§ 3053. TELEHEALTH LICENSURE OR TELEHEALTH REGISTRATION
REQUIRED

(a) A health care professional who is not otherwise licensed, certified, or registered to practice in Vermont but is licensed, certified, or registered in good standing in all other U.S. jurisdictions in which the health care professional is or has been licensed, certified, or registered and who wishes to

provide health care services to a patient or client located in Vermont using telehealth shall obtain a telehealth license or telehealth registration from the Office or the Board in accordance with this chapter.

(b) A telehealth license or telehealth registration issued pursuant to this chapter shall authorize a health care professional to provide services to a patient or client located in Vermont using telehealth only. Telehealth licensure or telehealth registration does not authorize the health care professional to open an office in Vermont or to provide in-person health care services to patients or clients located in Vermont.

(c) A health care professional who is not otherwise licensed, certified, or registered to practice in Vermont and provides health care services in Vermont using telehealth without a telehealth registration or telehealth license, or provides services beyond the limitations of the telehealth registration or telehealth license, is engaged in unauthorized practice as defined in 3 V.S.A. § 127 and section 1314 of this title and is subject to the penalties set forth in those sections.

§ 3054. SCOPE OF TELEHEALTH LICENSE AND TELEHEALTH

REGISTRATION

(a) Telehealth license.

(1) A health care professional who is not otherwise licensed, certified, or registered to practice in Vermont may obtain a telehealth license to provide

health care services using telehealth to a total of not more than 20 unique patients or clients located in Vermont during the two-year license term.

(2) To be eligible to obtain a telehealth license under this chapter, a health care professional shall:

(A) complete an application in a format and with such content as prescribed by the Office or the Board;

(B) hold an active, unencumbered license, certificate, or registration in good standing in any other U.S. jurisdiction to practice the health care profession that the professional seeks to practice in Vermont using telehealth and provide verification of the license, registration, or certificate to the Office or the Board if required by the profession;

(C) if required by the rules adopted by the Office or the Board pursuant to section 3061 of this chapter, submit a copy of a mandatory disclosure that conforms to the requirements established by rule;

(D) if required by the rules adopted by the Office or the Board pursuant section 3061 of this chapter, provide documentation of professional liability coverage or financial responsibility that includes coverage or financial responsibility for services provided by telehealth to patients or clients not located in the health care professional's home state in an amount established by rule;

(E) provide any other information and documentation of qualifications required by the Office or the Board by rule; and

(F) pay the required telehealth licensure fee, which shall be 75 percent of the renewal fee for the profession as set forth in 3 V.S.A. § 125 or in the applicable chapter of this title.

(3) A health care professional may renew a telehealth license every two years upon application and payment of the required fee. A license that has expired shall be reinstated upon payment of the biennial renewal fee and the late renewal penalty, which shall be 75 percent of the late renewal penalty established in 3 V.S.A. § 127 or in section 1401a of this title, as applicable.

(b) Telehealth registration.

(1) A health care professional who is not otherwise licensed, certified, or registered to practice in Vermont may obtain a telehealth registration to provide health care services using telehealth:

(A) for a period of not more than 120 consecutive days from the date the registration was issued; and

(B) to a total of not more than 10 unique patients or clients over the 120-day period that the registration is in effect.

(2) To be eligible to obtain a telehealth registration under this chapter, a health care professional shall:

(A) complete an application in a format and with such content as prescribed by the Office or the Board;

(B) hold an active, unencumbered license, certificate, or registration in good standing in any other U.S. jurisdiction to practice the health care profession that the professional seeks to practice in Vermont using telehealth and provide verification of the license, registration, or certificate to the Office or the Board if required by the profession;

(C) if required by the rules adopted by the Office or the Board pursuant to section 3061 of this chapter, submit a copy of a mandatory disclosure that conforms to the requirements established by rule; and

(D) pay the required telehealth registration fee, which shall be the lesser of:

(i) 50 percent of the renewal fee for the profession as set forth in 3 V.S.A. § 125 or in the applicable chapter of this title; or

(ii) the application fee for a full license for the profession as set forth in 3 V.S.A. § 125 or in the applicable chapter of this title.

(3) A health care professional may only reactivate a telehealth registration once every three years. A telehealth registration shall not be renewed or reactivated upon expiration.

