The total cost to provide 100 Mbps symmetrical service to each of these locations is approximately $1,000,000,000.00. This figure is based on estimates in the Magellan Advisors’ report commissioned by the Department, and it includes estimates of both fixed and variable capital costs for fiber to the premise infrastructure (Feasibility Study of Electric Companies Offering Broadband in Vermont, dated December 31, 2019).

Second: In Sec. 2, 30 V.S.A. chapter 91A, in section 8087, the Community Broadband Preconstruction Grant Program, by adding subsection (c) to read as follows:

(c) To ensure the expeditious allocation of funds prior to the organization of the Vermont Community Broadband Authority, the Department of Public Service is authorized to allocate up to $9,000,000.00 under this Program on or before September 30, 2021.

Third: In Sec. 2, 30 V.S.A. chapter 91A, by striking out section 8088 in its entirety and inserting in lieu thereof a new section 8088 to read as follows:

§ 8088. CONSTRUCTION GRANT AND SUBORDINATED DEBT PROGRAM

(a) The Authority shall establish the Construction Grant and Subordinated Debt Program for communications union districts to support projects that are consistent with the funding priorities established in section 8086 of this chapter, including by supplementing financing under the Vermont Economic Development Authority’s Broadband Expansion Loan Program.
(b) Lending and grant decisions under this section shall be made by the Vermont Community Broadband Authority Board of Directors. The Vermont Economic Development Authority shall service all loans made pursuant to this section. In the event of default by a loan recipient, the Vermont Economic Development Authority shall consult with the Vermont Community Broadband Authority prior to commencing any collection action.

Fourth: In Sec. 4a, position transfer, after the first sentence, by adding a new second sentence to read as follows: The position shall remain in the classified service created in 3 V.S.A. chapter 13.

Fifth: By striking out Sec. 23, appropriations; fund transfers, in its entirety and inserting in lieu thereof a new Sec. 23 to read as follows:

(2) In fiscal year 2021, to the extent permitted by federal law and guidance, $150,000,000.00 of federal funds allocated to the State by the ARPA shall be appropriated as follows:

(A) $30,000,000.00 to the Vermont Community Broadband Fund to support the Community Broadband Preconstruction Grant Program established in Sec. 2, 30 V.S.A. § 8087, of this act;

(B) $120,000,000.00 to the Vermont Community Broadband Fund to support the Construction Grant and Subordinated Debt Program established in Sec. 2, 30 V.S.A. § 8088, of this act; and

(3) In fiscal year 2021, to the extent permitted by federal law and guidance, $100,000.00 of federal funds allocated to the State by the ARPA shall be appropriated to the Department of Labor to support the broadband occupational needs survey required by Sec. 20 of this act and the broadband installer apprenticeship program established in Sec. 22 of this act as follows:

(C) $7,000.00 to support non-federally funded work related to developing, conducting, and reporting on the occupational needs survey.
(c) In fiscal year 2022, the Authority is authorized to expend $500,000.00 in anticipated receipts pursuant to 30 V.S.A. § 7523(b) (0.4 percent of the Vermont Universal Service Charge) to support the start-up costs of the Vermont Community Broadband Authority.

(d) The Vermont Community Broadband Authority shall be redesignated as the responsible entity for administering the $1,000,000.00 grant award to the Department of Public Service by the Northern Border Regional Commission (NBRC) for the purpose of supporting communications union districts. Any position funded by the grant shall be overseen and managed by the Authority in a manner that is consistent with grant terms and conditions.

In Sec. 2, 30 V.S.A. § 8083, by striking out subsection (c) in its entirety and inserting in lieu thereof a new subsection (c) to read as follows:

(c) In making appointments of public members, the appointing authorities shall coordinate to ensure that at least one of the public members has expertise in the area of finance. In addition, the appointing authorities shall give consideration to persons with knowledge of communications technology; communications law and policy; broadband deployment in rural, high-cost areas; and electric utility law and policy. However, the public members may not be persons with a financial interest in or owners, employees, or members of a governing board of an Internet service provider or a communications union district. The conflict of interest provision in this subsection shall not be construed to disqualify a member who has ownership in a mutual fund, exchange traded fund, pension plan, or similar entity that owns shares in such enterprises as part of a broadly diversified portfolio.

Which was agreed to.

Pending the question, Shall the bill be read a third time? Rep. Briglin of Thetford demanded the Yeas and Nays, which demand was sustained by the Constitutional number. The Clerk proceeded to call the roll and the question, Shall the bill be read a third time? was decided in the affirmative. Yeas, 145. Nays, 1.

Helm of Fair Haven Pugh of South Burlington Seymour of Sutton

Rep. Coffey of Guilford explained her vote as follows:
“Madam Speaker:
Without high-speed internet, rural economies wither, young people seek better opportunity elsewhere, and many older Vermonter become more isolated and left behind. We are at a historic moment to bridge the urban-rural divide and bring rural Vermont up to 21st century speed. I enthusiastically vote yes.”

Rep. Martin of Franklin explained his vote as follows:
“Madam Speaker:
I voted yes to this bill because I recognize the importance of reaching the last mile in broadband coverage. I hope that the CUD’s work closely with independent ISP’s who have worked so hard to provide internet to its people over the years. In my own town our telephone company has provided exceptional fiber service to its customers for many years and I hope that this bill will ultimately provide the resources these companies need to reach that last mile.”

Rep. Morris of Springfield explained his vote as follows:
“Madam Speaker:
I truly support the underlying intent of this bill to bring high-speed broadband service to our remote areas for connecting all Vermonter to the world. However, by excluding the private Internet Service Provider companies, that arguably have installed much of the existing infrastructure and eliminating them from the benefit of this bill, all Vermonters will not be served. We want all our remote learners and business employees to have adequate broadband service, private business is needed to make this happen.”

Rep. Sims of Craftsbury explained her vote as follows:
“Madam Speaker:
H. 360 offers a clear and bold community-based strategy for achieving universal access to broadband. The promise of modern communications has
bypassed too many of our rural communities in Vermont. I was proud to vote yes because we have a one-in-a-generation opportunity to finally address our digital divide.”
