* * * Legislative Findings and Intent * * *

Sec. 1. FINDINGS AND INTENT

(a) The General Assembly finds that:

(1) For over a decade, Vermont has pursued many approaches and strategies designed to ensure that every Vermonter has access to reliable, affordable, high-speed broadband.

(2) In 2018, through Acts and Resolves No. 169, the General Assembly found that broadband is essential for supporting economic and educational opportunities, strengthening health and public safety networks, and reinforcing freedom of expression and democratic, social, and civic engagement.

(3) We further found in Act No. 169 that the lack of a thriving competitive market in Vermont, particularly in isolated locations, disadvantages the ability of consumers and businesses to protect their interests sufficiently, and we recognized that the State may exercise its traditional role in protecting consumers.

(4) In 2019, through Acts and Resolves No. 79, the General Assembly found that despite the FCC’s “light-touch” regulatory approach under Title I of the Communications Act of 1934, rather than “utility-style” regulation under Title II, existing broadband providers are not providing adequate service to many rural areas where fewer potential customers reduce the profitability necessary to justify network expansion.

(5) Accordingly, reaching the last mile will require a grassroots approach founded on input from and support of local communities. Existing broadband grant programs do not offer the scale to solve this problem, and traditional capital sources typically shy away from businesses with limited revenue history and little equity or collateral.

(6) To this end, public investment in programs and personnel that provide local communities with much-needed resources and technical assistance is required.

(7) In 2020, the COVID-19 public health emergency served as an accelerant to the socioeconomic disparities between the connected and the unconnected in our State. Vermonters who cannot access or cannot afford broadband, many of whom are geographically isolated, face challenges with respect to distance learning; remote working; accessing telehealth services; and accessing government programs and services, including our institutions of democracy, such as the court system.

(8) Indeed, the ongoing public health emergency has highlighted the extent to which robust and resilient broadband networks are critical to our economic future as a whole and provide a foundation for our educational, health care, public health and safety, and democratic institutions.

(9) Broadband infrastructure is critical infrastructure fundamental to accessing other critical services in sectors such as energy, public safety, government, healthcare, education, and commerce.

(10) The goal of universal broadband needs to be elevated as a top priority of the State to meet the economic, health, safety, educational, and social needs of Vermonters.

(11) While private broadband providers have brought broadband services to many households, businesses, and locations in Vermont, significant gaps remain.

(12) When existing broadband providers fail to achieve the goal of providing reliable, high-quality, universal broadband, it is imperative for the State to support and facilitate the construction of broadband infrastructure through financial and other means.

(13) Communications union districts (CUDs) were created by the State to coordinate and implement creative and innovative solutions in their respective territories, particularly where existing providers are not providing adequate service that meets the needs of their residents and businesses while ensuring public accountability.

(14) CUDs are thus positioned to be the unofficial “provider of last resort” for broadband and ensure public accountability for serving all Vermonters within their respective service territories. Yet CUDs have limited access to financial capital necessary for expansion of broadband to unserved and underserved areas of the State.

(15) All Vermont electric ratepayers are supporting the rollout of clean energy technologies, however not all ratepayers are able to access those technologies because they do not have access to adequate broadband. Equity in the energy sector requires universal broadband.

(16) The Department of Public Service simultaneously plays a regulatory role in the telecommunications market while also supporting the development of CUDs in an unregulated competitive broadband market.

(17) To ensure universal broadband in Vermont, there is a need for greater coordination of grassroots broadband solutions both among the CUDs themselves and also with respect to their other potential partners, such as electric distribution utilities, nonprofit organizations, the federal government, and private broadband providers.

(18) In addition to broadband access, it is imperative for the State to address the critical issues of broadband affordability and adoption.

(19) The Department of Public Service estimates that 82 percent of Vermont addresses (254,000 locations) lack access to 100 Mbps symmetrical service. The total cost to provide 100 Mbps symmetrical service to each of these locations is approximately \$1,000,000,000.00. This figure is based on estimates in the Magellan Advisors’ report commissioned by the Department, and it includes estimates of both fixed and variable capital costs for fiber to the premise infrastructure (Feasibility Study of Electric Companies Offering Broadband in Vermont, dated December 31, 2019).

