Matthew Sutter, Analyst

Anna Reinold, Private Secretary

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to **State of Vermont**, **Vermont**, for its Annual Budget for the fiscal year beginning **July 01, 2021**. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Respectfully submitted,

Adam Greshin, Commissioner

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

State of Vermont Vermont

For the Fiscal Year Beginning

July 01, 2021

Christopher P. Morrill

Executive Director

Government Organization

The Constitution of Vermont provides for three branches of Government-the Legislative, the Executive and the Judicial. Vermont's statewide elected officers are the Governor, Lieutenant Governor, Treasurer, Secretary of State, Auditor of Accounts and the Attorney General. All are elected at general elections for a term of two years, and each may succeed himself or herself in office with no limitation on terms.

The Legislative Branch: The bicameral General Assembly of Vermont convenes biennially with an adjourned session in the biennium. The House of Representatives has 150 members and the Senate has 30 senators. Members of the House of Representatives and Senate are elected for two-year terms in each general election. Bills for the raising of revenues must originate in the House of Representatives but may be amended or rejected by the Senate.

The Executive Branch: All statewide elected officers reside in the Executive Branch. The Governor is responsible for the faithful execution of all laws enacted by the Legislature and the management of the major departments and agencies of the Executive Branch, briefly described as follows:

- Agency of Administration: The Agency of Administration centralizes and integrates certain
 administrative and fiscal functions and activities of State government. The Agency is composed of the
 Office of the Secretary, the Department of Taxes, the Department of Finance and Management, the
 Department of Human Resources, the Department of Libraries and the Department of Buildings and
 General Services.
- Agency of Transportation: The Agency of Transportation consists of three functional divisions that are
 responsible for the planning, design, construction, maintenance and operation of state highways,
 railroads, and airports; and the Department of Motor Vehicles, which is responsible for the
 administration of motor vehicle registrations, driver's licenses and other motor vehicle regulations.
 The Agency of Transportation is responsible for the administration and collection of the motor vehicle
 purchase and use and motor fuel taxes as well as motor vehicle registrations and renewals and driver's
 license fees.
- · Agency of Education: The Agency of Education is under the direction and supervision of the Secretary of Education, who is appointed by the Governor with the advice and consent of the Senate. The Secretary serves at the pleasure of the Governor and is a member of the Governor's cabinet. The principal statutory duties of the Secretary include the following: identifying the educational goals of the public schools, evaluating the program of instruction in the public schools, supervising and directing the execution of the laws relating to the public schools, and supervising the expenditure and distribution of all money appropriated by the State for public elementary and high schools. The Secretary serves on the State Board of Education as a nonvoting member. While not part of the Agency of Education, the State Board of Education evaluates education policy proposals, including those presented by the Governor or the Secretary, engages local school board members and the broader education community, establishes and advances education policy for the State and has the power to establish such advisory commissions as in the judgment of the Board will be of assistance to it in carrying out its duties. The Board also has authority, among other things, to enter into agreements with school districts, municipalities, states and the United States for services, educational programs, or research projects; and to examine and determine all appeals made to it. The Board consists of ten members appointed by the Governor with the advice and consent of the Senate.
- Agency of Natural Resources: The Agency of Natural Resources consists of the Office of the Secretary, the Department of Fish and Wildlife, the Department of Forests, Parks and Recreation, and the Department of Environmental Conservation. While not part of the Agency, the Natural Resources Board provides review and permitting for land use and development.
- Agency of Commerce and Community Development: The resources of the Agency of Commerce and Community Development are utilized to foster continued improvement in the Vermont economy and provide assistance to Vermont communities in their efforts to plan for the future. The Agency is composed of the Department of Economic Development, the Department of Housing and Community

Development, the Department of Tourism and Marketing, and the Office of the Chief Marketing Officer.

- Agency of Human Services: The Agency of Human Services (AHS) administers the programs responsible
 for meeting the human service needs of Vermont citizens. The Agency is composed of the Office of
 the Secretary, and the Department of Disabilities, Aging and Independent Living, the Department of
 Corrections, the Department of Health, the Department of Mental Health, the Department of Children
 and Families and the Department of Vermont Health Access.
- Agency of Digital Services: The Agency of Digital Services (formerly the Department of Information and Innovation) is about providing cost-effective, customer-focused IT services and solutions to enable better government. At the core of the Agency, the Divisions of Shared Services, Data, Security, Enterprise Architecture and Project Management help ensure information technology services are standardized, coordinated, secure and cost-effective across Vermont State government.
- Other Agencies and Departments: There are a number of other agencies and departments responsible for other service areas within the Executive Branch as follows: the Agency of Agriculture, Food and Markets; the Department of Financial Regulation (formerly Banking, Insurance, Securities and Health Care Administration); the Department of Labor; the Department of Liquor and Lottery (formerly the Department of Liquor Control and the Lottery Commission); the Military Department; the Defender General; the Department of Public Safety; the Department of Public Service, the Public Utility Commission (formerly the Public Service Board), and the Green Mountain Care Board.

The Judicial Branch: The Judicial Branch of the State is composed of a Supreme Court, a Superior Court consisting of 14 units, one corresponding to each county, and a Judicial Bureau. The Supreme Court has a Chief Justice and four Associate Justices and is the appellate court for the State. The Superior Court has five jurisdictional divisions: Civil, Criminal, Environmental, Family and Probate. There are 32 judges sitting in the Civil, Family and Criminal divisions of the Superior Court, including an Administrative Judge. The Family Division has five magistrates. The Environmental Division has two judges and exercises statewide jurisdiction within the Superior Court. All judges and magistrates are appointed by the Governor with the advice and consent of the Senate for six-year terms. At the end of each six-year term, the question of their continuance in office is submitted to the General Assembly in a process known as retention. The Judicial Bureau has two hearing officers appointed by the Administrative Judge. An elected Assistant Judge with appropriate training may also be assigned to act as a Hearing Officer in the Judicial Bureau or as a side judge in the Civil and Family divisions. The Probate Division has a probate judge in each of the 14 units of the Superior Court. The citizens of each county elect one probate judge to serve in the Probate Division for a term of four years.

There are 14 counties in the State. Their administration consists of two Assistant Judges elected from each county. Other county level officials include a State's Attorney and a Sheriff, each of whom is elected every four years. County Clerks and County Treasurers are appointed by the Assistant Judges. County government is more titular than executor in that the major responsibilities and functions of government pass directly from the State to the cities and towns.

Organizational Chart

Operating Budget Development

The "Budget" is a collection of appropriations, passed by the Legislature and subsequently enacted into law. There are several types of State Budgets: the Operating Budget – appropriations to cover the cost of running State government and programs; Capital Construction Budget – major construction and maintenance of State buildings and infrastructure; Transportation Capital Act – the prioritization of projects associated with building and maintaining transportation infrastructure; and the Fee Bill - new state fees (not taxes). Appropriations provide the spending authority for a specific fiscal year for units of State government, and from various State and Federal funding sources.

The following is a month-by-month description of Vermont's annual operating budget.

July

State law requires the Administration and legislature to develop a consensus revenue forecast twice annually for the General Fund, Education Fund, and the Transportation Fund, to be adopted by the Emergency Board. One such forecast normally takes place in mid-July. Depending on the timing of the Governor's budget introduction, this forecast may serve as the "starting point" for determining available revenues for the upcoming budget year. There is no formal revenue forecast for the smaller funds, nor Federal funds.

August

In mid-August, payroll data from the Vermont Human Resources System (VTHR) is loaded into Vantage, the State's budget system. Based on the individual attributes of each position and employee, Vantage projects a salary base cost for the upcoming year, utilizing State-wide salary schedules and tables, and projected benefit costs.

Under Vermont's budgeting convention for personnel costs, these costs are projected to June 30 of the current year – and NOT projected through the year to be budgeted. The growth in salary and associated costs anticipated in the budget year (primarily due to bargained salary increases) is separately projected and budgeted in the "Pay Act." For example, in August 2021, Vantage projected costs through June 30, 2022, which are incorporated into departments' budgets for FY 2023. The projected salary growth during FY 2023 (from July 1, 2022 to June 30, 2023) is separately budgeted in Pay Act, from which funds are transferred to departments during FY 2023, as necessary to pay for salary (and related benefit) growth.

September

Throughout the summer – but culminating in September – the Budget Office reviews departments' end-of-year balances in their spending authority. In the case of General Funds, Education Funds, and Transportation Funds, departments may request permission to "carry forward" that spending authority to the next fiscal year.

Unencumbered spending authority for the State's plethora of special funds is wiped out at the end of the fiscal year. Special fund receipts, however, remain in the fund balance for each of these funds, and departments may request new spending authority in the upcoming budget year, either via the budget development process or through administrative request. The Budget Office reviews the balances and activity of each special fund, and in some instances recommends "direct application" of some or all of the balance – whereby via legislation, the amount is transferred from the special fund to the General Fund, notwithstanding the statute that authorizes the special fund.

October

In late September or early October, the Finance Commissioner issues budget instructions to each agency and department. These instructions will include a preliminary General Fund target for a growth rate over the previous year's base appropriations. The instructions also include guidance regarding non-General Fund growth rates as well as a variety of technical issues. The instructions include a deadline for submittal of departments' budget requests, a structure for how those requests should be presented, and an invitation for departments to meet with the Finance Commissioner to review the request.

Throughout the fall, departments are able to develop their budget requests using Vantage and/or their own off-line budgeting processes – recognizing that they will have to revise these budgets to reflect their final targets.

Also during this period, the Budget Office works with the internal service departments to develop allocation schedules for internal services for the upcoming budget year. Internal service charges include: "fee for space" (i.e., internal rent allocation); human resources services; information services and telecommunications; insurance; and accounting and financial services. These charges are allocated across State government either by an estimate of the departments' usage, or a proration process, or a combination of the two. The Finance Commissioner may take into account the increase (or decrease) in these charges – and the associated General Fund pressure – in developing departments' General Fund targets. For departments that have other fund sources, it is expected that they will utilize those funds to absorb these costs as they would any other budget pressure.

November and December

During November, the Finance Commissioner meets with departments to review their budget requests. Additionally, the Finance Commissioner works with the Secretary of Administration and the Governor to identify the Governor's policy priorities, and the impact of those priorities on the budget. Based on the compilation of available revenues and budget requests, the Finance Commissioner develops budget options and recommendations for the Secretary of Administration and the Governor.

In accordance with 32 V.S.A. § 306 (d), the Administration invites public comments on the budget both via survey and via written submissions during an eight-week period in November, December, and January.

January

Following the Governor's decisions, the Budget Office prepares the Governor's recommended budget proposal for submission to the General Assembly. This submission generally comprises:

- a draft Appropriations Bill (including both the "numbers" sections identifying the amounts for each appropriation, as well as the "words" section that provide necessary statutory language to implement the budget proposals);
- an Executive Budget Book (aka "The Little Budget Book") that presents key highlights of the Governor's budget priorities, as well as key financial information;
- Extensive budget detail for each appropriation (aka "The Big Budget Book"). Given that this detail now exceeds 1,000 pages, this document is now prepared electronically only.

The Budget Office also prepares a variety of supplemental documents to explain any issues that are of particular relevance in the upcoming budget.

Each department prepares a packet of material to present to the appropriations committees. This packet includes a series of Vantage tables mandated by the Budget Office and extracted from the Vantage system, as well as supplemental materials that the department may use to provide additional information.

Since FY 2020, the Budget Office has created a direct linkage between programmatic performance and budget review for selected programs.

It should be noted that the Capital Bill is prepared by the Agency of Administration on a biennial basis, and runs parallel to the Budget Office's preparation of the operating budget.

January to May

Soon after the General Assembly convenes at the State House in January, the Governor presents the budget proposal to the Legislature. The Governor usually accompanies the budget proposals with a formal address to a joint meeting of all House and Senate members. After the Budget Recommendations and Budget Message have been presented, the appropriation process is initiated. The proposed Appropriations Bill package, prepared by the Budget Office, is provided to the Appropriation Committees of the House and Senate. The Appropriations Committees develop their recommendations for consideration by their fellow members, using the Governor's Recommended budget as the starting point.

The Budget Office attends the budget hearings of the various departments as they present their budgets to the appropriations committees. The Budget Office serves as a conduit of information between the legislature (particularly the legislative staff at the Joint Fiscal Office) and the field departments, and facilitates the Finance Commissioner's advocacy of the Governor's budget positions. Changes by the House and Senate to the Governor's Recommended budget are tracked in Vantage by the Budget Office (although Vantage is not the document of record for these versions).

Once the House and Senate pass the Appropriations Bill, a Budget Conference Committee, comprised of three members of the House and three from the Senate, is established to resolve any differences. Once differences are resolved, both the House and Senate must pass the final version of the Appropriations Bill. Upon passage by both the House and Senate, the Bill is forwarded to the Governor. The Governor can sign the Bill into law, veto the Bill or allow the Bill to become law by not signing or vetoing the bill within five days of its arrival at the Governor's Office. If the Governor vetoes the bill, the legislative approval process begins anew.

May - June

When passage of the Appropriations Bill is complete and it is enacted into law, the implementation of the act begins. The appropriations approved by the General Assembly and the Governor are entered into Vantage. Vantage then electronically transmits this data to the State's accounting system (VISION) prior to July 1, the beginning of the fiscal year. At that time, agencies and departments can then spend the appropriated funds. VISION is operated by the Division of Financial Operations, also within the Department of Finance and Management.

It should be noted that the spending authority created by the Appropriations Act controls the type and amount of each fund that an appropriation may spend. The expense details that formed this budget – salary costs, office expenses, grant payments, etc. – are not loaded into VISION and hence are not controlled at the expense level by Financial Operations. However, Vantage is able to identify and report budget-to-actual spending at the expense level, so this can be monitored as necessary.

Also at this time, the Department of Finance and Management is "closing the books" and preparing the financial statements describing the prior fiscal year. At this point, the budget process begins anew for the next fiscal year.

Budget Adjustment Act

During the fiscal year, the Administration and/or legislature may deem it necessary to adjust the current year's budget. This change is implemented via the Budget Adjustment Act. The Budget Adjustment Act is enacted into law similarly to the Appropriations Act. The Governor submits proposed changes, differences are resolved, the House and Senate pass the final version of the Budget Adjustment Bill, and the Bill is forwarded to the Governor. The Governor will then chose to sign the Bill into law, not sign the Bill, or veto the Bill.

In addition, the Administration has limited authority – under several different statutory provisions – to adjust spending authority without further legislative action, particularly as regards non-General Funds. However, in the context of General Funds, this authority is extremely limited (up to \$50,000 among appropriations within a department or agency).

Financial Policies

The Department of Finance and Management is dedicated to the effective and efficient execution of the State's fiscal responsibilities. We are committed to serving Vermont's citizens and our peers by:

- Establishing and maintaining centralized accounting functions that incorporate appropriate internal controls and generate reliable financial information that is in accord with established accounting principles; and
- Developing, maintaining, and advocating for fiscally responsible and sustainable budgets and related management recommendations for the Secretary of Administration and the Governor.

The basis for the operating policies of the State of Vermont is The Vermont Statutes. The Department of Finance and Management publishes its administrative bulletins, directive memos, policies, VISION procedures and closing instructions, grant guidelines and procedures, and internal controls guidance as guides for state agencies and institutions to achieve basic uniformity in the application of appropriation expenditures and management principles.

Although Vermont does not have a balanced budget statute - i.e. where total expected revenues are equal to total planned spending - units of government cannot spend in excess of their authorized amounts, nor are they allowed to spend funds they do not have, even if appropriated. Additionally, by tradition the Administration presents a budget whereby general fund uses are equal to general fund sources, and at each stage of the budget approval process, this balance is maintained and confirmed.

The all financial policies are available at https://finance.vermont.gov/policies-and-procedures.

Basis of Budgeting

Vermont budgets and controls its financial activities on the cash basis of accounting. The adopted budget provides legal control over spending. Vermont law prohibits expenditures in excess of amounts appropriated. Budgetary control is exercised by fund within appropriation.

The State's audited financial statements are based on an accrual accounting and modified accrual accounting. The government-wide financial statements and fund financial statements for proprietary funds and fiduciary funds are based on accrual accounting. Fund financial statements for governmental funds are based on modified accrual accounting. The following summarizes some of the differences in modified accrual and accrual accounting:

- Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental fund statements.
- Certain revenues that are earned, but not available, are reported as revenues of governmental activities, but are reported as unavailable revenue on the governmental fund statements.
- Unless currently due and payable, long-term liabilities, such as capital lease obligations, compensated
 absences, net pension and other postemployment benefit obligations, and bonds and notes payable
 appear as liabilities in the government-wide statements but are not reported in the governmental
 fund statements.
- Internal service funds are reported primarily as governmental activities but reported as proprietary funds in the fund financial statements.
- Capital outlay spending results in recording capital assets on the government-wide statements but is reported as an expenditure on the governmental fund statements.
- Bond and note proceeds result in liabilities on the government-wide statements, but are recorded as other financing sources on the governmental fund statements. Payments of bond and note principal result in a reduction in liabilities on the government-wide statements but are reported as expenditures on the governmental fund statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Net position balances are allocated as net investment in capital assets (capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds and notes attributable to those assets), restricted net position (those with constraints placed on their use by external sources or imposed by law through constitutional provision or enabling legislation) and unrestricted net position (the net amount of assets, deferred outflows or resources, liabilities and deferred inflows of resources that do not meet any of the above restrictions).

Fund Structure

The State's financial statements are structured into three fund types: governmental, proprietary and fiduciary. The funds in the governmental and proprietary fund types are further classified as "major" or "non-major" depending upon their size in relation to the other funds and importance to the financial statement users, as required by Governmental Accounting Standards Board ("GASB") Statement No. 34.

Governmental Fund Types

In accordance with GASB Statement No. 54, the fund balance amounts for governmental funds are reported in classifications that comprise a hierarchy (nonspendable, restricted, committed, assigned or unassigned) based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

- Nonspendable fund balances include items that cannot be spent due to legal or contractual requirements to remain intact, and items that are not in spendable form.
- Restricted fund balances have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.
- Committed fund balances can be used only for specific purposes pursuant to constraints imposed by a formal action of the Vermont Legislature, the State's highest level of decision-making authority. The same type of formal action is necessary to remove or change the specified use.
- Assigned fund balances include amounts that are constrained by the State's intent to be used for a specific purpose, but are neither restricted or committed.
- Unassigned fund balances are the residual amount of the General Fund not included in the four categories above, and any deficit fund balances within other governmental fund types.

Vermont reports twenty governmental funds of which six are classified as "major" governmental funds. These major funds are the General Fund, Transportation Fund, Education Fund, Special Fund, Federal Revenue Fund, and Global Commitment Fund. Each major fund is presented in a separate column in the Governmental Funds' Balance Sheet and in the Statement of Revenues, Expenditures, and Changes in Fund Balances. The "non-major" governmental funds include the Fish and Wildlife Fund, two capital projects funds, two debt service funds, and nine permanent funds, all of which are presented in one consolidated column in the governmental fund statements.

The general characteristics of the fund types are as follows.

General Fund (Major Fund): By act of the General Assembly, the General Fund is established as the basic operating fund of the State. The General Fund is required to be used to finance all expenditures for which no special revenues have otherwise been provided by law. All revenues received by the State and not otherwise required by law to be deposited in any other designated fund or used for any other designated purpose are deposited in the General Fund. Unexpended and/or unencumbered appropriation balances will, unless otherwise directed by law, revert to fund balance at the end of the fiscal year to be re-appropriated in the future. This is a budgeted fund.

Special Revenue Funds: These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects, and include the following:

- Transportation Fund (Major Fund): Revenues of this fund are used for expenditures associated with overall construction and maintenance of the State's transportation system, state police, debt service requirements on general obligation bonds and notes issued for transportation capital projects (which include the State Transportation and Highway bonds and notes). The principal sources of revenue in this fund are Motor Fuel Taxes, Purchase and Use Taxes, license and permit fees for motor vehicles, and reimbursements from the federal government for highway programs. Within the Transportation Fund there exists a sub-fund, the Transportation Infrastructure Bond Fund (the "TIB Fund"), to which assessments on gasoline and diesel fuel are credited as dedicated revenues. Under State law, these revenues are used first for debt service requirements on the State's special obligation transportation infrastructure bonds, any associated reserve or sinking funds and any associated costs of such bonds. To the extent additional TIB Fund resources are available for such purposes, these revenues are used for pay-as-you-go capital projects or other authorized purposes. Unexpended and/or unencumbered appropriation balances will, unless otherwise directed by law, revert to fund balance at the end of the fiscal year to be re-appropriated in the future. This is a budgeted fund. Vermont additionally budgets sub-funds of the American Recovery and Reinvestment Act (ARRA) Fund and Local Match Fund, both of which fall into the category of the Transportation Fund major fund.
- Education Fund (Major Fund): Established by the Equal Educational Opportunity Act of 1997 and effective July 1, 1998, the revenues of this fund finance the State's support of K-12 public education, as well as property tax reform. In accordance with 16 V.S.A. 4025(a) as amended, the sources of revenue in this fund are as follows: statewide education property tax; revenues from the State lotteries; revenue

from the electric generating plant education property tax; revenue from Sales and Use Tax; one-third of the motor vehicle Purchase and Use Tax; 25% of the Meals and Rooms Tax; Medicaid reimbursements pursuant to 16 V.S.A. 2959a(f) and (g) and funds appropriated or transferred by the General Assembly. Unexpended and/or unencumbered appropriation balances will, unless otherwise directed by law, revert to fund balance at the end of the fiscal year to be re-appropriated in the future. This is a budgeted fund.

- Federal Revenue Fund (Major Fund): All federal grant receipts are recorded in this fund, except for those federal funds specifically earmarked for the Global Commitment to Health Medicaid section 1115 waiver, transportation or fish and wildlife purposes. Grants of these types are recorded in the State's Global Commitment Fund, Transportation Fund and Fish and Wildlife Fund, respectively. Major categories of expenditure within the Federal Revenue Fund are for various health, education and welfare programs, the State counterpart of which is reflected in the General and Special Funds. This is a budgeted fund. Vermont additionally budgets sub-funds of the Coronavirus Relief Fund and Coronavirus State Fiscal Recovery Fund, both of which fall into the category of the Federal Revenue Fund major fund.
- **Special Fund (Major Fund)**: These funds account for proceeds of specific revenues not otherwise categorized that are limited to expenditures for specific purposes. These purposes cover the entire spectrum of State government. This is a budgeted fund. Vermont additionally budgets sub-funds of the Tobacco fund, Interdepartmental transfers fund, and State health care resources fund, all of which fall into the category of the Special Fund major fund.
- Global Commitment (to Health) Fund (Major Fund): This is a major special revenue fund created in 33 V.S.A. 1901e. It is the result of Vermont entering into a Medicaid demonstration waiver agreement with the Federal government. During fiscal year 2017, the waiver agreement was renewed through December 31, 2021. During calendar year 2021, the State expects to submit its application for renewing the waiver agreement beyond December 31, 2021. This is a budgeted fund.
- Fish and Wildlife Fund (Non-major Fund): Receipts are restricted by statute and can only be used for fish and wildlife purposes. The principal sources of revenue are license fees and Federal grants. This is a budgeted fund.

Capital Project Funds (Non-major Funds): These two funds account for capital improvement appropriations that are or will be primarily funded by the issue of State bonds. Separate bond funds are maintained as corollaries to both the General Fund and Transportation Fund. This is a non-budgeted fund.

Debt Service Funds (Non-major Funds): These two funds account for and report financial resources that are used to pay debt principal and interest. Separate debt service funds are maintained for general obligation bonds and special obligation transportation infrastructure bonds. Appropriated General, Transportation and Special Fund resources are transferred to the General Obligation Bonds Debt Service Fund for debt service payments on general obligation bonds. Appropriated TIB Fund resources are transferred to the Transportation Infrastructure Bonds Debt Service Fund for debt service payments on special obligation transportation infrastructure bonds. This is a budgeted fund.

Permanent Funds (Non-major Funds): These nine funds report resources that are legally restricted to the extent that only earnings, not principal, may be expended for purposes that benefit the government or its citizenry, such as higher education, cemetery care and monument preservation. This is a budgeted fund.

Proprietary Fund Types

Enterprise Funds: These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the State's intent is that the costs of providing goods or services to the public be financed or recovered primarily through user charges, or (b) where the State has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. These types of funds are reported in both major (Unemployment Compensation Fund, Liquor Control Fund, and State Lottery Fund) funds and non-major (6 funds) categories as described above. This is a budgeted fund.

Internal Service Funds: There are 24 funds of this non-major type reported by the State. These funds are used to account for the financing of goods and services provided by one State department or agency to other State departments, agencies, or other governmental units on a cost-reimbursement basis. These funds are consolidated into one column and are reported in the Proprietary Funds' financial statements. This is a budgeted fund.

Fiduciary Fund Types

These funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governmental units, or other funds. These funds include the following:

Pension and Other Employee Benefit Trust Funds: These funds are used to report assets and associated financial activity that are held in trust for the members and beneficiaries of the Vermont State Retirement (defined benefit) System, the Vermont State Defined Contribution Retirement System, the State Teachers' Retirement (defined benefit) System, the Vermont Municipal Employees' (defined benefit) Retirement System, the Vermont Municipal Employees' Defined Contribution Plan, the State's Single Deposit Investment Account, the State Employees' Postemployment Benefit Trust Fund, the Retired Teachers' Health and Medical Benefit Fund and the Vermont Municipal Employees' Health Benefit Fund. This is a budgeted fund.

Private Purpose Trust Fund: The State's only fund in this category is the Unclaimed Property Fund, which accounts for all abandoned property that is required to be remitted to the State. The State Treasurer administers procedures for returning this property to its rightful owner if he/she can be located. In addition to monetary assets, from time to time the State Treasurer may have custody of tangible property that has not been valued and therefore is not reported in the financial statements. Each year, the fund retains the greater of \$100,000 or 55 percent of the amount received during the previous year, and the balance is transferred to the General Fund. Amounts for which the eligibility period for being claimed has expired are transferred to the Higher Education Endowment Fund (a permanent fund). This is a budgeted fund.

Agency/Custodial Funds: These funds report assets and liabilities for deposits and investments entrusted to the State as agent for others. They have no fund balance and report items such as Federal income tax withholding, social security tax withholding and State income tax withholding. This is a non-budgeted fund.

Department/Fund Relationship

Departments receive appropriations from either a legislative appropriation or administrative spending adjustment and cannot spend in excess of their appropriations, nor are they allowed to spend funds they do not have, even if appropriated. Appropriation to a fund is based on department need, fund availability, and fund allowances per Vermont statute.

Secretary of Administration

Department/Program Description

The Secretary of Administration is both principal aide to the Governor and executive manager of the Agency of Administration. The office of the Secretary assists in the development and implementation of policies and programs throughout state government, coordinates and controls functions within state government, and manages the Agency of Administration.

Through the Secretary, the Agency provides first-line assistance to the Governor. The Secretary is a member of the Governor's Cabinet. She also coordinates budget and appropriations testimony to the General Assembly.

Along with the Secretary's office, the agency includes the departments of Buildings and General Services, Finance and Management, Libraries, Human Resources, and Taxes.

The Agency of Administration exists to provide centralized support services to all agencies and departments of state government as well as providing selected services to Vermont municipalities and Vermont citizens. The Agency also exists to ensure that the fiscal resources of the state are properly managed. The Agency also takes a leadership role on those issues that cross agency lines, such as Executive Order NO. 04-17, Program to Improve Vermont Outcomes Together (PIVOT) and Executive Order 03-17, Government Modernization and Efficiency Team (GMET).

The goal of the Agency is to ensure the uniform and consistent functioning of state government, to provide centralized support services for all components of state government, to work consistently to deliver better services to the citizens of Vermont that are consistent with strategic and operational goals of the Governor:

- 1. Growing the Vermont Economy;
- 2. Making Vermont an affordable place to live, work, and do business; and
- 3. Protecting vulnerable Vermonters.

The Agency was formed by the General Assembly by Act 92 of 1971. The Agency's organization and authority is described in 3 V.S.A. Chapter 45.

Secretary of Administration - Financial Services

Department/Program Description

The employees of the Secretary of Administration's office, working together, deliver quality operational services, enabling government agencies to fulfill their missions.

The mission of the Financial Services division (Agency Central Office) is to deliver timely, accurate and useful information and services to the entire agency in the areas of accounting, budgeting, auditing, rate setting, financial reporting and analysis.

The goals of the Financial Services division are:

- a. To produce timely and accurate financial statements on all programs for 13 Department Boards, Commissions and Offices served;
- b. To process all vendor payments and customer billings in a timely and accurate manner;
- c. To analyze all business activities and establish/adjust rates accordingly;
- d. To assist the departments and offices served in consulting and managing their financial resources; and
- e. To assist with the annual Comprehensive Annual Financial Report (CAFR) and other financial audits making adjustments to help maintain the state's high bond rating.

The performance indicators used to measure programmatic output and outcomes are:

- a. The number of annual audit findings for all agency departments and offices served;
- b. The number of internal control findings for all agency departments and offices served as a result of an internal audit conducted by Finance & Management;
- c. The amount of open receivables at year end including a full analysis for the open balance amount;
- d. The number of financial reports prepared and analyzed including monthly Budget to Actual Reports and Legislative Budget books used in Legislative testimony;
- e. The number and frequency of management reviews with department heads; and
- f. The amount of departmental overtime required to achieve their missions.

