Introduced by Committee on Government Operations

Date: March 9, 2022

Subject: Executive Branch; education; retirement; State Employees' Retirement System; State Teachers' Retirement System

Statement of purpose of bill as introduced: This bill proposes to make various amendments to pension benefits and other postemployment benefits for members of the Vermont State Employees' Retirement System and the Vermont State Teachers' Retirement System. This bill also changes the reporting dates for certain actuarial studies for the Vermont State Employees' Retirement System, the Vermont State Teachers' Retirement System, and the Vermont Municipal Employees' Retirement System.

An act relating to amending various public pension and other postemployment benefits

It is hereby enacted by the General Assembly of the State of Vermont:

~~Sec. 1. 32 V.S.A. § 311a is added to read:~~

~~§ 311a. PUBLIC RETIREMENT BENEFITS; UNFUNDED LIABILITY; FINDINGS; PURPOSE; INTENT~~

~~(a) Findings. The General Assembly finds that:~~

(1) The actuarially determined employer contribution (ADEC) for the Vermont State Employees' Retirement System (VSERS) has increased by an annual growth rate of 12.1 percent between FY 2009 and FY 2023, and the funded ratio of the VSERS has declined from 94.1 percent from FY 2008 to 67.6 percent by year-end FY 2021.

(2) The ADEC for the Vermont State Teachers' Retirement System (VSTRS) has increased by an annual growth rate of 13 percent between FY 2009 and FY 2023, and the funded ratio of the VSTRS has declined from 80.9 percent from FY 2008 to 52.9 percent by year-end FY 2021.

(3) The General Assembly has appropriated sufficient funds to fully pay the ADEC for both VSERS and VSTRS at the recommended amounts since FY 2007 and throughout the current amortization period.

(4) Since FY 2009, the accrued liabilities of VSERS and VSTRS have grown faster than the assets of each plan, resulting in a gap between the expected payout of future benefits and the assets VSERS and VSTRS have to pay out those benefits to retired State employees and teachers. This gap is also known as the unfunded liabilities for VSERS and VSTRS.

(5) In FY 2015, the General Assembly created the Retired Teachers' Health and Medical Benefits Fund, and health care premiums are paid for through a trust of the Fund on a pay-as-you go basis rather than from the Vermont Teachers' Retirement Fund.

(6) The FY 2022 State budget expense for retiree health care benefits, known as other postemployment benefits (OPEB), for State employees was approximately $37.2 million and $35.1 million for teachers.

(7) As of the beginning of FY 2022, the State's unfunded liabilities for health care benefits for retired State employees and teachers is $2.75 billion.

(b) Purpose. The purpose of this section is to provide economic stability for retired State employees and teachers by maintaining the financial health of VSERS and VSTRS, while also addressing the unfunded liabilities in the State's pension and OPEB plans and the decline in the funded ratios of those retirement systems.

(c) Intent.

(1) It is the intent of the General Assembly to address the unfunded liabilities and decline in funded ratios of VSERS and VSTRS by implementing several measures, including:

(A) continuing the General Assembly's policy since FY 2007 to fully fund the actuarially determined employer contributions rates for the VSERS and VSTRS at the amounts recommended to the General Assembly each year; and

(B) beginning in FY 2024 and ending in FY 2026, annually funding an additional payment to the actuarially recommended unfunded liability amortization payments for VSERS and for VSTRS that will increase to not more than $15,000,000.00 each year to each retirement system and, beginning in FY 2027 and thereafter, continuing this additional payment until the VSERS plan and the VSTRS plan respectively reach a 90 percent funded status.

(2) It is also the intent of the General Assembly to prefund other postemployment benefits to create more security and predictability in health care benefits for retired State employees and teachers.

The amounts so transferred on account of Group A members shall be allocated between regular and additional contributions. The amounts so allocated as regular contributions shall be determined as if the rate of contribution of four percent has been continuously in effect in the predecessor system from which such amounts were transferred and the balance of any amount so transferred on account of any Group A member shall be deemed additional contributions. In the case of Group C members who were members as of the date of establishment and Group D members, all contributions transferred from predecessor systems shall be deemed regular contributions. § 311a. PUBLIC RETIREMENT BENEFITS; UNFUNDED LIABILITY; FINDINGS; PURPOSE; INTENT

(a) Findings. The General Assembly finds that:

(1) The actuarially determined employer contribution (ADEC) for the Vermont State Employees' Retirement System (VSERS) has increased by an annual growth rate of 12.1 percent between FY 2009 and FY 2023, and the funded ratio of the VSERS has declined from 94.1 percent from FY 2008 to 67.6 percent by year-end FY 2021.

(2) The ADEC for the Vermont State Teachers' Retirement System (VSTRS) has increased by an annual growth rate of 13 percent between FY 2009 and FY 2023, and the funded ratio of the VSTRS has declined from 80.9 percent from FY 2008 to 52.9 percent by year-end FY 2021.

