**Our Mission** 

What do we do?

## Our Mission

The Office of Legislative Information Technology is a collaborative team charged with providing non-partisan technology design, support, and maintenance for the Vermont General Assembly. The office is overseen by the Joint Legislative Management Committee and is advised by the Joint Information Technology Oversight Committee.

### Design

We create technical solutions to improve our clients overall work.

#### Maintenance

Your IT team maintains the entire Legislative Information System.

### Integration

We are constantly working on new technologies, as well as improvements to existing systems.

### Non-Partisan

We provide equal support to everyone. Period.

### Support

Provide high quality customer support to all who enter the State House.

### Multiple "Hats"

We're a small team. We require our team members to "wear many hats", while also being a SME in their primary role.

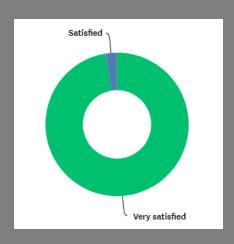

Performance Measures

What do our clients say?

### Performance Measures

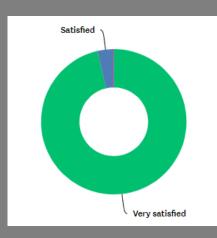

What do our clients say?

97%

### **Quality of Support**

97% of our survey respondents state they are "Very Satisfied" with the quality of support they received.

96%

#### Timelines:

96% of our survey respondents state they are "Very Satisfied" with the amount of time it took to resolve their problem.

**Cost Drivers** 

Notable Items

### Cost Drivers

### Notable Items

### Repair & Maintenance

Our FY 2022 request for Repair & Maintenance is for \$82,521, an increase of 170.1% over our FY 2021 expected expenditure. However, the FY 2022 request represents only a 7.7% increase over our actual FY 2020 Repair & Maintenance expenditures.

In FY 2020, we exceeded our budgeted amount for Repair & Maintenance. A portion of this was driven by expenses related to the relocation of IT staff to the 9 Baldwin Street building, and an upgrade of the OpenText document management suite. These expenses totaled about \$17,000.

The remaining expense to the FY 2020 Repair and Maintenance costs were associated with adding an additional core firewall to our infrastructure and bringing our production switches under a unified maintenance and support contract. These changes, along with standardization of our accounting code practices (bringing our accounting practices in line with State best practices), increased this line item by approximately \$45,000.

In FY 2021, we were able to pre-pay some of this amount from FY 2020 funds. Because the FY 2021 budget was not finalized until September due to the COVID-19 pandemic, the pre-paid amounts do not appear in the budget as submitted, and as such does not accurately represent our annual Repair & Maintenance costs. The FY 2022 request is in line with the baseline amount.

## Cost Drivers

Notable Items

### Software Licenses

Our FY 2022 request for Software Licenses is \$134,543, an increase of 300% over our FY 2021 expected expenditure. As with the Repair & Maintenance line item, the FY 2021 expenditure is far lower than normal due to software purchases pre-paid from the FY 2020 budget. We anticipate minor cost increases in software licenses in FY 2022 due to vendor price increases.