Secretary of Administration - Workers Compensation Insurance

Department/Program Description

The Office of Risk Management (ORM) manages the State of Vermont's liability, workers' compensation and work-place safety programs. From 2016 to present, the State has contracted with a third party administrator to provide workers' compensation and liability claims administration and loss control services.

Goals:

The State's goal is to provide effective risk management, workers' compensation and liability claims management that meet or exceed leading industry standards and loss control services consisting of workplace safety training, ergonomic assessments, workplace risk assessments and related programs to prevent and/or minimize claims and maintain and enhance a safe workplace for all employees.

Measures:

ORM tracks the total number of workers' compensation claims filed per fiscal year, the total number of indemnity (lost time) claims filed per year, and the pure premium which is a metric that measures the ultimate loss rate as a percentage of payroll cost. ORM also measures the percentage of areas in which the annual independent claims audit found that the third-party administrator is meeting or exceeding industry best practices. ORM also measures the total percentage of workers' compensation savings on medical expenses per fiscal year.

Secretary of Administration - General Liability Insurance

Department/Program Description

The Office of Risk Management (ORM) manages the State of Vermont's liability, workers' compensation and work-place safety programs. From 2016 to present, the State has contracted with a third-party administrator to provide workers' compensation and liability claims administration and loss control services. ORM's liability program manages all general and automobile liability claims brought against the State. The GL pure premium is the ultimate loss rate measuring the general liability claims costs per \$100 of State payroll. The Auto pure premium is the ultimate loss rate measuring the automobile liability claims costs per State owned vehicle.

Goals:

The State's goal is to provide effective risk management, workers' compensation and liability claims management that meet or exceed leading industry standards and loss control services consisting of workplace safety training, ergonomic assessments, workplace risk assessments and related programs to prevent and/or minimize claims and maintain and enhance a safe workplace for all employees.

Measures:

ORM tracks the total number of general and automobile liability claims filed per fiscal year as well as GL and Auto pure premiums.

Secretary of Administration - All Other Insurance

Department/Program Description

The Office of Risk Management (ORM) provides the following services: managing all commercial insurance policies covering state operations, fulfills requests for certificates of insurance and requests to review or modify contracts, grants, and leases concerning insurance limits and coverage.

Goals:

To assess, measure and lower the total cost of risk, to secure commercial coverage that provides the best protection at the lowest cost, and to advise State entities in a professional and thoughtful manner consistent with State policy and statute.

Measures:

ORM tracks the total cost of risk and insurance policy premiums by fiscal year.

Agency of Digital Services

Department/Program Description

The Agency of Digital Services (ADS) is responsible for supporting the Administration's goals of growing the economy, making Vermont more affordable, and protecting the most vulnerable. To meet these goals, the Agency is committed to proactively providing enterprise-wide cost-effective, customer-focused information technology (IT) services and solutions in a secure, reliable and up-to date manner.

The Agency of Digital Services brings together technical and business professionals from across the Executive Branch to support the ongoing, statewide transition to digital government. Examples of this work include continuous evaluation and improvement of systems which deliver support to Vermonters and state employees. For example, turning Vermonters feedback into improved and enhanced experiences with government interactions. ADS also manages strategic investments in technology and manages the timing and pace of digital government enhancements.

In alignment with Governor Scott's priorities, the Agency of Digital Services identified the following four goals:

Increase the automation and reliability of services delivered to Vermonters through modern technology.

Increase accuracy of reporting and support creation of a comprehensive Executive Branch information technology (IT) budget by reviewing and categorizing all financial transactions related to technology spending.

Continuously defend the state data network and raise employee and citizen awareness of risks in cyberspace to reduce the likelihood of unauthorized access and misuse of Vermont data.

Improve Vermonters' experience with government by increasing online interaction.

The primary success that ADS Security had this year was in the establishment of a new system that provides endpoint protection, detection, and response (EDR). The point of an EDR solution is to identify operations that are not normal on a computer or server, compare it to known threats, and act accordingly to prevent the action if it is suspicious or malicious. Our implementation occurred in advance of the migration of our State workforce to a remote posture to support efforts against the Covid-19 pandemic. By having the system in place, users and their State computers have a high level of protection from cybersecurity-based threats, no matter where their computer logs into the Internet. The system detected approximately 7500 threats to our network in the six months it was operational.

Second, ADS Security worked to implement a new method for State employees to have secure remote access. Using a virtual private network (VPN) allows a user's network data to be encrypted from the computer to the destination. A VPN is specifically recommended for users that are connecting to untrusted networks or networks with lower levels of security than State networks, such as their homes. By testing and deploying VPN technology prior to the pandemic, ADS was well-positioned to support the needs of a remote workforce, without exposing the network traffic our employees needed to be connected. At the peak of our remote workforce nearly 4000 employees were serviced by these secure connections.

Progress continues to be made in establishing standards for better cybersecurity across State government. Implementation of the new Information Security Standard and work on other standards in the areas of incident response and mobile devices have begun to create baselines for employees to follow in their actions and in their use of technology. A greater presence of cybersecurity personnel in information technology projects as well as data driven projects is also paying off with security being included more often in the base designs of systems and platforms.

Finance and Management

Department/Program Description

To promote, monitor and report upon the fiscal condition of State government. This mission is achieved through (1) the establishment and maintenance of centralized accounting functions that incorporate appropriate internal controls and generate reliable financial information that is in accord with established accounting principles; and (2) the development, maintenance and advocacy for fiscally responsible budgets and related management recommendations for the Secretary of Administration and the Governor.

The department consists of two divisions - Budget and Management and Financial Operations:

Budget and Management assists in the development of the Governor's recommended budget, monitors and defends the passage of the budget through the legislature, and manages the adopted budget throughout the fiscal year.

Financial Operations maintains and operates the state's centralized accounting system (VISION), provides related controls and services for managers and employees of state government, and generates reliable financial information in accordance with Generally Accepted Accounting Principles (GAAP).

Budget and Management:

The Budget and Management Division is responsible for maintaining the State's sound fiscal condition and maintains a liaison relationship with all departments in state government to assure proper application of spending and compliance with the various appropriations bills and other key statutes. The Division also is responsible for revenue projecting and reporting. In meeting its responsibilities, the Division works to limit spending growth at sustainable levels and to maintain budget stabilization reserves of at least 5% of prior year total appropriations in the General Fund, Transportation Fund, and Education Fund. The Division seeks to limit reliance on supplemental appropriations through the Budget Adjustment Act and works with the Department of Buildings and General Services to ensure that the Governor's Capital Bill recommendations comply with recommendations of the Debt Affordability Committee. Another important role of the Division is to assure compliance with Administration Bulletin 3.5, the contracting review and approval process. In addition, the Commissioner or other staff represents the Administration through membership on various boards (e.g. State Retirement Board) and various Legislative study committees.

Financial Operations:

Financial Operations is responsible for the establishment and maintenance of centralized accounting functions that incorporate appropriate internal controls and generate reliable financial information that is in accord with established accounting principles. Statute requires that all state disbursements by the Treasurer be approved first by the Commissioner of Finance and Management, with warrants then being provided to the Treasurer. Financial Operations is responsible for the processing and monitoring of these warrants.

The Financial Operations Division performs two primary roles: accounting and financial oversight. Accounting responsibilities include establishing and monitoring appropriations, as approved by the legislature. Additionally, Financial Operations is the primary resource for departments on proper accounting procedures. Financial oversight responsibilities include assuring that departments are functioning within the framework of all policies and procedures set forth by the Department of Finance and Management and the Agency of Administration and to assure that departments are maximizing the information opportunities and the best practices available within VISION. In addition to accounting and financial oversight, Financial Operations publishes the state's Comprehensive Annual Financial Report (CAFR) and works closely with the State Treasurer in projecting and monitoring the cash flow of state government.

Human Resources

Department/Program Description

Philosophy: The Department of Human Resources (DHR) provides leadership to and works in partnership with state agencies and departments to promote managerial and workforce excellence while fostering an inclusive work environment with an understanding and observance of personnel policies, administrative directives, and statutory and regulatory requirements.

Statewide HR Operations Division - Harold Schwartz, Managing Director

The Statewide HR Operations Division is comprised of the following units: Classification and Position Management; Benefits and Wellness; Workforce Analysis, Reporting and Compliance; and Compensation and Recruitment/Talent Acquisition.

Classification and Position Management - Aimee Pope, Deputy Director

*Assesses job content and assigns appropriate pay grades for all classified state positions in the executive branch

*Performs classification reviews on more than 700 positions annually

*Creates and maintains job classifications for all state job positions

*Supports agency and department classification committees

*Manages all state positions and maintains position pool

*Supports DHR Commissioner to manage temporary employee waivers

Benefits and Wellness - Clarke Collins, Deputy Director

*Benefits-Manages and administers benefit programs for 25,000 lives, consisting of employees, retirees, and their eligible dependents

o Supervises and contracts with third party administrators for the state's self-insured medical and dental plans

o Manages flexible spending account, employee assistance, life insurance and other employee benefits programs

o Implements changes required by federal and state laws pertaining to employee benefits

*Wellness -"LiveWell Vermont"

o Works to improve employee and retiree health outcomes by providing information, education, support and coaching to employees in order to effect positive behavior changes

o Provides direct wellness program and prevention services to the State workforce

o Coordinates State's annual flu immunization program near worksites

o Coordinates State's wellness activity programs and workshops

Reporting and Compliance - Krystal Sewell, Manager & Doug Pine, Deputy Director

Assists managers and supervisors across state government to better manage and improve the workforce through the collection and analysis of workforce data.

- *Develops workforce and financial reporting capabilities for departments across state government to provide access and utilize data critical to provision of human resource and business functions
- *Develops responses to public records and general information requests
- *Evaluates and develops systems and implements reporting to respond to statutory requirements including Affordable Care Act, EEO, and more
- *Develops a comprehensive annual report on the state employee workforce
- *Develops data for a variety of analyses including for bargaining, legislative, and ad hoc purposes
- *Provides training and tools to departments to facilitate compliance with requirements
- *Develops and analyzes annual employee engagement surveys

Recruitment, Talent Acquisition and Compensation - Doug Pine, Deputy Director

- *Recruitment & Talent Acquisition
- o Develops strategic, state-wide recruiting and talent acquisition strategies to identify, attract, recruit and hire the talent necessary for the State of Vermont to meet its organizational goals
- o Manages and maintains the overall recruiting processes for all state agencies and departments
- o Engages with and supports hiring managers throughout the recruiting process, including establishing a recruitment plan and sourcing strategy, doing the initial screening of applicants, and providing guidance on interviewing/assessment of candidates.
- o Works to attract a qualified and diverse applicant pool
- o Coordinates statewide advertising program and marketing efforts
- o Assists state managers in creating fair and effective screening tools for interviews
- o Oversees the administration of the Reduction in Force Reemployment (RIF) program
- *DHR Website
- o Coordinates DHR website which is an essential information resource for employees and prospective employees
- *Compensation
- o Oversees statewide compensation administration
- o Develops, maintains, and oversees exempt pay plans
- o Reviews, researches, and evaluates exempt salary requests
- o Develops market factor reviews

o Reviews requests for hire-into-range

Workforce Development Division - Angela Rouelle, Director

Located at the Center for Achievement in Public Service (CAPS)

The Workforce Development Division offers learning and development services to improve employees' skills to ensure the workforce is prepared to perform mission-related duties. Services include:

*Coaching, consulting, facilitation and training consisting of a variety of classroom and eLearning classes in communication skills, performance management, employee engagement, customer service, team development, workplace environment improvement, and more

*Management of the Vermont Certified Public Managers Program (VCPM), accredited by the National Certified Public Managers Program

*Management of VTLEAD: A 12-month mentored leadership development program for current and emerging leaders

*Management of the comprehensive and mandatory supervisory development program: Supervising in State Government (SSG)

*Professional trainers, consultants and coaches that can assist departments and agencies with facilitation, training, team and workforce development needs

*Consultation with agency and department leaders to help ensure the most efficient and effective means of mission accomplishment through targeted investments in learning and development

*Partnerships with other DHR divisions to deliver, analyze and make recommendations on the results of the annual statewide employee engagement survey, and succession planning initiatives

Human Resources Field Operations - Christopher McConnell, Director

Provides human resources field support and services to all Executive Branch agencies and departments in State Government in areas of:

*New Employee Onboarding

*Labor and employee relations

*Classification

*Workforce planning

*Personnel Policies and Procedures

*Contract interpretation

*Employee misconduct investigations

*Workers' Compensation

*ADA Reasonable Accommodation Requests

*Training of managers and supervisors

*Participates in a wide range of committees including the State Reasonable Accommodation Committee, the State Sick Leave Bank Committee, agency/department classification committees, and agency/department merit rewards and recognition committees

Labor Relations - John Berard, Director

*Negotiates, implements, interprets, and administers Collective Bargaining Agreements (CBAs) for Executive Branch, unionized state employees in certified bargaining units.

*Provides support, guidance and training to all levels of employees within the Executive Branch regarding the interpretation of and/or interaction with Federal and State Statute, CBAs, and State policies.

*Facilitates grievance meetings and provides support to the Attorney General's Office on a case-by-case basis

*Conducts training to help supervisors and managers understand the parameters and limitations associated with supervisory responsibilities, expectations, and the elements of operating in a unionized, public sector environment

*Develops and conducts trainings for supervisors, managers and appointing authorities on topics related to: The Federal Family Medical Leave Act (FMLA); provisions of the CBAs; and their interaction and application with Federal and State Statute; Vermonts Parental and Family Leave Act (PFLA)

*Provides direct Human Resources support to the Vermont Veterans' Home

*Includes the Leave Management Unit which consists of three Specialists who serve as Case Managers, as well as a unit supervisor and manager who work closely with our partners in HR Field, supervisors, managers, and appointing authorities to support FMLA/PFLA qualifying employee absences

*Ensures compliance with State and Federal employment requirements and programs such as:

o Federal Family and Medical Leave Act

o Vermont's Parental and Family Leave Act

o Americans with Disabilities Act/Americans with Disabilities Act Amendment Act

o Uniformed Services Employment and Reemployment Rights Act

o Immigration employment laws

o Fair employment practices and standards

*Assists in state emergency preparedness and continuity of operations plans

*Reviews, establishes and interprets state employment policies and procedures

Legal Services - Thomas A. Waldman, J.D., General Counsel

*Provide legal advice and guidance to the DHR Commissioner and Staff, and leaders across State government on all employment related matters including but not limited to; disciplinary actions, investigations, ethics, employee performance, equal employment opportunity, benefits, recruitment, classification, and labor relations

*Provide advice to DHR staff on records management, requests for information (such as public records act requests, requests for information from the Vermont State Employees Association (VSEA), the Human Rights Commission (HRC) and the Attorney Generals Office (AGO))

*Review and draft contracts, requests for proposals and memoranda of understanding

*Develop, draft and analyze legislation, updated and new proposed personnel policies and rules; testify before the legislature

*Represent the State in mediation of employment related disputes

*Assist the Commissioner with the development, implementation, and monitoring of the State's Equal Employment Opportunity Program

*Provide litigation support services to the AGO

*Provide representation before the Vermont Labor Relations Board and the HRC on a case-by-case basis, in coordination with AGO

*Conduct investigations of allegations of employee related claims

*Provide training, support and guidance to Human Resources Field Operations Division and State agencies and departments on the topic of allegations of employee misconduct and other employment law sub

VTHR Operations & Human Resources Strategic Development Division - Angela Rouelle, Director

Strategic Development evaluates cross-department performance and workflows. The director works with all division/ unit leads to create a comprehensive roadmap to value customer service, evaluate department effectiveness and identify areas for improvement.

*Review, or assist in the creation of, division requirements, workflows and key performance indicators

*Liaise with Agency of Digital Services

*Assist with the creation of a strategic roadmap for business and IT projects

*Create Data Governance Structure

*Oversight of Onboarding Program

VTHR Operations - Melissa Butryman, Director

VTHR Operations Division manages the functional business needs of the PeopleSoft HCM (Human Capital Management) system, known as VTHR. VTHR houses DHR data as it relates to employees, including records such as employee status, salary, benefits, compensation, recruiting, timesheets, and position data. VTHR Operations works collaboratively with all other divisions of Human Resources regarding benefits, business processes and adherence to personnel rules, regulations, policies and Collective Bargaining Agreement provisions. VTHR Operations is comprised of four units:

*Workforce Administration Actions unit ensures accuracy of employee records, and position data.

*Time and Labor Unit audits and ensures compliance with Federal, state and contractual rules around time reporting.

-Manage time entry and approval deadlines for all three branches of government.

Payroll Unit processes payroll for 10,000 +/- employees in all three branches of state government on a bi-weekly schedule and ensures taxes and deductions are accurately applied.

*Business Application Support Team provide functional support for configuration changes, field and respond to employee questions, updates and changes to HR systems due to State, Federal or collectively bargained changes.

- -Coordinates integration between other agencies, vendors, and States.
- -Responsible for employment & wage reporting to various state and federal agencies.

Additional responsibilities include: Off-cycle payroll processing, employment verifications, employee access/security (HR Systems).

Libraries

Department/Program Description

State Librarian's Office: The State Librarian serves as administrative head of the Department and Secretary to the Board of Libraries and President of the Vermont Public Library Foundation. The State Librarian's Office provides direction and oversight of all Department activities and functions; administrative support to the Board and for the Board's geographic naming activities; and administers state and federal plans, funding, and grants. [Location: 60 Washington Street., Barre]

Statewide Library Advancement: Under the direction of the Assistant State Librarian for Library Advancement, this division provides services and programs that support local libraries statewide; a library collection to supplement collections in school and public libraries; Four Library Consultants: Youth Services/Governance & Management/ Special Populations/Continuing Education & Small and Rural Libraries provide a service of advice and consultation to Vermont public libraries along with providing professional development and training workshops and a certification program for public library directors. Also: administers the Vermont Early Literacy Initiative (in partnership with the Vermont Center for the Book); and compiles and reports annual public library statistics.

State Wide Information & Access: Provide support and resources to libraries throughout the state, as well as state employees. This includes managing Interlibrary Loan service through Clover, as well as the Courier program; making online resources available for Vermonters, including the Vermont Online Library and RB Digital; collecting data for public libraries in the state; assisting with Information Technology projects, such as the VTLIB website, library listservs, and the Verso ILS; providing reference services to state employees, libraries, and the public; serving as a resource to library staff for technical services, IT, and reference questions; and working with the State Library collection [Locations: 60 Washington Street., Barre.]

Vermont State Library (Barre): Library services to state government and the general public with collections in Vermont legislative history, federal government documents, Vermontiana, and Library Science; offers reference and Interlibrary Loan Services to state government. Awards a grant to the Vermont Law School to provide a law collection and legal reference service to the legal community, public libraries, and the general public. The Technical Services Unit catalogs materials in Department collections and provides bibliographic services to local libraries; encourages libraries to share resources through interlibrary loan and other means. [Locations: 60 Washington St., Barre.]

The ABLE Library: The Special Services Unit and the Library for the Blind & Physically Handicapped have been renamed to promote the services for those who are differently abled. ABLE stands for Audio, Braille, Large Print, and Electronic Resources (ABLE). The ABLE Library supports library materials in State-supported institutions: Maintains a collection of reading materials (large print, "talking books," and braille) for the blind and physically handicapped, and provides these materials via mail at no cost to qualifying Vermont citizens, in association with the National Library Service (NLS) for the Blind & Physically Handicapped (Library of Congress); administers a Local Recording program for the blind & physically handicapped to make available books of Vermont interest; provides books and magazines to three state-supported institutions; maintains a separate online catalog of materials available for the public. [Location: 60 Washington Street., Barre.]

Collaborative Libraries of Vermont (CLOVER) and Library Information Technology: Serves as the primary access point for state information and statewide resource sharing; Consultant for Library Information Technology provides advice on information technology policy for public libraries; plans for and implements library-related information technology and information databases for libraries and Vermont citizens via the Vermont Online Library; establishes electronic linkages among or between libraries; assists libraries in accessing information through electronic networks; assists with the library automation projects in local libraries; administers an e-Rate program for selected public libraries; provides leadership role in procuring broadband for public libraries. CLOVER provides state-of-the-art access to interlibrary loan for citizens through libraries. [Location: 60 Washington St., Barre]

Related Activities:

Vermont Public Library Foundation (22 VSA Sec. 610) The Vermont Public Library Foundation administers two grant programs: (1) Grants to public libraries (Freeman Family Foundation Endowment); and (2) Winnie Belle Learned Fund grants, established in 2007 to support services to youth and children in public libraries. [Location: State Librarian's Office, 60 Washington Street, Barre]

Vermont Online Library (VOL) - The Vermont Online Library is designed to provide citizen access to a selection of subscription-based electronic licensed content designed to serve the state's most common research and information needs. VOL includes resources for the general public, student research and homework help, business research, professional development for educators, consumer health research, information on careers and support for job-seekers, small business resources, information on current issues and biography, genealogy and local history, and online classes, all tailored to different age groups. The purpose of the Vermont Online Library is to ensure statewide, online access for Vermont residents and students in Vermont schools and colleges to a core set of high quality, full-text information resources through the licensing of online/electronic information database products. This service is provided at no cost to all Vermonters.

Goals/Objectives/Performance Measures:

Guided by 22 V.S.A. Sec. 601-635, the mission of the Department of Libraries (VTLib) is to provide, administer, and maintain access to information in a variety of formats to the three branches of State government, libraries statewide, the general public, and Vermonters with special needs; to support, strengthen, and foster new means for statewide cooperation and resource sharing among all types of libraries and government agencies; to lead a service of advice and consultation to all libraries, in order to assist them in realizing their potential; and to increase public awareness of libraries and their services.

Inherent in this mission is the belief that libraries are essential to the general enlightenment of citizens in a democracy and that every citizen of the State of Vermont should have access to the educational, cultural, recreational, informational, and research benefits of libraries.

Expand services for learning and access to information and educational resources in a variety of formats, in all types of libraries, for individuals of all ages to support such individuals' needs for business development and creation, workforce development, digital literacy, and lifelong learning.

- Promote resource sharing through interlibrary loan and improve coordination among and between agencies, departments, and outside organizations to make information more accessible to vulnerable, underserved, and remote populations.
- Increase the capacity of VTLib to provide services and programs by improving our organizational framework and supporting a well-trained and empowered workforce.
- Increase the capacity of the Vermont Public Library Foundation to support public libraries.
- Provide access to resources available statewide through interconnected platforms that share content/collections across libraries.
- Provide libraries opportunities to strengthen their capacity to provide quality services and resources to all citizens.
- Enhance workforce readiness programs, including entrepreneurial endeavors, using materials and services available through libraries.
- Build partnerships, programs, and services that enhance access to early childhood and family literacy, digital literacy, and lifelong learning library resources, particularly to populations facing barriers to traditional library services.

Performance Measures:

- By 2023, a majority of library and library system staff will indicate through surveys that they have received the support they need from VTLib to offer an effective system of resource sharing.
- By 2023, a majority of library and library system staff will indicate through surveys that they believe that VTLib offers an effective certification system.
- By 2023, VTLib will increase the number of individuals and groups participating in classes or programs that will be indicated through surveys that they learned something by participating in the activity and that they are confident about using what they have learned.
- By 2023, a majority of library staff and library trustees participating in training provided by the State Library and its partners will indicate through surveys that they learned something by participating in the training activity; are confident about using what they have learned and that they are likely to apply what they have learned to help improve library services to the public.
- By 2023, a majority of library and library system staff and library trustees participating in training provided by VTLib and its partners will indicate through surveys that they are better able to anticipate and meet changing customer needs and better able to measure their progress toward achieving service excellence because of such training.
- By 2023, a majority of users will practice, enhance, and learn how to become better at certifications and tests using Learning Express Library and will indicate through surveys that they learned something by participating in the training activity; are confident about using what they have learned and that they are likely to apply what they have learned to help improve workforce readiness or have helped with their entrepreneurial endeavors.
- By 2023, a majority of library staff and patrons who are surveyed will indicate that they are more aware of the applicable resources and services available to them through VTLib, their libraries, and state government.
- By 2023, a majority of library staff and patrons who are surveyed will indicate that they are more aware of the applicable resources and services available to them through VTLib, their libraries, and state government.
- By 2023, a majority of library staff will indicate through surveys that they are better equipped to provide strong summer reading programs for their communities and that they use materials provided by the Vermont Department of Libraries for this purpose.
- By 2023, a majority of staff at libraries who participated in VELI and VELI-STEM training will report increased confidence in applying skills to improve early literacy services for families with young children in their communities.
- By 2023, a majority of staff at libraries who participated in VELI and VELI-STEM early childhood training will say that they have applied what they learned to offer new or enhanced early literacy services.
- By 2023, a majority of staff at libraries who participated in VOL training will say that they have applied what they learned to offer new or enhanced library services.
- By 2023, a majority of staff at libraries who participated in Library for the Blind and Physically Handicapped and ABLE Library Services to Underserved Populations programs will say that they have applied what they learned to offer new or enhanced library services.
- By 2023, partners find that the partnerships created with the Department of Libraries have increased their ability to provide services and has resulted in a positive partnership for their organization.

Tax - Administration/Collection

Department/Program Description

Tax Narrative:

1. The mission of the Vermont Department of Taxes is to serve Vermonters by helping our taxpayers understand and comply with their state tax obligations and by administering the tax laws of our great state fairly and efficiently.

The Department is comprised of seven main teams/divisions and the Office of the Taxpayer Advocate:

- 1) Office of the Commissioner
- 2) Taxpayer Services Division
- 3) Compliance Division
- 4) Property Valuation and Review Division
- 5) Finance Division
- 6) VTax Division and Support Team (this includes embedded ADS partners and IT)
- 7) Legal Division

Office of the Commissioner

The Office of the Commissioner includes the Commissioner, Deputy Commissioner, and Chief Operating Officer. The Office manages and coordinates work across the Department as well as policy initiatives with the Governor, Legislature, and additional stakeholders. The Office of the Commissioner also includes outreach and education specialists, an economist, and a fiscal analyst to support the adoption and implementation of thoroughly researched and evaluated policies. The Office's outreach team leverages the Department's knowledge of the tax code to educate Vermont's tax-payers, so they are informed and compliant with the law.

Taxpayer Services Division

The Taxpayer Services Division is the publics primary point of contact with the Department. The Division administers 30-plus tax types, several licensing programs, the property tax adjustment and renter credit programs, as well as real estate transaction taxes which includes Real Estate Withholding, Property Transfer Tax & Lands Gains Tax. Taxpayer Services aids individuals, businesses, and corporations by responding to questions, resolving tax problems, distributing educational materials, and reviewing tax return information. The examiners in Taxpayer Services are available to answer questions by telephone, email, letter or in person.

Compliance Division

The Compliance Division serves aims to reduce the tax gape and ensure that the accurate amount of taxes are collected by the Department. Compliance works to reduce problems of delinquency and underpayment and to ensure that taxpayers are compliant with the law. The division fosters early intervention through educational assistance for all taxpayers. The Compliance Division consists of field and desk auditors, as well as collections staff. The field and desk auditors conduct tax examinations in the office or the field using a range of technology-based compliance initiatives. The collections staff contact taxpayers with outstanding debts and work to administer the refund offset program for state agencies and the Internal Revenue Service (IRS).

Property Valuation and Review Division

The Property Valuation and Review (PVR) Division includes both in-office staff and traveling District Advisors who provide support to municipalities in developing and administrating property tax policies and related programs at the local level. PVR supports computer software programs used locally for grand list valuation and property tax administration. PVR has developed an educational training and certification program that is available to municipal listers and assessors. PVR conducts annual ratio (equalization) studies which estimate taxable property values and grand list appraisals for school districts. In addition, PVR processes property valuation appeals in relation to municipal appraisals. The division also administers the Use Value Appraisal Program (Current Use Program).

Finance Division

The Finance Division oversees Revenue Accounting, Returns Processing and general administration services for the Department. The Revenue Accounting section reviews and processes all incoming payments, ensuring that the daily bank deposits, refunds, transfers, and credit card payments are recorded and reconciled between the bank, the state's general ledger, and the Departments processing system. The Revenue Processing section handles all paper entering the building including tax returns and checks ensuring that it is efficiently distributed or scanned and posted to the Department's processing system. The Business Office helps to oversee and administer contracts, budgets, building security, purchasing, and payroll functions for the Department.

VTax Support Team

The Department's VTax Division and support team manages the ongoing maintenance and enhancement of the Department's comprehensive IT system, called VTax. The team manages installation of software patches, version upgrades, legislative changes, and user-initiated requests for enhancements or bug fixes. The team is comprised of Tax business staff who partner with ADS and vendor (FAST Enterprises) developers.

Taxpayer Advocate

The Taxpayer Advocate represents the taxpayer's voice at the Department. The advocate works to ensure that every taxpayer is treated fairly and knows and understands their rights. If an individual taxpayer is having difficulties interacting with the Department, the Taxpayer Advocate assists the taxpayer in resolving the issue. In addition, the Taxpayer Advocate works to identify systematic issues that negatively affect taxpayers and recommends administrative or legislative changes where appropriate.

Legal Division

The Legal Division includes the Department's general counsel, attorneys, and policy analysts. This division conducts research on policy matters for the Office of the Commissioner, taxpayers, and other stakeholders. It also provides support in drafting language for legislative proposals. Assistant Attorney Generals represent the Department in litigation.