(3) The General Assembly has appropriated sufficient funds to fully pay the ADEC for both VSERS and VSTRS at the recommended amounts since FY 2007 and throughout the current amortization period.

(4) Since FY 2009, the accrued liabilities of VSERS and VSTRS have grown faster than the assets of each plan, resulting in a gap between the expected payout of future benefits and the assets VSERS and VSTRS have to pay out those benefits to retired State employees and teachers. This gap is also known as the unfunded liabilities for VSERS and VSTRS.

(5) In FY 2015, the General Assembly created the Retired Teachers' Health and Medical Benefits Fund, and health care premiums are paid for on a pay-as-you go basis from this Fund.

(6) The FY 2022 State budget expense for retiree healthcare benefits, known as other postemployment benefits (OPEB), for State employees was approximately $37.2 million and $35.1 million for teachers.

(7) As of the beginning of FY 2022, the State's unfunded liabilities for healthcare benefits for retired State employees and teachers is $2.75 billion.

(b) Purpose. The purpose of this section is to provide economic stability for retired State employees and teachers by maintaining the financial health of VSERS and VSTRS, while also addressing the unfunded liabilities in the State's pension and OPEB plans and the decline in the funded ratios of those retirement systems.

(c) Intent.

(1) It is the intent of the General Assembly to address the unfunded liabilities and decline in funded ratios of VSERS and VSTRS by implementing several measures, including:

(A) continuing the General Assembly's policy since FY 2007 to fully fund the actuarially determined employer contributions rates for the VSERS and VSTRS at the amounts recommended by the respective boards of each retirement system to the General Assembly each year; and

(B) beginning in FY 2024, annually funding an additional payment to the actuarially recommended unfunded liability amortization payments for VSERS and VSTRS that will increase to not more than $15,000,000.00 each year to each retirement system and remain until the VSERS plan and the VSTRS plan respectively reach a 90 percent funded ratio.

(2) It is also the intent of the General Assembly to prefund other postemployment benefits to create more security and predictability in health care benefits for retired State employees and teachers.

(3)(A) Nothing in this subdivision (3) shall be construed as a commitment by the General Assembly to enacting a specific level of future benefit enhancements that would require prefunding.

(B)(i) It is the intent of the General Assembly that VSTRS members who paid additional contributions in active service as part of a broader effort to improve the health of the retirement system should receive postretirement adjustment allowances that will more fully reflect the net percentage increase in the Consumer Price Index once the retirement system is in a healthier financial position.

(ii) The General Assembly recognizes that a discrepancy exists between members of other State retirement systems who receive postretirement adjustment allowances equal to 100 percent of the net percentage increase in the Consumer Price Index and VSTRS members who receive postretirement adjustment allowances equal to 50 percent of the net percentage increase.

(iii) It is the intent of the General Assembly that, once the VSTRS system is at least 80 percent funded, or in conjunction with proposed modifications to the unfunded liability amortization schedule or policy, then

should be consideration of establishing a path to incrementally increase the postretirement adjustment allowance formula to an ultimate goal of 100 percent of the net percentage increase in the Consumer Price Index to create parity amount retirement systems to the benefit of VSTRS Group C members who paid higher contribution rates in active service to help improve the health of the VSTRS system.

(iv) It is the intent of the General Assembly that, prior to enacting any statutory changes to the postretirement adjustment allowance formula, the General Assembly, in consultation with the Retirement Board and employee groups, should evaluate the impact of any proposed changes on the normal cost, unfunded actuarial accrued liability, funded ratio, and actuarially determined employer contribution.

(v) It is the intent of the General Assembly that the evaluation of any future changes to the postretirement adjustment allowance formula should also include developing a strategy for amortizing any anticipated growth in the unfunded actuarial accrued liability attributed to any potential increases in the formula.

(vi) It is the intent of the General Assembly that no future modifications should be made to the postretirement adjustment allowance formula if those changes are projected to result in the funded ratio of the retirement system decreasing below 80 percent funded on an actuarial value basis.

Sec. 5. 3 V.S.A. § 470 is amended to read:

§ 470. POSTRETIREMENT ADJUSTMENTS TO RETIREMENT ALLOWANCES

(a) ~~For Group A, Group C, and Group D members, as of June 30th in each year, commencing June 30, 1972, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent, in the ratio of the average of the Consumer Price Index for the month ending on that date to the average of said index for the month ending on June 30, 1971, or the month ending on June 30th of the most recent year subsequent thereto. In the event of an increase, and provided that the net increase following the application of any offset as provided in this subsection equals or exceeds one percent, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31st shall be increased by an equal percentage. Such increase shall commence on the January 1st immediately following such December 31st. Such percentage increase shall also be made in the retirement allowance payable to a beneficiary in receipt of an allowance under an optional election, provided the member on whose account the allowance is payable and such other person shall have received a total of at least 12 monthly payments by such December 31st. In the event of a decrease of the Consumer Price Index as of June 30th for the preceding year, the retirement allowance of a beneficiary shall not be subject to any adjustment on the next following January 1st, provided, however, that:~~

