PROGRAM*

(a) The purpose of the Critical Communications Infrastructure Program is to improve availability of commercial mobile wireless voice services (CMRS) in areas where those services are currently unavailable.

(b) The Department of Public Service, in cooperation with the Agency of Transportation, shall:

(1) Evaluate CMRS through a driving test of all federal aid highways.

(2) Prioritize road segments identified from the drive test as having no or low-quality voice service using traffic counts and the quantity of E-911 business and residential locations in proximity. In identifying priority road segments, the Department shall seek input on a draft set of priority road segments, including from State agencies and regional planning commissions and any other stakeholders that the Commissioner deems necessary.

~~(2) Retain an expert to identify search rings, defined as geographic areas in which towers could be deployed to provide mobile wireless service to the priority road segments. In developing the search rings, the expert shall consider the locations of existing tower sites and the optimal extension of existing coverage.~~

~~(c) The Department shall develop a program to competitively award grants to facilities-based carriers and tower operators that results in the deployment of new wireless facilities in areas identified for priority in accordance with subsection (b) of this section. In creating the program, the Department shall ensure that the funding is awarded in a manner that:~~

~~(1) ensures wireless voice coverage from national facilities-based CMRS carriers;~~

~~(2) provides coverage in unserved areas of all Vermont counties; and~~

~~(3) provides low-cost or free access to some facilities by Vermont public safety organizations.~~

(a) Findings. The General Assembly finds:

(1) In 2021 Acts and Resolves No. 74, Sec. G.700(c), the General Assembly authorized the Commissioner of Finance and Management to use not more than \$15,000,000.00 in American Rescue Plan Act (ARPA) funds to offset capital funds appropriated to projects supporting water and sewer infrastructure in fiscal year 2022 to the extent feasible under federal law and guidance.

(2) The Governor's fiscal year 2022–2023 capital budget adjustment

report included recommendations for water and sewer infrastructure projects historically funded in the State's capital construction act that could be funded in fiscal years 2022 and 2023 with ARPA funds.

(b) Intent. It is the intent of the General Assembly to authorize certain projects that are eligible for ARPA funds in this act but appropriate the funds for these projects in the FY 2023 Annual Appropriations Act.

(c) Authorizations. In fiscal years 2022 and 2023, the following capital projects are authorized to be undertaken with funds appropriated in the FY 2023 Annual Appropriations Act:

(1) In FY 2022 and FY 2023, the Department of Forests, Parks and Recreation is authorized to upgrade forestry access roads, recreation access roads, and make water quality improvements to these roads.

(2) In FY 2023, in addition to the amounts appropriated in Sec. 10(e) of this act, the Agency of Agriculture, Food and Markets is authorized to issue water quality grants and contracts.