- 2) The strategic goals of the Tax Department are:
- a. Be a model for service-oriented tax administration
- b. Reduce the tax gap
- c. Be the best place to work in Vermont State Government

The Department's performance measures can be found in the programmatic budgeting document with the budget submission.

Budget Summary

		FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Homeowner Rebate

Department/Program Description

Homeowner Rebate

32 V.S.A.6066(a) establishes the Homeowner Rebate Program. This General Fund-portion of the program provides property tax relief to homeowners earning \$47,000 or less; benefits are determined on a sliding scale based upon one's income and their total property tax bill. This relief is supplemental to the education property tax relief provided under 32 V.S.A 6066.

Reappraisal and Listing Payments

Department/Program Description

Reappraisal and Listing Payments

Municipalities receive financial assistance from the state to support the collection of education tax revenue. All municipalities receive \$8.50 per grand list parcel per year to help with the cost of reappraisals and maintenance of their grand lists plus an additional dollar to assist PVR with its equalization study. Lister training is funded directly though the Tax Department via an annual appropriation of \$100,000. These programs are administered by the Property Valuation and Review Division. This appropriation also includes assistance for in defense of grand list appeals regarding reappraisal of hydroelectric plants and other related property.

Municipal Current Use

Department/Program Description

The municipal current use payment is required by 32 V.S.A. 3760 and is distributed on November 1 every year. Under the Current Use program, the taxable value of enrolled parcels is reduced to a use published annually by the Current Use Advisory Board. The homestead or non-homestead education property tax rates are applied to the use value rather than the listed value which is higher. The purpose of the payment is to reimburse municipalities for their forgone municipal portion of property tax from parcels enrolled in the Current Use program. Reimbursement is based on the enrollments and municipal tax rates from the prior year.

Renter Rebate

Department/Program Description

Renter Credit

32 V.S.A. 6066(b) establishes the Renter Credit Program. It provides relief to renters whose income is less than half the county median for their family size. It is intended to reduce housing costs by reimbursing renters for a portion of rental costs paid in the prior calendar year.

Department/Program Description

Dedicated to providing essential resources and services to support our government partners, Vermonters, and visitors

This mission is intended to reflect the department's desire to provide quality goods and services to its customers. It is the intent of the Department of Buildings and General Services to locate space where the best service for the occupant and their clients can be achieved while meeting the intent of 24VSA 2794(a)(12). This is accomplished by allocating sufficient space to the client, complete with all necessities.

These necessities extend beyond basic custodial and maintenance services and into functional areas including mail services, curatorial services, copying and printing, centralized purchasing and contracting, fleet management, and disposal of surplus property. In addition, the department serves Vermonters and the traveling public by providing clean and safe places to stop for respite and information along the State and Federal highway systems.

BGS is fully committed to providing quality service while seeking customer satisfaction.

COMMISSIONER'S OFFICE

Provide leadership to the employees of BGS, ensure programs are managed efficiently, taxpayer funds are invested wisely, risk is managed appropriately, and a customer-focused environment is maintained.

The goals of the Commissioner's Office are to establish guiding principles and managerial oversight for the department; establish, maintain, and carryout a strategic plan for the department in line with the overall strategic plan of the Agency of Administration and the Governor; carry out the directives of the Administration and General Assembly in the most cost-efficient manner; secure adequate qualified staffing; propose solutions to the Administration and General Assembly addressed in the annual capital construction bill and ensure customer satisfaction with services received by internal and external customers of the department.

OPERATIONS & MAINTENANCE

(Fee for Space)

The Operations & Maintenance Division maintains accessible buildings and spaces that are safe, efficient, economical and environmentally friendly and that provide a healthy working environment appropriate for conducting the business for the State of Vermont.

The goal is customer satisfaction through less downtime for maintenance repairs, attractive and safe buildings/ grounds, and physical plant maintenance consistent with code requirements. They create a healthy work environment appropriate for conducting the business of the State of Vermont. We are constantly aware of the need to maintain our buildings keeping the environment and sensitivities of employees in mind. We maintain our assets to reduce lifecycle costs and extend the life expectancy of our buildings, to ensure that the investments made by the State are protected and presented to the greatest extent possible.

PROPERTY MANAGEMENT

(Leases and Purchases)

It is our mission at Property Management to work together to deliver quality operational services and facilities management, enabling government agencies to fulfill their missions.

Property Management's goal is to provide State agencies with safe, comfortable, and efficient office space with its effort focused on leasing, space planning, purchases and sales, space assignments, and space move requests. In addition to the space provided to State agencies and departments, surplus space may be leased or sold to the public. The goals of this program are (1) to efficiently plan, provide, and manage State-owned and leased office space and specialty space to minimize the impact on the State's budget; (2) to facilitate changes to existing space in a timely manner to enable occupants to adapt to changes in programs; (3) to maintain an inventory of space to facilitate proposed back charging of space to users; and (4) to ensure that the environmental quality of State-owned space meets sufficient quality standards.

DESIGN AND CONSTRUCTION

The Design and Construction Division is responsible for planning, designing, constructing or renovating and maintaining new and existing State-owned space. The Division also provides assistance to the Planning & Property Management Division as well as other State Agencies that have jurisdiction over their own infrastructure such as Historic Preservation, Agency of Natural Resources and the Agency of Transportation. The buildings and spaces created or renovate are accessible, and safe; efficient, and environmentally friendly, all while being aesthetically attractive; provide a healthy working environment for conducting the various business for the State of Vermont.

The Design and Construction Division provides planning, engineering, and architectural services to State government based on appropriations in the annual capital construction bill.

This program manages the execution of the annual Capital Construction Act by designing and planning for new and renovated space, completing all work in a cost-effective and timely manner. Administers the capital appropriations funds efficiently and effectively while remaining within parameters set forth by legislative language and administrative bulletins.

GOVERNMENT BUSINESS SERVICES DIVISION

FLEET MANAGEMENT SERVICES

The mission of the Fleet Management Services program is to provide safe, efficient, and reliable fleet vehicles in the most cost-effective manner possible.

The program goals are to ensure state travel is performed at the lowest possible cost while meeting the operational needs of agencies and departments, maximize utilization of fleet vehicles and increase the use of alternative fuel vehicles, including electric vehicles, for state business travel.

Current strategies include the installation of telematics in fleet vehicles for collecting accurate and timely data to enable informed decisions, and the implementation of an automated motor pool system with self-serve features to improve ease of use and enable motor pool service expansion to more locations. Continue to inform agencies and departments annually of their high mileage drivers — using past year mileage reimbursement data — and collaborate to identify opportunities for travel cost savings and energy savings.

POSTAL CENTER

The mission of the Postal Center is to provide state and local government entities with economical and convenient access to postal and courier services within the State governmental structure. This includes providing the Barre, Montpelier, and Waterbury office complexes with mail and parcel security screening and delivery tracking to promote a safe work environment.

With a focus of customer service, the Postal Center is the centralized postal services for State government to collect and distribute mail, provide inter-/intra-departmental mail services; receive and deliver incoming federal mail, and to disseminate outgoing federal mail. Service includes consultation and education of customers to optimize mail services available. The program staff are provided annual training in IRS Safeguards and HIPPA confidentiality and secu-

rity restrictions. The Postal Center is a production environment that is co-located with the Print Shop which enables cross training, equipment sharing, efficiencies, and cost savings.

PRINT SHOP

The mission of the Print Shop is to provide state and local government entities with economical and convenient access to digital printing, finishing, and lease copier services.

The Print Shop provides services with quick turn-around times and unparalleled quality control. The Shop strives to meet the needs of State government for ongoing legislative printing, transactional, publication, print-on-demand forms, and print/mail services.

High-speed digital print services provided in this production environment include large format, transactional, publication, overnight Legislative printing, print-on-demand forms, and lease copier services. Specialized print/mail software and hardware assure the highest possible integrity for health notices, tax documents, checks, titles, etc. Service includes consultation and education of customers to optimize print products, background form design for transactional printing, advice to reduce costs, and basic setup to make files print-ready. The program staff are provided annual training in IRS Safeguards and HIPPA confidentiality and security restrictions.

The program's goals are (1) to avoid duplicate costs related to high-speed digital printing and personnel associated with printing, especially in the Central Vermont region, (2) to provide state agencies with information and tools to understand and effectively use available print products and services, and (3) to meet the on-going print needs of state government.

STATE AND FEDERAL SURPLUS PROPERTY

State and Federal Surplus Property provide state and local government entities with economical and convenient vending services for acquiring and disposing of surplus government property. The programs attempt to increase the reuse of equipment and to conserve the acquisition and disposal costs associated with managing surplus property.

STATE SURPLUS PROPERTY

The State Surplus program is the destination for the excess goods of State government available for sale to the general public. The program strives to manage the redistribution and disposal of Vermont State surplus property to State and municipal governments, non-profit organizations, and the general public in a cost-effective, fiscally responsible, transparent, and equitable manner.

The State surplus property is available for sale to state agencies, municipalities, non-profits, and the general public. The program educates State agencies on the process for disposal, screens for delivery to the warehouse and for on-site auction or sale, and approves for e-waste, metal recycling or trash. Staff provide limited pickup/delivery to Chittenden and Washington County areas. Staff coordinate a variety of marketing efforts including: Craigslist, Front Porch Forum, The World, radio and newspaper ads, etc. Periodic on-line auctions are posted via the contracted auctioneer.

The State Surplus Property program serves as part of the State's internal controls (1) to protect fixed assets and to facilitate effective and efficient redistribution and disposal of surplus property for state agencies, (2) to provide state agencies with information and tools to report surplus property for disposal, (3) to notify appropriate entities of state and federal surplus property available, (4) to market State surplus property to the general public, and (5) to collaborate with recycle/reuse organizations to broaden distribution potential.

FEDERAL SURPLUS PROPERTY

The Federal Surplus program manages the transfer of Federal surplus property to eligible donees (recipients) including State agencies, municipal governments, schools, and eligible non-profits. The program provides education and coordination necessary for eligible donees to acquire Federal surplus property.

The Federal Surplus program acquires and distributes surplus property from various federal sources. Public entities (towns, schools, districts, volunteer fire departments, etc.) and non-profit organizations conducting educational and health care programs may apply for eligibility. This property is not available to the general public.

The program is operated in accordance with Federal law and the General Services Administration (GSA) regulations and policies. An Application for Eligibility form must be completed/submitted in order to establish eligibility for the Federal surplus property program. Staff assist potential donees with application and acquisition processes.

Federal surplus property is available for donation to towns, municipalities, schools, eligible non-profits, and veteran groups. Eligible donees pay only Administrative fees and shipping costs (when applicable).

INFORMATION CENTERS

The Vermont Information Centers Division (VICD) sites are structured to provide the traveling public with safety breaks, shelter from adverse weather conditions, clean and well-maintained facilities, knowledgeable Travel Ambassadors, lodging reservations, free Green Mountain Coffee Roasters coffee, and free wireless internet access.

The program's goal is to effectively provide the traveling public with clean and safe facilities for safety breaks at 16 information/welcome centers statewide and in compliance with federal and state laws and administrative requirements.

VICD sites provide exceptional customer service that promotes the Vermont experience through the brochure and panel marketing programs, free display space, event promotions, promotional display panels, and visitor referrals to direct visitors to Vermont's communities, businesses, and attractions.

Vermont Information Centers Division provides Vermont businesses and attractions the opportunity to market to more than 3.3 million visitors annually.

Vermont Information Centers promote the Governor's message to Think Vermont.

The VICD nationally accredited Ambassador Training Program exists to train VICD staff and Community Ambassadors.

ENERGY OFFICE

The mission of the Energy Office is to serve our customers by being a leader in reducing energy consumption and costs in state owned and operated buildings and the associated greenhouse gas emission through energy conservation and the implementation of renewable forms of energy.

The Energy Office is charged with administering the interest of the State in all energy management measures, the implementation of energy efficiency and conservation projects, and the use of renewable resources in State owned and operated buildings and facilities, and space leased to the state.

The office oversees the State Energy Management Program revolving loan funds, provides technical expertise to all state entities, manages the planning, designing, and construction of energy projects to achieve energy and dollar savings, oversees the State Agency Energy Plan and Agency Energy Implementation Planning process, provides up-to-date energy data for BGS owned and operated buildings and facilities, ensures that new state contracts and construction leverage the most environmentally friendly goods and services, and its members serve as the primary point of contact for various energy and/or climate committees, coalitions and boards.

Goals of this program are to:

1) To meet the energy goals established in the 2016 State Agency Energy Plan and the intermediary goals put forth in the 2016 BGS Agency Energy Implementation Plan (AEIP).

2) Deliver \$150,000 in energy savings annually as required by ACT 58 Sec. E.112.

SECURITY

UNIFORMED SECURITY GUARDS

The mission is to develop, coordinate, implement and evaluate safety and security programs, in cooperation with all state organization, in support of the State's efforts to ensure and maintain a safe and secure environment for all employees and visitors.

Uniformed guards deployed at various locations around the State help to maintain a safe and secure environment for employees and visitors through conducting security patrols, controlling access to state facilities, monitoring public spaces, providing monitoring of meetings as applicable and control parking lots. In addition, uniformed personnel check buildings for secure doors and windows, monitor HVAC and other building systems and check for flooding of property and report any out of the ordinary observations to the appropriate department. On-duty guards also answer the 24/7 security phone line and contact appropriate personnel as needed.

SECURITY SYSTEMS (TECHNOLOGY)

The Security Systems Program is responsible for the installation, maintenance and oversight of technical security components to include card access, alarm systems, intercoms, and camera systems in State of Vermont facilities.

CONTINUITY OF OPERATION (COOP)

The Continuity of Operation (COOP) initiative began in CY 2002 (BGS Administration Policy 0024). In 2009, it was agreed between Buildings and General Services and Vermont Emergency Management that the Security Division of BGS would provide oversight of the Vermont COOP program development and of the Vermont COOP program for all state agencies and departments (Agreement dated 2009). To date approximately (73) individual COOP plans exist for Vermont State Agencies and (1) Continuity of Government plan (Master plan outlining where and how the State's top administrative personnel will continue governing the State in the event of a Statewide disaster).

PURCHASING AND CONTRACTING

The Office of Purchasing and Contracting (OPC) oversees purchasing and contracting for the State of Vermont via the management of policies and compliance requirements of statues and applicable administrative bulletins.

Mission

Support State Government by providing exceptional products and services to effectively meet customer requirements.

Vision

We are recognized by our customer as providing leadership, support and services for innovative, responsive and accountable public purchasing.

Strategic Direction:

Goal 1: Deliver timely services, technical assistance, through engagement and collaboration.

Goal 2: Endorse and promote immediate and long-term strategies in education and outreach to both internal and external customers.

Buildings and General Services

Goal 3: Engage and influence participation in state processes by promoting transparency and awareness/availability of on-line resources for conducting business with the State.

VERMONT STATE CURATOR'S OFFICE

It is the mission of the State Curator's Office to preserve and enhance appreciation of State of Vermont historical and cultural assets, including the Vermont State House, the Vermont State House Collection, the Vermont State Art Collection and other collections of art and artifacts owned by all Vermonters.

The State Curator's Office manages the State House as a public museum, manages all state-owned collections of significant art, artifacts and furnishings, provides historic preservation guidance in the treatment of over 150 state-owned historic buildings, and coordinates the presentation of public art in rotating galleries within the Capitol District.

Working to reduce deficits in the internal service funds through program efficiency with an emphasis on the Postal and Fee For Space programs as well as Property Management services while managing operations appropriately in the COVID environment.

Executive Office - Governor's Office

Department/Program Description

Executive Office - Office of the Governor

Executive Summary

Philosophy

The Executive Office ensures every agency and department in state government is working together to:

Prioritize growing the economy, making Vermont more affordable and protecting the most vulnerable;

Reverse Vermont's demographic crisis;

Eliminate the economic and educational inequality that exists from region to region;

Deliver high quality, high value services to Vermonters in increasingly efficient ways;

Consistently rethink the systems, programs and processes of state government, and embrace a culture of continuous improvement and result-based accountability;

Provide relentlessly positive operational leadership; and

Produce measurable results.

Key Initiatives

A major focus of the Executive Office is coordinating and directing the Governor's priorities, including:

Managing the transition from pandemic to endemic management of COVID-19 and the corresponding recovery from the public health, social, emotional, academic and economic consequences of earlier mitigation measures in a way that ensures the strongest and most transformative recovery.

Ensuring all state agencies and departments utilize their full capacity, powers and programs to make strengthening the economy, making Vermont more affordable, and protecting vulnerable Vermonters as measured by specific breakthrough indicators defined in the State Strategic Plan their top strategic and operational goals.

Managing a State Strategic Plan, and other continuous improvement initiatives, that set clear priorities, improve operational efficiency, productivity and measures the value of every program and service by the output/results, not the input/funding.

Office Functions

Constituent Services: The Constituent Services Office (CSO) supports Vermonters providing their input and/or seeking assistance from state government. Duties include coordinating and providing high quality constituent service and referrals, working with all agencies and departments, legislators, as well as outside organizations.

Legislative Affairs, Budget and Policy Development & Coordination: Staff functions include budget and policy development, communication, and coordination with agencies and departments as well as with the Legislature and outside organizations. The Executive Office also provides constituent service and policy development guidance and analysis at the request of the legislators.

Legal Administration/Obligations: Staff support the Governor as he fulfills his constitutional and statutory duties as Vermont's Chief Executive. This includes emergency management, executive orders, extraditions, pardons, borrowing by state agencies and state-backed agencies, land transactions, request for public records and records retention, appointments and many other responsibilities.

Public Information: Staff serve as main point of contact for media on gubernatorial and administrative initiatives, field related press inquiries and provide the public information in a variety of issues and circumstances.

Boards, Commissions & Appointments: Duties include finding qualified Vermonters to fill vacancies on over 180 Boards and Commissions. Boards and Commissions are a critical part of the governmental process and an opportunity for Vermonters to contribute to our system of self-government. Duties also include managing the process for the Governor to make appointments to fill judicial, legislative and other vacancies.

Government Modernization: Reducing operating costs and streamlining services is essential to giving taxpayers the best value and results. To facilitate the modernization of state government, the Governor's PIVOT strategic budgeting and restructuring priorities are being coordinated and managed out of the Executive Office.

Public Safety: The Executive Office collaborates closely with the Department of Public Safety, Vermont Emergency Management, the Agency of Transportation and other agencies/departments, as well as our federal partners, to closely monitor, and where necessary respond, to public safety events and emergencies. The Executive Office also plays a leadership role in the State's emergency response plans, as exhibited in the State's response to COVID-19. The Governor and staff are on-call 24-7/365 to respond to emergencies or disruptions impacting the public.

Scheduling: The Executive Office manages the scheduling of the Governor's highly sought-after time. The efficient use of the Governor's time is essential to the operations of state government and valuable to Vermonters who want to engage directly with the State's Chief Executive.

Funding Levels

The FY 2023 budget request to the General Assembly reflects a 4.1% (\$77,137) increase over FY2022 primarily attributable to increase in personnel costs of \$159,355 netted by subsequent decreases in Temporary employee costs and Operating expenditures including travel.

Legislature

Department/Program Description

The Legislature consists of 180 members of the General Assembly plus staff supporting the operations of the House and Senate.

The mission of the Legislature, as set out in the State's Constitution. Chapter II, sections 1 and 2 direct the Senate and House of Representatives to exercise the "Supreme Legislative power" and that, together with the Governor, the Senate and House of Representatives shall "govern the State of Vermont." The legislature establishes state policy, enacts laws, raises revenue, and authorizes and oversees the expenditure of funds and operations of state government.

Legislative Counsel

Department/Program Description

The Office of Legislative Council consists of three units: legal, operations, and IT.

Legislative Council provides legal services, bill drafting, IT support, committee services, and administrative and operational support to all members and committees of the legislature.

Legislative Council's proposed budget includes funding for personal services (both year-round and session-only staff), non-personal services, and IT projects.

Joint Fiscal Office

Department/Program Description

The governing board is the 10 member Joint Fiscal Committee established pursuant to 2 V.S.A. Chapter 15 (Sec. 501-504).

Joint Fiscal Office staff assigned to the House and Senate Appropriations and Transportation Committees performs the following core functions: analyzes agency budget requests; analyzes the Governor's budget recommendation; prepares alternative budget recommendations; provides technical, preparatory support to the Committees; prepares fiscal notes; and provides staff support to the Joint Fiscal Committee.

The Joint Fiscal Office (JFO) was created in 1973. The primary mission of the office is to provide non-partisan financial analyses to the House and Senate Appropriations Committees, the House Ways & Means Committee, the Senate Finance Committee, the House and Senate Transportation Committees, and the Joint Fiscal Committee. The Office also provides additional non-partisan staff support to committees in a variety of fiscal areas including health care, education finance, institutions and general fiscal analysis.

Lieutenant Governor

Department/Program Description

Office of the Lieutenant Governor

Executive Summary

The Lieutenant Governor serves as President of the Senate, as a Member of the Committee on Committees, casts a tie-breaking vote when the Senate is equally divided, and stands in for the Governor should that be necessary. As a result of its limited constitutional duties, the Lieutenant Governor is able to dedicate time to special projects and initiatives to improve government efficiency, accountability, and expand citizen participation in democracy. To that end, the Lieutenant Governor devotes significant amount of time to engaging Vermonters from all corners of the state.

As the COVID-19 pandemic continues, the 2022 Legislative session will again face unique challenges. The Lieutenant Governor and her Chief of Staff, continue safe and socially distant in-person operations necessary to uphold the Lieutenant Governor's constitutional obligations, including presiding over remote or hybrid convenings of the Senate.

Against that backdrop, most activities of the Office are remote during the first half of 2022 or longer and benefit from the effective use of existing technology. Moreover, existing staff resources are committed to supporting COVID-19 response and Vermont's recovery.

The Lieutenant Governor, her Chief of Staff, and unpaid interns work to meet the urgent and ongoing needs of Vermonters impacted by COVID-19. In close coordination with the Scott Administration and Vermont's Congressional Delegation, the Office continues to regularly and rapidly direct Vermonters to available COVID-19 resources as well as support services.

The Lieutenant Governor utilizes all existing technology to support Vermonters in remotely accessing the Office and to meet Vermonters virtually in their communities.

On a bi-weekly basis the Lieutenant Governor hosts virtual events for constituents, advocacy groups, lawmakers, and other members of the public on topical issues. These virtual events bring the voices of Vermonters into the State House during the remote legislative session and elevate their views and expertise. This bi-weekly gathering will continue to be held virtually for the duration of the COVID-19 pandemic.

On a regular basis, the Lieutenant Governor also meets bi-laterally with constituents, advocacy groups and lawmakers via existing telecommunications platforms to hear their views on existing legislation or policy initiatives.

In the absence of the ability to travel to communities across Vermont, the Lieutenant Governor also meets virtually with Vermonters in their homes and businesses.

The Lieutenant Governor continues to support a "recover stronger" strategy for Vermont that addresses deeply rooted inequities and vulnerabilities present before the COVID-19 pandemic. These inequities and vulnerabilities include: systemic racism; a demographic crisis and shrinking workforce; a lack of affordable, universal and quality childcare; inequity in access to broadband; food insecurity; soaring healthcare costs; a housing crisis; and the climate crisis.

What is more, the Lieutenant Governor recognizes that the State's budget constraints are linked to shrinking revenue streams in light of the State's demographic crisis, and that the Office plays an important role in supporting legislative efforts, convening community leaders and building coalitions to devise long-term solutions.

With acknowledgement of the limited staffing and resources of the Office, the Lieutenant Governor gives particular attention to three areas where investment could have the greatest impact on Vermont's economic infrastructure: workforce development, universal access to broadband and addressing the economic well-being of Vermont families.

The Lieutenant Governor regularly partners with Vermont's Congressional Delegation, the Scott Administration, law-makers, community leaders, community non-profits and businesses to help close Vermont's broadband gap.

The Lieutenant Governor also regularly partners with Vermont educators, employers, community leaders, and non-profits to grow a classroom-to-community pipeline that supports Vermont employers in recruiting and retaining employees, and Vermont employees in access good jobs in a 21st century Vermont economy.

Finally, the Lieutenant Governor regularly works to support efforts to address the economic well-being of Vermont families. Particularly, efforts to support universal access to childcare, eldercare, as well as paid family and medical leave.

When the COVID-19 pandemic concludes and in-person gatherings and travel are more frequent again, the Lieutenant Governor meets with individuals and communities across Vermont on identified priority areas as well as the issues facing Vermonters at home and in the workplace. In turn, the Lieutenant Governor shares the perspectives, ideas and concerns she gathers from communications with Vermonters with lawmakers.

At all times, the Lieutenant Governor strives to put the needs of Vermonters at the forefront and work in a non-partisan fashion. In particular, in recognition of the January 6, 2021 deadly attack on the U.S. Capitol and national distrust in government, the Lieutenant Governor carries out the responsibilities of the Office with a commitment to integrity, truthfulness and transparency, and an abiding respect for the Vermont Constitution and the rule of law.

Auditor of Accounts

Department/Program Description

Mission Statement: The mission of the Auditor's Office is to hold State government accountable by evaluating whether taxpayer funds are being used effectively and identifying strategies to eliminate waste, fraud, and abuse.

Guiding Values: The Vermont State Auditor's Office is dedicated to providing government entities, the Vermont Legislature, and the public with professional audit services that are:

- * Useful
- * Timely
- * Accurate
- * Objective
- * Of high quality, and
- * Performed in conformance with generally accepted government auditing standards.

In addition, the Office is committed to improving the professional skills of the staff, sharing knowledge with others, and maintaining a work environment that is ethical, supportive, respectful, collaborative, and productive.

Section II

Office Profile:

Statutory Responsibilities: The state auditor is a constitutional officer; elected biennially. The auditor's principal duties and authority are defined by 32 VSA Sections 163, 167, and 168. These duties include:

- * Annual audit of the state's financial statements Comprehensive Annual Financial Report;
- * Annual federal Single Audit;
- * Discretionary governmental audits, as defined by the U.S. Government Accountability Office;
- * Discretionary post-audits of all expenditures, including disbursements to a municipality, school, supervisory union, school district, or court; and
- * Audits or reviews as statutorily required by the Legislature.

Vermont taxpayers expect state government to provide cost-effective services. It is the job of the SAO to determine if publicly funded programs are operating efficiently and meeting the goals established by the legislature. We do this by conducting performance audits. In the process, the SAO is always alert to the risks of waste, fraud, and abuse.

The audit of the State's financial statements (ACFR) and the federal Single Audit are conducted by CliftonLarsonAllen (CLA) under contract to the SAO. That allows the SAO to focus almost exclusively on performance audits, which provide objective analysis and recommendations to 1) program managers to help improve service delivery; 2) policy makers to better inform decisions about resource allocation; and 3) the public, which has a right to know if taxpayer funds are being used effectively.

In addition to performance auditing, we have other responsibilities. For example, we work with Finance and Management and other state government entities to reduce findings in the federally mandated Single Audit. This improves the State's implementation of federal programs and reduce the cost of the Single Audit.

In addition, our office will conduct reviews of certain aspects of state government. The decision to research a particular issue is made by the State Auditor. These non-GAGAS investigations will be rigorous and well-documented but need not meet generally accepted government auditing standards. In some cases, reviews may lead to or complement performance audits.

Staffing: The SAO is authorized to have 16 staff positions, including the State Auditor, three appointees (Deputy State Auditor, government research analyst, and private secretary), a financial manager, and 11 professional audit staff.

Currently, one audit position is vacant (Staff Auditor II).

All professional audit staff have bachelor's degrees, six have master's degrees, and our Government Research Analyst has two master's degrees. In addition, seven of the ten audit staff members have certifications in one or more professional areas, including Certified Public Accountant, Certified Internal Auditor, and Certified information Systems Auditor.

Funding: Only 9% of funding for the SAO comes directly from the State's General Fund. Almost all the rest comes from the Single Audit Revolving Fund (SARF). Most state agencies and departments contribute to the SARF based on a formula reflecting their expenditures, revenues, and federal funding. For the current fiscal year (2022), the Legislature appropriated \$4.121 million to fund the SAO, including \$3.723 million from the SARF, almost \$344,615 from the General Fund, and \$53,145 from the Special Fund.

Strategic Goals and Performance Measures

GOAL 1: PROMOTE GOVERNMENT ACCOUNTABILITY AND IMPROVE THE EFFICIENCY AND EFFECTIVENESS OF STATE GOVERNMENT THROUGH PERFORMANCE AUDITS AND REVIEWS

Measure 1a: Number of performance audit reports issued

Purpose: Performance audits identify opportunities for improvements in program delivery, as well as potential savings or cost recovery. Audits may also deal with public safety or consumer protection.

Target: Performance audits vary in scope and complexity, so the number of audits completed in a given year will also vary. In addition, the timing of audit engagements will sometimes result in audits being initiated in one year and completed in the next, so this may lead to variances from year to year. Therefore, annual targets are based on the sum of completed audits and the fractions of audits underway but not yet completed.

* CY 2022 5 performance audits

Strategies:

- * Continue to improve risk assessments and audit planning to avoid surprises regarding data availability or other issues that may increase the time required to complete an audit.
- * Continue to define audit objectives as clearly as possible to provide meaningful recommendations while avoiding scope drift.
- * Work with staff to improve writing skills to reduce time devoted to editing.

