Subchapter 4. Surface Water Withdrawals and Interbasin Transfers

§ 1041. POLICY ON SURFACE WATER WITHDRAWALS FOR
OFF-STREAM USES OTHER THAN SNOWMAKING

(a) This subchapter is intended to establish policy and standards for surface water withdrawals that are consistent with section 1001 of this chapter and chapter 47 of this title, including the Vermont Water Quality Standards.

(b) The policy established under this subchapter is to:

(1) assure the protection, maintenance, and restoration of the chemical, physical, and biological water quality, including water quantity, necessary to sustain aquatic communities and stream function;

(2) help to provide for and enhance the viability of those sectors and industries that rely on the use of surface waters and are important to Vermont's economy;

(3) permit surface water withdrawals and the construction of appurtenant facilities and related systems for uses other than snowmaking, based on an analysis of the need for water and the consideration of alternatives and consistent with this and related policies and other applicable laws and rules; and

(4) recognize that existing users of the State's waters for off-stream uses that may have an adverse effect on water quality should have time and opportunity to improve water quality.

§ 1042. REGISTRATION AND REPORTING; EXCEPTIONS

(a) Registration. Beginning on January 1, 2023, any person withdrawing 10,000 gallons or more of surface water within a 24-hour period or 150,000 gallons or more of surface water over any 30-day period shall register with the Secretary:

(3) require efficient use and conservation of surface water;

(4) ensure that withdrawals comply with the Vermont water quality standards;

(5) establish limitations on withdrawals based on low flow or drought conditions and the development of potential alternatives to meet surface water withdrawal needs in such cases; and

(6) require assessment of any reasonable and feasible alternatives to proposed withdrawals that may have less of an impact on surface water quality.

(b) Application. Application for a permit to withdraw surface water under the program established under subsection (a) of this section shall be made on a form provided by the Secretary, and shall include the following information:

If the Secretary determines that the proposed activity is consistent with those rules, the Secretary shall issue a permit required by section 1043 of this section for that activity.

(g) Enforcement.

(1) The Secretary may require a person to obtain a permit under this subchapter when the Secretary, in the Secretary's discretion, determines that a withdrawal or other action circumvents the requirements of this subchapter.

(2) If the Secretary finds that a withdrawal subject to this subchapter results in the construction, installation, operation, or maintenance of any facility or condition that results in or can reasonably be expected to result in a violation of the Vermont Water Quality Standards, the Secretary may issue an order establishing reasonable and proper methods and procedures for the control of that activity in order to reduce or eliminate the violation.

(h) Reservation. Nothing in this subchapter shall be interpreted to supersede, limit, or otherwise effect the Secretary's authority to take action pursuant to section 1272 of this title or other applicable provision of law or rule.

(a)(1) The Director of Health Care Reform in the Agency of Human Services, in collaboration with the Green Mountain Care Board, shall develop a proposal for a subsequent agreement with the Center for Medicare and Medicaid Innovation to secure Medicare’s sustained participation in multi-payer alternative payment models in Vermont. In developing the proposal, the Director shall consider:

(A) total cost of care targets;

(B) global payment models;

(C) strategies and investments to strengthen access to:

(i) primary care;

(ii) home- and community-based services;

(iii) subacute services;

(iv) long-term care services; and

(v) mental health and substance use disorder treatment services;

(D) strategies and investments to address health inequities and social determinants of health; and

(E) the role, if any, of accountable care organizations in Vermont’s multi-payer alternative payment models going forward.

(2)(A) The development of the proposal shall include consideration of alternative payment and delivery system approaches for hospital services and community-based providers such as primary care providers, mental health providers, substance use disorder treatment providers, skilled nursing facilities, home health agencies, and providers of long-term services and supports.

(B) The alternative payment models to be explored shall include, at a minimum:

(i) value-based payments for hospitals, including global payments, that take into consideration the sustainability of Vermont's hospitals and the State's rural nature, as set forth in subdivision (b)(1) of this section;

(ii) statewide, regional, and hospital-based global budgets for health care services, or a combination of these;

(iii) existing federal value-based payment models; and

(iv) broader total cost of care and risk-sharing models to address patient migration patterns across systems of care.