(c) Other license or registration. A health care professional seeking to provide health care services to a patient or client located in Vermont using

telehealth may register or apply for a full license to practice the profession in this State in accordance with the applicable provisions of this title. Nothing in this section shall be construed to prohibit a qualified health care professional from registering or obtaining a full license to practice in Vermont in accordance with relevant laws.

(d) Transition to licensure; fee credit.

(1) If a health care professional holding a telehealth registration issued pursuant to this chapter elects to apply for a telehealth license or a full license while the professional's telehealth registration is in effect or within three years following the effective date of the professional's telehealth registration, the amount of the fee paid by the health care professional for the telehealth registration pursuant to subdivision (b)(2)(D) of this section shall be credited and applied toward the amount of the relevant telehealth license under subdivision (a)(2)(F) of this section if the professional is seeking a telehealth license or the application fee for a full license for the profession as set forth in 3 V.S.A. § 125 or in the applicable chapter of this title.

(2) If a health care professional holding a telehealth license issued pursuant to this chapter elects to apply for a full license while the professional's telehealth license is in effect, the amount of the fee paid by the health care professional for the telehealth license pursuant to subdivision (a)(2)(F) of this section shall be credited and applied toward the amount of the

application fee for a full license for the profession as set forth in 3 V.S.A.

§ 125 or in the applicable chapter of this title.

§ 3055. SCOPE OF PRACTICE; STANDARD OF PRACTICE

(a) In order to be eligible for a telehealth license or telehealth registration under this chapter, a health care professional shall hold a license, certificate, or registration in another U.S. jurisdiction that authorizes the provider to engage in the same or a broader scope of practice as health care professionals in the same field are authorized to engage pursuant to a license, certificate, or registration issued in accordance with the relevant provisions of this title.

(b) While practicing in Vermont using telehealth, a health care professional holding a telehealth license or telehealth registration issued pursuant to this chapter shall:

(1) practice within the scope of practice established in this title for that profession; and

(2) practice in a manner consistent with the prevailing and acceptable professional standard of practice for a health care professional who is licensed, certified, or registered in Vermont to provide in-person health care services in that health care profession.

§ 3056. RECORDS

A health care professional holding a telehealth license or telehealth registration issued pursuant to this chapter shall document in a patient's or

client's medical record the health care services delivered using telehealth in accordance with the same standard used for in-person services and shall comply with the requirements of 18 V.S.A. §§ 9361 and 9362 to the extent applicable to the profession. Records, including video, audio, electronic, or other records generated as a result of delivering health care services using telehealth, are subject to all federal and Vermont laws regarding protected health information.

§ 3057. EFFECT OF DISCIPLINARY ACTION ON OUT-OF-STATE
LICENSE, CERTIFICATE, OR REGISTRATION

(a) A health care professional shall not obtain a telehealth license or telehealth registration under this chapter if the health care professional's license, certificate, or registration to provide health care services has been revoked or is subject to a pending disciplinary investigation or action in any other U.S. jurisdiction.

(b) A health care professional holding a telehealth license or telehealth registration under this chapter shall notify the Office or the Board, as applicable, within five business days following a disciplinary action that places a warning, reprimand, condition, restriction, suspension, or any other disciplinary action on the professional's license, certificate, or registration in any other U.S. jurisdiction or of any other disciplinary action taken or pending against the health care professional in any other U.S. jurisdiction.

§ 3058. JURISDICTION; APPLICATION OF VERMONT LAWS

A health care professional holding a telehealth license or telehealth registration in accordance with this chapter is subject to the laws and jurisdiction of the State of Vermont, including 18 V.S.A. §§ 9361 and 9362 and laws regarding prescribing, health information sharing, informed consent, supervision and collaboration requirements, and unprofessional conduct.

§ 3059. EXEMPTIONS FROM REGISTRATION AND LICENSURE REQUIREMENTS

A health care professional is not required to obtain a telehealth registration or licensure solely to provide consultation services to another health care professional regarding care for a patient or client located in Vermont, provided the consulting health care professional holds a license, certificate, or registration to practice the profession in one or more U.S. jurisdictions and the consultation is based on a review of records without in-person or remote contact between the consulting health care professional and the patient or client.

§ 3060. VENUE

Venue for a civil action initiated by the Office, the Board, or a patient or client who has received telehealth services in Vermont from an out-of-state health care professional holding a telehealth license or telehealth registration

by the Office, rules regarding any profession-specific requirements related to
telehealth licenses and telehealth registrations.