Challenges: Some of the factors that can affect the number of performance audits completed each year include the complexity of the audit topics, the number of entities involved, the availability of data, and the timeliness and content of management responses to audit finds.

Measure 1b: Average cost of performance audits

Purpose: The SAO has limited staff and modest funding. Therefore, it is imperative that we maximize the value of our available resources. As noted above, performance audits vary in their scope and complexity but the average cost per audit is a fair measure of our ability to manage our resources.

Target: CY 2022 - \$150,000

Strategies: The strategies outlined above in Measure 1.a. are also relevant here.

- * Try to improve risk assessments and audit planning to avoid surprises regarding data availability or other issues that may tend to increase the time required to complete an audit.
- * Continue to define audit objectives as narrowly as possible to provide meaningful recommendations while avoiding scope drift.
- * Work with staff to improve writing skills to reduce time devoted to editing.

Challenges: While the cost per audit is a useful measure, concerns about efficiency cannot compromise the integrity of the audit process. Technically, there are no shortcuts; we must adhere to generally accepted government auditing standards as issued by the Comptroller General of the United States and the U.S. Government Accountability Office (see our Professional Standards Manual on the website).

Measure 1c: Value of identified savings or cost recovery

Purpose: In some cases, a performance audit will identify actual or potential savings or opportunities for cost recovery from contractors, grantees, or beneficiaries of incentive programs. Although not the only measure of the value of performance audits, savings are sometimes quantifiable. However, it is impossible to forecast such savings because we don't always know in advance what audits will be performed and, in any case, savings cannot be predicted before conducting the audits. Therefore, we will report savings and cost recoveries in the performance report but will not set targets.

Not all audits are about cost-effectiveness. Some relate to service delivery, public safety or consumer protection and, therefore, do not result in estimates of quantifiable savings. For example, our 2019 audit of Child Protection Registry (CPR) found that 20% of all Supervisory Unions made no CPR checks and another 13% were not complete. By failing to check the CPR, an organization could unknowingly license or employ individuals who have abused or neglected children in the past. Fortunately, the Agency of Education has already begun expanding its assistance to schools, so we expect improvements very soon.

Target: NA

Strategy: In choosing audit topics, we will focus on those programs and entities that have a high operational or financial risk to the state, have had performance problems in the past, or have never been subject to a performance audit. We may also focus on public safety and consumer protection.

Challenges: None

Measure 1d: Percentage of audit recommendations implemented within one year and three years

Purpose: The SAO makes recommendations designed to improve the operations of state government. For our work to produce benefits, state entities and/or the General Assembly must implement these recommendations. The greater the number of recommendations implemented, the more benefit will be realized from our audit work. We have no power to compel state entities to implement our recommendations, but a measure of the quality and persuasiveness of our audits is the extent to which our recommendations are acted upon. Experience has shown that it takes time for some recommendations to be implemented. At present, we track recommendations after one and three years after audit reports are issued.

Targets:

- * Percent of recommendations implemented within one year 50%
- * Percent of recommendations implemented within three years 75%

Strategy: Annually review auditee corrective actions in response to audit recommendations. Recommendation follow-up will be performed for audit reports issued one and three years prior to the calendar year (e.g., the follow up in the 2021 performance report is for audits issued in calendar years 2018 and 2020).

Challenges: Absent any authority to compel implementation, we have no direct control over this outcome measure.

Measure 1e: Number, potential savings, and outcomes from non-GAGAS investigations

Purpose: As noted above, the SAO conducts non-GAGAS investigations in addition to performance audits. These investigations are intended to achieve the same goals as performance audits; namely, to identify opportunities to improve the value and effectiveness of state government.

Targets: As with performance audits, we cannot predict savings, but we will report potential savings or cost recoveries identified through non-GAGAS investigations

Targets:

- * Number of non-audit inquiries CY 2022 4
- * Value of identified savings or cost-recovery NA
- * Outcomes NA

Strategies: The Government Research Analyst reports directly to the State Auditor and works closely with the Deputy Auditor as well. In addition, both audit and non-audit staff will provide occasional assistance in the execution of non-GAGAS investigations.

Challenges: None

GOAL 2: COMPLETE MANDATED FINANCIAL AND COMPLIANCE AUDITS ON SCHEDULE

The financial audit must be completed by December 31st (ACFR) and the federal compliance audit (Single Audit) by March 31st at the latest. The Commissioner of the Department of Finance & Management prepares the financial statements, which are audited by CLA (under contract to the SAO), and CLA also conducts the Single Audit.

Measure 2a: Complete the ACFR and Single Audit by statutory deadlines

Purpose: Although the SAO no longer conducts the ACFR and Single Audits, we work with CLA to help ensure that these audits are completed on time.

Targets

FY2021 Single Audit and FY2022 ACFR - Both audits completed on time

Strategy: Actively monitor the process through status meetings with staff from CLA, and the Department of Finance & Management and other involved parties. We troubleshoot issues as they arise.

Challenges: Meeting the targets is dependent on CLA, and the state's financial management team.

Measure 2b: Number of repeat Single Audit findings

Purpose: Under a contract with the SAO, CLA annually audits selected state entities to determine if they comply with federal requirements in a variety of control areas, such as program eligibility and cash management. Given the wide scope of this audit and the numerous requirements that are checked for compliance, it is not unreasonable for the state to have Single Audit findings. However, state entities should work hard to minimize the number of repeat findings to comply with federal requirements and, in some cases, reduce future audit costs. The SAO cannot compel state entities to implement the Single Audit recommendations, but we can report the number of repeat findings and track changes over time. In addition, we will continue to work with the parties to emphasize the importance of avoiding repeat findings. Although history provides some guidance as to the frequency of repeat audit findings, we will not set targets as they are beyond our control.

Targets: NA

Strategy: Work with CLA to provide guidance to state entities on how to fix repeat audit findings.

Challenges: There is no penalty for not implementing Single Audit recommendations. In some cases, it is possible that the cost of implementing the recommendations could exceed the cost of the resulting re-audits, which is a disincentive to curing the problem.

Measure 2c: Number of Single Audit re-audits

Purpose: A significant driver of the cost of the Single Audit is the number of programs that must be audited. According to rules established by the Federal Office of Management and Budget, some programs must be audited every year, such as Medicaid, while others are audited once every three years if they meet certain dollar thresholds.

Auditors issue adverse or qualified opinions in the Federal Single Audit when the State does not comply with federal programs in a way that can have a direct and material effect on those programs or undermines compliance with the requirements of those programs. When such opinions are issued, the non-compliant programs must be re-audited the next year, which adds to the State's auditing expenses. The SAO has no direct means of influencing this measure, so we will track and report the number of re-audits but will set targets.

Targets: NA

Strategy: Provide guidance to state organizations on how to minimize future re-audits and retain the authority to charge the entity the full cost of the audit if the failure to cure is avoidable.

Challenges: See Measure 2b Challenges above.

GOAL 3: NON-AUDIT SERVICES

Measure 3a: Number, type and outcomes of inquiries from legislators, municipalities, whistleblowers, and others

Purpose: The SAO regularly receives inquiries from various parties, as well as comments, allegations and audit suggestions from whistleblowers. We respond to all such communications and provide information, technical assistance,

and referrals as needed. The SAO cannot predict the number of such communications, but we can track them by type and outcome.

Targets: NA

Strategy: Respond promptly to all inquiries and requests for information.

Challenges: Time-consuming but a valued service to Vermonters.

Measure 3b: Satisfaction levels of those attending trainings supported by the SAO

Purpose: The SAO sponsors numerous trainings annually for financial professionals from the State, municipalities, schools, counties, and affiliated organizations. To gauge the usefulness of the trainings, we ask participants to evaluate the effectiveness of the presenters and the presentations.

Targets:

2022 -NA (see below)

Strategy: Seek input from state and local government officials and associations on training needs that would improve financial competence across the state. Obtain evaluations from training participants.

Challenges: A range of officials and professionals from different entities attend the trainings. In addition to recruiting quality presenters/panelists, our continuing challenge is to plan sessions that will meet the needs of a diverse audience. Although the SAO assists CLA in planning and organizing the trainings, we do not conduct the, so we don't set targets for satisfaction.

State Treasurer

Department/Program Description

The Office of the State Treasurer is a service and administrative department performing duties prescribed by statute. It is responsible for the management and accounting of the State's cash balances; processing of checks and EFT payments, and reconciliations of cash and associated accounts; administration and operation of three defined benefit pension plans, a deferred compensation plan and two defined contribution plans, for State employees, teachers, and Municipal employees; management of temporary investments of State funds; selling and servicing bonds authorized by the General Assembly; administration of the Unclaimed Property Act; and short-term borrowing when necessary.

The Auditor of Accounts audits the office annually. The performance of the office is a factor considered by the credit rating services when rating the State for the purpose of borrowing.

Funds requested are required to maintain the current range of services in a cost-effective manner. The service mix has been characterized by increases in the number of transactions and customers, particularly in the Unclaimed Property and Retirement Services divisions. Increased efficiencies have reduced the need for substantial budget increases.

The mission of the Office of the State Treasurer is to carry out the mandates of the law as efficiently and cost-effectively as possible while providing related services to the public, State employees, and members of the retirement systems; and to manage the cash balances and trust funds under custody of the State Treasurer in keeping with the highest fiduciary standards in order to maximize income without undue risk.

State Treasurer - Unclaimed Property

Department/Program Description

The primary function of the Unclaimed Property Division is to locate and return various forms of unclaimed financial property to the rightful owners or their heirs. Unclaimed property refers to accounts in financial institutions and companies that have had no activity generated or contact with the owner for a certain period of time. Common forms of unclaimed property include savings or checking accounts, stocks, uncashed dividends or payroll checks, refunds, traveler's checks, trust distributions, unredeemed money orders, insurance payments or refunds and life insurance policies, annuities, certificates of deposit, customer overpayments, utility security deposits, mineral royalty payments, and contents of safe deposit boxes. The Office of the State Treasurer acts as custodian to safeguard the assets until they can be claimed by the rightful owners or heirs. This program is governed by the provisions of 27 V.S.A. Chapter 18.

State Employees' Retirement System

Department/Program Description

The Vermont State Retirement System is the public pension plan provided by the State of Vermont for its various groups of State employees. It was created in 1944 and has undergone several major changes over the years, including a merger of the State Police and Motor Vehicles Inspectors' Retirement System and contribution and benefit reforms including the creation of a non-contributory retirement plan for rank-and-file state employees in 1981. In 1990 the Legislature mandated a return to a contributory system effective January 1, 1991 with full implementation by January 1, 1995. The Office of the State Treasurer is responsible for the administration of six different benefit provisions which include state police, judges and regular employees, plus an optional defined contribution plan available to exempt state employees only. The system is governed by Title 3, V.S.A., Chapter 16.

As of June 30, 2021, the Vermont State Retirement System (VSRS) had 8,192 active members, 1,716 inactive members, 771 terminated vested members, and approximately 7,716 retirees and beneficiaries.

Administration of the system involves the management of the assets of the retirement fund as well as the administration of the benefits and recordkeeping for the membership. The actuarial value of the fund assets was \$2,216 million as of June 30, 2021, compared with \$2,055 million as of June 30, 2020. The system paid approximately \$155 million in retirement benefits during fiscal year 2021.

Personal services and operating expenses totaled approximately \$3.9 million in FY2021, rise to \$4.9 million in the FY2022 budget and are budgeted at \$1.6 million in this request. The changes are primarily attributable to the transition of the Vermont Pension Investment Commission, an independent commission, per 2021 H.449 (Act 75). The reduction is also due in part to the elimination of direct billed investment manager fees. The pension investments are now substantially all with net of fee managers. These expenditures are made from the VSRS Pension trust funds.

The Governor's recommended budget for VSERS OPEB incorporates estimated retiree health insurance premium payments on a demand driven basis of \$42,216,204 and \$120,000 for retiree life insurance for FY2023, which equals the Treasurer's estimate of VSRS retiree benefit costs.

The ADC for the VSRS defined benefit retirement system for FY2023 consists of normal cost of \$36,883,018 and an unfunded liability contribution of \$89,055,382, for a total of \$125,938,400, which is an increase of \$5,970,631 or 4.98% from the FY2022 ADC. The Department of Finance & Management has included funding of \$124,188,398 in the FY2023 departmental salary and benefits budgets and an additional estimated \$1,750,000 is expected from employers whose employees are statutory members of VSERS.

The Vermont State Retirement System Board of Trustees is responsible for the administration of the system. This board consists of the State Treasurer, Commissioner of Human Resources, Commissioner of Finance and Management, one designated representative of the Governor, three members elected by the Vermont State Employees Association and one member elected by the Vermont Retired State Employees Association. Staff is provided by the Retirement Division of the State Treasurer's Office, which also administers the State Teachers' Retirement System and the Vermont Municipal Employees' Retirement System. Beginning in FY2023, the investment management of the retirement funds will be the responsibility of the independent Vermont Pension Investment Commission created in 2021 H.449 (Act 75), which replaces the previous Vermont Pension Investment Committee.

Municipal Employees' Retirement System

Department/Program Description

The Vermont Municipal Employees' Retirement System is a uniform, state-administered pension plan provided for municipal employees of the State of Vermont. It was established effective July 1, 1975 and is governed by Title 24, V.S.A., Chapter 125.

As of June 30, 2021, the Vermont Municipal Employees' Retirement System had 402 contributing employers, 7879 active members, 3,343 inactive members, 998 terminated vested members, and approximately 3,938 retirees and beneficiaries.

Administration of the system involves the management of the assets of the retirement fund as well as the administration of the benefits and recordkeeping for the membership. The actuarial value of the fund was \$837.1 million as of June 30, 2021, compared with \$761.5 million as of June 30, 2020. The system paid approximately \$39.9 million in retirement benefits during FY2021.

The Vermont Municipal Employees' Retirement System Board of Trustees is responsible for the administration of the system. This board consists of the State Treasurer, one representative designated by the Governor, and two municipal employees and one municipal official all three of whom are elected by the membership of the system. Staff is provided by the Retirement Division of the State Treasurer's Office which also administers the Vermont State Retirement System and the State Teachers' Retirement System. Beginning in FY2023, the investment management of the retirement funds will be the responsibility of the independent Vermont Pension Investment Commission created in 2021 H.449 (Act 75), which replaces the previous Vermont Pension Investment Committee.

Vermont Pension Investment Committee

Department/Program Description

The Vermont Pension Investment Commission (VPIC) manages investments for the Vermont State Employees' Retirement System (VSERS), Vermont State Teachers' Retirement System (VSTRS), Vermont Municipal Employees' Retirement Systems (VMERS), and the other public Vermont Retirement Systems, with integrity, prudence, and skill to meet or exceed the financial objectives of the beneficiaries of the funds. Commissioners are responsible for determining VPIC's overall investment management policies, which provide oversight of the annual portfolio asset allocation and investment strategy development process, among others. The investment process is designed to assure that the VPIC investment portfolio reflects the characteristics of the pension liabilities, including plan funded status, plan cash flows, and the inherent mismatches between the investment assets and the plan liabilities. It attempts to strike a balance between the portfolio risks required to achieve the actuarial investment return assumption and the more conservative risk profile appropriate for an investment portfolio designed to make guaranteed pension payments.

State Labor Relations Board

Department/Program Description

The Labor Relations Board is charged with resolving labor relations disputes under the State Employees Labor Relations Act, Municipal Employee Relations Act, Labor Relations for Teachers Act, State Labor Relations Act, Judiciary Employees Labor Relations Act, Independent Direct Support Providers Labor Relations Act, and Early Care and Education Providers Labor Relations Act. The Board determines appropriate bargaining units, conducts representation elections, and adjudicates unfair labor practice charges in cases involving relations between employers (State of Vermont, Vermont State Colleges, University of Vermont, municipal employers, school districts, and small private employers) and their employees. In addition, with respect to the State, State Colleges and UVM, the Board makes final determinations on employee grievances, and mediates and aids in resolving disputes. Further, there are other statutory provisions granting the Board jurisdiction to resolve disputes in various areas. The Board consists of six citizen members paid on a per diem basis. The Board has two employees - a full-time Executive Director and a part-time (20 hours per week) Clerk.

The major goal of the Board is to ensure that cases that come before it are resolved justly and expeditiously. The Board accomplishes this task through assisting the parties to resolve their disputes through settlement or through contested hearings and Board decisions. Through its decisions, which are published and indexed, the Board has developed a substantial body of labor relations law that provides guidance to labor and management in the state. This precedent provides for consistency and security among the workforce and management. A secure and stable workforce helps grow the economy and promotes safe and stable communities. The Board also provides training to attorneys, and representatives of management and labor. Its extensive website provides the public with easy access to its decisions and rules.

The ability of the Board to achieve its goal of resolving cases justly and expeditiously is significantly impacted by the Board's workload each year and the funds appropriated to support the Board's efforts.

The Board has developed several quantitative and qualitative performance measures to determine whether the strategies adopted by the Board are having a positive impact on indicators demonstrating whether the Board is achieving its goal of just and expeditious resolution of labor relations disputes.

The Governor's proposed FY 2023 General Fund budget of \$285,511 for the Board represents an increase of \$12,447 from our FY 2022 budget of 273,064. The net increase is due to the following:

The Finance Commissioner has directed that FY 2023 budgets may increase by 3%. "This figure acknowledges salary and benefits pressure experienced across state government, along with rising internal service fund costs." 8/23/21, Correspondence from Adam Greshin to Agency Secretaries Commissioners, Department Heads and Business Managers.

Increase in employee salary as a result of 4.15% increase for exempt employees and increase at the end of the probationary term for new Executive Director.

The increase in health insurance, \$4,245, and other IFS costs.

Increase in per diem expenses. It is anticipated that by the first quarter of fiscal year 2021 in-person hearings will return and the number of hearings and associated travel for Board Members will increase.

The Board has to move to a new location as a result of the sale of 13 Baldwin. There will be costs incurred from the move including new furniture, possible security costs during hearings, recording equipment for hearings and other equipment, for an increase in operating expenses of \$3,448.

VOSHA Review Board

Department/Program Description

The VOSHA Review Board (VRB) carries out its statutory mandate to provide reviews of and hearings on Vermont Occupational Safety and Health Administration (VOSHA) violations of workplace safety and health standards contested by Vermont employers.

Closed cases at end of fiscal year:

The VRB has no control over how many cases it receives from the VOSHA Division of the Department of Labor. However, once cases are received, the VRB strives to process them in a timely and efficient manner to keep the percentage of closed cases as high as possible, while also maintaining due process. During FY2021, the VRB handled a total of sixteen (16) cases, five (5) of which were carried over from FY20. By the end of FY21, 50% (8 cases) were closed and 50% (8 cases) remained open. As a matter of course, there will always be some open cases at the end of a fiscal year (FY), due to end of fiscal year filings and cases that are waiting for a decision or review process to be completed.

Closed cases in twelve months or less:

Regardless of the above, the VRB strives to process cases within twelve months of being filed as a benchmark for determining if cases are being efficiently and effectively managed until they are closed. Fiscal Year 2021 ended with 100% of closed cases closing within one year or less.

State Ethics Commission

Department/Program Description

The Vermont State Ethics Commission is responsible for accepting, reviewing, and tracking complaints of governmental conduct. If a complaint alleges a violation of governmental conduct regulated by law, of the Department of Human Resources Personnel Policy and Procedure Manual, or of the State's campaign finance law set forth in 17 V.S.A. chapter 61, the Commission will refer the complaint to relevant state entities.

The State Ethics Commission was created by Act 79 of the 2017 Vermont General Assembly which is codified in Chapter 31 of Title 3 of the Vermont Statutes Annotated.

The State Ethics Commission is composed of the following five members:

- one member appointed by the Chief Justice of the Supreme Court;
- one member appointed by the League of Women Voters of Vermont, who is a member of the League;
- one member appointed by the Board of Directors of the Vermont Society of Certified Public Accountants, who is a member of the Society;
- one member appointed by the Board of Managers of the Vermont Bar Association, who is a member of the Association: and
- one member appointed by the Board of Directors of the Vermont Human Resource Association, who is a member of the Association.

The State Ethics Commission Duties:

- To prepare, through its Executive Director, financial disclosure forms for all Executive Officers, Ethics Commission members, and candidates for State office, State Senator, or State Representative. 3 V.S.A. 1211, 1212, 1223, and 17 V.S.A. 2414. The candidate form is posted on the Secretary of State's web site, the others on the Ethics Commission website.
- To create and maintain a State Code of Ethics that sets forth general principles of governmental ethical conduct. 3 V.S.A. 1202.
- To prepare (as above) and receive for filing financial disclosure forms from State officers, state agency Secretaries and their Deputies, state department Commissioners and their deputies, State Ethics Commission Members, and Ethics Commission Executive Director.
- To accept, review, make referrals regarding, and track complaints of alleged violations of governmental conduct regulated by law, the Department of Human Resources Personnel Policy and Procedure Manual, and of the State's campaign finance law set forth in 17 V.S.A. chapter 61.
- To provide governmental ethics training, annually to legislators, State officers and state employees. 3 V.S.A. 1224.
- To Issue guidance and advisory opinions regarding ethical governmental conduct. 3 V.S.A. 1225(a) and (b).
- To report to the Vermont General Assembly regarding the number and a summary of the complaints made to it, the number and a summary of the guidance documents the Executive Director issued, and recommendations for legislative action to address State governmental ethics or provisions of the campaign finance law.

The State Ethics Commission mission is to practice and promote the highest level of ethical standards and accountability in state government. The Ethics Commission offers governmental ethics training to all public servants, accepts, reviews, and makes referrals of complaints of alleged violations of governmental conduct regulated by law, provides information to the public, and issues ethical guidance and advisory opinions based on governmental codes of conduct and the General Principles set forth in its State Code of Ethics. The Ethics Commission accepts complaints from any source regarding government ethics in all three branches of State government or violations of the States campaign finance laws, 3 V.S.A. 1223(a). The Ethics Commission refers and tracks complaints of violations of governmental conduct regulated by law. 3 V.S.A. 1221. The Commission serves as a resource to public servants and the general public.

2020 saw the Ethics Commission redouble its efforts to build a foundation for ethics awareness in state government and eventual meaningful ethics oversight and enforcement. The Ethics Commissions primary focus for 2020 was its work toward a statutory code of ethics.

In late 2019, the Ethics Commission submitted to the Legislature proposed changes to 3 V.S.A. Chapter 31. The proposed changes became 2020s H.634. One of the changes requested was a new provision: The Ethics Commission should submit to the Legislature a draft code of ethics for statutory enactment. The Ethics Commission sees a statutory code of ethics as essential to ethics in state government. A statutory code is needed to provide legally based advice and guidance. It is indispensable if there is ever to be ethics enforcement in Vermont. S.198 also included the draft code of ethics mandate. S.198 added that the Ethics Commission should submit options for ethics enforcement. Preempted by COVID-19, neither bill became law. The Ethics Commission committed to the tasks anyway. The House and Senate Government Operations Committees asked the Ethics Commission to seek public input for the ethics code before submitting its draft code of ethics to the Legislature. A full explanation of the Ethics Commissions 2020 efforts may be seen on its webpage https://ethicscommission.vermont.gov/ and in its annual report. https://ethicscommission.vermont.gov/sites/ethics/files/2020%20Submitted%20Annual%20Report%20Jan%2011%202020.pdf

H.634 also contained the Ethics Commissions request that it be given an administrative position to handle administrative details currently handled by its half-time Executive Director.

Additionally, the Ethics Commissions Executive Director played a larger role in 2020 providing ethics education.

Attorney General

Department/Program Description

MISSION STATEMENT

It is the mission of the Attorney General's Office (AGO) to protect and promote the health and safety of all Vermonters by providing independent legal counsel and representation to the State of Vermont.

The AGO is comprised of approximately [140] people, including approximately [90] Assistant Attorneys General (AAGs). Approximately 91 positions are part of the AGO payroll. Approximately 49 positions are AAGs and staff embedded within over ten partner agencies, including most Agency of Human Services (AHS) departments.

CIVIL DIVISION

The Civil Division represents the State of Vermont and its agencies, officers, and employees who are named in civil lawsuits brought in state and federal courts, including personal injury, wrongful death, employment, and civil rights actions. For example, the Division is currently defending employees of the Department for Children and Families against a claim that they should have foreseen a child's death at a private daycare facility.

One of the most important roles of the Civil Division is to defend legislative acts and administrative rulings that are challenged on constitutional or other grounds. For example, the Division is defending the Department of Vermont Health Access against a claim that Vermont Medicaid unconstitutionally discriminates against out-of-state hospitals. The Division is also defending a challenge to the legislative privilege embodied in the Vermont Constitution's Speech and Debate Clause. With the Solicitor General, the Division is defending two federal lawsuits challenging the process by which the State pays for some students to attend independent schools, which is being challenged on the theory that the State unlawfully discriminates based on religious status.

In addition, the Civil Division plays a role in enforcing state law and may bring affirmative actions on behalf of the State. For example, the Division enforces Vermont's campaign finance laws, at times bringing actions in state court, and performs investigations of complaints made regarding violations of such laws.

The Division also litigates civil appeals before appellate tribunals such as the Vermont Supreme Court, the United States Courts of Appeals, and the United States Supreme Court. Of note, the Division recently won an appeal defending a judgment in favor of the State and two Department for Children and Families employees after a two-week trial of a lawsuit alleging that the State's actions were negligent.

CRIMINAL DIVISION

The Criminal Division is a statewide prosecutorial agency. The Division prosecutes a wide variety of serious criminal offenses including homicide, sexual assault, and other violent crimes. Additionally, the Division reviews all officer-involved shootings, as well as other use-of-force cases involving law enforcement officers as needed.

The Division emphasizes the prosecution of child exploitation crimes, including possession and trafficking of child sexual abuse materials (CSAM, formerly referred to as child pornography) the manufacturing of CSAM, online enticement of children by sexual predators, and other related child sexual exploitation crimes. Effective October 1, 2015, the AGO became the lead agency responsible for the operations of the Vermont Internet Crimes Against Children (VT-ICAC) Task Force. The VT-ICAC Task Force is comprised of three AGO Criminal investigators and affiliate agency members who are employed by state, local, and federal law enforcement agencies. In FY2021, with a sustained increase in caseloads, the Attorney General reallocated/ reclassified a Civil investigator and obtained its third AGO Criminal investigator.

In November 2017, VT-ICAC obtained an Electronic Device Detection Dog named Mojo. Mojo is a yellow Labrador retriever who is trained in the detection of devices that can contain digital files. Mojo can locate hidden micro Secure

Digital cards, USB drives, cellphones, and other electronic media. Mojo is utilized at search warrant scenes to locate hidden devices and has been responsible for locating numerous hidden devices.

Since the AGO became the lead agency, the number of reported crimes against children received by VT-ICAC have increased dramatically each year.

The following is a list of trends comparing VT-ICAC data from SFY2016 to SFY2021:

*Number of cyber tips received for investigation of crimes against children

SFY2016 = 126 SFY2021 = 397; % of Increase = 215%

*Number of investigations performed by VT-ICAC

SFY2016 = 157 SFY2021 = 255: % of Increase = 62%

*Number of search warrants crafted and executed by VT-ICAC

SFY2016 = 43 SFY2021 = 179; % of Increase = 316%

*Number of arrests pursuant to VT-ICAC investigations

SFY2016 = 16 SFY2021 = 42; % of Increase = 162%

Every one of those cyber tips and investigations represent countless hours of detailed investigations and complex forensic examinations. In SFY2021, VT-ICAC examined 69,630 gigabytes of data. For perspective, a gigabyte can hold a standard 1.5 hour length movie (https://helpdeskgeek.com/networking/memory-sizes-gigabytes-terabytes-and-petabytes-explained/). This means the VT-ICAC viewed roughly 104,445 hours of child abuse data last year.

In addition to investigations and forensic examinations, VT-ICAC also provides significant education and community outreach. Educating families and children is an integral part of keeping our community safe. In SYF2021, VT-ICAC completed 88 presentations to approximately 1,246 attendees at various events.

While the above statistics represent an increase in work for ICAC, those numbers would likely have been even higher if it were not for the unprecedented issues created by the ongoing COVID-19 pandemic. For example: the courts were closed for an extended time, creating barriers to arraigning new defendants; many of our affiliate agencies stopped taking on cybertip investigations for an extended time; and presentations and community outreach were very restricted. Unfortunately, many of these issues may persist due to COVID-19 variants. Additionally, adding to the issue of backlogged cases is the declining number of available officers to assist VT-ICAC. The number of officers who are available to assist at affiliate agencies on a part-time basis has significantly declined. Affiliate agency personnel (non-AGO personnel) who assist VT-ICAC do so on a limited part-time basis as a collateral duty in addition to regular daily duties. When those resources are restricted, more is shouldered solely by the AGO members of VT-ICAC, which is currently limited to three full-time officers for the entire state.

In addition to ICAC cases, the Criminal Division carries a general criminal caseload that includes a wide variety of serious criminal matters throughout the state. The Division reviews all incidents involving the use of deadly force by police officers in the state. The Division also prosecutes homicides throughout the state. The Criminal Division took on the complex prosecution and evaluation of two homicide cases and one attempted homicide case that were dismissed from the Chittenden County States Attorney's Office. The AGO refiled all three cases. This resulted in continued prosecution of the two murder cases as well as the resolution of the attempted murder case with a plea of guilty to Attempted Murder in the Second Degree, with a sentence of 20 years to life, all suspended but 10 years, and 40 years of State supervision with special conditions including, but not limited to, mental health treatment. Additionally, this year the Division agreed to handle the intricate prosecution of a baby death out of Windsor County.

