Bill Summary

The bill proposes to establish a mental health peer support specialist certification program. It would also require the Agency of Human Services (AHS) to include a funding request for peer-operated respite models and community centers in subsequent budget proposals to the extent specific findings are determined by the Agency.

Sec. 2 – Peer Support Specialist Certification Program

- Sec. 2 would require the Department of Mental Health (DMH) to enter into an agreement with a peer-run or peer-led entity to develop a statewide certification program for peer support specialists in accordance with guidance issued by the Centers for Medicare and Medicaid Services (CMS) for the purpose of enabling a certified mental health peer support specialist to receive Medicaid reimbursement for the individual's services.
- It is estimated that the development of a statewide peer support specialist program could cost as much as \$75,000 in one-time costs.
- There is no FY 2023 appropriation for this section in the bill as passed by the Senate.

Sec. 4 – Peer-Operated Respite and Community Centers

- Sec. 4 would require AHS to include a funding request for peer-operated respite models and community centers in subsequent budget proposals to the extent that AHS finds the following:
 - that additional peer-operated respite centers and community centers should be developed with State Medicaid matching funds to provide necessary capacity; and
 - that viable proposals with demonstrable community support are advanced and the Agency finds that these proposals will reduce other State program costs.

¹ Link will be updated with as "Passed Senate" when final version is posted.

- There is no FY 2023 appropriation required in the bill. AHS could propose funding in future budgets.