~~*(1) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index when such increase equals or exceeds one percent, up to the full amount of such increase; and*~~

~~*(2) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.*~~ *Postretirement adjustments to retirement allowance. On January 1 of each year, the retirement allowance of each beneficiary of the System who is in receipt of a retirement allowance and who meets the eligibility criteria set forth in this section shall be adjusted by the amount described in subsection (d) of this section. In no event shall a beneficiary receive a negative adjustment to the beneficiary's retirement allowance.*

(b) ~~*For Group F members, as of June 30th in each year, commencing January 1, 1991, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent of the Consumer Price Index for the preceding fiscal year. In the event of an increase, and provided that there exists a net increase following the application of any offset as provided in this subsection, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31st shall be increased by an amount equal to one-half of the net percentage increase. Commencing January 1, 2014, the retirement allowance of each beneficiary who was an active contributing member of the Group F plan on or after June 30, 2008, and who retires on or after July 1, 2008, shall be increased by an amount equal to the net percentage increase. The increase shall commence on the January 1st immediately following such December 31st. The increase shall apply to Group F members receiving an early retirement allowance only in the year following attainment of normal retirement age, provided the member has received benefits for at least 12 months as of December 31st of the year preceding any January adjustment. In the event of a decrease of the Consumer Price Index as of June 30th for the preceding year, the retirement allowance of a beneficiary shall not be subject to any adjustment on the next following January 1st; provided, however, that:*~~

~~*(1) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index, up to the full amount of such increase; and*~~

~~(2) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.~~ *Calculation of Net Percentage Increase.*

(1) Consumer Price Index; maximum and minimum amounts. Prior to October 1 of each year, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent, in the Consumer Price Index for the month ending on June 30 of that year to the average of said index for the month ending on June 30 of the previous year. Any increase or decrease in the Consumer Price Index shall be subject to adjustment so as to remain within the following maximum and minimum amounts:

(A) For Group A members, the maximum amount of any increase or decrease used to determine the net percentage increase shall be five percent.

(B) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.

(3) Consumer Price Index; increases. In the event of an increase in the Consumer Price Index, and provided there remains an increase following the application of any offset as in subdivision (2) of this subsection, that amount shall be identified as the net percentage increase and used to determine the members' postretirement adjustment as described herein.

(c) ~~*For purposes of subsection (a) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent. For purposes of subsection (b) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent, and any increase or decrease of less than one percent shall be assigned a value of one percent.*~~ *Eligibility for postretirement adjustment. (3) Special rule for Group F early retirement. § 473. FUNDS

(a) Assets. All of the assets of the Retirement System shall be credited to the Vermont State Retirement Fund.

(b) Member contributions.

(1)(A) Allocations. Contributions deducted from the compensation of members together with any member contributions transferred thereto from the predecessor systems shall be accumulated in the Fund and separately recorded for each member. The amounts so transferred on account of Group A members shall be allocated between regular and additional contributions. The amounts so allocated as regular contributions shall be determined as if the rate of contribution of four percent has been continuously in effect in the predecessor system from which such amounts were transferred and the balance of any amount so transferred on account of any Group A member shall be deemed additional contributions. In the case of Group C members who were members as of the date of establishment and Group D members, all contributions transferred from predecessor systems shall be deemed regular contributions. Those members who, prior to the date of establishment of this system, had been contributing at a rate less than four percent shall have any benefit otherwise payable on their behalf actuarially reduced to reflect such prior contribution rate of less than four percent. Upon a member's retirement or other withdrawal from service on the basis of which a retirement allowance is payable, the member's additional contributions, with interest thereon, shall be paid as an additional allowance equal to an annuity which is the actuarial equivalent of such amount, in the same manner as the benefit otherwise payable under the System.

(B) Periodic review. When the State Employees' Retirement System has been determined by the actuary to have assets at least equal to its accrued liability, contribution rates will be reevaluated by the actuary with a subsequent recommendation to the General Assembly. In determining the amount earnable by a member in a payroll period, the Retirement Board may consider the annual or other periodic rate of earnable compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deduction from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period, and to facilitate the making of deductions it may modify the deduction required of any member by such an amount as, on an annual basis, shall not exceed one-tenth of one percent of the annual earnable compensation upon the basis of which such deduction is to be made. Each of the amounts shall be deducted until the member retires or otherwise withdraws from service, and when deducted shall be paid into the Annuity Savings Fund, and shall be credited to the individual account of the member from whose compensation the deduction was made.

