolidate the Department of Vermont Health Access’s prescription drug program reporting requirements, remove a requirement that the Department report proposed changes to the Medicaid preferred drug list or the Department’s drug utilization review
procedures to the General Assembly prior to implementation, and eliminate a
requirement that the Department submit proposed rules on its pharmaceutical
assistance programs to a legislative committee for review and advice.

An act relating to miscellaneous changes affecting the duties of the
