2 Introduced by Committee on Education

3 Date:

4 Subject: Education; school construction; funding

5 Statement of purpose of bill as introduced: This bill proposes to: (1) require
6 the Secretary of Education to update school facilities construction standards,
7 (2) require the State Board of Education to update and adopt the Capital Outlay
8 Formula in State Board Rule 6124.1, (3) direct the Secretary of Education to
9 hire an independent third party to conduct a school facilities conditions
10 assessment, (4) direct the Secretary of Education to submit a report on funding
11 school construction projects, (5) require school districts or supervisory unions
12 to designate a person responsible for facilities management, and (6) require
13 school districts to develop and maintain a capital improvement plan.

14 An act relating to addressing the needs and conditions of public school
15 facilities in the State

16 It is hereby enacted by the General Assembly of the State of Vermont:

17 Sec. 1. FINDINGS; INTENT

18 (a) The General Assembly finds that:

19 (1) In 2007 Acts and Resolves No. 52, Sec. 36, the General Assembly
20 suspended State aid for school construction in order to permit the Secretary of

1 Education and the Commissioner of Finance and Management to recommend a
2 sustainable plan for State aid for school construction.

3 (2) In 2008 Acts and Resolves No. 200, Sec. 45, as amended by 2009
4 Acts and Resolves No. 54, Sec. 22, the General Assembly, in the absence of a
5 recommendation, extended the suspension until a sustainable plan for State aid
6 for school construction is developed and adopted.

7 (3) Between Fiscal Years 2008 and 2016, the State honored its
8 obligation to repay the remaining outstanding obligations for projects for
9 which State aid had been committed prior to the suspension.

10 (b) The General Assembly also finds that:

11 (1) The State of Vermont is the only state in the Northeast that does not
12 have a school construction program.

13 (2) Between 2008 and 2019, school districts in Vermont issued
14 approximately \$211,000,000.00 in bonds for school construction projects. In
15 2020, there was an estimated \$445,000,000.00 in bonding planned and
16 proposed by school districts for future school construction projects statewide.

17 (c) The General Assembly also finds that the backlog in the State's school
18 construction projects has resulted in unsafe and unhealthy learning
19 environments and disparities in the quality of education, including between
20 wealthier communities and communities in need across the State.

1 (d) It is the intent of the General Assembly to develop a plan to address the
2 needs and conditions of the State's school buildings in order to create better
3 learning environments for Vermont's students and increase the equity in the
4 quality of education around the State.

6 CAPITAL OUTLAY FINANCING FORMULA; AGENCY OF
7 EDUCATION; STATE BOARD OF EDUCATION; UPDATE