The Division also prosecutes serious felonies such as sexual assaults and serious child abuse cases. In SFY2021, the Criminal Division, partnering with other agencies, completed its investigation into the Vermont Catholic Diocese regarding alleged abuse at St. Joseph's Orphanage. The Division works closely with county, state, and federal law enforcement and provides support to county prosecutors, including processing extraditions and supporting in serious felony cases.

Additionally, the Division works with the Legislature on a wide range of criminal justice issues and is an active participant in a number of committees and working groups that shape Vermont's criminal justice policy. Members of the Division participate in the Domestic Violence Fatality Review Commission, Child Fatality Review Team, Special Investigative Unit Policy Board, Domestic Violence Mandatory Training Subcommittee of the Vermont Training Council, Vermont Council on Domestic Violence, Vermont Council on Domestic Violence Judicial Caucus, the Vermont Human Trafficking Task Force, Vermont STOP Advisory Team through the Center for Crime Victim Services, Vermont steering committee for Project Safe Neighborhood through the US Attorney's Office, the Firearms Technical Assistance Project (FTAP), Vermont Rules Committee, and the Vermont Sentencing Commission.

Housed within the Criminal Division, the Vermont Medicaid Fraud and Residential Abuse Unit (MFRAU) is designated as the Medicaid Fraud Control Unit for Vermont. Specifically, MFRAU is responsible for investigating and prosecuting: (a) fraud by healthcare providers in the Vermont Medicaid program; (b) fraud in the administration of the Vermont Medicaid program; and (c) the abuse, neglect, and financial exploitation of individuals who live in skilled nursing facilities and board-and-care facilities in Vermont regardless of payor. The Unit also brings affirmative civil enforcement actions on behalf of the State related to Medicaid fraud and abuse and neglect of vulnerable adults, and cases arising under the Vermont False Claims Act involving Medicaid Fraud.

In December of 2020, MFRAU's jurisdiction expanded with the passing of the Consolidated Appropriations Act of 2021, which amended the provisions of the Social Security Act to allow Medicaid Fraud Control Units to receive Federal Financial Participation (FFP) to investigate and prosecute abuse or neglect of Medicaid recipients in non-institutional settings. With the dramatic increase in the provision of Home and Community-Based Services (HCBS), many Medicaid beneficiaries had remained outside of the protective umbrella provided by the MFRAU in its previous jurisdictional authority. In Vermont, there are approximately 9,000 individuals who receive care through HCBS waiver programs (Choices for Care, Brain Injury, and Developmental Services), of which an estimated 6,000 individuals receive their care in a non-institutional setting. The caveat to MFRAU's recently extended authority is that the alleged abuse or neglect must have occurred to a Medicaid recipient and the conduct under investigation must have occurred in connection with the provision of Medicaid services. (MFRAU cannot investigate personal crimes against a Medicaid recipient that are unrelated to the provision of services paid for by Medicaid.) Additionally, this expansion allows MFRAU to investigate cases of abuse or neglect involving a child who is a Medicaid beneficiary.

There are generally three classifications of settlements in the Unit: Multi-State Global Settlements, Vermont Civil Settlements, and Vermont Criminal Restitution Orders. The civil settlements include the Medicaid damages, comprised of both the federal and state shares, and often, additional penalties and recoveries. Criminal cases with restitution-only orders include Medicaid damages. In SFY2021, the Unit obtained settlements and restitution judgment orders totaling \$4,770,270.00 in Medicaid overpayments and additional recoveries. The Unit filed two new criminal cases and obtained nine criminal convictions.

One high-profile example of the MFRAU unit work this past year was the criminal conviction of a paid caregiver. This case was a result of a MFRAU investigation into the untimely death of a 20-year-old disabled male who died of septic shock from numerous infected bed sores that had not been cared for properly by his caregiver. The caregiver plead guilty to two counts of Felony Medicaid fraud and Neglect of a vulnerable adult. She was sentenced to one to three years to serve.

The MFRAU Unit also works with the United States Attorney's Office (USAO) for the District of Vermont. An example is a civil settlement following a collaborative investigation involving Healthcare and Rehabilitation Services of Southeastern Vermont (HCRS), a designated agency. The investigation revealed that for a period of nearly ten years, HCRS employed an excluded individual and submitted claims on the person's behalf for reimbursement to Medicare, Med-

icaid, and Tricare, thereby violating the federal False Claims Act and the Vermont False Claims Act. As part of the resolution, HCRS paid the United States and State of Vermont a total of \$170,037.76.

MFRAU receives 75 percent of its funding from the U.S. Department of Health and Human Services under a grant award totaling \$1,074,260 for FFY 2022. The remaining 25 percent, totaling \$358,085 for FFY 2022, is funded by the State of Vermont through recoveries discussed below. In any given civil settlement, MFRAU receives a portion of the collected penalties or fines, as opposed to recovered Medicaid funds. Per a Memorandum of Understanding with the Program Integrity Unit in the Department of Vermont Health Access (DVHA), these additional penalties are split 50/50 between the DVHA Program Integrity Unit and the AGO MFRAU. These additional monies received by MFRAU pay for the 25 percent state share of the MFRAU Unit's budgeted operations. Not all settlements include additional penalties. Examples of the types of settlements MFRAU enters into are below.

*Multi- State Global Settlements: settlements are typically paid in one lump sum, payment which includes Medicaid damages, as well as additional penalties and recoveries. As mentioned above, MFRAU receives 50 percent of these established additional penalties and recoveries, less any relator fees.

*Vermont Civil Settlements: settlements are made on a case-by-case basis. Settlements can include additional penalties in addition to Medicaid recoveries. Often cases involve settlements for Medicaid damages only. Some cases also have been settled to reimburse shortages only to the federal government. In fine-only neglect and abuse cases brought under Title 13, 100 percent is retained by the MFRAU.

*Vermont Criminal Restitution Orders: Criminal cases with Restitution-Only Orders only include Medicaid damages. There are no additional penalties or recoveries. MFRAU does not receive any of the restitution paid in criminal cases.

ENVIRONMENTAL PROTECTION DIVISION

The Environmental Protection Division litigates environmental cases of statewide and national importance. The Division files civil and criminal actions (the latter in conjunction with the Criminal Division) to enforce Vermont's environmental laws based on referrals from the Agency of Natural Resources (ANR), the Natural Resources Board (NRB), and the Agency of Agriculture, Food, and Markets (AAFM). The Division also participates in independent actions taken by the AGO to protect Vermont's natural environment and citizens from harmful pollution. Additionally, the Division brings civil cases to recover monies expended from state environmental clean-up funds on contaminated properties. The Division also handles environmental appeals before the Vermont Supreme Court. When the State of Vermont and its agencies are sued in state or federal court over environmental matters, the Division handles the defense. On a national level, the Division participates in a robust variety of joint initiatives with other states, most notably in proceedings to fight global warming and protect water quality.

In addition, the Division provides legal advice and counsel to ANR, the NRB, and other state agencies on environmental matters. Two AAGs in the Division provide legal services to AAFM. These two AAGs provide general counsel-type advice to the Agency, represent the Agency in matters before the Public Utility Commission (PUC) and the environmental court, and assist with administrative and civil enforcement of agricultural laws.

While the State's overall enforcement efforts slowed slightly in 2020 due to the pandemic, in the past year, the Division concluded various civil enforcement cases for violations of state environmental laws. These included an action against a northern Vermont solid waste district relating to alleged violations of Vermont's solid waste management rules, Act 250, and permits issued by ANR and the NRB; an action against a Windham County pig farm; an action against a central Vermont car wash for violation of Vermont's underground storage tank rules; and actions against farms in Addison County and Franklin county relating to discharge of agricultural waste to waters of the State of Vermont. The Division remains committed to its role in enhanced state enforcement efforts in the agricultural water quality area and continues to work closely with AAFM and ANR to identify and pursue appropriate agriculture water quality cases.

In SFY2021 and SFY2022 to October 11, 2021, the Division won awards or recoveries of approximately \$646,750 for the State of Vermont.

Office of the Attorney General

Division AAGs remain active in litigation against DuPont, 3M, and other manufacturers of PFOA and related chemicals for contaminating Vermont. The cases involve claims for damages to Vermont's natural resources; harm to Vermont's groundwater; defective products; duty to warn; negligence; public and private nuisance; trespass; and violations of Vermont's Voidable Transactions Act. One of the lawsuits focuses exclusively on firefighting foam that contains PFOA and related chemicals. The cases were filed in Chittenden Superior Court in June of 2019; the firefighting foam case has been moved to federal court as part of a federal multi-district litigation with similar cases from around the country. Division AAGs are working closely with ANR and outside counsel to manage and pursue the cases. In the case that remains in the Chittenden Superior Court, the State successfully fended off an attempt by the Defendants to dismiss the entirety of the State's case. The State's case has been designated as a complex action by the Vermont Judiciary and a Superior Court Judge has been assigned.

In September of 2021, the Attorney General's Office filed a major consumer protection lawsuit against fossil fuel companies for deceptive and unfair practices. The lawsuit alleges past and ongoing violations of Vermont's Consumer Protection Act for concealing crucial information and disseminating misleading statements and advertising about fossil fuels and climate change. The lawsuit names Exxon Mobil Corporation, Shell Oil Company, Sunoco LP, CITGO Petroleum Corporation, and related companies as defendants. While this litigation is a Consumer Protection Act case, Division AAGs are working with outside counsel to manage the litigation and pursue the claims. The case was filed in Chittenden Superior Court and remains in the early stages of litigation.

Finally, on the national level, the Division remains very active in multi-state actions to protect Vermont's environment and public health. The Division has continued to maintain Vermont's leading role in fighting to reduce greenhouse gas emissions, joining a number of actions to resist rollbacks by the United States Environmental Protection Agency. Other recent multi-state actions include stringent opposition to rollbacks in multiple areas to preserve energy efficiency and protect endangered species.

GENERAL COUNSEL DIVISION

The General Counsel and Administrative Law Division (GCAL) provides legal advice and representation to Vermont's constitutional officers, appointed officials, and state agencies on a wide variety of topics and in multiple forums. GCAL is the primary source of legal services to the Agency of Transportation, including the Department of Motor Vehicles, the Tax Department, the Department of Buildings and General Services, the Treasurer's Office, including the Retirement Boards and Pension Investment Committee, the Agency of Digital Services, the Department of Liquor and Lottery, the Veteran's Home, the Criminal Justice Training Council, and the Board of Medical Practice. GCAL is also a source of legal services to the Military Department, the Agency of Education, and other agencies. The Division includes the Community Justice Unit, described below.

GCAL AAGs handled approximately 503 contested matters in various administrative and judicial forums in 2021. AAG representation in such matters avoids substantial costs to the State in many cases, and in other cases brings in funds. Members of the Administrative Law Unit investigate and prosecute disciplinary complaints against physicians and other health professionals before the Medical Practice Board and represent the State in labor matters before the Vermont Labor Relations Board, Vermont courts, and the Human Rights Commission. Transportation litigation includes federal and state environmental permitting for transportation projects, defense of contractor claims for additional compensation, motor vehicle law, challenges to DMV enforcement activities, eminent domain proceedings to acquire needed land and rights for State transportation projects, diesel fuel tax administration, and defense of tort and property law claims.

Contested tax matters include audit assessments and refund denials for all tax types, as well as enforcement and collections of unpaid liabilities. The Tax Unit also supports the property valuation work of the Department, including litigating property valuation appeals of complex properties such as hydroelectric generation facilities. This year, the Tax Unit aided the Department by providing substantial general counseling regarding the sourcing of income, as employees were relocated away from their "state of employment" during the pandemic. The Tax Unit drafted two regulation updates and guided them through the promulgation process. It also helped implement rules and guidelines for four COVID economic recovery grants programs, which together issued over \$200 million in federal funds.

The AAG assigned to the Treasurer's Office advises the Treasurer and represents the State in complaints before the Retirement Boards, garnishment actions in Superior Court, and appeals before the Vermont Supreme Court. The AAG assigned to the Department of Liquor and Lottery represents the State in enforcement actions against licensees.

GCAL AAGs provide legal advice on agency-specific issues as well as issues common to all agencies such as public records, open meetings, and contracts and other legal agreements. The Division assists with drafting and negotiating complex contracts, including investment and technology contracts. The Division reviewed approximately 2,180 contracts, grants, and other agreements in 2021. The AAG assigned to the Department of Buildings and General Services advises the Commissioner regarding real estate, government procurement, and the use of state property. The AAG assigned to the Agency of Education provides advice and representation in contested licensing matters, education-related litigation such as challenges to Act 46, and constitutional matters. AAGs assigned to the Agency of Digital Services provide advice on complex information technology contracts and processes.

The Community Justice Unit administers the statewide Court Diversion programs, including the Youth Substance Abuse Safety Program and DLS Diversion, and Pretrial Services programs. (Court Diversion and Pretrial Services are funded through a separate appropriation.) In SFY2021, these programs handled approximately 4,800 referrals, helping to reduce demands on the criminal justice system and connect defendants to services to meet their needs and reduce the risk of re-offense. The Community Justice Unit's statewide administration of pretrial services and diversion programs increases public safety by addressing the underlying causes of criminal activity and recidivism. It connects individuals to mental health and substance abuse treatment, and other needed services. Diversion programs also address the needs of victims following a restorative justice approach. Services are provided in all counties.

In addition, the Community Justice Unit supports the Mental Health Crisis Response Commission, created by Act 45 of 2017. The Commission is responsible for investigating problematic law enforcement encounters with individuals suffering from mental health crises and provides system-wide recommendations for how to improve mental health services and prevent tragic encounters. Following Act 57 of 2021, the Unit represents the AGO on the Forensic Care Working Group.

The Community Justice Unit is also involved in leading and supporting racial justice initiatives. These include redrafting a model Fair and Impartial Policing Policy with the Vermont Criminal Justice Council. The Attorney General convened, and the Unit provides support for, the Racial Disparities in the Criminal and Juvenile Justice System Advisory Panel. This Panel looks to address racial disparities and implicit bias throughout the criminal justice system.

In addition, the Unit participates the Justice Reinvestment Working Group, the advisory committee to the Cannabis Control Board, and other committees related to domestic violence response and probation conditions related to indicators of risk.

As directed by Act 166 (2020), the Community Justice Unit is working with the AGO Civil Rights Unit and community stakeholders to develop potential models for civilian oversight of law enforcement to present to the General Assembly.

Finally, the Community Justice Unit supports the AGO's efforts to provide expungement clinics. In cooperation with county State's Attorneys, the AGO offered seven remote expungement clinics in FY 2021 and the first part of FY 2022. As part of these clinics, 55 AAGs, paralegals, and interns researched individual records and provided administrative support to Vermonters who filed over 180 petitions to Superior Court for their criminal records to be expunged. The most common reasons that people seek expungement are to increase their employment opportunities and improve their housing options.

HUMAN SERVICES DIVISION

The Attorney General's Human Services Division serves as the trial and litigation counsel to all of the departments of the Agency of Human Services (AHS). These include the Departments of Health; Corrections; Mental Health; Disabilities, Aging and Independent Living; Vermont Health Access; and the Department for Children and Families - Family Services Division and Economic Services Division.

Office of the Attorney General

The Division's AAGs also advise the Agency and its component Departments on legal issues that arise indirectly from litigation, proposed legislation and rules, and public records matters. They provide significant input and assistance in the review, drafting, and approval of hundreds of contracts and grants for the Agency and its Departments.

The AHS AAGs litigate cases before every division of the Vermont Superior Court, the federal district court, the Vermont Supreme Court, federal appellate courts, the Human Services Board and other administrative forums. Cases often involve issues related to child protection (abuse and neglect), juvenile justice, involuntary mental health treatment and discharges therefrom, prisoners' rights, parole issues and furlough revocation, public assistance, medical care and entitlements, and federal and state grants. The nature of these cases has required more intense effort during the pandemic.

PUBLIC PROTECTION DIVISION

The Public Protection Division is comprised of three units: (1) civil rights; (2) consumer protection; and (3) anti-trust.

The Civil Rights Unit (CRU) provides guidance and direction to the Attorney General on social justice issues confronting Vermonters. It collaborates with the Appellate Unit on a range of civil rights issues affecting Vermonters at the national level, including immigration policy, racial justice, and sex discrimination and/or gender and LGBTQ+ equity issues. It enforces laws that: (a) protect victims of hate crimes; (b) protect Vermonters from discrimination and harassment in the workplace; (c) ensure fair employment practices, including reasonable accommodation for disabled workers, protection for nursing mothers, and parental and family leave, National Guard leave; and (d) protect workers who request flexible work arrangements.

The CRU produces informational materials and conducts regular outreach efforts with a wide range of stakeholders, including trade groups, educational institutions, civil rights advocates, immigrant support organizations, and youth entering the workforce. It also provides training and legal guidance for attorneys, business owners, human resources professionals, and labor representatives on topics ranging from drug testing to workplace harassment. In addition, the CRU provided instruction to new police officers regarding hate crime investigations. The CRU regularly provides legal guidance to the Vermont Legislature and the Office of Legislative Council regarding civil rights and fair employment practice legislation.

In federal fiscal year (FFY) 2021, the Unit:

*Opened 172 new employment discrimination investigations (155 in FFY2020);

*Conducted 261 investigations (271 in FFY2020);

*Resolved 53 employment discrimination investigations after initial review (questionnaire stage) (80 in FFY2020);

*Resolved 89 employment discrimination investigations after serving an administrative complaint (charge) upon employer (83 in FFY2020);

*Opened 70 files relating to alleged hate crimes or non-criminal bias incidents;

*Responded to 695 inquiries about Vermont's Civil Rights Laws (783 in FFY2020).

As part of its work, the Civil Rights Unit continues to be active in Vermont's COVID-19 response. Over the past federal fiscal year, the CRU fielded approximately 53 intake calls from members of the public related to COVID-19 and related issues, including vaccines. The CRU assessed the calls and referred those the AGO could not resolve to the appropriate agencies. In addition, many of the investigations the CRU has opened over the past year involve COVID-related matters, including disability accommodations issues. The CRU has also continued to draft guidance with regards to employment protections for workers during the pandemic.

The CRU continues to participate in a broad range of federal litigation addressing civil liberties issues of local or national import. Such actions include:

*Successfully blocking efforts to exclude non-citizens from the results of the 2020 Census;

*Successfully preserving the Due Process rights of refugees and other immigrants and to halt efforts to prolong the detention of unaccompanied children seeking asylum in unlicensed housing facilities;

*Successfully blocking proposed federal regulations that would limit workers' opportunities to be paid for the overtime they work and recover wages unlawfully withheld from them;

*Filing the CRU's first-ever joint enforcement lawsuit with the Equal Employment Opportunity Commission to combat systemic sexual harassment; and

*Joining amicus briefs supporting rights of the LGBTQ+ community in the workplace.

Finally, the Civil Rights Unit provided valuable technical support to the Legislature and Vermont agencies regarding issues such as fair employment practices, free speech, and fair and impartial policing.

The Consumer Protection Unit (CPU) investigates and enforces Vermont's Consumer Protection Act prohibiting unfair or deceptive practices. The CPU handles a wide variety of Vermont and multi-state matters and has re-oriented itself to respond to online and privacy threats in addition to standard consumer protection matters. The Unit is currently litigating unfair and deceptive practices involving a facial recognition company, and it settled a first-of-its kind case with a VOIP carrier of unwanted, illegal robocalls. The CPU continues to be a leader on privacy and data security, including by enforcing Vermont's data breach laws, protecting Vermonters through education about cyber security, and ensuring compliance with the first-in-the-nation data broker registry. The Unit continues pursuing justice on behalf of Vermonters affected by the opioid epidemic through significant litigation against opioid manufacturers and distributors. It also maintains an Elder Protection Initiative with the assistance of other divisions and units within the AGO. In addition, the CPU monitors disclosures by paid fundraisers soliciting for charities, foreclosure mediation, drug pricing, and broadcaster fees.

In SFY2021 and SFY2022 to October 15, 2020, the Public Protection Division settled or litigated over 26 cases totaling approximately \$5.4 million to the State, and involving restitution to consumers depending on claims. These figures exclude the recently announced settlement with opioid distributors McKesson, Cardinal, and AmerisourceBergen as well as opioid manufacturer Johnson and Johnson. These cases involved data breaches, false claims, pricing disputes, auto industry claims, robocall violations, price gouging, and other consumer matters.

In addition, the Tobacco Group enforces the 1998 Tobacco Master Settlement Agreement (MSA) and Vermont's tobacco statutes, including laws that prohibit the sale of certain tobacco products over the internet and laws that require all cigarettes sold in the state to meet reduced ignition standards. In SFY2021 Vermont received an annual tobacco payment of approximately \$25.5 million pursuant to the MSA.

The Tobacco Group also settled 15 cases involving multiple violations of Vermont's online tobacco shipping prohibition, resulting in \$483,250 in penalties or payments to the State. It also conducted audits of the cigarette and roll-your-own tobacco sales practices of a number of licensed wholesale dealers.

The Antitrust Unit investigates and prosecutes anti-competitive business practices such as attempts to monopolize, price-fixing, and market allocation agreements. It continues to participate in matters related to alleged attempts by drug manufacturers to bar generic competition, including the Suboxone antitrust litigation. It has joined major multistate litigation in antitrust matters involving Google and Facebook. It also engages in reviews of national and local mergers and acquisitions, continues to monitor Vermont's health care system, and works with the Office of Professional Responsibility and other agencies on anti-trust law issues.

Consumer Assistance Program

Office of the Attorney General

The Consumer Assistance Program (CAP) is located on the University of Vermont campus in Burlington. CAP is directed by the Chief of Staff and has five year-round positions, a graduate assistant, and 15-25 rotating student volunteers. CAP assists Vermont consumers with questions, referrals, and complaints using letter mediation. Handling over 11,000 constituent contacts last year, CAP is often the only point of contact many Vermonters have with the AGO. CAP staff review trends and monitor complaints for investigation by the CPU and provide information to the Legislature. CAP is a part of the Attorney General's Elder Protection Initiative.

In light of the pandemic, CAP's outreach efforts have been remote. A new partnership with the local television program, "Across the Fence," resulted in a bimonthly consumer connection program, with topics including: renting in Vermont, tips for buying a car, propane protections/heating resources and robocalls. CAP also published 13 blog posts. CAP continues its strong partnership with AARP and co-presented scam prevention strategies with the Better Business Bureau and AARP in May 2021. The filming of three scam prevention videos, with partial funding from a Sears grant, was also completed and will be shared widely in the next year. CAP participates in the national Consumer Complaint Specialists group and delivered two presentations to national partners on best practices for onboarding staff and delivering constituent services.

CAP's "Scam Alert" system, which provides urgent alerts about hot scams, has 8,500 subscribers. CAP issued alerts using this system on the Imposter/Grandparent scam, Department of Labor COVID-19 Benefits and Compensation Phishing scam, and Utility Disconnection scam. CAP also used social media to educate Vermonters about scams. Its most popular social media post this year was about the Imposter/Grandparent scam, which reached 14,038 users. CAP's warning to businesses about a Florida company claiming to renew business certificates reached 11,969 users. The total user reach for CAP-specific alerts via social media posts during the year was 46,262.

In the last year, CAP's position of Small Business Advocate was left open for budgetary reasons. In spite of this vacancy, CAP has continued to assist small businesses with complaint mediation.

Consumer Assistance Program SFY2021:

*Contacts/Requests for Information/Complaints: 11,284

*Consumer Complaints Processed: 1,156

*Consumer Complaints Resolved: 381

*Complaints Referred: 755

*Consumer Complaint Recoveries: \$453,340

Top 5 Complaint Areas Reported SFY2021:

(1) Retail; (2) Motorized Vehicles; (3) Home Improvements; (4) Fuel; and (5) Banking, Credit and Finance

SOLICITOR GENERAL AND APPELLATE UNIT

The Solicitor General is responsible for oversight of state and federal appeals of lower court decisions and has supervisory authority for the roughly 100 appeals handled by the AGO each year. Those appeals are argued in the Vermont Supreme Court, the U.S. Court of Appeals for the Second Circuit and other federal appellate courts, and the U.S. Supreme Court. In SFY2021, the Office opened 79 appeals - 6 in criminal matters and 73 in civil matters (including corrections and child protection). That docket included 36 appeals from child protection cases (mainly termination of parental rights appeals). These child protection appeals, which must be briefed on an expedited schedule set by court rule, continue to outstrip the available resources of the Human Services Division. In addition to the AHS AAGs, the Appellate Unit draws on its own resources and those of AAGs throughout the Office to brief and argue child-protection appeals.

Of the appeals opened in SFY2021, 12 were in federal appellate courts and the remainder were Vermont Supreme Court cases.

The Solicitor General and the Appellate Unit respond to requests for briefing from the Vermont Supreme Court and oversees the filing of "friend of the court," or amicus, briefs in that Court when appropriate. The Solicitor General also manages Vermont's authorship and participation in friend of the court briefs filed by states in the U.S. Supreme Court and federal appellate courts.

The Unit also frequently represents the State in civil, criminal, and administrative litigation that presents significant constitutional issues. Increasingly, this has included representing the State in multi-state litigation challenging actions taken by the federal government in the areas of civil rights, health care, and environmental protection. The two Appellate Unit AAGs are currently representing the State of Vermont in 10 pending multi-state litigation matters, five of which were opened in SFY2021.

BUDGET PRESSURES FOR FY2023:

*Annualization of Pay Act

*Benefit Rate Increases

*Internal Service Fund Increases

*New Web Hosting Services - The National Association of Attorneys General (NAAG) has hosted the VT AGO website for over 20 years. However, NAAG is now requiring the VT AGO to procure its own web hosting services.

*Case Management System (CMS) - As of February 2022, the AGO's existing CMS, which was procured in 2011, will no longer be supported by the vendor. This means that it will no longer receive patches or updates to protect against harmful viruses, spyware, and other malicious software. The AGO and ADS have been working together to begin the process of procuring a new CMS. An estimated funding need of \$1,102,567 is projected for FY2023, with a total funding need of \$3,587,100 projected through FY2029 (7 years). The AGO CMS is used by: AGO-funded personnel, agencyfunded personnel across numerous agencies and departments, the Diversion and Pretrial Services Program, and the Consumer Assistance Program at UVM.

MITIGATION OF BUDGET PRESSURES FOR FY2023:

Below outlines the significant steps the Attorney General has taken to meet the AGOs reasonable needs and reduce additional pressure on the general fund and Vermonters.

- 1. Since 2011 Chiefs' only base salary increases have been by way of ABIs
- 2. Since 2019 AAGs with salaries of \$100,000 or more, only base salary increases have been by way of ABIs.

Budget Summary

	FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Vermont Court Diversion

Department/Program Description

MISSION STATEMENT

Programs within Court Diversion share a common goal of diverting offenders out of the standard judicial system to community-based providers where they are held accountable, respond to the needs of victims, and address underlying reasons for their actions. The programs are Court Diversion, Youth Substance Awareness Safety Program (YSASP), and the DLS (Driver License Suspension) Program.

Pretrial Services' goal is to address defendants' substance use and mental health treatment needs and thereby limit future adverse involvement with the criminal justice system. Pretrial Services encompass risk assessment and needs screening, court-ordered pretrial services, and the Tamarack Program.

PROGRAM DESCRIPTION

The COVID-19 pandemic continues to affect referrals to Diversion and Pretrial Services, as well as the delivery of services as programs adapt to the changing environment. Last fiscal year, the referrals to Pretrial Services numbered the same as in FY2019 though were fewer in number than in FY2020. Compared to the previous years, FY2021 Diversion referrals decreased with the change in Court operations and charging decisions of State's Attorneys and fewer young people were referred to YSASP as a result of youth gathering in different ways during the pandemic.

During FY 2021, prosecutors referred over 1,940 cases from Criminal Division to Court Diversion and the Tamarack program. Family Division referrals numbered 300 (including 81 Youthful Offenders) and approximately 970 youth were referred to the Youth Substance Awareness Program. Over 730 people participated in Pretrial Services.

Staff at the community-based Diversion and Pretrial Services programs continued to adapt to the pandemic, creating safe outdoor meetings places, limiting indoor meetings, and continuing to rely on phone and social media to maintain contact with participants. Restorative panels have been held virtually, allowing program participants to meet with victims and community volunteers and develop plans to repair the harm caused. County-based programs' operations were tailored to their local court's protocols. Pretrial Services coordinators may not enter DOC facilities and offer screenings over the phone.

The challenges presented by COVID-19 persist: staff find it harder to develop relationships with program participants with less opportunity for in-person meetings, and participants and staff struggle with financial and other stressors arising from the pandemic.

The AGO provides grants for the provision of services statewide: in twelve counties with non-profit agencies and in two counties under a municipality. All the programs belong to the Vermont Association of Court Diversion and Pretrial Services.

A. COURT DIVERSION

Court Diversion began in the 1970's by diverting minor offenders out of the court system to community-based programs staffed largely by volunteers. During the past 40 years, Diversion has expanded to work with repeat offenders of all ages and operates two other programs: one for civil violations of underage possession of alcohol, marijuana, and buprenorphine (YSASP), and one designed to help people regain their driver's license while paying fines and fees owed to the State (DLS).

