

Subject:

Pensions

It is essential that a teacher's Pension not be decreased from its payments and increased from teacher pay.

It is backward thinking and movement.

Teachers are essential for the growth & development of Vermont's children's academic, social, emotional, behavioral, athletic, safety and human endeavors in life.

Do show respect and integrity of what is best for Dedicated Teacher Professionalism, Pro-Teacher, Pro-Pension Growth for Teachers!

Thank You,

Roe
