(5) for a remotely located individual located outside the United States:

   (B) the act of making the statement or signing the record is not prohibited by the foreign state in which the remotely located individual is located.

(c) A notary public shall not use communication technology to notarize:

   (1) a record related to the electoral process; or

   (2) a will, codicil, or document purporting to be a will or codicil.

(d) If a notarial act is performed under this section, the certificate of notarial act required by section 5367 of this title and the short-form certificate
provided in section 5368 of this title shall indicate that the notarial act was
performed using communication technology and identify the venue of the
notarial act as the county within this State where the notary public is physically
located while performing the notarial act.

(e) A short-form certificate provided in section 5368 of this title for a
notarial act subject to this section is sufficient if it:

(1) complies with rules adopted under section 5323 of this title; or
(2) is in the form provided in section 5368 of this title and contains a
statement substantially as follows: “This notarial act involved the use of
communication technology.”

(f) A notary public, a guardian, conservator, or agent of a notary public or a
personal representative of a deceased notary public shall retain the audiovisual
recording created under subdivision (b)(4) of this section or cause the

person required to retain the recording. The recording must be retained for a
period of at least 10 years after the recording is made.

(g) Before a notary public performs the notary public’s initial notarial act
under this section, the notary public must:

of a notarial act with respect to a remotely located individual, the Office must
consider:

   (1) the most recent standards regarding the performance of a notarial act
with respect to a remotely located individual promulgated by national
standard-setting organizations, such as the Mortgage Industry Standards and
Maintenance Organization, and the recommendations of the National
Association of Secretaries of State;

(2) standards, practices, and customs of other jurisdictions that have
laws substantially similar to this section; and

(3) the views of governmental officials and entities and other interested
persons.

(j) By allowing its communication technology or identity proofing to
facilitate a notarial act for a remotely located individual or by providing
storage of the audiovisual recording created under subdivision (b)(4) of this
section, the provider of the communication technology, identity proofing, or
storage appoints the Office as the provider’s agent for service of process in any
civil action in this State related to the notarial act.

(k) Unless and until the Secretary adopts rules setting standards that are
equally or more protective, the following minimum standards shall apply to
notarizations utilizing communication technology performed by a notary
public in this State:

(1) Use of identity proofing by means of dynamic knowledge-based
authentication which must have, at a minimum, the following security
characteristics:

(D) The remotely located individual must answer a minimum of 80 percent of the questions correctly.

(2) Use of credential analysis using one or more commercially available automated software or hardware processes that are consistent with sound commercial practices; that aid the notary public in verifying the authenticity of the credential by analyzing the integrity of visual, physical, or cryptographic security features to indicate that the credential is not fraudulent or inappropriately modified; and that use information held or published by the issuing source or authoritative source, as available, to confirm the validity of
credential details. The output of the credential analysis process must be provided to the notary public performing the notarial act.

(3) Use of audio-video communication technology in completing notarizations that must meet the following requirements:

(A) The signal transmission must be reasonably secure from interception, access, or viewing by anyone other than the participants communicating.

(B) The technology must provide sufficient audio clarity and video resolution to enable the notary to communicate with the remotely located individual and any witness and to confirm the identity of the remotely located individual and any witness, as required, using identity proofing.

(4) The communication technology is deemed to have satisfied tamper-evident technology requirements by use of technology that renders any subsequent change or modification to the electronic record evident.

(5) In addition to any coverage it elects to provide for individual notaries public, maintenance of errors and omissions insurance coverage by a communication technology service provider in a total amount of at least $250,000.00 in the annual aggregate with respect to potential errors or omissions in or relating to the technology or processes provided by the communication technology service provider. A notary public is not
responsible for the security of the systems used by the remotely located
individual or others to access the notarization session.

(l) Notwithstanding any provision of this chapter to the contrary, with
respect to any document executed in the course of closing a transaction
involving a mortgage or other conveyance of title to residential property, only
a notary public appointed pursuant to this chapter who is an attorney licensed
to practice law in this State or a nonattorney under the direct supervision of
such an attorney shall perform an acknowledgment, affirmation, or other
notarial act utilizing communication technology. The notarial certificate
affixed to any such document shall recite the Vermont Bar license number of
the Vermont attorney notary or of the supervising Vermont attorney in the
event that the document is notarized by a paralegal.

§ 5380. JOURNAL

(a) For all acknowledgements taken pursuant to section 5379 of this title, a
notary public shall maintain a journal in which the notary public chronicles all
notarial acts that the notary public performs pursuant to that section. The
notary public shall retain such journal for a period of at least 10 years.

(b) A journal may be created on a tangible medium or in an electronic
format. If the journal is maintained on a tangible medium, it must be a
permanent, bound register with numbered pages. If the journal is maintained
in an electronic format, it must be in a permanent, tamper-evident electronic

format complying with the rules of the Secretary of State.

(c) An entry in a journal must be made contemporaneously with

performance of the notarial act and contain the following information:

(1) the date and time of the notarial act;

(2) a description of the record, if any, and type of notarial act;

(3) the full name and address of each individual for whom the notarial

act is performed;

(4) a notation indicating whether the notarial act was conducted in

person or remotely;

(5) if identity of the individual is based on personal knowledge, a

statement to that effect;

description of the method of identification and the identification credential

presented, if any, including the date of issuance and expiration of any

identification credential; and

(7) the fee, if any, charged by the notary public.

(d) If a notary public’s journal is lost or stolen, the notary public promptly

shall notify the Secretary of State on discovering that the journal is lost or

stolen.
(e) On resignation from, or the revocation or suspension of, a notary public’s commission, the notary public shall retain the notary public’s journal in accordance with subsection (a) of this section and inform the Secretary of State where the journal is located.

(f) Instead of retaining a journal as provided in subsections (a) and (e) of this section, a current or former notary public may transmit the journal to the Secretary of State, or a repository approved by the Secretary of State.

(g) On the death or adjudication of incompetency of a current or former notary public, the notary public’s personal representative or guardian or any other person knowingly in possession of the journal shall transmit it to the Secretary of State or a repository approved by the Secretary of State.