(C) The proposal shall:

(i) include appropriate mechanisms to convert fee-for-service reimbursements to predictable payments for multiple provider types, including those described in subdivision (A) of this subdivision (2);

(ii) include a process to ensure reasonable and adequate rates of payment and a reasonable and predictable schedule for rate updates;

(iii) meaningfully impact health equity and address inequities in terms of access, quality, and health outcomes; and

(iv) support equal access to appropriate mental health care that meets standards of quality, access, and affordability equivalent to other components of health care as part of an integrated, holistic system of care.

(3)(A) The Director of Health Care Reform, in collaboration with the Green Mountain Care Board, shall ensure that the process for developing the proposal includes opportunities for meaningful participation by the full continuum of health care and social service providers, payers, participants in the health care system, and other interested stakeholders in all stages of the proposal's development.

(B) The Director shall provide a simple and straightforward process to enable interested stakeholders to provide input easily.

(C) To promote engagement with diverse stakeholders and ensure the prioritization of health equity, the process may utilize existing local and regional forums, including those supported by the Agency of Human Services.

(b) As set forth in subdivision (a)(2)(B)(i) of this section and notwithstanding any provision of 18 V.S.A. § 9375(b)(1) to the contrary, the Green Mountain Care Board shall:

(1) in collaboration with the Agency of Human Services and using the stakeholder process described in subsection (a) of this section, build on successful health care delivery system reform efforts by developing value-based payments, including global payments, from all payers to Vermont hospitals or accountable care organizations, or both, that will:

(A) help move the hospitals away from a fee-for-service model;

(B) provide hospitals with predictable, sustainable funding that is aligned across multiple payers, consistent with the principles set forth in 18 V.S.A. § 9371, and sufficient to enable the hospitals to deliver high-quality, affordable health care services to patients;

(C) take into consideration the necessary costs and operating expenses of providing services and not be based solely on historical charges; and

(D) take into consideration Vermont's rural nature, including that many areas of the State are remote and sparsely populated;

(2) determine how best to incorporate value-based payments, including global payments to hospitals or accountable care organizations, or both, into the Board's hospital budget review, accountable care organization certification and budget review, and other regulatory processes, including assessing the impacts of regulatory processes on the financial sustainability of Vermont hospitals and identifying potential opportunities to use regulatory processes to improve hospitals' financial health;

(3) recommend a methodology for determining the allowable rate of growth in Vermont hospital budgets, which may include the use of national and regional indicators of growth in the health care economy and other appropriate benchmarks, such as the Hospital Producer Price Index, Medical Consumer Price Index, bond-rating metrics, and labor cost indicators, as well as other metrics that incorporate differentials as appropriate to reflect the unique needs of hospitals in highly rural and sparsely populated areas of the State; and

(4) consider the appropriate role of global budgets for Vermont hospitals.

(c)(1) On or before January 15, 2023, the Director of Health Care Reform and the Green Mountain Care Board shall each report on their activities pursuant to this section to the House Committees on Health Care and on Human Services and the Senate Committees on Health and Welfare and on Finance.

(4) providing the data, information, and analysis necessary to support the engagement process, including information and trends relating to the current and future states of the health care delivery system in each hospital service area, the effects of the hospitals in neighboring states on the health care services delivered in Vermont, the potential impacts of hospital system transformation on Vermont’s nonhospital health care and social service providers, the workforce challenges in the health care and human services systems, and the impacts of the pandemic;

~~(E)(5)~~ The Commissioner of Taxes shall adopt regulations as necessary to carry out the purposes of this section.

(6) A taxable corporation subject to apportionment under this section shall report to the Commissioner of Taxes:

(A) the average of the value of all the real and tangible property within this State at the beginning of the taxable year and at the end of the taxable year, provided the Commissioner may require the use of the average of the value on the 15th or other day of each month in cases where the Commissioner determines that the computation is necessary to more accurately reflect the average value of property within Vermont during the taxable year, expressed as a percentage of all property both within and outside this State; and

(B) the total wages, salaries, and other personal service compensation paid to employees within this State during the taxable year, expressed as a percentage of all compensation paid, whether within or outside this State.