(2)(A) Group A members. Commencing on July 1, 2016, contributions shall be 6.55 percent of compensation for Group A~~, D, and F~~ members ~~and~~ ~~8.43 percent of compensation for Group C members. When the State~~

~~*Employees' Retirement System has been determined by the actuary to have assets at least equal to its accrued liability, contribution rates will be reevaluated by the actuary with a subsequent recommendation to the General Assembly. In determining the amount earnable by a member in a payroll period, the Retirement Board may consider the annual or other periodic rate of earnable compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deduction from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period, and to facilitate the making of deductions it may modify the deduction required of any member by such an amount as, on an annual basis, shall not exceed one-tenth of one percent of the annual earnable compensation upon the basis of which such deduction is to be made. Each of the amounts shall be deducted until the member retires or otherwise withdraws from service, and when deducted shall be paid into the Annuity Savings Fund, and shall be credited to the individual account of the member from whose compensation the deduction was made.*~~

(B) Group C members.

(i) Commencing the first full pay period in fiscal year 2023, the contribution rate for Group C members shall be 9.03 percent of compensation;

(ii) Commencing the first full pay period in fiscal year 2024, the contribution rate for Group C members shall be 9.53 percent of compensation.

(iii) Commencing the first full pay period in fiscal year 2025 and annually thereafter, the contribution rate for Group C members shall be 10.03 percent of compensation.

(C) Group D members. Commencing on July 1, 2022, the contribution rate for Group D members shall be based on the quartile in which a member's hourly rate of pay falls. Quartiles shall be determined annually in the first full pay period of each fiscal year by the Department of Human Resources based on the hourly rate of pay by all Group D members. The contribution rates shall be based on the schedule set forth below:

(i) Based on the quartiles for the first full pay period of each fiscal year and effective the first full pay period in that fiscal year, for members who have an hourly rate of pay in any pay period, below the 25th percentile of Group D member hourly rates of pay, the contribution rate shall be 6.65 percent of compensation.

~~*(ii) Based on the quartiles for the first full pay period of each fiscal year and effective the first full pay period in that fiscal year, for members who have an hourly rate of pay in any pay period at the 25th percentile and below the 50th percentile of Group D member hourly rates of pay, the contribution rate shall be as follows:*~~

~~*(I) commencing in fiscal year 2023, 7.15 percent of compensation;*~~

~~*(II) commencing in fiscal year 2024, 7.65 percent of compensation; and*~~

~~*(iii) Based on the quartiles for the first full pay period of each fiscal year and effective the first full pay period in that fiscal year, for members who have an hourly rate of pay in any pay period at the 50th percentile and below the 75th percentile of Group D member hourly rates of pay, the contribution rate shall be as follows:*~~

~~*(I) commencing in fiscal year 2023, 7.15 percent of compensation;*~~

~~*(II) commencing in fiscal year 2024, 7.65 percent of compensation;*~~

Sec. 11a. 16 V.S.A. § 1949a is added to read:

§ 1949a. POSTRETIREMENT ADJUSTMENT ALLOWANCE FUND

(a) Intent. It is the intent of the General Assembly to recognize members who are in active service on or before June 30, 2022 and made contributions for the duration of fiscal year 2023 and members who are in active service on or after July 1, 2022 and made contributions for at least one year, as part of a broader effort to improve the health of the System. As an acknowledgment of these additional contributions, once the System is in a healthier financial position, it is the intent of the General Assembly that these members should receive postretirement adjustment allowances that will more fully reflect the net percentage increase in the Consumer Price Index. It is also the intent of the General Assembly that the postretirement adjustment allowance formula should be incrementally increased to 100 percent of the net percentage increase in the Consumer Price Index, but that no increase should occur to the formula unless the funded ratio of the System is at least 80 percent funded on an actuarial value basis.

(b) Creation. There is established the Postretirement Adjustment Allowance Fund, to be administered by the Board, to provide postretirement adjustment increases or other benefits that may accrue to eligible members, pursuant to the requirements of subsection (d) of this section.

(c) Funds. The Fund shall consist of:

(1) any amounts transferred to it from the General Fund Balance Reserve established in 32 V.S.A. § 308c; and

(2) any amounts transferred or appropriated to it by the General Assembly.

(d) Use of funds. In any fiscal year, the Board may recommend the monies in the Fund to provide for postretirement adjustment increases or other benefits that may accrue to eligible members in the System, provided that:

(1) an evaluation is conducted pursuant to section 1949b of this chapter;

(2) the actuary certifies that the System has a funded ratio of at least 80 percent;

(3) the Fund has sufficient assets to pay for the present value of any benefit being provided; and

(4) the General Assembly approves of any increase or benefit change.

(e) Fund administration.

(1) The Board may invest monies in the Fund in accordance with the provisions of 32 V.S.A. § 434 or, in the alternative, may enter into an agreement with the Vermont Pension Investment Committee to invest such monies in accordance with the standards of care established by the prudent investor rule under 14A V.S.A. § 902, in a manner similar to the Committee's investment of retirement system monies. Interest earned shall remain in the Fund, and all balances remaining at the end of a fiscal year shall be carried over to the following year. The Board's annual financial report to the Governor and the General Assembly shall contain an accounting of receipts, disbursements, and earnings of the Fund.