(b) Therefore, this act is intended to protect the public interest by:

(1) ensuring broadband availability to all Vermonters and Vermont addresses;

(2) ensuring public accountability for maintaining and upgrading critical broadband infrastructure;

(3) increasing the reliability of the electric grid and ensuring equal access to clean energy services among all electric ratepayers;

(4) protecting Vermonters' privacy and unrestricted access to the Internet;

(5) alleviating the inherent tension the Department of Public Service currently experiences as a result of its dual roles as both regulator and community project developer;

(6) directing public resources to the development of public broadband assets intended to provide universal access;

(7) developing favorable taxing, financing, and regulatory mechanisms to support communications union districts; and

(8) providing time-limited leadership for coordinating the buildout of Vermont's communications union districts and their partners and for developing financing mechanisms to fully support that buildout through a newly created State entity, the Vermont Community Broadband Authority, designed specifically to effectuate these purposes.

(3) The members may not be persons with a financial interest in or owners, employees, or members of a governing board of an Internet service provider or a communications union district; however, this provision shall not be construed to disqualify a member who has ownership in a mutual fund, exchange-traded fund, pension plan, or similar entity that owns shares in such enterprises as part of a broadly diversified portfolio. Members shall serve terms of three years beginning on February 1 of the year of appointment; however, the member first appointed by the Governor shall serve an initial term of four years, the member first appointed by the Speaker of the House shall serve an initial term of three years, and the member first appointed by the Committee on Committees shall serve an initial term of two years. The Department shall ensure an open public process in the administration of the Fund for the purposes established in this chapter.

(d) Grant administration redesignation. The Board shall be redesignated as the responsible entity for administering the \$1,000,000.00 grant award to the Department of Public Service by the Northern Border Regional Commission for the purpose of supporting communications union districts. Any position funded by the grant shall be overseen and managed by the Board in a manner that is consistent with grant terms and conditions.

§ 8085. BROADBAND PRECONSTRUCTION GRANT PROGRAM

(a) There is established the Community Broadband Preconstruction Grant Program to be administered by the Board. The purpose of the Program is to provide grants to communications union districts for preconstruction costs related to broadband projects that are part of a universal service plan.

(b) As used in this section, “preconstruction costs” include expenses for feasibility studies, business planning, pole data surveys, engineering and design, and make-ready work associated with the construction of broadband networks, including consultant, legal, and administrative expenses, and any other costs deemed appropriate by the Board.

(c) To ensure an equitable distribution of funds under this Program and to encourage collaborative work among communications union districts, grant awards shall be scalable and shall be commensurate with the size of a broadband project as determined by the project’s service area, road mileage, the number of unserved or underserved locations, or any other metric deemed appropriate by the Board. In addition, the Board may develop standards for the disbursement of grant funds in a manner that both supports the efficient and timely use of funds and also ensures accountability.

§ 8086. BROADBAND CONSTRUCTION GRANT PROGRAM

(a) There is established the Broadband Construction Grant Program to finance the broadband projects of eligible providers that are part of a universal service plan.

(b) In evaluating grant proposals under this chapter, the Board shall give priority to broadband projects that:

(1) leverage existing private resources and assets, with a high priority given to partnerships between a communications union district and a distribution utility;

(2) demonstrate project readiness;

(3) provide broadband service that complies with the consumer protection and net neutrality standards established in 3 V.S.A. § 348;

(4) support low-income or disadvantaged communities;

(5) promote geographic diversity of fund allocations;

(6) provide consumers with affordable service options; and

(7) include public broadband assets that can be shared by multiple service providers and that can support a variety of public purposes.

(c) The Board shall establish policies and standard grant terms and conditions that:

(1) reflect payment schedules that ensure maximum accountability;

(2) adopt an industry-accepted engineering standard that promotes network reliability, resiliency, and interoperability;

(3) establish standards for recouping grant funds and transferring ownership of grant-funded network assets to the State if a grantee materially fails to comply with the terms and conditions of a grant;

(4) prohibit the sale or transfer of grant-funded network assets without the prior written approval of the Board;

(5) ensure project completion within a reasonable period of time and consistent with applicable federal law and guidance; and

(6) comply with Administrative Bulletin No. 5, the Agency of Administration's policy for grant issuance and monitoring and Administrative Bulletin 3.5 the Agency of Administration's policy for procurement and contracting procedures, as appropriate, and any other requirements of federal law and guidance, if applicable.

