

Theresa Utton-Jerman

Subject: My testimony for Monday February 8th 2021

Hello, I am Melanie J Hudson from Families United. In reference to FY 2022 proposal bill H215. Where is all of our money going? The father of my children my husband's paying taxes to this town , Brattleboro every single week. I do as well. We both have paid property taxes for 8 years now. Where is our money going. Our daughters are separated from both of us for five years now. We did not deserve this. It seems like we have paid for the separation of our family! They have divided us not reunited. Definitely not kept together at all. Every service we have used in the past was used against us. We really need a better community for our families. We are paying for the separation of our children,this is not right.

Sincerely, Melanie J. Hudson
We love our babies