(2) Contributions to the Fund shall be irrevocable and it shall be impossible at any time prior to the satisfaction of all liabilities, with respect to members and their beneficiaries, for any part of the corpus or income of the Fund to be used for, or diverted to, purposes other than the payment of postretirement adjustment increases and other benefits that may accrue to members and their beneficiaries and reasonable expenses of administering the Fund.

(f) Definition. As used in this section, "eligible member" means:

(1) a member of the System who is in active service on or before June 30, 2022 and made contributions for the duration of fiscal year 2023; or

(2) a member of the System who is in active service on or after July 1, 2022 and made contributions for at least one year.

Sec. 11b. 16 V.S.A. § 1949b is added to read:

§ 1949b. POSTRETIREMENT ADJUSTMENT TO RETIREMENT ALLOWANCE; FORMULA; EVALUATION

(a) On or before September 1, 2027 and every three years thereafter, or at the request of the Board in conjunction with any proposed changes to the amortization schedule, the Board shall consider the intent set forth in subsection 1949a(a) of this chapter and evaluate whether to modify the postretirement adjustment formula or any other benefit that may accrue to the members of the System who are in active service on or before June 30, 2022

and made contributions for the duration of fiscal year 2023 and members in active service on or after July 1, 2022 and made contributions for at least one year. The evaluation shall only include a proposed benefit change if the Postretirement Adjustment Allowance Fund has sufficient assets to pay for the present value of that benefit.

(b) On or before January 15, 2028 and every three years thereafter, or following a request for an evaluation by the Board, the Board shall submit a report to the House and Senate Committees on Government Operations with the results of the evaluation described in subsection (a) of this section.

Sec. 12. 16 V.S.A. § 1949 is amended to read:

§ 1949. POSTRETIREMENT ADJUSTMENTS TO RETIREMENT ALLOWANCES

(a) ~~For all Group A members, as of June 30 in each year, beginning June 30, 1972, the Board shall determine any increase or decrease, to the nearest one-tenth of one percent, in the ratio of the average of the Consumer Price Index for the month ending on that date to the average of the Index for the month ending on June 30, 1971, or the month ending on June 30 of the most recent year thereafter. In the event of an increase, and provided that the net increase following the application of any offset as provided in this subsection equals or exceeds one percent, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31 shall be increased by an equal percentage. Such increase shall begin on the January 1 immediately following that December 31. An equivalent percentage increase shall also be made in the retirement allowance payable to a beneficiary in receipt of an allowance under an optional election, provided the member on whose account the allowance is payable and such other person shall have received a total of at least 12 monthly payments by such December 31. In the event of a decrease of the Consumer Price Index as of June 30 for the preceding year, the retirement allowance of a beneficiary shall not be subject to any adjustment on the next following January 1; provided, however, that:~~

~~(1) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index when such increase equals or exceeds one percent, up to the full amount of such increase; and~~

~~(2) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.~~ Postretirement Adjustments to Retirement allowance. On January 1 of each year, the retirement allowance of

such beneficiary of the System who is in receipt of a retirement allowance for at least a one-year period as of December 31 in the previous year, and who meets the eligibility criteria set forth in this section, shall be adjusted by the amount described in subsection (b) of this section. In no event shall a beneficiary receive a negative adjustment to the beneficiary's retirement allowance.

(b) ~~*For Group C members, as of June 30 in each year, commencing June 30, 1981, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent of the Consumer Price Index for the preceding fiscal year. In the event of an increase, and provided that there exists a net increase following the application of any offset as provided in this subsection, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31 shall be increased by an amount equal to one-half of the net percentage increase. The increase shall commence on the January 1 immediately following that December 31. (B) For Group C members who are eligible for retirement and leave active service on or after July 1, 2022, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be four percent.

(2) Consumer Price Index; decreases. In the event of a decrease of the Consumer Price Index as of June 30 for the preceding year, there shall be no adjustment to the retirement allowance of a beneficiary for the subsequent year beginning January 1; provided, however, that:

(A) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index up to the full amount of such increase; and

(B) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.

(3) Consumer Price Index; increases. Subject to the maximum and minimum amounts set forth in subdivision (1) of this subsection, in the event of an increase in the Consumer Price Index, and provided there remains an increase following the application of any offset as in subdivision (2) of this subsection, that amount shall be identified as the net percentage increase and used to determine the members' postretirement adjustment as set forth in subsection (d) of this section.

(c) ~~*For purposes of subsection (a) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent. For purposes of subsection (b) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent, and any increase or decrease less than one percent shall be assigned a value of one percent.*~~ *Eligibility for postretirement adjustment. Sec. 1. 32 V.S.A. § 311a is added to read:

§ 311a. PUBLIC RETIREMENT BENEFITS; UNFUNDED LIABILITY; FINDINGS; PURPOSE; INTENT

(a) Findings. The General Assembly finds:

(1) The actuarially determined employer contribution (ADEC) for the Vermont State Employees' Retirement System (VSERS) has increased by an annual growth rate of 12.1 percent between FY 2009 and FY 2023, and the funded ratio of the VSERS has declined from 94.1 percent from FY 2008 to 67.6 percent by year-end FY 2021.