(d) Before the Board awards a grant under this section, it shall determine that the applicant has produced a viable business plan for its proposed broadband project, which takes into consideration network engineering and design, labor needs and availability, supply-chain contingencies for equipment and materials, make-ready work, and any other relevant capital and operational expenses.

(e) Before the Board awards a grant under this Program to a provider who is not a communications union district, the Board shall make a reasonable effort to determine that the carrier's universal service plan does not conflict with or undermine the deployment plans of an existing communications union district.

(f) The Board may provide a grant to a project that enables the provision of broadband service in a geographic area currently served, provided that:

(1) the project is the most cost-effective method for providing broadband service to nearby unserved and underserved locations; and

(2) before awarding the grant, the Board makes a reasonable effort to distinguish served and unserved or underserved locations within the geographic area, including recognition and consideration of known or probable service extensions or upgrades.

(g) The Board may award a grant to an Internet service provider to finance a broadband project, such as a line extension or upgrade, that is not part of a universal service plan if it finds that the project will provide unserved and underserved locations with broadband service capable of speeds of at least 25 Mbps download and 3 Mbps upload on or before December 31, 2021 and is in a geographic area that is not part of a communications union district.

(h) It is the intent of the General Assembly that a broadband project financed under this Program demonstrates an economically sustainable business model that ultimately will be eligible for financing in the private or municipal bond market.

§ 8087. CENTRALIZED RESOURCES FOR COMMUNICATIONS UNION DISTRICTS

(a) The Board shall provide centralized resources and technical and administrative support to communications union districts with respect to the planning, development, and implementation of broadband projects.

(b) In carrying out the purpose of this section, the Board shall:

(1) develop standardized forms, contracts, network business and design models, and templates for use by any communications union district;

(2) assist communications union districts with identifying and negotiating with potential partners, including with respect to the development of a memorandum of understanding or other form of legally-binding commitment pertaining to a broadband project;

(3) when authorized by one or more communications union districts, apply for grants, loans, permits, licenses, certificates, or approvals, or enter into contractual arrangements for goods or services on behalf of or jointly with a communications union district or districts;

(4) assist communications union districts with pursuing route identification for fiber-optic infrastructure and with obtaining pole surveys and negotiating pole attachments;

(5) assist communications union districts with completing grant and loan applications for funding opportunities that exist outside this chapter; and

(6) assist communications union districts with obtaining access to fiber-optic networks owned by the State or by an electric transmission or distribution utility, where appropriate.

§ 8088. INTERAGENCY COOPERATION AND ASSISTANCE

Other departments and agencies of the State government, including the E-911 Board, shall assist and cooperate with the Board and shall make available to it information and data as needed to assist the Board in carrying out its duties. The Secretary of Administration shall establish protocols and agreements among the Board and departments and agencies of the State for this purpose. Nothing in this section shall be construed to waive any privilege or protection otherwise afforded to the data and information under exemption to the Public Records Act or under other laws due solely to the fact that the information or data is shared with the Board pursuant to this section.

§ 8089. ANNUAL REPORT

(a) Notwithstanding 2 V.S.A. § 20(d), on or before January 15 of each year, the Board shall submit a report of its activities pursuant to this chapter for the preceding year to the Senate Committees on Finance and on Natural Resources and Energy, the House Committee on Energy and Technology, and the Joint Information Technology Oversight Committee. The report shall include an operating and financial statement covering the Board's operations during the year, including a summary of all grant awards and contracts and agreements entered into by the Board. In addition, the report shall include a description of the progress each start-up communications union district has made in achieving long-term financial sustainability that is not dependent upon public funding, an update on its efforts to secure additional federal funds for broadband deployment, and progress made towards meeting the State's goal of ensuring every E-911 location has access to broadband capable of delivering a minimum of 100 Mbps symmetrical service as required in subdivision 202c(b)(10) of this title.

