

Fawnya Willson, Burlington

My name is Fawnya Willson, I'm an advocate from Burlington. I support the Reproductive Liberty Amendment because I am keenly aware of the need for this liberty. As a mother, and someone who has had 2 abortions, I know how crucial it is to have choice. The emotion, thought, societal pressure, and potential familial, religious, or financial pressures, etc that go into making such a decision are frankly great enough of a burden to bare without political restrictions. Passing this amendment is necessary because it helps ensure that the financial, mental, emotional, and physical health of potential and current mothers and children aren't at such high risk. I urge you, on behalf of every person in this state or to move here, to pass proposal 5. I urge you to set an example in this country- to lead in making it great for the first time by giving women the constitutional rights they have always deserved and the chance to heal our hearts from the fear of watching our right to liberty and the persuit of happiness on the line once again. Thank you for your time.
