(F) The applicant provides staff training on Youth Mental Health First Aid and other evidence-based techniques and approaches to crisis prevention and intervention, such as trauma-responsive practices, adolescent brain development, and how to build a culture of connection.

(d) On or before January 15, 2025, the Agency, in collaboration with the Department, shall submit a report to the House Committees on Education and on Human Services and to the Senate Committees on Education and on Health and Welfare summarizing the programs to which grants were awarded and recommending a model for the integration of mental health and in-school and afterschool programming that provides consistency and reliability to children and youth, is fiscally sustainable, and does not create further workforce capacity challenges for afterschool organizations, schools, community technical education centers, the Agency, or the Department.