(b) As part of its first annual report, the Board shall include recommended legislation for policies and programs not authorized under this chapter but consistent with its purpose or for any other policies and programs it deems appropriate. The report shall include recommendations concerning increased access to and use of fiber-optic networks owned by the State or by an electric transmission or distribution utility in furtherance of the goals of this chapter. In addition, and with input from relevant stakeholders, the Board shall make recommendations on whether and to what extent authorized expenditures under the Fund should be expanded to include:

(1) funding for equipment replacement in the Department of Libraries' FiberConnect Network;

(2) funding for building-wide Wi-Fi installations at multi-unit affordable housing owned by nonprofits and housing authorities for the purpose of providing free broadband service to the residents thereof;

(3) funding for digital inclusion efforts, such as subsidized customer equipment installations and broadband service, grants for long-term affordability planning; and outreach and digital literacy training;

(4) funding for co-worker spaces;

(5) additional funding for communications workforce development initiatives; and

Chapter 13. The Commissioner is authorized to hire one full-time attorney to provide legal services for the Board. This position shall be an exempt position and shall be subject to the oversight and management of the Executive Director of the Vermont Community Broadband Board upon his or her appointment. In addition, the transfer shall include a requirement that, upon the dissolution of a communications union district, any such fiber assets shall become the property of the State to be managed by the Department of Public Service. A communications union district may refuse to accept the transfer of assets authorized by this section, in which case the assets shall remain the property of the Department of Public Service. Nothing in this section shall preclude the Department from transferring fiber-optic assets to a communications union district that initially declined to accept such assets prior to September 30, 2021.

* * * Telecommunications and Connectivity Advisory Board * * *

Sec. 8. 30 V.S.A. § 202f is amended to read:

§ 202f. TELECOMMUNICATIONS AND CONNECTIVITY ADVISORY BOARD

(c) In making appointments of at-large members, the Governor shall give consideration to citizens of the State with knowledge of telecommunications technology, telecommunications regulatory law, transportation rights-of-way and infrastructure, finance, environmental permitting, and expertise regarding the delivery of telecommunications services in rural, high-cost areas. However, the five at-large members may not be persons with a financial interest in or owners or employees of an enterprise that provides broadband or cellular service or that is seeking in-kind or financial support from the Department of Public Service. The conflict of interest provision in this subsection shall not be construed to disqualify a member who has ownership in a mutual fund, exchange traded fund, pension plan, or similar entity that owns shares in such enterprises as part of a broadly diversified portfolio. The at-large members shall serve terms of two years beginning on February 1 in odd-numbered years and until their successors are appointed and qualified. However, three of the five at-large members first appointed by the Governor shall serve an initial term of three years. Vacancies shall be filled for the balance of the unexpired term. ~~(4) annually provide the Commissioner with recommendations for the apportionment of funds to the High-Cost Program and the Connectivity Initiative.~~

~~(5)~~(2) annually provide the Commissioner with recommendations on the appropriate Internet access speeds for publicly funded telecommunications and connectivity broadband projects.

~~(g) The Commissioner shall make an initial determination as to whether a proposal submitted under the Connectivity Initiative meets the criteria of the request for proposals. The Commissioner shall then provide the Connectivity Advisory Board a list of all eligible proposals and recommendations. The Connectivity Advisory Board shall review the recommendations of the Commissioner and may review any proposal submitted, as it deems necessary, and either approve or disapprove each recommendation and may make new recommendations for the Commissioner's final consideration. The Commissioner shall have final decision-making authority with respect to the awarding of grants under the Connectivity Initiative. If the Commissioner does not accept a recommendation of the Board, he or she shall provide the Board with a written explanation for such decision.~~

~~(h)~~ On November 15, 2019, and annually thereafter, the Commissioner shall submit to the Connectivity Advisory Board an accounting of monies in the Connectivity Fund and anticipated revenue for the next year.

~~(i)~~(h) The Chair shall call the first meeting of the Connectivity Advisory Board. The Chair or a majority of Board members may call a Board meeting. The Board may meet up to six times a year.