(2) The ADEC for the Vermont State Teachers' Retirement System (VSTRS) has increased by an annual growth rate of 13 percent between FY 2009 and FY 2023, and the funded ratio of the VSTRS has declined from 80.9 percent from FY 2008 to 52.9 percent by year-end FY 2021.

(3) The General Assembly has appropriated sufficient funds to fully pay the ADEC for both VSERS and VSTRS at the recommended amounts since FY 2007 and throughout the current amortization period.

(4) Since FY 2009, the accrued liabilities of VSERS and VSTRS have grown faster than the assets of each plan, resulting in a gap between the expected payout of future benefits and the assets VSERS and VSTRS have to pay out those benefits to retired State employees and teachers. This gap is also known as the unfunded liabilities for VSERS and VSTRS.

(5) In FY 2015, the General Assembly created the Retired Teachers' Health and Medical Benefits Fund, and health care premiums are paid for on a pay-as-you-go basis from this Fund.

(6) The FY 2022 State budget expense for retiree health care benefits, known as other postemployment benefits (OPEB), for State employees was approximately $37.2 million and $35.1 million for teachers.

(7) As of the beginning of FY 2022, the State's unfunded liabilities for health care benefits for retired State employees and teachers is $2.75 billion.

(b) Purpose. The purpose of this section is to provide economic stability for retired State employees and teachers by maintaining the financial health of VSERS and VSTRS, while also addressing the unfunded liabilities in the State's pension and OPEB plans and the decline in the funded ratios of those retirement systems.

(c) Intent.

(1) It is the intent of the General Assembly to address the unfunded liabilities and decline in funded ratios of VSERS and VSTRS by implementing several measures, including:

(A) continuing the General Assembly's policy since FY 2007 to fully fund the actuarially determined employer contributions rates for the VSERS and VSTRS at the amounts recommended by the respective boards of each retirement system to the General Assembly each year; and

(B) beginning in FY 2024, annually funding an additional payment to the actuarially recommended unfunded liability amortization payments for VSERS and VSTRS that will increase to not more than $15,000,000.00 each year to each retirement system and remain until the VSERS plan and the VSTRS plan respectively reach a 90 percent funded ratio.

(2) It is also the intent of the General Assembly to prefund other postemployment benefits to create more security and predictability in health care benefits for retired State employees and teachers.

If the member's highest three years of earnable compensation are the three years prior to separation of service and the member separates prior to the end of a fiscal year, average final compensation shall be determined by adding:

The average final compensation for a State's Attorney and the Defender General shall be determined by the State's

Attorney's or the Defender General's highest annual compensation earned during ~~his or her~~ the member's creditable service.

(D) For purposes of determining average final compensation for a member who has accrued service in more than one group plan within the System, the highest consecutive years of earnings shall be based on the formulas set forth in subdivision (A) or (B) of this subdivision (4) using the earnable compensation received while a member of the System.

(E) For Group A, C, ~~or~~ F, or G members who retire on or after July 1, 2012, an increase in compensable hours in any year used to calculate average final compensation that exceeds 120 percent of average compensable hours shall be excluded from that year when calculating average final compensation.

(iii) Who retires on or after July 1, 2022 and who does not meet the requirements set forth in subdivisions (i) and (ii) of this subdivision (F), the average annual earnable compensation of a member during the two consecutive fiscal years beginning on July 1 and ending on June 30 of creditable service affording the highest such average, or during all of the years in the member's creditable service if fewer than two years. If the member separates prior to the end of a fiscal year, average final compensation shall be determined by adding:

(I) The actual earnable compensation earned in the fiscal year of separation through the date of separation and the service credit to correspond with the last pay date.

(II) The earnable compensation and service credit earned in the preceding fiscal year.

(III) The remaining service credit that is needed to complete the two full years, which shall be factored from the fiscal year preceding the fiscal year described in subdivision (II) of this subdivision (F)(iii). The earnable compensation associated with this remaining service credit shall be

calculated by multiplying the annual earnable compensation reported by the remaining service credit that is needed.

(a) The Secretary of Digital Services and the State Treasurer, in consultation with the Vermont Association of School Business Officers, the Vermont Superintendents Association, and the Vermont-NEA, shall study and make recommendations on the implementation of the marginal rates set forth in 16 V.S.A. § 1944(b)(2)(B)(iii) in FY 2025 and annually thereafter, including whether any adjustments need to be made to the marginal rate structure.

(b) On or before January 15, 2023, the Secretary of Digital Services and the State Treasurer shall submit a report on the study and recommendations described in subsection (a) of this section to the Joint Pension Oversight Committee and the House and Senate Committees on Appropriations and on Government Operations.

