

The Family Place **Parent Child Center**
Families Learning Together Program
Norwich, VT
February 5, 2021

The following are testimonials given by participants in our Families Learning Together Program, an onsite teen/young parent high school diploma and life/parenting skills program. They were given a prompt to start their writing process of expressing their thoughts:

Families Learning Together Program/The Family Place is important/meaningful to me because...

“It takes disadvantaged people because of economic background, health problems, gender, and other barriers to success, and they provide amazing support and empower us to have the tools and make decisions that bring us to a level of success and stability that wasn't possible without them. FLT is an invaluable program here in Vermont, and I feel their work will lead to a better brighter future for many. They have certainly made my future look much better and brighter.”

~Cher, FLT Participant

“Their support and services are wonderful. I am getting my license and FLT has been helpful with that. They helped me get my permit and now we are working on the driving part. I can't thank them enough for all of their help and I don't know where I would be without The Family Place.”

~ K, FLT Participant

“FLT is like my family. They are helping me get my high school diploma and to be a better parent. They don't just teach us high school subjects, they teach us real world stuff. What we need to know to survive on our own.”

~M, FLT Participant

“It helps me be a better person. I feel safe here and the teachers help tremendously. This program has a lot of benefits...high school, drivers ed, childcare, to name a few.”

~R, FLT Participant

“I have a place to go every day to get support and to work towards getting my high school diploma. I also get to work on myself and my mental health. Learning new skills has been really helpful.”

~Ali, FLT Participant

“I LOVE and am forever grateful for FLT, TFP and everyone affiliated. They say, “it takes a village” and my village has been TFP, its staff and my FLT friends/family.”

~Amber, FLT Participant