Through Court Diversion, offenders have the opportunity to accept responsibility for their actions, to repair the harm done, and to avoid a criminal record. The State's Attorney refers individuals to the county program. Most diversion clients are first- or second-time offenders charged with misdemeanors, although felony charges are also referred. Following a restorative justice approach, victims are invited to describe their needs and, if they choose to do so, join

Office of the Attorney General

community members in meeting with clients to develop contracts that repair harm to the extent possible and address the offense and underlying reasons for the client's actions. Clients, through their contracts, agree to things like paying restitution, participating in counseling or substance use treatment, and writing letters of apology. Participation in the program is voluntary and, upon successful completion of the program, the State's Attorney dismisses the case. If an offender does not complete the terms of the contract, the case is returned for prosecution.

In 2017, Court Diversion expanded to work with people with substance use or mental health treatment needs regardless of their prior criminal history (3 V.S.A. Subsection 164 (b)(2)). This new program was named Tamarack, to differentiate the services for first- and second -time offenders in Court Diversion.

In addition, Court Diversion programs run the Youth Substance Awareness Safety Program (YSASP). Youth, ages 16 to 20, caught with alcohol or marijuana (an ounce or less), and, as of this year, 224 milligrams or less of buprenorphine, are referred by law enforcement to YSASP. Youth participate in a substance use screening and brief educational intervention tailored to the individual, and those at higher risk are referred for an assessment and any recommended treatment with a substance use clinician. If an individual fails to complete the contract, the ticket is sent to the Vermont Judicial Bureau, which, upon adjudication, levies a fine and the individual's driver's license is suspended. During FY2021, 971 referrals were made to YSASP. Close to 90 percent of the youth who engaged in the program completed it successfully.

The Civil Driver's License Suspension (DLS) Diversion Program helps individuals whose driver's license remains suspended only because of fines and fees owed to the State to obtain a valid license while paying off that debt. Staff help participants create a workable payment plan and submit a Motion and contract to the Vermont Judicial Bureau (VJB). After the VJB hearing officer approves the contract, the Bureau informs DMV that the person is eligible to have their license reinstated. Diversion staff collects payments, sends them to the VJB, and otherwise monitors the contract. Approximately 120 individuals regained their driving privileges while paying off their debt through this program during FY2021.

More significantly, staff also assist individuals who are not eligible for the program, helping them to identify what is needed to get reinstated and to navigate government and insurance systems. During FY2021, close to 1,000 people received assistance identifying license-reinstatement requirements and often the means to meet those requirements.

B. PRETRIAL SERVICES

Pretrial Services encompasses risk assessment, needs screening, and court-ordered pretrial services. The aim of these services is to improve the referred person's health and reduce future adverse involvement in the justice system. Staff support is also designed to increase an individual's success with court requirements particularly regarding substance use and mental health needs.

Needs screenings are offered to individuals lodged, as well as to defendants referred for services. The screening results indicate whether substance use or mental health treatment is indicated. The results of needs screenings direct the focus of Pretrial Services Coordinators' work. In addition, this information may lead to a person connecting with a treatment provider on their own, and potentially to a decision by a prosecutor to refer the person to the Tamarack Program, and/or for the court to issue an order for further engagement with Pretrial Services.

Recent changes to Vermont law (13 V.S.A. Subsection 7554c) govern the offering of a risk assessment when a judge requests an assessment be made to someone lodged and unable to post bail within 24 hours. The results are provided to the person assessed, the defense attorney, the prosecutor, and the court. The assessment is for risk of non-appearance and of re-offense, and the results of the assessment may be used by a judge to inform bail or conditions of release.

Pretrial Services are for youth aged 18 and older and adults thought to need substance use or mental health treatment. Judges issue court orders to defendants to engage in Pretrial Services; however, a person's refusal to engage cannot result in a violation of conditions of release. Individuals may also choose to engage voluntarily. Needs screenings suggest the vast majority of these defendants (75 percent) had mental health or substance use treatment needs,

or both. Pretrial Service Coordinators quickly connect people to substance use, mental health, and other supportive community-based services.

GOALS/OBJECTIVES/PERFORMANCE MEASURES

A. COURT DIVERSION

Objective: to hold low-level offenders diverted from traditional court proceedings accountable for the harm caused to others and themselves to reduce recidivism.

Measures:

72% of Court Diversion (criminal & family division) cases closed successfully

89% of Youth Substance Abuse Safety Program cases closed successfully

Staff are working with people who are at higher risk to re-offend and who often have higher needs, requiring additional case manager supervision and support. The successful Diversion completion rate for people with prior involvement in the justice system is lower than for first-time participants.

These services are cost effective. A cost analysis done by Crime Research Group in 2019 documented that Diversion is much less expensive than the traditional criminal justice system. For example, an assault case resolved through Diversion costs \$216, while a similar case would cost \$1,480 in the traditional system. On average, the cost of resolving Diversion cases is 15 percent of the cost of court adjudication.

B. PRETRIAL SERVICES

Objective: to support a person thought to need substance use or mental health treatment to connect quickly to treatment supports during the pretrial period.

Measure:

Court orders in FY2021 declined five percent from 768 in FY2020 to 732 in FY2021; they are close in number to those issued in FY2019 (729).

KEY BUDGET ISSUES

The increasing reliance of prosecutors and judges on Court Diversion and Pretrial Services speaks to the value and effectiveness of these services. The continued decline in fee revenue, cost of living increases, and rising health insurance premiums are the primary budget pressures facing Court Diversion and Pretrial Service providers. The last programmatic base funding increase for these programs was during the 2019 Legislative Session; all adjustments since FY2020, including the \$243,465 general fund increase in FY2022, have been to backfill reductions or lost fee revenue.

The Court Diversion Special Fund records fees from clients that are used to support the programs. Each Court Diversion program reports fees collected and spent quarterly to the AGO. County programs follow a uniform statewide fee schedule and reduce or waive fees to account for participants' financial situation.

During FY2020, this fund's revenue declined significantly, and the trend continued in FY2021. Fee revenue in FY2021 was two-thirds that of FY2019. This decrease in fee revenue is attributed to the pandemic that led to the closing of courts and decrease in referrals. The trend of declining fee revenue, however, predated the pandemic. Program directors have noted the changing demographic of participants, most of whom earn low wages and struggle with other financial challenges.

In past years, fee revenue from participants accounted for approximately one quarter of the revenue used to support Court Diversion and Pretrial Services. During FY2020, this figure dropped to 13 percent, and in FY2021 to 9 percent.

Defender General - Public Defense

Department/Program Description

Department/Program Description

In 1972, the Vermont Legislature passed the Public Defender Act, Title 13, Chapter 163 and created the Office of the Defender General (ODG) which began discharging the constitutional right of needy persons charged with serious crimes to representation. The ODG is also statutorily required to provide counsel consistent with its attorney's ethical obligations and the Rules of Civil and Criminal Procedure in the following matters: to children who are the subject of juvenile proceedings as alleged delinquents; to parties in juvenile proceedings including children in need of care and supervision (CHINS) as required by the interests of justice; to children in the custody of the Commissioner of the Department of Children and Families; to persons in the custody of the Commissioner of Corrections; and, to needy persons in extradition, or probation or parole revocation proceedings.

The Office of the Defender General has evolved into a complex service delivery system consisting of two separate programs, Public Defense and Assigned Counsel. There are three tiers of service provision, with the first being the local public defense staff offices. When there are conflicts with public defense, the case is then assigned to a local assigned counsel contractor. And when there are conflicts with both the public defenders and the assigned counsel contractors, the court assigns an attorney on an ad hoc basis. Additionally, eight Serious Felony Units are available to cost-effectively handle life in prison and other serious felony cases.

Public Defense

There are twelve full-time, and one part time public defense field offices located throughout the State. Seven of these offices are staff offices. Six of these offices are public defense contract offices, that is, private law firms that have entered into a contract with the Defender General to provide public defense services. In addition to the four Serious Felony Unit contracts in Public Defense, there are three caseload relief contracts, and one specialized appellate juvenile representation contract. The contract public defenders provide substantial savings to the state over a staff office with salary, benefit and operating costs.

Post-Adjudication Offices and Juvenile Representation

There are also two offices which handle matters post adjudication. The Appellate Defender handles appeals to the Supreme Court. The Prisoners' Rights Office represents persons in the custody of the Commissioner of Corrections. The Juvenile Defender's Office represents juveniles in state custody, and, at times, the parents of juveniles in state custody in matters of delinquency, CHINS and termination of parental rights.

The over-arching duty of the Office of Defender General remains the assurance that persons entitled to appointed counsel receive effective legal advocacy. The Office of Defender General has an obligation to provide adequate representation to needy individuals in a cost-efficient manner, thereby serving not only its clients, but all citizens of the State of Vermont. The provision of representation with reasonable diligence and promptness, and a zealous commitment and dedication to the interests of clients charged with serious crime is a necessary component to the fair administration of the criminal justice system.

Public Defense Key Budget Issues FY 2022 continuing in FY 2023

The Governor's FY 2023 recommended budget contains a 5.3% increase to the overall General Fund for the Office of the Defender General over the FY 2022 budget.

Most of the increase is absorbed by staff salary and benefit increases paid in Public Defense, and already negotiated and approved increases in the Primary Public Defense contracts, and adjustments for Internal Services Fund allotments.

Public Defense Contractors are one of the most cost-efficient ways to provide public defense services. Although there were two percent increases each year provided in those four-year contracts, the contractor who covers the Northeast Kingdom was caught between significant caseload increases and inability to hire attorneys. That contract supports two offices historically staffed with two attorneys each. Added caseload in these counties increased from FY 2017 to 2018 36% in Caledonia County, 40% in Orleans County and 68% in Essex County with additional increases in FY 2019, resulting in a payment that was woefully low compared to the other public defense contracts and making it nearly impossible for the contractor to hire new attorneys to work under such caseloads. The caseload for Caledonia and Orleans Counties currently requires six full-time attorneys. Additional funds were provided to support this contract in FY 19, FY 20, and FY 21. In FY 22 the Legislature provided additional funds to support this contract, to bring payments closer in line to the other PD contracts.

Currently these primary public defense contracts save on the average about 30% over an equivalent staff office, with over \$1,000,000 annual savings. It is crucial to keep these contracts in place, but they cannot be so grossly underpaid to cause contractors to leave the system, which is a real possibility as the marketplace is demanding increased attorney pay in light of reduced numbers of attorneys who are available, willing and able to do this work.

FISCAL IMPACT: Complying with Federal timelines for permanency in juvenile cases is not constitutionally based; however, it has an impact on federal funding to DCF. If the ODG is not funded sufficiently to satisfy both constitutional mandates in criminal cases and federal statutory mandates in juvenile cases, then the ODG must comply with its constitutional obligations at the expense of statutory impacts. Simply put, failure to adequately fund the contracts necessary to provide legal services in juvenile and child protection cases will result in a loss of federal funding due to the delay in resolution of those cases.

The family support worker program (FSW) initiated by the ODG and funded within the ODG budget was funded from FY 2019 to FY 2023 with \$150,000 annually provided to the Department of Children and Families to pay ODG to provide these services. The status of FSW funding for FY 2023 is unknown at this time. If this program is eliminated, the result would likely be families staying in state custody longer and would also likely result in increased termination of parental rights cases.

The FY 2023 Operating budget is level funded, with adjustments within line items to accommodate changes in the Internal Services Fund allocations and anticipated cost changes.

With this level of funding, the Office of the Defender General has continued to fund the various improvements made to the delivery of cost-effective public defense services over the last few years. The ODG will continue the cost containment measures implemented in FY 2002 such as holding vacant positions open for at least 60 days, hiring replacement staff at a lower rate, contracting the after-hours DWI on-call coverage, and entering into long-term personal services contracts whenever possible. Also, in FY 2003, the ODG eliminated quarterly adjustments in the public defense contracts. This results in predictability for budget purposes, and fairly compensates the contractor based upon the prior year's caseload.

CASE MANAGEMENT SYSTEM NEEDS: The ODG was advised by Journal Technologies (its current case management system vendor) that JTI will not continue to host, support and maintain its current software past June 30, 2021. The ODG is working with ADS to find a replacement system. Two RFP's have been issued and demos were held. To move forward with a replacement system anticipated during FY 2023 the ODG has additional funding needs.

Public Defense Caseload Activity

One of the prime measures of the demand for defense services is the number of added clients during a fiscal year. Public defenders routinely represent significantly more clients than is recommended under guidelines developed in 1973 to assure competent representation by the National Advisory Commission on Criminal Justice Standards and Goals. This Lawyer Equivalency Caseload (LEC) Guideline provides that no single lawyer should accept more than either 150 added felony clients, 400 added misdemeanor clients or 200 juvenile clients in a year, or some combination of the three categories. For many years, the ODG has utilized this LEC formula as a measure of the workload of its staff.

There has been relative stability in the criminal caseload, but the juvenile caseload has seen a dramatic increase over the last few years, with certain counties experiencing greater increases. The statewide increase from 2017 to 2018 in added juvenile cases was 23.3%. Of particular note, there was a 77% increase in juvenile caseload in the Chittenden staff office, and a 74% increase in Caledonia County and a 60% increase in Orleans County, counties handled by Northeast Kingdom Law, and a 73.5% increase in Windsor County. While the number of added juvenile cases from FY 2018 to FY 2019 was fairly level, the number of separate charges increased 14%. Currently in Rutland County, due to policy and charging choices made by the Rutland County State's Attorney, the Rutland Criminal Court continues to show a significant backlog of pending cases. The potential impact of COVID on caseload is still unknown.

Current caseloads in both the juvenile and criminal dockets are anomalous by any estimation. Backlogs are the norm in every court, and the availability of trials and hearing time varies from county to county. The Court's implementation of the Odyssey case management system has made measuring the pending caseload an educated guess at best.

Defender General - Assigned Counsel

Department/Program Description

Assigned Counsel Program (Conflict Attorneys)

The Defender General contracts with a part-time Assigned Counsel Coordinator to oversee the daily operations of the Assigned Counsel Program.

Assigned Counsel Conflict Contractors

The Assigned Counsel Contractors are private attorneys who contract with the Defender General to provide services in criminal and juvenile cases when there are conflicts with the public defenders. The objective is to assure that in most counties there are at least two contractors to take conflict cases. There are presently 92 separate contracts for assigned counsel services, including three attorneys who handle appeals and two attorneys who handle post-conviction relief cases.

Serious Felony Units

The Legislature in 2001 authorized the creation of three Serious Felony Units (SFU) designed to provide representation in cases involving potential life term imprisonment and major felonies which would have ordinarily been assigned to an assigned counsel contractor or ad hoc counsel. In FY 2002 the ODG implemented all three SFUs as contracts and realized first year savings of \$112,000.00. The units are projected to realize savings of up to approximately \$170,000 per unit per year, and they provide stability and quality representation to clients charged with the most serious crimes. In FY 2004 a fourth SFU was implemented. Over the period of time since implementation of these units, the ODG has saved millions of dollars for representation on major felony cases when compared to the prior ad hoc system. Additionally, the implementation of the SFUs has rendered budgeting much more predictable. The success of this program has resulted in the expansion to eight serious felony units (four in Public Defense and four in Assigned Counsel), driven primarily in response to the Legislature creating a number of new life in prison crimes.

Caseload Relief Contracts

In recent years, in response to the decline in interest in assigned counsel conflict contracts and the unpredictable nature of caseload in counties, usually driven by political changes in any given State's Attorney's office, the ODG has implemented statewide caseload relief contracts that can be deployed on a case-by-case basis, or for some period of time, based upon caseload needs to absorb cases that would otherwise be handled by ad hoc counsel, or would cause a substantial backlog in the staff public defender system.

Ad Hoc Counsel

Ad hoc counsel is assigned by the court when there are conflicts with all staff and contract attorneys. Services provided by ad hoc counsel represent less than 2% of the caseload. However, it is the most expensive means of service, with an hourly rate of \$50. Recent efforts at expanding the contract system and implementation of the Serious Felony Units have yielded a reduction in ad hoc clients and debentures of more than 75% when compared to the conflict system which existed prior to Defender General Valerio's restructuring in FY 2002.

The over-arching duty of the Office of Defender General remains the assurance that persons entitled to appointed counsel receive effective legal advocacy. The Office of Defender General has an obligation to provide adequate representation to needy individuals in a cost-efficient manner, thereby serving not only its clients, but all citizens of the State of Vermont. The provision of representation with reasonable diligence and promptness, and a zealous commitment and dedication to the interests of clients charged with serious crime is a necessary component to the fair administration of the criminal justice system.

Assigned Counsel Key Budget Issues FY 2022 continuing in FY 2023

Assigned Counsel Contractors

The Assigned Counsel conflict contract attorneys and firms are essential for cost effective representation and are a key reason why the ODG has been able to reduce the reliance on ad hoc counsel. Historically, every dollar spent on a contract saved five dollars in ad hoc expenditures. Given the volume of caseload and number of conflict cases, due in part to increased scrutiny on the Department of Children and Families and resulting explosion of juvenile caseload, it was necessary to increase the number of assigned counsel contractors to prevent cases from being assigned to ad hoc counsel as much as possible. The predictability of the cost and savings of diverting cases to assigned counsel contractors has eliminated the need to request budget adjustment for assigned counsel for 20 consecutive fiscal years.

3 V.S.A. Sec. 343(2) states that contracts must save the state at least 10% of the cost of a staff office. Assigned counsel contracts save the State more than 33% over the cost of an equivalent state employee. Contractors must provide professional liability insurance, pay the employer's share of FICA taxes, other insurances, and all operating expenses including rent, internet/phone, equipment and supplies out of the contracted amount.

The assigned counsel contractors historically have not received annual increases, and payments have not kept pace with increases in the staff system. At times they have gone for nearly a decade without any increase. Generally, any recent increases have level funded the existing contracts that had been expanded to keep up with caseload demands, driven in large part by significant increases in juvenile caseload.

In FY 2017 there was an increase in base funding to level fund current contracts, which were expanded because of increased caseload demands, along with a 2.5% increase consistent with increases given to state employees. In FY 2017 and 2018 juvenile contracts were expanded further, to accommodate the growing caseload. Specifically, in Franklin County two new full-time contractors were added and two existing contractors were increased to full time to handle the increased juvenile caseload. The juvenile contracts in Rutland, Windham and Windsor Counties were also increased to full-time due to surges in caseload caused by new DCF activity and the backlog caused by prior caseload spikes in those counties.

In FY 2018 and FY 2020 the Governor's recommended budget and the legislature provided a small increase for assigned counsel contracts. While that was a helpful gesture, it did little to address the gross underpayment of the contracts that had developed over a very long period of time. The increases were necessary or numerous contracts would not have been filled causing caseload to be diverted to ad hoc assignment (likely to the same lawyers at 5 times the cost). Savings from other parts of the budget were used to cover the increased cost.

In FY 2022 the Legislature provided additional funding to cover contract underfunding. In FY 2023 the Governor's Recommended Budget provided additional funding to continue to further reduce the underfunding of contracts.

We have warned for many years that there would come a time when private counsel would be unwilling to take on assigned counsel conflict contracts, and while those murmurs began a couple of years ago with significant turnover in the system, we have now reached the breaking point where it is very difficult to fill contracts in some counties, and others are being abandoned mid-fiscal-year causing case management turmoil, increasing costs to the Courts and the Department of Corrections, and delay in the resolution of juvenile and criminal cases. In FY 2021, the two Juvenile contractors in Grand Isle County terminated their contracts during the year, and five additional attorneys did not renew their contracts for the current year. These assigned counsel contracts are vital to the continued fiscal stability of the public defense system.

With these contracts in place the ODG has remained within budget without budget adjustment for 20 consecutive budgets.

In FY 2023 the ODG will continue to make every effort to use assigned counsel contractors whenever possible, and the caseload relief contracts and four serious felony units paid from the Assigned Counsel appropriation will be continued. It may be necessary to redirect funds from other areas to do so. Of note, assigned counsel contractors are the only contractors that are not paid mileage reimbursement for trips to court, and they will likely continue to not be paid mileage reimbursement for trips to court.

Ad Hoc Counsel

Ad Hoc Counsel is the most expensive means of providing public defense services, and it is only used when there are no public defense offices or assigned counsel contractors who can ethically provide representation. The ODG continues to minimize the use of ad hoc counsel and to keep costs as low as possible.

The FY 2023 funding for Ad Hoc Counsel is level funded from the FY 2022 amount. Historically despite increasing the number of available assigned counsel contractors, there have been increases in ad hoc assignments, caused primarily by an explosion of juvenile cases, oftentimes involving drug-addicted parents, that results in conflicts with all public defense offices and assigned counsel contractors, increasing the need for ad hoc counsel. There will always be a frictional level of need for ad hoc counsel, and the ODG strives to keep this level as low as possible.

Additionally, the cost containment measures implemented in FY 2002 and FY 2003 will be continued, most significantly including: reduction in excess compensation in ad hoc cases, elimination of payment for frivolous ad hoc post-conviction relief assignments, and elimination of quarterly adjustments for assigned counsel contractors.

Judiciary

Department/Program Description

THE SUPREME COURT

The Chief Justice and the four Associate Justices constitute the Vermont SUPREME COURT.

Justices are appointed by the Governor from a list of qualified candidates submitted by the Judicial Nominating Board and confirmed by the Senate for six-year terms. When a justice's term expires, the General Assembly votes whether to retain the justice in office.

THE SUPREME COURT'S JUDICIAL DUTIES

The Supreme Court is the court of final appeal in Vermont. It hears cases primarily in Montpelier. The court hears appeals from the Civil, Family, Criminal and Environmental Divisions of the Vermont Superior Court, from certain administrative agency proceedings and from the Probate Division when a question of law is involved. In special types of cases, the Supreme Court has original or exclusive jurisdiction. This is when a case is brought directly to the Supreme Court without having to be heard first in one of the lower courts.

The five justices of the Supreme Court resolve approximately 500 cases per year by deciding whether the trial court judge accurately applied Vermont law to the facts in the case. The Supreme Court does not take evidence, listen to witnesses or receive exhibits in a case. Instead, the court looks at the legal issues to determine whether the law was correctly applied to the facts in the lower court. Decisions of the Vermont Supreme Court are final unless the case presents a federal question involving the United States Constitution, statutes, or treaties. If there is a federal question, decisions of the Vermont Supreme Court may be appealed to the United States Supreme Court.

THE SUPREME COURT'S ADMINISTRATIVE DUTIES

The Vermont Constitution gives the Supreme Court the responsibility of administering the Vermont Court system. It authorizes the Supreme Court to make rules regulating practice and procedure. The General Assembly has authority to revise rules as set out in the Vermont Constitution. The Supreme Court also has the power to discipline judges and attorneys, to license attorneys and to regulate the practice of law.

The Supreme Court Justices administer the Vermont Court System with the assistance of the Chief Superior Judge and the Court Administrator.

The Chief Superior Judge assigns the superior court judges, environmental judges, child support magistrates, judicial bureau hearing officers and assistant judges to the trial court divisions, resolves attorney conflicts, and in cooperation with the Court Administrator, assumes general administrative control of the work of the courts.

The Chief Superior Judge assigns each of the judges to sit in each of the trial courts for a specific length of time, generally for a year. (The environmental judges hear and dispose of most cases in the environmental division, which has statewide jurisdiction.) In the smaller counties, one judge may be assigned to sit in the Civil, Criminal, and Family divisions of the Vermont Superior Court concurrently, especially when all three divisions are located in the same building. In the larger counties, a different judge may sit in each of the trial court divisions.

The State Court Administrator provides leadership and support to the judges and court staff to enable them to resolve disputes fairly, expeditiously and efficiently. The State Court Administrator is responsible for the overall management of the court system, including judicial and employee education, budgetary and personnel matters, computer services, recordkeeping and court security. The State Court Administrator serves as liaison between the Supreme Court and its boards and committees and between the Judiciary and the Legislative and Executive branches of government.

THE VERMONT SUPERIOR COURT

The Vermont Superior Court was created by Act 154 of the 2010 session of the General Assembly. The Act reorganized the trial courts as divisions of the new Superior Court. There is a unit of the Superior Court in every county, comprised of a civil, criminal, family and probate division. The former environmental court became a statewide environmental division of the Superior Court. The former district court judges were re-designated superior court judges under the act.

CRIMINAL DIVISION

Each unit has a Criminal Division. The Division is responsible for the approximately 16,000 criminal and civil suspension cases that the State's Attorneys, Attorney General and Municipal Grand Jurors file each year:

*Through jury trials, court trials and the acceptance of guilty pleas, the Superior Court Judges determine the guilt or innocence of persons charged with crimes;

*Through sentencing decisions, the Superior Court Judges: punish persons who engage in acts not tolerated by society, protect the public by separating violent persons from society, protect the public by deterring others from violating the law, and attempt to rehabilitate criminals so that they will be productive members of society;

*Through determinations of probable cause and decisions on requests for arrest warrants, search warrants, and motions to suppress evidence, the Superior Court Judges protect the public from arbitrary use of government power.

FAMILY DIVISION

Each unit has a Family Division. The Division is responsible for the approximately 2,600 divorce and annulment actions, 1,200 other domestic actions (primarily parentage) and the 4,500 post-judgment actions filed each year. Most of the post-judgment actions involve attempts by parents to modify or enforce child support, visitation or custody orders.

The Family Division is also responsible for approximately 7,800 motions to establish, modify or enforce child support, 750 juvenile delinquency cases, 1000 cases involving the abuse and neglect of children, 335 cases in which the state seeks to terminate parental rights, 200 cases involving children who may be beyond the control of their parents or truant, and 3,200 petitions for relief from domestic abuse and 1013 other family matters including how the state should care for persons with mental illness and developmental disabilities.

The Chief Superior Judge assigns superior court judges, child support magistrates and assistant judges to the Family Division. These judicial officers and court staff attempt:

*to conduct timely hearings and issue timely decisions in order to resolve disputes, to provide support to distressed litigants and to provide protection to victims of family violence and emotional abuse; and

*to provide courteous, calming and helpful service to assist family members to make informed decisions about how to resolve their disputes on their own through mediation or other community services.

CIVIL DIVISION

Each unit has a Civil Division. The Division is responsible for the approximately 6,700 civil actions filed each year. Most of these actions involve businesses seeking the collection of unpaid debts, individuals seeking damages resulting from the negligence of others, or general lawsuits involving the failure to abide by the terms of a contract. State environmental, consumer protection and civil rights actions are filed in the Civil Division. People may go to the Civil Division to seek protection from those who have stalked or sexually assaulted them. The Division also hears appeals of some governmental actions.

Through jury trials, court trials and pretrial conferences, the Superior Court Judges resolve disputes such as whether:

*one person should have to reimburse another for that person's actions or inaction;

*persons should start or stop acting in certain ways; and

*persons should lose their homes or other property for failure to pay their debts.

The Civil Division also decides the approximately 5,800 small claims filed each year. Citizens and businesses seeking up to \$5,000 for unpaid debts, shoddy home improvement jobs and a return of their apartment security deposit, save the expense of hiring an attorney and look to the superior court to resolve their disputes.

There are 28 Assistant Judges in the state's Judiciary, two in each of Vermont's 14 counties. They are elected to four-year terms. Their duties are not only judicial in scope, but also include administrative and legislative functions. In their judicial capacity, the assistant judges serve in non-jury trials as members of a unique three-person panel of judges which determine disputed facts. In some counties, assistant judges sit alone to hear and decide small claims matters and traffic violations. In their administrative capacity, the assistant judges are the chief executive officers of the state's county government. In their legislative capacity, the assistant judges levy a tax on the towns in their respective counties to fund county government. The county budgets include funding for the county sheriff's departments, maintenance of a county courthouse and some expenses of Civil and Probate Divisions.

ENVIRONMENTAL DIVISION

The Environmental Division has statewide jurisdiction and is responsible for hearing and deciding requests to enforce administrative orders issued by the Secretary of the Agency of Natural Resources and requests to review orders issued by the Secretary. The Division also hears appeals from municipal zoning boards and planning commissions and appeals from Act 250 district commissions. The Division is located in Chittenden County; however, cases are heard in the county where the action arises. Two Environmental Judges hear most matters filed with the Division. Approximately 160 cases are filed each year in the Environmental Division.

PROBATE DIVISION

On February 1, 2011, the Probate Court became the Probate Division of the Superior Court and each unit has a division. The Probate Division is responsible for the approximately 3,900 guardianships, adoptions, decedent estates and testamentary trusts that are filed each year, and for other administrative actions, including change of names and safe-keeping of wills.

The Probate Judges and Staff (called Registers) work to:

*assist persons and families to administer and settle estates and any resulting trusts, and if necessary, resolve any disputes over the distribution of the assets of the estates;

*determine whether guardianships need to be established for incompetent persons;

*assist persons wishing to relinguish parental rights for the purpose of placing a child up for adoption; and

*monitor the processing of the cases in the court to insure fiduciaries meet their responsibilities to the estates and guardianships.

THE JUDICIAL BUREAU

The Judicial Bureau is responsible for the approximately 80,000 traffic tickets issued by state and local law enforcement agencies each year. Many of the violations are speeding tickets. The Bureau is also responsible for the processing of approximately 1,250 violations of underage drinking laws, 2,200 municipal ordinance violations and 700 fish and wildlife violations each year.