(k)(j) Information and materials submitted by a telecommunications service provider concerning confidential financial or proprietary information shall be exempt from public inspection and copying under the Public Records Act, nor shall any information that would identify a provider who has submitted a proposal under the Connectivity Initiative be disclosed without the consent of the provider, unless a grant award has been made to that provider. Nothing in this subsection shall be construed to prohibit the publication of statistical information, determinations, reports, opinions, or other information ~~so long as provided~~ the data are disclosed in a form that cannot identify or be associated with a particular telecommunications service provider.

* * * VEDA; Broadband Expansion Loan Program; Lending Capacity * * *

Sec. 9. 10 V.S.A. § 280ee is amended to read:

§ 280ee. BROADBAND EXPANSION LOAN PROGRAM

(a) Creation. There is established within the Authority the Vermont Broadband Expansion Loan Program (~~the Program~~), the purpose of which is to enable the Authority to make loans that expand broadband service to unserved and underserved Vermonters as part of a plan to achieve universal broadband coverage in a community or communications union district.

(b) Intent. It is understood that loans under the Program may be high-risk loans to likely start-up businesses and therefore losses in the Program may be higher than the Authority's historical loss rate. Loans shall be underwritten by the Authority utilizing underwriting parameters that acknowledge the higher risk nature of these loans. The Authority shall not make a loan unless the Authority has a reasonable expectation of the long-term viability of the business. The Program is intended to provide start-up loans until such time as the borrower can refinance the loans through, for example, the municipal revenue bond market.

(c)(1) Requirements. The Authority shall make loans for start-up and expansion ~~that enable Internet service providers to expand broadband availability of broadband projects~~ in unserved and underserved locations as part of a plan to achieve universal broadband coverage in a community or communications union district.

(2) The Authority shall establish policies and procedures for the Program necessary to ensure the expansion of broadband availability to the largest number of Vermont addresses as possible. The policies shall specify that:

(A) loans may be made in an amount of up to \$4,000,000.00;

~~(B) eligible borrowers include communications union districts and other units of government, nonprofit organizations, cooperatives, and for-profit businesses;~~

~~(i) communications union districts;~~

~~(ii) Internet service providers working in conjunction with a communications union district to expand broadband service to unserved and underserved locations as part of a plan to achieve universal broadband coverage in the district; and~~

~~(iii) Internet service providers working in conjunction with a municipality that was not part of a communications union district prior to December 1, 2020 to expand broadband service to unserved and underserved locations as part of a plan to achieve universal broadband coverage in such municipality;~~

~~(C) a loan shall not exceed 90 percent of project costs;~~

~~(D) interest and principal may be deferred up to two three years;~~

~~(E)(D) a maximum of \$10,800,000.00 in Authority loans may be made outstanding under the Program commencing on June 20, 2019; and~~

~~(F)(E) the provider shall offer to all customers broadband service that is capable of speeds of at least 100 Mbps symmetrical; and~~

~~(F) not more than one-sixth of the total allowable loans under this Program shall be available to eligible borrowers under subdivision (2)(B)(iii) of this subsection (c).~~

(3) To ensure the limited funding available through the Program supports the highest-quality broadband available to the most Vermonters and prioritizes delivering services to the unserved and underserved, the Authority shall consult with the Department of Public Service and the Vermont Community Broadband Board.

(d) On or before January 1, 2020, and annually thereafter, the Authority shall submit a report of its activities pursuant to this section to the Senate Committee on Finance and the House Committees on Commerce and Economic Development and on Energy and Technology. Each report shall

include operating and financial statements for the two most recently concluded State fiscal years. In addition, each report shall include information on the Program portfolio, including the number of projects financed; the amount, terms, and repayment status of each loan; and a description of the broadband projects financed in whole or in part by the Program.

Sec. 10. 10 V.S.A. § 280ff is amended to read:

§ 280ff. FUNDING

(a) The State Treasurer, in consultation with the Secretary of Administration, shall negotiate an agreement with the Authority incorporating the provisions of this section and consistent with the requirements of this subchapter.