Sec. 21. 16 V.S.A. § 1949a is added to read:

§ 1949a. POSTRETIREMENT ADJUSTMENT ALLOWANCE ACCOUNT

(a) Intent. It is the intent of the General Assembly to recognize members who are in active service on or before June 30, 2022 and made contributions for the duration of fiscal year 2023 and members who are in active service on or after July 1, 2022 and made contributions for at least one year, as part of a broader effort to improve the health of the System. As an acknowledgment of these additional contributions, once the System is in a healthier financial position, it is the intent of the General Assembly that these members should receive postretirement adjustment allowances that will more fully reflect the net percentage increase in the Consumer Price Index. It is also the intent of the General Assembly that the postretirement adjustment allowance formula should be incrementally increased to 100 percent of the net percentage increase in the Consumer Price Index, but that no increase should occur to the formula unless the funded ratio of the System is at least 80 percent funded on an actuarial value basis and the accumulated assets of the Account are equal to or exceed the present value of the benefits to accrue to members.

(b) Creation. There is established the Postretirement Adjustment Allowance Account, to be maintained under the Retirement System, which shall be used to provide funding for postretirement adjustment formula enhancements or other benefits that may accrue to eligible members pursuant to the requirements of subsection (d) of this section.

(c) Funds. The Account shall consist of:

(1) any amounts transferred to it from the General Fund Balance Reserve established in 32 V.S.A. § 308c;

(2) any amounts transferred or appropriated to it by the General Assembly; and

(3) interest earned pursuant to subsection (d) of this section.

(d) Account administration. The Postretirement Adjustment Allowance Account shall be subordinate to the retirement benefits provided by the Retirement System. Contributions to the Account shall be irrevocable, and it shall be impossible at any time before satisfaction of all liabilities to provide funding for postretirement adjustment formula enhancements or other benefits that may accrue to eligible members for any part of the corpus or income of the Account to be used for, or diverted to, any purpose other than providing funding for postretirement adjustment formula enhancements or other benefits that may accrue to eligible members. All balances in the Account at the end of the fiscal year shall be carried forward, and interest earned shall remain in the Account.

(e) Recommendation of Board. In any fiscal year, the Board may recommend to the General Assembly that the monies in the Account be used to provide for postretirement adjustment formula enhancements or other benefits that may accrue to eligible members in the System, provided that:

(1) an evaluation has been conducted pursuant to section 1949b of this chapter;

(2) the actuary has certified that the System has a funded ratio of at least 80 percent in the most recent fiscal year; and

(3) the actuary has certified that the Account has sufficient assets to pay for the present value of any benefit being recommended.

(f) Use of funds. In the event that the General Assembly approves of the Board's recommended postretirement adjustment formula enhancements or other benefit change pursuant to subsection (e) of this section, the Board may direct that funds sufficient to pay the present value of change be charged from the Account for that purpose.

(g) Account charges. In no event shall the funds charged from the Account exceed the outstanding Account balance.

(h) Account assets.

(1) For funding purposes, any asset value utilized in the calculation of the actuarial value of assets of a system shall exclude the Account as of the asset determination date for such calculation.

(2) For all purposes other than funding, the funds in the Account shall be considered assets of the System.

(i) Definition. As used in this section, "eligible member" means:

(1) a member of the System who is in active service on or before June 30, 2022 and made contributions for the duration of fiscal year 2023; or

(2) a member of the System who is in active service on or after July 1, 2022 and made contributions for at least one year.

Sec. 22. 16 V.S.A. § 1949b is added to read:

§ 1949b. POSTRETIREMENT ADJUSTMENT TO RETIREMENT ALLOWANCE; FORMULA; EVALUATION

(a) On or before September 1, 2027 and every three years thereafter, or at the request of the Board in conjunction with any proposed changes to the amortization schedule, the Board shall consider the intent set forth in subsection 1949a(a) of this chapter and evaluate whether to modify the postretirement adjustment formula or any other benefit that may accrue to the *members of the System who are in active service on or before June 30, 2022 and made contributions for the duration of fiscal year 2023 and members in active service on or after July 1, 2022 and made contributions for at least one year. The evaluation shall only include a proposed benefit change if the Postretirement Adjustment Allowance Fund has sufficient assets to pay for the present value of that benefit.*

(b) On or before January 15, 2028 and every three years thereafter, or following a request for an evaluation by the Board, the Board shall submit a report to the House and Senate Committees on Government Operations with the results of the evaluation described in subsection (a) of this section.

