From: S. Lauren Hibbert, Director, Office of Professional Regulation

Re: H.157, as amended by the Senate

Thank you for the opportunity to testify before you this afternoon. Below I have outlined the Office of Professional Regulation's position on the changes made to H.157 at the end of last session.

OPR Position Senate Amendment to H.157

Page 3	Sec. 3 26 V.S.A § 5501. REGISTRATION REQUIRED (a) A person shall register with the Office of Professional Regulation prior to contracting with a homeowner to perform residential construction in exchange for consideration of more than \$3,500.00 \$2,500.00, including labor and materials.	Senate lowered the contract threshold from \$3,500 to \$2,500.	This is a highly debated policy decision. OPR can implement the registration with either threshold. The lower threshold will protect more consumers and will require more contractors to register.	
Page 3	Sec. 3 26 V.S.A § 5502 EXEMPTIONS This Chapter does not apply to: (2)(A) a professional engineer, licensed architect, or a tradesperson licensed, <u>registered</u> , or certified by the Department of Public Safety acting within the scope of his or her license, registration, or certification; or (B) a business that performs residential construction if the work is performed primarily by or under the direct supervision of one or more employees who are individually exempt from registration under subdivision (2)(A) of this section;	This additional language clarifies: 1) That individuals registered or certified by DPS are not required to register; AND 2) That a business where the work is primarily performed by or under the direct supervision of someone exempt from the chapter will not have to register.	OPR supports this change. It was not the intent to dually regulate professions that are regulated by DPS. OPR will clearly point consumers to DPS if they are looking for a DPS professional.