~~(b) Repayment from or appropriation~~ State appropriations to the Authority ~~in years 2021 and until the Program terminates is~~ are based on the Authority's contributions to loan loss reserves for the Program in accordance with generally accepted accounting principles. Any difference between the actual loan losses incurred by the Authority in a fiscal year 2020 ~~through Program termination~~ shall be adjusted in the following year's appropriation.

~~(1) The Program shall terminate when all borrowers enrolled in the Program have repaid in full or loans have been charged-off against the reserves of the Authority.~~

~~(2) Upon termination of the Program, any remaining funds held by the Authority and not used for the Program shall be repaid to the State~~ This is a revolving loan program.

~~(3)~~(2) The accumulated total of the appropriation shall not exceed \$8,500,000.00 over the life of the Program.

~~(4)~~(3) The Authority shall absorb its historical loan loss reserve rate before any State funds are expended.

~~(5)~~(4) Additionally, the Authority shall absorb up to \$3,000,000.00 in Program losses shared with the State on a pro rata basis.

House Proposals of Amendment

S. 16

An act relating to the creation of the Task Force on School Exclusionary Discipline Reform.

The House proposes to the Senate to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS

The General Assembly finds that:

(1) Nationally, millions of students are removed from the classroom each year for disciplinary reasons.

(2) U.S. Department of Education data reveals that in the 2013–2014 school year, of the 50 million students nationally enrolled in schools:

(A) 2.7 million received in-school suspensions;

(B) 1.6 million received one out-of-school suspension;

(C) 1.1 million received more than one out-of-school suspension; and

(D) 111,215 were expelled.

(3) Exclusionary discipline is used mostly in middle and high schools, and mostly for minor misconduct, according to the Council on State Governments' Justice Center.

(4) Students who are suspended are at significantly higher risk of academic failure, of dropping out of school, and of entering the juvenile justice system according to the Council on State Governments' Justice Center.

(5) Nationally, students of certain racial and ethnic groups and students with disabilities are disciplined at higher rates than their peers, beginning in preschool, as evidenced by 2013–2014 data from the U.S. Department of Education's Office for Civil Rights.

(A) Black students, representing approximately 15 percent of the U.S. student population, are suspended and expelled at a rate two times greater than White students, representing approximately 50 percent of the U.S. student population.

(B) Students with disabilities who have individualized education plans (IEPs) are more likely to be suspended than students without disabilities.

(6) According to the 2016 study “Educational Exclusion” published by the Gay, Lesbian, and Straight Education Network, which is a national education organization focused on ensuring safe and affirming schools for all students, students who are lesbian, gay, bisexual, transgender, or queer face disproportionately high rates of school discipline, including detention, suspension, and expulsion from school.

(7)(A) According to the Agency of Education’s Report on Exclusionary Discipline Response, January 2017, for the 2015–2016 school year, 3,616 Vermont public school students were excluded, representing 4.7 percent of total enrollment.

(B) The Agency of Education found that students who are non-Caucasian, participate in the free and reduced lunch program, have Section 504 or IEP plans, male, or are English Learners are over-represented in terms of the number who experience exclusion and the number of incidents resulting in exclusion.

(C) Use of school discipline strategies, such as exclusionary discipline, restraint, seclusion, referral to law enforcement, and school-related arrest, varies widely throughout the State.

(8) The Agency of Education publishes data on school discipline in Vermont annually, however:

(A) some data can be challenging to find or understand;

(B) consistent with federal student privacy laws and regulations, certain data may not be publicly reportable due to Vermont’s extremely small size conditions, such as data with very few reported cases, data on specific incidents or actions, and data disaggregated by student demographics or grade level characteristics;

(C) even when available and reportable, care must be taken when using data to inform practice in order to ensure they are applied in a coherent and methodologically defensible manner; and

(D) while the Agency of Education and Vermont supervisory unions are currently working to improve data collection, stewardship, reporting processes, and infrastructure, this work is in the context of enhancing data quality, data literacy, and the technical infrastructure to support these enhancements.

(9) More data on school discipline practices in Vermont is necessary to understand what strategies are effective and to encourage the adoption of these strategies at the local level.