*Through court trials, the hearing officers and some assistant judges determine whether the 12,000 people who contest their tickets each year have violated the law and whether they must pay civil penalties to the state and municipalities.

*Through the assistance of court developed computer programs, Bureau staff accepts \$12,900,000 in civil penalties and surcharges from those drivers who chose not to contest their traffic tickets or ordinance violations and those who receive default judgments for failure to respond to their tickets.

Key Budget Issues: The primary budget issue confronting the Judiciary is the same as that faced by other State government entities: the cost pressure of salaries and salary-related benefits. Judiciary is also aware of additional security needs, as identified in several legislatively-mandated reports, and would like to improve the resource capabilities of the Judicial Information Center and Judicial Bureau.

Budget Summary

		FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

State's Attorneys

Department/Program Description

Under 24 VSA, a State's Attorney and SA office is established in each county. A State's Attorney prosecutes offenses committed within the county, enforces Vermont laws, and takes other actions to uphold the constitution. The State's Attorneys also collect fines and other demands or sums of money due to the State or county. A State's Attorney appoints Deputy State's Attorneys for their offices. The State's Attorneys prosecute the criminal cases including manslaughter, homicide, sexual and domestic assault, abuse and neglect of children and vulnerable persons, drug trafficking, impaired driving offenses, thefts, post-conviction relief proceedings, and certain civil matters.

To Ensure that Vermont's criminal justice system and outcomes are impartial, equitable and unbiased. Promote outcomes in our casework that are positive for an individual's rehabilitation and societal reintegration. Adopt effective models/best practices to reduce incarceration, particularly in misdemeanors and addiction and mental health cases by referrals to appropriate services and treatment programs, diversion and other alternative-sanctions programs, with appropriate means to ensure compliance and the safety of victims. Continue to protect the safety of the public, and to provide support and effective prosecution that provides justice for crime victims and their families. Improve our IT systems to collect relevant data and statistical information on bail and charging decisions, pleas, convictions, and placements in diversion and other alternative sanctions programs.

The Department we need to maintain \$331,160 in vacancy savings and cut an additional \$32,000 in operating expenses to meet our FY23 target budget. The budget challenges we face include:

- (1) New/additional work requirements: Mid-point probation review under Act 24. Since 7/1/21, VTDOC has filed 714 motions for mid-point review. This requires victim notification, and case review, communications (with DOC/P&P), and assessment of the defendant's community risk by the prosecutor. If the mid-point reviews are made retroactive, we anticipate even greater workload impacts.
- (2) Hearings every 30 days for juveniles being held in adult facilities. DCF has provided a spreadsheet that we are seeking to disaggregate in order to assess potential workload impacts. DCF's 5117 motions' (33 VSA 5117) governing confidentiality of juvenile judicial proceedings, which may require filings in every single case. The worst case scenario is that our staff winds up being embroiled in litigation about this issue on every CHINS case. burden S.3 creates. I don't know, nor do I believe DMH will tell us, how many individuals with open criminal cases are currently in its custody. Therefore, it is difficult to estimate with any accuracy how much this notice provision will actually impact the VAs.
- (4) S.3 created new administrative pressure on our Victim Advocates by requiring DMH to provide notice to the State's Attorney prior to allowing a commitment order to expire, downgrading from a secure facility, or discharging an individual in its custody that has an open criminal case. When the State's Attorney receives this notice, the SA Victim Advocates shall provide notice of DMH's action to any victim of record. At a minimum, providing notice requires a letter or phone call, however, tracking down the victim(s) and then working with them to discuss the impact of the pending action(s) can take a substantial amount of time.

(5) Sealing and expungement:

Staffing: \$331,160 in vacancy savings and reduction of \$32,000 in operating expenses will result in holding 3 DSA positions open until we recapture the \$363K reductions. The challenges of recruiting during a pandemic face every department, and we are no exception. With caseloads of 300-400 each, our staff does not have the capacity to reasign 1200-1600 cases among the remaining staff. Our administrative support staff are still struggling under the work that was transferred from the Judiciary staff to our staff following the implementation of the Judiciary's Odyssey implementation.

Upcoming VSEA's SAO contract: The statutory provisions enabling the employees of the State's Attorneys' offices to unionize and collectively bargain resulted in the first 2-year contract which is set to expire this June 30th. We will be back in bargaining on January 7th for the next agreement. We hope to settle this contract as expeditiously as we did

the first, but the economic conditions are substantially more challenging right now. While the federal monies has taken pressure off the State budget for the short-term, increases in salaries and other benefits have rollout costs in the out-years that have to be considered vis-a-vis the State's ability to pay.

Sheriffs

Department/Program Description

The Sheriffs' positions were created by the Vermont Constitution and are elected by the county voters to a 4-year term. The statute also confirms the establishment of sheriff departments, 24 VSA 290: A sheriff's department is established in each county consist(ing) of the elected sheriff in each county, and such deputy sheriffs and supporting staff as may be appointed by the sheriff. The State General Fund pays for 14 Sheriffs, 25 Transport Deputies and 1 Executive Staff Assistant. Sheriffs provide professional law enforcement services, including transport of prisoners, mentally ill persons, and juveniles who are in the custody of the State of Vermont. Transport work is conducted primarily through State-employee Deputy Sheriffs, and supplemented through non-State employee per diem deputies. Sheriffs are responsible for the service of all criminal process documents and provide security services, including during high-risk hearings or trials. The statute also permits the State-paid deputies to conduct general law enforcement duties as permitted when not engaged in transports. The Department of State's Attorneys and Sheriffs, under 24 V.S.A. 367, provides the administrative and budgetary oversight and structure for the Sheriffs for the transportation and extradition work. Sheriffs may not bill the Department for work performed on private contracts.

Increase coordination between the Courts, Sheriffs and DOC, AHS and other State agencies to facilitate the transports, eliminate duplicative efforts in transports, and assist the State with tasks that the Sheriffs and State Transport Deputies could perform. Help implement strategies to reduce the total number of inmate transports to create efficiencies, reduce costs, and have a positive impact both on those in the custody and the staff who conduct transports. Ensure that transport staff are properly trained and prepared for risks relating to transport work. Increase use of technology to reduce transport needs.

State Transport Deputies are seeking a classification/paygrade upgrade, and may seek to have the statutory language amended to enable them to join a union which will result in unfunded costs in FY23. As the Courts restart, the transports to and from court will determine impact of prior reductions in the per diem and mileage lines of the budget. Because Vermont uses its statewide correctional facility system for pretrial detention, there is a high demand for long-distance in-state transports of pretrial detainees from prisons to court appearances. If the Sheriffs and State Transport Deputies will be required to wear body cameras, we have no funding available for the equipment or storage.

Budget Summary

Special Investigative Units

Department/Program Description

The Special Investigation Units (SIUs) are multi-agency taskforces providing criminal investigations in response to reports of sexual assaults and serious child abuse. The framework for the SIUs is established under 24 V.S.A. 1940. The professionals within the units are trained to deal with the complex and sensitive nature of sex crimes. The SIUs integrate the work of law enforcement, prosecutors, victim advocates, child advocacy centers, domestic violence agencies and mental health professional - all to support the victims of these serious crimes. The goal of the legislation has been to provide all Vermonters with access to the services of the SIUs. The Department of States' Attorneys and Sheriffs is tasked with coordinating efforts to provide access to SIUs in each region of the state. Regional SIUs apply for grants from the State SIU Grant Board to fund personnel and operating expenses. Program Support Grants: These grants support the SIU administrative and operational expenses of the SIU's. Each SIU has a part-time director and other staff (e.g. forensic investigator, admin support, etc.) to manage the multi-disciplinary SIU teams, case-flow and processing and facilitate the work with victims. Each SIU is co-located or closely affiliated with the existing Child Advocacy Centers in their counties. Law Enforcement Grants: These grants are presently approved for 12 law enforcement investigators around the State under 24 V.S.A. 1940. The supplemental funding from SIU grants allows local law enforcement to dedicate investigators to the SIUs and makes it possible for smaller police departments to participate. Combined with the services of the Vermont State Police, these positions constitute the core of the specialized law enforcement investigators within the SIUs.

To further develop services in each county and personnel with expertise to investigate these crimes and work with victims. Continued support for national accreditation through National Children's Alliance for Child Advocacy Centers which provides an independent, objective review of SI unit operations to ensure appropriate structure and functionality. Continued support of training programs addressing sex crimes and victimization, including forensic and advance forensic interviews; interviewing children and vulnerable adults; technology, such as mobile device investigations. Vermont SIUs and the Child Advocacy Center have implemented an outcome measurement system developed by the National Children's Alliance.

Budget pressures include funding for program growth and law enforcement reimbursement grants. A major challenge that exists right now is the ability to staff the SIU's with law enforcement personnel. The recruitment and retention problems facing law enforcement agencies in Vermont and across the country are making it difficult for Vermont law enforcement agencies to commit to or dedicate a staff person to the Special Investigations Unit. However, the volume and complexity of these cases clearly supports the need for SIU services around the state.

Public Safety

Department/Program Description

DEPARTMENT OF PUBLIC SAFETY

FISCAL YEAR 2023 BUDGET PRESENTATION

MISSION STATEMENT

The Department of Public Safety provides planning, prevention, and protection services through the work of its six Divisions, to ensure a safe and secure environment and enhanced quality of life for the Citizens of the State of Vermont.

CREATION OF THE DEPARTMENT

The Department of Public Safety was created by No. 163 of the Acts of 1947 for the "purpose of consolidating certain existing police and investigative agencies, and to promote the detection and prevention of crime generally." No. 224 of the Acts of 1951 created the Division of Civil Defense (now Division of Emergency Management) within the Department of Public Safety. No. 141 of the Acts of 2004 created the Fire Safety Division in the Department of Public Safety consisting of the Fire Prevention Division from the Department of Labor and Industry and incorporation of the Fire Service Training Council within Public Safety.

The Department of Public Safety is organized into six divisions: Vermont State Police (VSP), Criminal Justice Services (CJS), Vermont Emergency Management (VEM), the Vermont Forensic Laboratory (VFL), Fire Safety (FS), and Administration.

VERMONT STATE POLICE DIVISION

The Vermont State Police are the primary law enforcement agency in the state, providing 24-hour coverage to 212 of the state's 257 towns and villages or 46% of the state population on a full-time basis. In geographic terms, this accounts for 84% of the total land area in Vermont.

The State Police is led by the Director (Colonel) and has three divisions identified as the Field Force or Uniform Division, Criminal Investigation Division and the Support Services Division

Field Force Division:

The Field Force Division of the Vermont State Police consists of sworn members and civilian staff members. The division consists of over 200 Uniformed Troopers assigned to 10 field stations throughout the state. These troopers provide a wide array of services to Vermont's citizens and visitors ranging from responding to quality of life type calls to investigating domestic violence and fatal car crashes.

The Field Force Division's mission is to provide for the safety of the citizens of Vermont and its visitors through prevention and enforcement efforts. Troopers strive to perform their duties in an unbiased fashion reinforcing the public trust and inspiring public confidence. Our departmental resources provide services from conventional patrol and investigation to comprehensive responses to major incidents. Troopers utilize cooperative and data driven law enforcement strategies. Beyond conventional emergency calls, Troopers protect families against sexual predators, target domestic violence, combat substance abuse, and work with all communities for emergency preparedness.

The Divisions is organized as follows:

-Troop A: Commanded by a Captain this Troop covers the northern half of Vermont with field stations in Williston, ST. Albans, Middlesex, Derby and ST. Johnsbury

- -Troop B: Commanded by a Captain this Troop covers the southern half of Vermont with field stations in Westminster, Royalton, New Haven, Rutland and Shaftsbury.
- -Special Operations: Commanded by a Captain this command oversees all special teams and safety programs to include:

O

The unit is comprised of a Lieutenant and two Sergeants this unit is highly trained in multiple special team disciplines. They provide the core leadership to manage complex incidents as well as special events such as the Women's World Cup, Green Mountain stage race and Inaugural ceremony. Their services are provided to other state agencies and local entities.

0

Safety Programs: Commanded by a Lieutenant this unit oversees the Traffic safety and Recreational Enforcement units.

- -Traffic Safety program: This unit coordinates traffic safety programs statewide, manages VSP traffic related grants, conducts outreach and training and ensures strong public messaging on traffic safety. The unit also oversees the Work Zone Enforcement and SEE (Sharp Eyes Everywhere) programs.
- -Recreational Enforcement Unit Staffed by a Sergeant and a Trooper as well as Auxiliary Troopers this unit administers Vermont's Recreational Boating Safety program as well as conducting Safety Inspections and enforcement of recreational boat and snowmobile laws.

Special Teams: The Vermont State Police have developed a variety of specialized teams and resources staffed by highly trained sworn and civilian members. These Special Teams include Canine, Critical Incident Dispatch Team, Clandestine Laboratory team, Search and Rescue, Tactical Services Unit, Crisis Negotiation Unit, Bomb Team, SCUBA Team, Members Assistance Program, and Crash Reconstruction Team. The Vermont State Police have two Mobile Command Posts that respond with total dispatch capabilities (Critical Incident Dispatch Team). We stand ready to assist all allied agencies in times of crisis both statewide and throughout New England. These teams regularly serve the needs of municipal and county agencies and in most cases, are the only asset of their type in Vermont.

Criminal Division:

The Criminal Division provides specific expertise in criminal investigations and is made up of the Bureau of Criminal Investigation and the Major Crime Unit. Detectives with specialized training, technical skills and expertise work collaboratively on a wide variety of crimes to include the most serious and complex criminal investigations. The Criminal Division is committed to providing assistance and resources whenever needed in support of all other local, county, state and federal law enforcement agencies in Vermont.

The Bureau of Criminal Investigation (BCI) is primarily responsible for the investigation of all untimely deaths to include natural, accidental and suicides and provide investigative support for all homicide investigations. Other primary investigations conducted by BCI detectives include, sex crimes, severe child abuse and neglect, robberies, assaults, fraud, arson, computer crimes, sex offender registry violations and applicant background investigations. BCI detectives also conduct special investigations upon request by other local and county law enforcement agencies. The Fire Investigation Unit is responsible for determining cause and origin of fires; and conducting investigations on those fires ruled arson or suspicious in nature. Arson detectives work closely with fire investigators with the Department of Fire Safety and all fire departments throughout the state. Special Investigation Unit (SIU) detectives investigate crimes of a sexual nature and extreme cases of child abuse and neglect. Troopers assigned to this unit work in conjunction and cooperation with local police agencies as well as the Department of Children and Families, state prosecutors and victim advocacy organizations statewide in a multi-disciplinary team approach to the investigation and prosecution of these crimes.

Within the Bureau of Criminal Investigation is the Vermont Intelligence Center. The mission of the Vermont Intelligence Center (VIC) is to collect, analyze, and disseminate information to identify, investigate, and prevent criminal activity and protect the citizens and critical infrastructures vital to our society. The VIC supports all local, county state and federal law enforcement. The VIC is also the central point for tracking all missing persons and coordinates information on these investigations. The VIC interacts with all law enforcement agencies in order to exchange intelligence throughout the state, the country, and internationally. It serves as Vermont's comprehensive criminal intelligence center to assist all law enforcement with criminal and counterterrorism investigations and operations. Through these collaborative efforts the VIC seeks to advance the efficient, timely and accurate exchange of information between all of its law enforcement and homeland security partners, at all levels of government, while safeguarding the rights and privacy of all citizens.

The Joint Terrorism Task Force (JTTF) is a collaborative effort between the Vermont State Police and the Federal Bureau of Investigation that is dedicated to investigating all terrorist activities within and around the state of Vermont. Currently we have one Trooper assigned to the Task Force.

The Major Crime Unit (MCU) is primarily responsible for investigating the most serious crimes, specifically all homicides and officer involved shootings. MCU will investigate missing person cases that are suspicious in nature and / or when foul play is suspected; and other complex investigations as needed to include unsolved homicides. The Polygraph Unit falls under MCU and conducts criminal polygraph examinations for all Vermont law enforcement agencies; and conducts examinations for Vermont State Police applicants. The Crime Scene Search Team (CSST) is a special team within MCU that is made up of Troopers from across the state that have specialized training in crime scene processing. The CSST responds to all homicides and officer involved shooting investigations and is available upon request for other crimes as needed to include assisting outside agencies. The Technology Investigation Unit (TIU) was created in 2017 as an expansion of the Computer Crime Unit specializing in the collection and analysis of digital evidence. As part of the Internet Crimes Against Children Task Force (ICAC), the TIU serves as specialized support to state, local, county and federal law enforcement across the state. In 2017, a Trooper was assigned as a CYBER crime investigator to the FBI Cyber Task Force. The Executive Protection Unit (EPU) provides security for the Governor of Vermont and assists with security for visiting dignitaries; identifies and investigates threats against the Governor or other State Officials. EPU falls under the supervision of the TIU commander.

Also, within the Major Crime Unit is the Narcotics Investigation Unit. The Narcotics Investigation Unit (NIU) is responsible for the oversight and operation of the Vermont Drug Task Force (VDTF), a multi-jurisdictional task force made up of state troopers, local and county officers who are dedicated full time to enforcing state and federal drug laws. The primary focus of the Vermont Drug Task Force is to disrupt the flow of illegal drugs into Vermont by targeting mid to high level dealers who are trafficking for profit. Investigative efforts are primarily focused on heroin and opiates but include other illicit drugs to include cocaine, crack cocaine, methamphetamine and marijuana. Drug diversion detectives work closely with the VDTF to identify individuals involved in prescription drug fraud.

Support Services Division:

The mission of the Support Services Division is to provide all civilian and sworn personnel of the Vermont State Police with the resources required to effectively perform their assigned duties and to enhance the capabilities of the Vermont State Police. Each section within the Support Services Division is an integral part of the planning and management of a broad range of services and programs provided to the organization.

The Support Services Division is responsible for operating two Public Safety Answering Points (PSAPs) which are dispatch centers that are staffed by professional civilian Emergency Communication Dispatchers (ECDs). Besides providing all primary radio communications for State Police, their duties include taking approximately 70% of E911 calls for service, emergency and non-emergency calls for service ensuring that first responders are dispatched to critical incidents. Additionally, the two PSAPs currently dispatch for approximately 100 additional fire, EMS and law enforcement organizations, as well as for other state level law enforcement organizations.

Staff Operations:

The Office of Staff Operations is housed within the Support Services Division and is comprised of the Office of Professional Development & Training, liaison to the Agency of Digital Services (ADS), and the Vermont State Police Quartermaster.

The Office of Professional Development/Training supports the career and professional development of every sworn member, auxiliary trooper and emergency communications personnel and will work cooperatively with all stakeholders to:

- -Establish outreach programs to recruit and hire individuals whose core values reflect those of the Vermont State Police.
- -Promote individual development and advancement through continuing training and development programs designed to build and expand professional skills and knowledge.
- -Endorse programs that foster the total health and well-being of our members.
- -Retain capable individuals within the Vermont State Police.
- -Engender a culture of mentorship and diversity throughout the department.
- -Cultivate the next generation of public safety leaders.
- -Engage members in the policy and procedure review and development process.

The role of the Quartermaster is to provide supplies and field services to members of the department and will:

- -Manage efficient and cost-effective equipment inventory and distribution systems
- -Maintain positive relationships with department supply vendors
- -Prepare and submit equipment purchase orders

The Office of Technology Services has been relocated to the division of Criminal Justice Services, but continues to support the technology needs of the Vermont State Police. Our technology needs are assessed and facilitated through our liaison to ADS.

The Office of Fair and Impartial Policing and Community Affairs is housed within the Support Services Division and has Co-Directors, one who is a sworn member and one who is a community member, who develop and implement programming to ensure fair and impartial policing at every level within the Department. Also, under the Office of Fair and Impartial Policing and Community Affairs is the Office of Internal Investigations and the Office of Professional Standards.

The Directors work within all three divisions in the following focus areas:

- -Recruitment and hiring
- -Training
- -Supervision and accountability
- -Relationship-building with a diverse range of communities
- -Traffic stop data collection

- -Assessment of institutional practices
- -Policy assessment and development

The Office of Professional Standards oversees the policy development and accreditation program for the Vermont State Police.

- -Coordinates efforts to create department policy
- -Serves as accreditation manager for CALEA accreditation
- -Serves on the Use of Force training committee
- -Manages employee performance program (Guardian Tracking)
- -Coordinates Vermont State Police interests in Public Records Act/Freedom of Information Act (FOIA)
- -Maintains the database "PowerDMS" the Department resource for policy and other critical documentation

The Office of Internal Affairs was established by the legislature in 1979. The purpose of the Office of Internal Affairs is to investigate, or cause to be investigated, all complaints regarding conduct by members of the Vermont State Police. The enacting legislation can be found at 20 VSA section 1923

The Vermont State Police Public Information Officer is housed within the Support Services Division, though it serves the overall VSP objective of keeping the public informed of policing activities while protecting individual privacy, ongoing criminal investigations, and the rights of victims and the accused. To fulfill this function, the VSP utilizes a variety of methods to disseminate information to the public including press releases, social media, response to public information requests, incident reporting, and web-based content. The outreach and distribution of information is an important component of the VSP mission and our service to the people of Vermont. The Vermont State Police Public Information Officer (PIO) leads these efforts. The PIO responds to media inquiries and public relations requests as quickly, completely and accurately as possible. The PIO is also responsible for all facets of our social media platforms and contributes to our recruitment efforts.

Fleet Services is an integral part of the Support Services Division and serves the VSP while also serving the fleet related needs of the entire Department. Fleet Services responsibilities include:

- -Vehicle purchase/issuance
- -Maintenance and repairs
- -Installation of emergency equipment
- -Fuel
- -Vehicle crashes
- -Surplus vehicles disposal

Fleet Services performs many of the large repairs and all of the outfitting and striping of Vermont State Police and other DPS vehicles. Fleet works closely with local repair facilities for overflow maintenance, routine preventative maintenance and parts procurement. In addition, Fleet Services operates an intra-department wrecker service and is responsible for capturing vehicle usage data for trend analysis and the replacement cycle. Fleet personnel also work closely with trained department driving instructors to support the Emergency Vehicle Operation Course (EVOC) training cycle by ensuring vehicles are available and ready for training.

CRIMINAL JUSTICE SERVICES DIVISION

The Division of Criminal Justice Services exists to support the Departmental mission by providing its criminal justice, emergency service, governmental, public and private customers with systems and services through the Radio Technology Services and the Vermont Crime Information Center units.

Radio Technology Services is an enterprise program, which provides the following services:

As a true end-to-end service provider, Radio Technology Services provides 7/24/365 support for wireless mission critical programs and telephony systems.

Wireless two-way Land Mobile Radio Systems (LMR) - We engineer, procure, construct and maintain mission critical wireless voice solutions for various State of Vermont Agencies, Departments and First Responder organizations. These systems provide Push-to-Talk (PTT) voice connectivity between a dispersed group of people to stay in touch with central dispatch and each other. This is accomplished through the use of radio towers, microwave and fiber optic networks specifically engineered to be fault tolerant and constructed by the department for this application. This PTT functionally is the primary reason LMR systems exist, and this functionally is not available commercially. Major users of LMR technology outside the Department of Public Safety include the Agency of Transportation, Department of Corrections and the Department of Fish & Wildlife.

Vermont Microwave Network - The network provides broadband connectivity for public safety wireless systems. This system, in many cases, is the only network available to connect the various land mobile radio systems to the dispatch centers. This microwave system is used for radio transmitter control functions, voice and data transmission, and emergency communication systems for DPS and other agencies, including all Vermont Communications (VCOMM) users. VCOMM is a statewide interoperable radio system developed to provide cross discipline communications between Police, Fire and EMS practitioners.

Telephony - The Department of Public Safety operates an independent Voice-over-Internet-Protocol (VoIP) and digital telephone network. These telephone systems and Vermont's 911 system collectively allow the flow of emergency calls from the public to be transferred to the first responders dispatch center. It is essential that these systems remain operational to ensure the safety of the public and the first responder. The Radio Technology Services program is the single point of contact for departmental members experiencing issues with the department's telephone services. We receive, dispatch and coordinate all emergency calls, call outs and other requests for preventive and corrective actions. We diagnose and analyze problems/malfunctions and find solutions for execution of nonstandard requests and scenarios.

FirstNet - The Middle-Class Tax Relief and Job Creation Act of 2012 created the First Responder Network Authority (FirstNet). The law gives FirstNet the mission to build, operate and maintain the first high-speed, nationwide wireless broadband network dedicated to public safety. FirstNet will provide a single interoperable platform for emergency and daily public safety communications. The office of RTS is the designated Single Point of Contact (SPOC), we represent all of Vermont first responders by promoting their communication needs to the national authority.

The Vermont Crime Information Center (VCIC) serves as the state repository for a wide variety of criminal history record information and processes. Complete criminal histories are kept for individuals that interact with the criminal justice system including arrest, arraignment, and conviction. The center is responsible for disseminating centralized criminal history information for authorized criminal justice and non-criminal justice purposes to a variety of agencies. During FY 2021 VCIC processed 16,044 fingerprint supported record checks for employment and volunteer positions, a decrease of 1% compared to FY 2020. Fingerprint volume for FY 2021 was significantly impacted by continued COVID-19 disruptions but has continued to rebound in 2021.

Program management is also provided by the VCIC for the statewide Sex Offender Registry (SOR) and Marijuana Registry programs. The SOR currently tracks over 1,300 registered offenders within Vermont while the Marijuana Registry serves over 4,600 registered patients and caregivers (as of December 2021).

Additional criminal justice information programs supported by the VCIC include:

- -The National Crime Information Center (NCIC) which allows Vermont access to national wanted, missing person, sto-len items, and other related files
- -The National Incident Based Reporting System (NIBRS), providing state and national criminal incident statistics
- -The National Instant Criminal Background Check System (NICS) which processes firearm purchase and transfer applications
- -The National Data Exchange (N-DEx), a clearinghouse of criminal history information used for investigatory purposes.

EMERGENCY MANAGEMENT DIVISION

The mission of Vermont Emergency Management is to ensure that the people and communities of Vermont have the capabilities to prevent, protect, mitigate, respond to, and recover from natural and man-made threats and hazards. This work results in the enhancement of safety, quality of life, and economic vitality of the State and its citizens. With authority derived from Title 20, VSA, VEM leads the coordination of federal, state, local, private sector and military resources in disaster response and recovery. The State Emergency Operations Center (SEOC) serves as the Governor's central coordination point for the State response to emergencies, disasters, and large-scale events. The SEOC is staffed and managed by VEM personnel with assistance from other state agencies. VEM manages programs that include state, local government, and private sector emergency planning, outreach, training and exercises.

VEM's success lies in the forging of partnerships with a wide range of federal, state, regional, local, military and private sector entities that augment the core mission of the division. VEM maintains a Watch Officer Program that coordinates response to daily incidents occurring in the state 24/7/365. The VEM Watch Officer is the single point of contact to access resources critical to disasters statewide. VEM administers sub-grants to the Local Emergency Planning Committees, Regional Planning Commissions, State Agencies and municipalities for preparedness, planning, protection, prevention, response, recovery, and mitigation activities.

VEM is organized in five sections- Operations and Logistics, Engagement, Planning, Recovery and Mitigation and Homeland Security Unit. Full descriptions of section responsibilities is provided below. The Division programmatically manages several federal and state funding streams including all disaster funds allocated as a result of federally-declared Stafford Act disasters.

Homeland Security Unit

HSU supports federal, state, local and private sector efforts to prevent, protect against and prepare for threats and acts of terrorism. Although counterterrorism is the primary mission, many of the programs and initiatives support capabilities that can be applied to other threats and hazards as well. HSU works closely with critical infrastructure partners to assess gaps and vulnerabilities and apply solutions to increase the state's overall resilience to terrorism or directed violence. The Unit manages several grant programs such as the Homeland Security Grant Program, Non-Profit Security Grant Program, and Operation Stonegarden. The Unit also leads the development of the annual Threat/ Hazard Inventory and Risk Assessment and Stakeholder Preparedness Report.

Recovery and Mitigation

The Recovery and Mitigation Section is responsible for managing and implementing the State Public Assistance and Hazard Mitigation Grant programs in coordination with FEMA, including pre-incident technical assistance and training to local jurisdictions, Regional Planning Commissions and other potentially eligible applicants. The Section has oversight of the Public Assistance project funding provided to municipalities and state agencies after federally declared disasters. Other duties include:

-Facilitating the coordination of the State Hazard Mitigation Committee;

- -Updating the State Hazard Mitigation Plan;
- -Development and implementation of policies, procedures and guidelines for the Flood Mitigation Assistance Program and Pre-Disaster Mitigation Program; and
- -Pro-active technical assistance and training to local and regional personnel between disasters.

Operations and Logistics

The Operations and Logistics Section ensures that the State Emergency Operation Center (SEOC) is ready to be activated at a moments notice and to and to ensure the alternate EOC at Camp Johnson is readily available. In addition, the Operations and Logistics Section provides resource coordination and technical assistance to local municipalities. The Section coordinates the Emergency Management Assistance Compact (EMAC), the statutory mechanism whereby other State's resources are requested by Vermont or Vermont resources are deployed to other states upon request during emergencies. The same holds true with regard to the International Emergency Management Assistance Compact (IEMAC), an international mutual aid agreement among the northeastern U.S. states and the Canadian provinces of Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland/Labrador. Other duties include the management of all operational and logistical aspects of the staff and SEOC: communications, internal fleet management, contract management, Mobile Support Unit management (examples include coordinating with swift water rescue assets statewide), outreach to public and private partners, VT Alert (All hazards notification system), WEB EOC (the state disaster management software) support and training and management of the Watch Officer program.

