An act relating to addressing the needs and conditions of public school facilities in the State

It is hereby enacted by the General Assembly of the State of Vermont:

Sec. 1. FINDINGS; INTENT

(a) The General Assembly finds that:
(1) In 2007 Acts and Resolves No. 52, Sec. 36, the General Assembly suspended State aid for school construction in order to permit the Secretary of Education and the Commissioner of Finance and Management to recommend a sustainable plan for State aid for school construction.

(2) In 2008 Acts and Resolves No. 200, Sec. 45, as amended by 2009 Acts and Resolves No. 54, Sec. 22, the General Assembly, in the absence of a recommendation, extended the suspension until a sustainable plan for State aid for school construction is developed and adopted.

(3) Between Fiscal Years 2008 and 2016, the State honored its obligation to repay the remaining outstanding obligations for projects for which State aid had been committed prior to the suspension.

(b) The General Assembly also finds that:

(1) The State of Vermont is the only state in the Northeast that does not have a school construction program.

(2) Between 2008 and 2019, school districts in Vermont issued approximately $211,000,000.00 in bonds for school construction projects. In 2020, there was an estimated $445,000,000.00 in bonding planned and proposed by school districts for future school construction projects statewide.

(c) The General Assembly also finds that the backlog in the State's school construction projects has resulted in unsafe and unhealthy learning
environments and disparities in the quality of education, including between
wealthier communities and communities in need across the State.

(d) It is the intent of the General Assembly to develop a plan to address the
needs and conditions of the State’s school buildings in order to create better
learning environments for Vermont’s students and increase the equity in the
quality of education around the State.