Sec. 2. TASK FORCE ON EQUITABLE AND INCLUSIVE SCHOOL ENVIRONMENTS; REPORT

(a) Creation. There is created the Task Force on Equitable and Inclusive School Environments. J.R.H. 2.

Joint resolution sincerely apologizing and expressing sorrow and regret to all individual Vermonters and their families and descendants who were harmed as a result of State-sanctioned eugenics policies and practices.

Reported favorably with recommendation of proposal of amendment by Senator Collamore for the Committee on Government Operations.

The Committee recommends that the Senate propose to the House to amend the joint resolution by striking out all the Whereas and Resolved clauses and inserting in lieu thereof the following:

Whereas, starting in the early 1900s, laws and associated policies were adopted to promote the eugenics movement, and the title of the book *Breeding Better Vermonters* by Nancy L. Gallagher accurately describes the movement's purported intent, and

Whereas, this movement targeted for elimination those it deemed currently or potentially delinquent, defective, and dependent persons through sterilizations, primarily of women, to prevent individuals from having children, and

Whereas, in 1912, the Vermont General Assembly passed S.79, "An act to authorize and provide for the sterilization of imbeciles, feeble-minded, and insane persons, rapists, confirmed criminals and other defectives," however, Governor Allen M. Fletcher vetoed the bill, citing constitutional concerns that Attorney General Rufus E. Brown had raised, and

Whereas, nevertheless, State agencies and institutions adopted policies and procedures to carry out the intent of the vetoed legislation and the beliefs of the eugenics movement, and

Whereas, in 1925, University of Vermont zoology professor Henry F. Perkins, who established the Eugenics Survey of Vermont and served as President of the American Eugenics Society, collaborated with leaders of Vermont State government to collect evidence of Vermonters' alleged delinquency, dependency, and deficiency, and

Whereas, these State-sanctioned policies targeted the poor and persons with mental and physical disabilities, and

Whereas, these same policies also targeted individuals, families, and communities whose heritage was documented as French Canadian, French-Indian, or of other mixed ethnic or racial composition and persons whose extended families' successor generations now identify as Abenaki or as members of other indigenous bands or tribes, and

Whereas, in 1927, S.59, "An act relating to Voluntary Eugenic Sterilization" passed the Senate but was defeated in the House, and

Whereas, the General Assembly adopted 1931 Acts and Resolves No. 174 (Act 174), "An Act for Human Betterment by Voluntary Sterilization," for the purpose of eliminating from the future Vermont genetic pool persons deemed mentally unfit to procreate, and

Whereas, this State-sanctioned eugenics policy was not an isolated example of oppression but reflected the historic marginalization, discriminatory treatment, and displacement of these targeted groups in Vermont, and

Whereas, eugenics advocates promoted sterilization for the protection of Vermont's "old stock" and to preserve the physical and social environment of Vermont for their children, and

Whereas, the Eugenics Survey received assistance from State and municipal officials, individuals, and private organizations, and the resulting sterilization, institutionalization, and separation policies intruded on the lives of its victims and had devastating and irreversible impacts that still persist in the lives of the targeted groups and especially the descendants of those who were directly impacted, and

Whereas, in conducting the Eugenics Survey, the surveyors were granted access to case files from State agencies and institutions, and the files were made available to persons of authority, including police departments, social workers, educators, and town officials, and

Whereas, as a result of the opening of these files, children and adults were removed from families, individuals were institutionalized or incarcerated, family connections were severed, and the sense of kinship, continuity and community was lost, and

Whereas, the legacy of the eugenics movement continues to influence some of Vermont's current policies and legislation, now therefore be it

Resolved by the Senate and House of Representatives:

That the General Assembly sincerely apologizes and expresses sorrow and regret to all individual Vermonters and their families and descendants who were harmed as a result of State-sanctioned eugenics policies and practices, and be it further

Resolved: That the General Assembly continues to work to eradicate the lasting legacy of its prior actions by listening to and working with the affected individuals and communities, and be it further

Resolved: That the General Assembly recognizes that further legislative action should be taken to address the continuing impact of State-sanctioned eugenics policies and related practices of disenfranchisement, ethnocide, and genocide.