Sec. 4. 32 V.S.A. § 5862(d) is amended to read:

(d) A taxable corporation that is part of an affiliated group engaged in a unitary business shall be treated as a single taxpayer and shall file a group return containing the combined net income of the affiliated group and such other informational returns as the Commissioner shall require by rule. A unitary combined return shall include the income and apportionment factors of any taxable corporation incorporated in the United States or formed under the laws of any state, the District of Columbia, or any territory or possession of the United States and in a unitary relationship with the taxpayer. The income, gain, or losses from members of a combined group shall be combined to the extent allowed under the Internal Revenue Code for consolidated filing as if the combined group was a consolidated filing group, provided that a state tax credit shall not be combined and shall be limited to the member to which the credit is attributed.

Sec. 5. TRANSITION FROM JOYCE TO FINNIGAN METHOD

For taxable years beginning on and after January 1, 2023, for purposes of determining whether sales are in Vermont and are included in the numerator of the sales apportionment factor, if the activities of any member of a unitary group create nexus with this State, then sales of tangible personal property into Vermont from outside the State by all members of the unitary group shall be included in the Vermont sales factor numerator.

Sec. 6. RULEMAKING; REPORT

The Department of Taxes shall adopt rules relating to the unitary combined reporting requirements imposed under this act. The rules required under this section shall include a change from the Joyce to the Finnigan approach to applying Vermont jurisdiction to corporations within a unitary group. The Department shall report to the House Committee on Ways and Means and the Senate Committee on Finance on or before January 15, 2024 on the Department's proposed rules and any recommendations for legislation with respect to unitary combined reporting.

Governor's Veto

H. 715

An act relating to the Clean Heat Standard.

Text of Veto Message

The text of the communication from His Excellency, the Governor, whereby

he vetoed and returned unsigned **House Bill No. H. 715** to the House is as follows:

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I am returning H.715, *An act relating to the Clean Heat Standard*, without my signature because of my objections described herein:

As Governor and as elected officials, we have an obligation to ensure Vermonters know the financial costs and impacts of this policy on their lives and the State's economy. Signing this bill would go against this obligation because the costs and impacts are unknown. The Legislature's own Joint Fiscal Office acknowledges this fact, saying:

"It is too soon to estimate the impact on Vermont's economy, households, and businesses. The way in which the Clean Heat Standard is implemented, including the way in which clean heat credits are priced and how incentives or subsidies are offered to households and businesses, must be established before meaningful analysis is possible. At the same time, those incentives or subsidies could be costly for the State, suggesting larger fiscal impacts in future years."

I understand the importance of reducing greenhouse gas emissions, which is why I proposed a \$216 million dollar climate package and why my administration has engaged in this policy conversation since January. However, over the last several months it became very clear to me that no one had a good handle on what this program was going to look like, with some even describing it as a carbon tax on the floor.

I have clearly, repeatedly, and respectfully asked the Legislature to include language that would require the policy *and* costs to come back to the General Assembly in bill form so it could be transparently debated with all the details before any potential burden is imposed. This is how lawmaking and governing is supposed to work and what Vermonters expect, deserve and have a right to receive.

What the Legislature has passed is a bill that includes some policy, with absolutely no details on costs and impacts, and a lot of authority and policy making delegated to the Public Utility Commission (PUC), an unelected board. And regardless of the latest talking points, the bill does not guarantee a full legislative deliberation on the policy, plan and fiscal implications prior to implementation. By design, this bill and the inadequate "check back" allows legislators to sign off on a policy concept – absent important details – and not own the decision to raise costs on Vermonters.

For these reasons I cannot allow this bill to go into law and strongly urge the Legislature to sustain this veto.

Sincerely,

Philip B. Scott

Governor