Sec. 23. 16 V.S.A. § 1949 is amended to read:

§ 1949. POSTRETIREMENT ADJUSTMENTS TO RETIREMENT ALLOWANCES

(a) ~~For all Group A members, as of June 30 in each year, beginning June 30, 1972, the Board shall determine any increase or decrease, to the nearest one-tenth of one percent, in the ratio of the average of the Consumer Price Index for the month ending on that date to the average of the Index for the month ending on June 30, 1971, or the month ending on June 30 of the most recent year thereafter. In the event of an increase, and provided that the net increase following the application of any offset as provided in this subsection equals or exceeds one percent, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31 shall be increased by an equal percentage. Such increase shall begin on the January 1 immediately following that December 31. An equivalent percentage increase shall also be made in the retirement allowance payable to a beneficiary in receipt of an allowance under an optional election, provided the member on whose account the allowance is payable and such other person shall have received a total of at least 12 monthly payments by such December 31. In the event of a decrease of the Consumer Price Index as of June 30 for the preceding year, the retirement allowance of a beneficiary shall not be subject to any adjustment on the next following January 1; provided, however, that:~~

~~(1) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index when such increase equals or exceeds one percent, up to the full amount of such increase; and~~

~~(2) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.~~ Postretirement Adjustments to

Retirement allowance. On January 1 of each year, the retirement allowance of each beneficiary of the System who is in receipt of a retirement allowance for at least a one-year period as of December 31 in the previous year, and who meets the eligibility criteria set forth in this section, shall be adjusted by the amount described in subsection (b) of this section. In no event shall a beneficiary receive a negative adjustment to the beneficiary's retirement allowance.

(b) ~~For Group C members, as of June 30 in each year, commencing June 30, 1981, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent of the Consumer Price Index for the preceding fiscal year. In the event of an increase, and provided that there exists a net increase following the application of any offset as provided in this subsection, the retirement allowance of each beneficiary in receipt of an allowance for at least one year on the next following December 31 shall be increased by an amount equal to one-half of the net percentage increase. The increase shall commence on the January 1 immediately following that December 31. The increase shall apply to Group C members having attained 57 years of age or completed at least 25 years of creditable service as of June 30, 2010, and receiving an early retirement allowance only in the year following attainment of age 62, and shall apply to Group C members not having attained 57 years of age or having completed at least 25 years of creditable service as of June 30, 2010, and receiving an early retirement allowance only in the year following the member's attainment of 65 years of age, provided the member has received benefits for at least 12 months as of December 31 of the year preceding any January adjustment. In the event of a decrease of the Consumer Price Index as of June 30 for the preceding year, the retirement allowance of a beneficiary shall not be subject to any adjustment on the next following January 1; provided, however, that:~~

~~(1) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index, up to the full amount of such increase; and~~

~~(2) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.~~ Calculation of Net Percentage Increase. Each year, a determination shall be made of any increase or decrease, to the nearest one-tenth of a percent, in the Consumer Price Index for the month ending on June 30 of that year to the average of the Consumer Price Index for the month ending on June 30 of the previous year.

(1) Consumer Price Index; maximum and minimum amounts. Any increase or decrease in the Consumer Price Index shall be subject to adjustment so as to remain within the following maximum and minimum amounts:

(A) For Group A members and Group C members who are eligible for normal retirement or unreduced early retirement on or before June 30, 2022, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent.

(B) For Group C members who are eligible for retirement and leave active service on or after July 1, 2022, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be four percent.

(2) Consumer Price Index; decreases. In the event of a decrease of the Consumer Price Index as of June 30 for the preceding year, there shall be no adjustment to the retirement allowance of a beneficiary for the subsequent year beginning January 1; provided, however, that:

(A) such decrease shall be applied as an offset against the first subsequent year's increase of the Consumer Price Index up to the full amount of such increase; and

(B) to the extent that such decrease is greater than such subsequent year's increase, such decrease shall be offset in the same manner against two or more years of such increases, for up to but not exceeding five subsequent years of such increases, until fully offset.

(3) Consumer Price Index; increases. Subject to the maximum and minimum amounts set forth in subdivision (1) of this subsection, in the event of an increase in the Consumer Price Index, and provided there remains an increase following the application of any offset as in subdivision (2) of this subsection, that amount shall be identified as the net percentage increase and used to determine the members' postretirement adjustment as set forth in subsection (d) of this section.

(c) ~~For purposes of subsection (a) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent. For purposes of subsection (b) of this section, the maximum amount of any increase or decrease utilized to determine the net percentage increase shall be five percent, and any increase or decrease less than one percent shall be assigned a value of one percent.~~ Eligibility for postretirement adjustment. In order for a beneficiary to receive a postretirement adjustment allowance, the beneficiary must meet the following eligibility requirements:

(1) for any Group A or Group C member eligible for retirement on or before June 30, 2022, the member must be in receipt of a retirement allowance for at least 12 months prior to the January 1 effective date of any postretirement adjustment; and

(2) for any Group C member who is eligible for retirement and leaves active service on or after July 1, 2022, the member must be in receipt of a retirement allowance for at least 24 months prior to the January 1 effective date of any postretirement adjustment.

(d) As used in this section, "Consumer Price Index" shall mean the Northeast Region Consumer Price Index for all urban consumers, designated as "CPI-U," in the northeast region, as published by the U.S. Department of Labor, Bureau of Labor Statistics.
