

1 S.74

2 Introduced by Senators McCormack, Clarkson, Lyons and Sirotkin

3 Referred to Committee on Health and Welfare

4 Date: February 9, 2021

5 Subject: Health; patient choice at end of life; immunity

6 Statement of purpose of bill as introduced: This bill proposes to eliminate a
7 requirement in Vermont's patient choice at end of life laws that both oral
8 requests required of the patient with a terminal condition for medication to be
9 self-administered to hasten the patient's death must have been made in the
10 physical presence of the physician to whom the patient made the request. It
11 would eliminate a requirement that the prescribing physician have conducted a
12 physical examination of the patient in order to determine that the patient was
13 suffering a terminal condition and a requirement that the physician must have
14 waited at least 48 hours after the occurrence of certain required events before
15 writing the prescription. The bill would also provide immunity for any person
16 who acts in good faith compliance with the provisions of Vermont's patient
17 choice at end of life laws.