Planning

The Planning Section is comprised of personnel responsible for developing all-hazards planning, preparedness and training activities. This section is primarily responsible for the coordination, revision, and maintenance of several state level plans and procedures including the State Emergency Management Plan which has many annexes focusing on response, response support and recovery activities. The Planning Section works closely with the Homeland Security Unit to develop the annual Threat Hazard Inventory and Risk Assessment (THIRA). These initiatives drive multiple federal funding priorities and provide an overall capability assessment of preparedness in the State. Planners work closely with assigned state agencies and departments to ensure the enterprise is prepared to respond and recovery effectively and consistent with the State Emergency Management Plan.

Engagement Section

The newly formed Engagement Section replaced the previous Homeland Security Section. The Section is responsible for the management of the statewide Training and Exercise programs and works directly with state and local jurisdictions to provide training both directly and through the acquisition of nationally-acclaimed instructors. By developing the annual Training and Exercise Plan, VEM delivers relevant and needed training to emergency responders and managers as well as municipal and state officials with key roles in disaster response. The Section also ensures direct support to local jurisdictions throughout the planning, training, and exercise cycle with field-based Regional Coordinators. Regional Coordinators work directly with local jurisdictions to guide them through the planning process as well as respond to hardest-hit areas during disasters to provide technical assistance.

FIRE SAFETY DIVISION

The Fire Safety Division ensures the safety of the public through code enforcement, public fire safety education, hazardous materials response, urban search and rescue, firefighter training, licensing and certification of professional trade people. The Division has 4 regional offices (Waterbury, Williston, Springfield and Rutland) and the Fire Academy located in Pittsford and the Haz Mat and USAR Team located in Colchester. Collectively we are responsible for protecting Vermonters and visitors from fire, electrocution hazards, carbon monoxide poisoning, hazardous material releases, building collapse, explosions, and barrier-free access for persons with disabilities for Vermont's 80,000 public buildings. The primary day-to-day operational activities include building construction inspections, purchase and sale inspections, complaint inspections, annual inspections of nursing homes and community care homes, plan review

and permitting of new construction for compliance with the building code, electrical and plumbing inspections, heating system inspection, and inspection of bulk propane dispensing operations.

The Division works collaboratively with many groups including but not limited to; Historic Preservation, Economic Development, Public Service, ANR, Career Fire Chiefs, Vermont State Fire Fighters Association, Professional Firefighters, Vermont Fire Chiefs, Access Board, Elevator Safety Board, Electrical Licensing Board, Housing Counsel, Downtown Board, Plumbing Board, Apprenticeship Counsel and Department of Aging and Independent Living, BGS, Corrections, National Association of State Fire Marshals, National Fire Protection Association, International Code Council and many local government bodies. Recognizing the Division does not have adequate resources to inspect all public buildings, we have entered into cooperative inspection agreements with municipalities around the state. Inspection agreements allow cities and towns to enforce the same codes and standards on behalf of the State, increasing the total number of inspections conducted in Vermont.

Over 95% of the Division's funding comes from special funds we receive very little general fund money. Special fund revenue comes from plan review permit fees, with the construction plan review permit fee generating between \$3.5 and \$4.5 million a year. Remaining special funds are from electrical and plumbing work notices, licensing fees and third-party inspection fees. The Division's remaining funds are general funds and transfers from other departments.

The Vermont Fire Academy was established through the Vermont Fire Service Training Council, which was created on May 3, 1988, when Governor Madeleine Kunin signed into law Senate Bill - S-83. The 11 member VFSTC was formed to establish curriculum and deliver fire fighter training to all Vermont firefighters, a program that continues in its present configuration within the Fire Safety Division of the Department of Public Safety. The Training Council continues to develop training and certification programs for all Vermont firefighters.

Vermont Fire Academy Operations: The Chief Training Officer oversees the operations of the Vermont Fire Academy located at the Emergency Services Training Facility in Pittsford, VT. The Vermont Fire Academy has a full-time staff of 7 and is responsible for administering, developing, delivering, and documenting all fire fighter training for both career and volunteer participants. Each year the academy delivers critical and valuable training directly to fire departments throughout Vermont by delivering training props to local communities at no cost. Firefighter training programs are available to the 6,500 Vermont firefighters / 243 fire departments. These include Firefighter 1 & 2, Fire Instructor I, Fire Officer 1&2, Hazardous Materials, Incident Command Management and Terrorism-related courses to name a few. The Fire Academy recently developed a pro-board fire inspector certification class which will save the division and municipalities money as the class is instructed free of charge by subject experts from Vermont. The class in designed to meet the specific needs of Vermont and provides inspectors a solid foundation focused on the national fire problem. The fire academy has developed a basic entry-level exterior fire fighter class to help in recruitment efforts. Most recently we offered fire officer training at night and during the weekend to benefit the volunteers. The East Cottage building has been renovated into dorm rooms allowing first responders, law enforcement, EMS and other groups to use the dorm while attending training at the facility. The East Cottage is targeted for completion January 2022. The Chief Training Officer is appointed and reports to the Director of the Fire Safety Division.

Hazardous Material Response Team: The State HAZMAT Team was created in 1994 to assist all fire departments in Vermont when managing hazardous materials incidents. The team's authorizing legislation as well as the creation of the HAZMAT Team Chief can be found in Vermont Statutes, 20 VSA Section 33. The purpose for the Team's creation was and remains to work with local fire chiefs before, during and after hazardous materials events in their municipalities. HAZMAT Technicians are geographically located across the State with three HAZMAT response vehicles strategically located and equipped with useful state of art sophisticated equipment ready to support Incident Commanders on the ground in making critical life safety decisions that may have a profound impact on a community. In addition, the Team can call upon any of the twenty HAZMAT trailers loaded with emergency response equipment strategically positioned in local fire departments throughout the State. These trailers contain equipment, which may be used for operations level HAZMAT response as well as to perform "gross" and "technical" decontamination.

The Vermont HAZMAT Response Team (VHMRT) endeavors to have highly trained and equipped personnel on scene quickly when requested by the Incident Commander. The Team trains monthly with local fire departments and other

State Agencies including the Civil Support Team ensuring an effective and efficient use of resources. The Team has been a role model for other States.

Urban Search and Rescue: The State Urban Search and Rescue Team (USAR) was created in 2002 to assist all communities in Vermont when deployed by the Division of Emergency Management and Homeland Security (DEMHS). The State Urban Search and Rescue Team is authorized under Vermont Statutes, 20 V.S.A Sec 7. The Team is trained in All Hazard incidents ranging from technical rope rescue to building collapse and swiftwater rescue/flood response. The team's primary equipment Cache is located in Colchester however, other strike team assets are geographically stationed within local fire and emergency response agencies throughout the State.

The USAR team responds at the request of the local incident commander when advanced technical assistance is required or when local assets are exhausted. USAR is pre-deployed through the DEMHS when serious incidents develop or severe flooding is predicted. The team is trained and equipped with specialized advanced technical rescue equipment and is capable of rescuing persons entombed in building collapses, floodwaters or areas otherwise inaccessible by local rescuers. The USAR Team can operate self-sufficient for up to 72 hours without support. The USAR Team has 4 (K9) partners certified to do live searches here in Vermont. 3 out of the 4 dogs are certified to level 1 and can be used anywhere in the United States.

The Haz Mat Team and USAR Team collocated to Colchester in a State-owned building saving significant money.

VERMONT FORENSIC LABORATORY DIVISION

Vermont Forensic Laboratory: provides examination of physical evidence collected from crime scenes and other sources. The Laboratory is comprised of four organizational units: Toxicology, Biology (Serology/DNA), Drug Chemistry, and Physical Comparison (Latent Prints/Firearms/Toolmarks/Imaging). It is staffed and equipped to conduct examinations and scientific analysis of evidentiary items, with interpretations and reports of data/findings for use in criminal investigations and civil cases (examples: DUI). The laboratory also provides training to law enforcement.

ADMINISTRATION DIVISION

The Administration Division is comprised of three sections and a total of 29 full-time staff.

Commissioner's Office/Legal: The first section includes four exempt positions in the Commissioner's Office, including the Commissioner, Deputy Commissioner, and two exempt positions providing legal services including the DPS General Counsel and Staff Attorney. This section also includes three classified positions, the DPS Headquarters Receptionist, and two Paralegal positions.

Office of Community Engagement: Comprises multiple positions and entities that are designed to ensure robust public engagement in critical areas of public safety system operations. Specific positions include the Fair & Impartial Policing and Community Affairs Unit, the Director of Mental Health Programs, and the Executive Director of Policy Development. While each position has specific job responsibilities, collectively, the office is responsible to create and execute processes that include a wide range of public safety stakeholders in the development of policy and agency operational priorities. The office will also monitor and assist with legislative processes that impact the Agency.

Administration/Finance: The second section, led by a classified Director, provides a full range of financial services, payroll administration, grants management, auditing, purchasing, and contract administration for all Public Safety divisions. Budget preparation and monitoring, accounts payable and receivable, purchasing administration, payroll, grant management, and external and internal compliance auditing activities are all managed through a central office operation consisting of 20 classified positions at the department headquarters in Waterbury.

DPS Administration/Finance Units:

Financial Office: Responsible for Federal and State budgeting, monitoring, and reporting and for working with all DPS Division Directors and program coordinators to administer all State and Federal funded grant programs

Policy, Audit, and Compliance Unit: Responsible for working with both DPS staff and it's subrecipients to ensure compliance with all federal and state regulations and guidelines for financial management. Ensures that risk is controlled proactively with appropriate internal accounting, process controls, and coordination of DPS-wide policy development where required.

Accounts Payable and Receivable Operations Unit: Responsible for the daily accounting operations activities including invoice payments and accounts receivable processing.

Payroll and Expense Operations: Provides support to all DPS staff for payroll and expense reimbursement processing.

Procurement Office: Provides guidance to DPS Divisions on compliance with all State and Federal procurement rules and regulations. Oversees contract development and approval, purchasing of general supplies, asset management, and the DPS Purchasing Card program.

Vermont State Police Key Budget Issues:

Recruit, retain and develop both VSP Troopers and VSP dispatch professionals: The current national climate has had a significant impact on the number of applicants for police positions throughout the nation and that has also impacted agencies within Vermont to include the VSP. The VSP is in an unprecedented period in its history as the VSP stands to lose more than 30 percent of the organization to retirement and normal attrition over the next several years. The VSP needs to make every attempt to stay at the authorized strength of 327 (334 with 5 Anti-Heroin grant positions and 2 positions funded by the Town of Waterbury) If the VSP is unable to recruit and/or hire a sufficient number of new troopers during each six-month hiring cycle, it will be impossible to maintain adequate staffing level which, in turn, will increase overtime costs and place additional burdens on existing staff.

Criminal Justice Services Division Key Budget Issues:

- -National Crime Information Center (NCIC): As part of a national modernization effort, NCIC datasets will be transitioning to the NIEM XML architecture in the coming years (currently estimated to be 2023). While this will allow a significant improvement in data exchange and standardization capabilities it will require updates to state information architecture to handle additional complexity and customization allowed by this upgrade. Discussions with Agency of Digital Services and vendor staff have begun in preparation for this long-term improvement, while implementation costs may be substantial, based upon initial evaluation.
- -Record Check Processing: Fingerprint-supported criminal history requirements continue to expand across both the governmental and private sector, including nursing licensure in 2022, with no additional resources to process increased volume. Similarly, processing complexities continue to be introduced at federal and state levels adding further workload. This increasing program complexity intersects with higher processing volume and the initiation of a required statewide audit program for recipients of criminal history record information.
- -Fingerprint Architecture: While a number of agencies have recently replaced out out-of-date electronic fingerprint capture devices, there continue to be a significant number of agencies yet to transition. Additionally, once the necessary upgrades are completed, Vermont will be able to submit digital palmprints as part of criminal fingerprint activities, assisting with latent identify verification. This can provide assistance and additional tools for missing persons, unidentified persons, and unsolved criminal cases.
- -Marijuana Program: With the passage of Act 62 (S.25) the Vermont Marijuana Registry has begun the transition to the Cannabis Control Board (CCB) as of January 1, 2022. The VCIC and CCB continue working collaboratively to minimize and disruption to patients enrolled in the program going forward. While the program has traditionally been revenue neutral, significant effort continues to be expended administratively to transition the program out of VCIC while competing with limited departmental resources.
- -Radio Technology Update Funding: RTS supports numerous land mobile radio networks and supporting technology for used by State Agencies, Departments and Municipalities. RTS provides and supports the state's private microwave

network which supports the state's mission critical communications technologies. Additionally, RTS supports the telephone system used by the department for the purpose of receiving NG911 transfer calls and general business needs. Some of the hardware used in these systems has exceeded its useful life expectancy and should be replaced. Other system elements should be upgraded to leverage the newest features and to ensure compatibility with current technology. Collectively, these mission critical systems are relied on by our first responders and the public and directly supports the mission of the Department.

-Technician and Program Staffing: RTS relies on a technically skilled staff of communications technicians to operate and maintain statewide land mobile radio systems, the high-capacity and redundant digital microwave carrier system, secure intra-state and inter-state data communications system and DPS internal telephone systems. In recent years our statewide distribution of technicians has been reduced, while our deployment of new, more complex technologies has increased. We need to re-establish three technician positions lost through attrition and department-wide budget cuts. RTS needs to add a technician position to serve the southeastern portion of the state. We need to reestablish a headquarters-based technical position to provide a minimal second-layer of technical staffing to support and provide back-up to the telephone functions within RTS. Telephone support is provided by a single person which creates hardships for our customer base and backlogs of work when the individual is absent. Additionally, there is very limited administrative support for RTS so that all clerical type duties must be performed by program staff.

VEM Key Budget Issues:

-Vermont Emergency Management manages hundreds of millions of dollars in federal preparedness, recovery, and hazard mitigation funding. Climate change is driving increases in disaster-related impacts which will continue to necessitate the need for local hazard mitigation and preparedness support at the local level. Programs to support these initiatives have expanded funding availability, but staff at VEM will need to meet in the increased level of expansion in the future

Fire Safety Key Budget Issues:

-Financial (Fire Academy): The limited general fund revenue we receive pays for 3 full time staff at the fire academy in Pittsford and we administer/manage the delivery of fire service training to thousands of first responders at no cost. Two years ago, the academy received \$60,000 in general fund revenue allowing us to hire part time help to assist in curriculum development and has been very valuable to our operations. The fire service is very fragile in retaining fire-fighters and recruiting new fire fighters to fill vacant positions. In an effort to assist departments in recruitment/retention, the academy must design new classes to meet the demand of the fire service. The Fire Academy is operating with only 7 full time staff and we are struggling to meet the training needs for first responders our primary mission.

-Fire Safety Special Fund/Modernization: The Division of Fire Safety's plan review revenue was impacted by a downturn in construction during FY21. The division made numerous operational adjustments to maintain a quick turnaround on permits. We extended licenses/certifications and conducted virtual inspections, stood up on-line curriculum, on-line continuing education classes and created from scratch an online payment portal to reduce face-to-face contact with our customers. In advance of the pandemic, fire safety was exploring cost saving strategies aimed at improving outcomes, improving and streamlining business process and reducing our cost. We relocated the HAZ MAT and USAR Team from Milton to a building in Colchester owned by AOT saving approximately \$80,000 annually. We successfully re-negotiated our fee for space rate for our Williston Regional Office saving several thousand dollars a year. We are exploring the feasibility of other office consolidations with significant savings. We moved our Central Office and Barre Regional Office to Waterbury HQ to save money on leased space. We updated many of our laptops enhancing communication and allowing permits and inspection reports to be generated from an inspector's vehicle. Even with all our efforts to modernize and reduce cost we still find ourselves with a significant special fund revenue shortfall ending FY21.

-Inspections: We are down two full time Assistant Fire Marshal positions 1 in Waterbury and 1 in Springfield and we continue to allocate one full time Assistant Fire Marshal position to Purchase and Sale Inspections in our Williston Regional Office. The requests for Purchase and Sale Inspections extends to all our remaining 3 regional offices resulting in more demand on our services. The significant increase in request for inspections comes at a time when we are

trying to focus on improving timelines on issuance of permits to support economic activity and reduce the cost of doing business in Vermont. If we do not conduct purchase and sale inspections, real estate transactions (closings) would come to a halt therefore, we conduct these inspections to support the real-estate market and Vermont's economy, although not statutorily required. We are struggling immensely trying to keep up with these inspection requests. Legislatively we are involved in discussions pertaining to regulating short-term rentals, rental housing safety, energy efficiency and other legislative initiatives focused on our trade professions.

Vermont Forensic Laboratory Key Budget Issues:

- -Backlog of controlled substance cases: Due to the ever-growing drug epidemic, more cases are being submitted to the laboratory for drug analysis. Unfortunately, the increase in submissions has not been matched with additional staff so the lab is straining to prevent the backlog from rising significantly. In addition, the evidence is more complex (multiple drugs and adulterants in each sample) which increases the time needed for interpretation.
- -Lack of Latent Print staffing: Until recent years, the Forensic Laboratory possessed two positions which were allocated as Latent Print Examiners. One of these was swept by the Administration and the other reclassified to assist another section with backlogs. Without any qualified examiners on staff, the laboratory had been contracting this service to an outside vendor in order to meet the needs of the field (i.e. Court deadlines, rush requests, etc.). With the addition of a Latent Print position in early 2020, the laboratory has brought the discipline back online. However, with only a single examiner, staff from other areas of the lab have been or are in the process of being cross-trained in order to provide redundancy and technical review capacity (an accreditation requirement). This sharing of personnel has a negative impact on casework productivity in other sections. The current backlog of Latent Print cases is ~300.
- -Declining revenues from Court surcharges: The blood and breath alcohol (BBA) special fund is comprised of Court surcharges resulting from DUI convictions. Declining revenues over recent years has diminished the funds available. This special fund is used to support an essential laboratory position and no longer earns enough revenue to cover the personnel costs. This creates a general fund pressure.

Administration Division Key Budget Issues:

- -General Staffing Issues: DPS Administration continues to experience turnover and has at times had difficulty recruiting qualified applicants. It has been particularly difficult to recruit temporary and limited-service positions. We have seen some improvement in this area over the last couple months.
- -Improve Technology Utilization: We need to technology more effectively to streamline key administrative processes in the face of ongoing staffing issues. Proper technology will not only create efficiency within the Admin/Finance division, but also across all DPS Divisions who must depend upon our Division to accomplish their missions. We are currently live with an electronic PO approval routing process and are going live with an electronic invoice approval routing process in the coming weeks. A Grant Management system is needed to manage the granting process from RFP through closeout. Although we have managed to handle grant documents electronically the process is inefficient and labor intensive.

Budget Summary

Appropriations	FY 2023 Position Count	FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend
Public Safety - State Police	442.00	69,694,059	72,929,451	79,726,529

Military Department

Department/Program Description

The state mission of the Vermont National Guard is "Soldiers and Airmen of the Vermont National Guard serve, protect, and defend the citizens of our Communities, State and Nation; ensuring our security and preserving our freedoms." The State of Vermont Military Department commands and supports the National Guard as mandated by state and federal constitutions. The department is also required by State law to provide support to Vermont Veterans. The Department is administered by the Adjutant General and includes the Vermont Army and Air National Guard as well as a State work force integrated into these organizations. The Vermont National Guard serves as a military force available to the Governor in the event of state emergencies which exceed the capability of civil authorities and as a federal force, providing an immediate operational force for both the US Army and US Air Force in times of national emergency or war.

The Military Department is made up from 5 components: Administration, Air Service, Army Service, Building Maintenance and Veterans Affairs. As a State force, the Military Department has provided relief services to citizens of Vermont and other states on numerous occasions. This support ranges from providing water storage units in time of drought, helping to bring power and services to storm ravaged areas, to road repair and evacuation in time of flood and other natural disasters, and most recently support of the COVID-19 Pandemic response. During fiscal years 2020 and 2021, the Military Department supported a number of National Guard State Active Duty and Federal missions, including establishing and operating a 400-bed Alternate Healthcare Facility, continued COVID-19 vaccination support, and response to the cyber attack at UVM Medical Center in November 2020.

The Military Department's performance is measured by the ability of the VT National Guard to accomplish its state and federal missions. The VTNG Joint Leadership Council has established three (3) strategic goals for the total VTNG. Those goals are:

- 1. Ready: Increase forces available to achieve state and federal missions
- 2. Reliable: Enhance our professional workforce's capability to support state and federal missions
- 3. Relevant: Seek emerging missions for which we are uniquely suited

Progress towards accomplishing these goals is measured by the VTNG strategic planning office, based on performance standards established and assessed by Army and Air Guard leadership. To meet the TAG's objectives, we provide facilities, ranges and airfield readiness.

The Military Department continues to monitor increased utility costs at the Air National Guard Base following the gradual arrival of the F-35 jets over the past year. While the National Guard Bureau has agreed to temporarily decrease the state share of the Facilities Operations cooperative agreement appendix by 5% (a GF savings of nearly \$130K), the Department and National Guard will continue to work toward a permanent resolution.

Critical initiatives in the Fiscal Year 2023 budget request include the funding for an Executive Director position within the Adjutant General's and funding for a new Veterans Service Officer (VSO) position in the Office of Veterans Affairs in Montpelier. For years the office of Veterans Affairs has operated with three (3) VSO's who help to coordinate Veterans benefits through outreach and assistance with completing various benefit applications. This team recovers anywhere from \$4.5M to \$7.7M of new Federal benefits for Vermont veterans on an annual basis. The filling of a fourth VSO position is critical to address the growing backlog of claims, as well as an anticipated uptake of claims as new veterans reach out for assistance following the wars in Afghanistan and Iraq.

Military - Administration

Department/Program Description

The Administrative component has 6 employees which makes up the Adjutant General's Office to include the Adjutant General, Deputy Adjutant General, Executive Assistant, Financial Manager, Legal Service Specialist, and Administrative Services Coordinator. The Financial Manager provides financial services for the Military Department, through the budgeting process, securing funding for employees' salary and benefits; along with operating funds to maintain the Vermont National Guard and state-owned buildings. The Legal Service Specialist provides coordination with the Attorney General's office to ensure the Military Department remains in compliance with all statutory and regulatory policies and guidelines. Also included in the Administrative component is funding for the majority of Internal Service Funds, and coordination of State Active Duty when the VTNG is called to order by the Governor during a state of emergency.

Funding for the Vermont National Guard Tuition Benefit Program also resides in this appropriation. The program which began in 2019 provides tuition assistance to active Guard members attending Vermont universities, colleges, or eligible training institutions offering certificate training or continuing education programs. For each full academic year funded, each recipient will commit to two full years of service with the Vermont National Guard.

To support the Adjutant General's State Mission of the Vermont National Guard; which is to serve, protect, and defend the citizens of our communities, State and Nation.

In addition to the 6 employees listed above, the Department has a vacant/unfunded Exempt Executive Director position on the personnel roster. The position has been traditionally utilized as the special assistant to the Adjutant General. For the past 18 months those duties have been filled by a Vermont National Guard full-time member, however the resources and funding for this position through the Vermont National Guard are not expected to continue into the next State Fiscal Year. State funding needed to fill this exempt state position is including in the FY2023 budget request.

Military - Air Service Contract

Department/Program Description

The Air Service appropriation supports the Vermont Air National Guard and its facilities through five major programs, including Facilities Operation and Maintenance, Environmental Program Management, VTANG Security, Fire Protection Services and STARBASE Vermont. Funding is provided through Cooperative Agreements with the National Guard Bureau and the State's General Fund, averaging about 92% Federal and 8% State.

Air Facilities Operation and Maintenance program supports approximately 450,000 sq. ft. of VTANG Facilities and infrastructure that house over 950 Air Guard staff, of which 300 are employed full-time, in accordance with mandated and inspected standards. Program activities include maintenance of facility systems capable of completing federal flying missions, 24-hour snow removal on VTANG taxiways, ensuring Air Force and industry standards for buildings that house specialized equipment, provide resources to sustain utilities at all VTANG facilities, airfield mowing to dissuade bird habitat in order to prevent bird strikes in moving aircrafts which impacts flight safety, and day to day maintenance and repair of facilities at the Air Force base.

Environmental Program Management is aimed at compliance with environmental laws, pollution prevention, conservation and restoration of the environment, and protection of human health.

Fire Protection Services provides Aircraft Rescue and Fire Fighting (ARFF) services for all ANG aircraft, facilities and equipment. This program also includes code enforcement, inspection and building code enforcement, as well as first response for the Northeast area of the City of South Burlington, heavy rescue services for the City of Winooski.

VTANG Security Forces include vehicle and personal identification checks prior to entry on to VTANG Base, 24-hour perimeter and buildings checks, and response to alarms and incidents when required.

STARBASE Vermont provides hands-on education for at-risk, disadvantaged youth and their schools in Vermont. The program helps to inspire greater student interest, knowledge and skills in STEM (science, technology, engineering and math) to address educational standards and economic security for our state and nation. It develops and maintains successful educational partnerships with Vermont schools, giving highest priority to schools with the greatest need (Title I status).

The Air Service Component's Mission is to provide fire protection and medical services through the Air Fire Department, to provide security for the VT Air National Guard Base through the VTANG Security program, to support the infrastructure of the Vermont Air National Guard Base through the Air Facilities program, and to serve students and teachers by providing experiential learning and hands-on enrichment in STEM through the STARBASE Vermont Youth Program.

The Military Department continues to monitor increased utility costs at the Air National Guard Base following the arrival of the F-35 jets over 2019 & 2020. While the National Guard Bureau has agreed to temporarily decrease the state share of the Facilities Operations cooperative agreement appendix by 5% (a GF savings of nearly \$130K), the Department and National Guard will continue to work toward a permanent resolution.

Military - Army Service Contract

Department/Program Description

The Army Service appropriation supports the Vermont Army National Guard and its facilities through a wide range of programs: Army Facilities Program; Environmental Management; Security Forces; Electronic Security System Installation Services; Command, Control, Communications, Computers, and Information Management (C4IM) Services; Training Support Systems; Antiterrorism; Emergency Management; Administrative Services; Distributed Learning; and Military Construction. Funding for these programs is provided through Master Cooperative Agreements with the National Guard Bureau and the State's General Fund, averaging about 92% Federal and 8% State funds.

All of the above programs are 100% federally funded with the exception of the Army Facilities Program. State match for this program can be found in the Building Maintenance appropriation, and ranges from 0% to 25% to 50% depending on the facility. The Army Facilities Program provides resources to plan, construct, operate and maintain the maintenance, logistical, and administrative facilities in support of the Army National Guard. It also provides land area and facilities to ensure units and individuals can meet and maintain pre-mobilization training standards established by the National Guard Bureau and the Department of the Army. The ability to meet state matching requirements is essential to maximize the federal dollars needed to accomplish these goals.

Various Military Construction projects are programed into the Fiscal Year 2023 budget totaling nearly \$30 million of 100% federal funds. This includes funding for a new Family Services building at Camp Johnson, construction of a new armory in Bennington, improvements to the Biathalon in Jericho, and renovations and an addition to Building 8 at Camp Johnson. Construction of the Army Mountain Warfare School in Jericho, which was programed into FY21 at around \$28 million, has been underway since September 2020 and is about 70% complete.

The Army Facilities Program mission is to construct and maintain all facilities and land at over 26 locations throughout the state; to include 17 armories, 5 Field Maintenance Shops, the Army Aviation Support Facility, Ethan Allen Firing Range, Camp Johnson, and Ethan Allen Air Force Base in support of the Vermont Army National Guard and its mission for readiness, operations, and training, as well as state emergency response capabilities.

Military - Building Maintenance

Department/Program Description

The vast majority of the Building Maintenance appropriation provides the required state match for the Army Facilities Program as mentioned above. For every dollar of General Fund spent under this program, the state will receive \$1 - \$3 in federal funds. With the support of federal and state dollars, the program funds the construction, maintenance and operation of facilities and land used by the Vermont National Guard. Many of the facility upgrades are aimed toward improving energy efficiencies such as upgrading heating systems to include geo-thermal, wood chips, and natural gas, upgrading electrical systems to incorporate solar power, and converting lighting to LED. There have been many facility upgrades to include new insulation, windows, and doors. All new construction meets Leadership in Energy and Environmental Design (LEED) standards with a goal of maximizing efficiency and reducing the future burden of utilities on the State and Federal government.

This appropriation provides the state match required for the Army Facilities Program, with a mission to construct and maintain all facilities and land at over 26 locations throughout the state; to include 17 armories, 5 Field Maintenance Shops, the Army Aviation Support Facility, Ethan Allen Firing Range, Camp Johnson, and Ethan Allen Air Force Base in support of the Vermont Army National Guard and its mission for readiness, operations, and training, as well as state emergency response capabilities.

Military - Veterans' Affairs

Department/Program Description

The Office of Veterans Affairs is made up of 10 employees to include the Director, three Veterans Service Officers, three Administrative Support staff, an Education Consultant, and two Cemetery Maintenance staff. This office supports more than 43,000 Vermont veterans through several programs including:

Advocacy for Veterans Seeking Federal Benefits - One of the most significant functions of the OVA is assisting veterans apply for federal disability benefits and survivors apply for survivor benefits. Veterans allow the Veterans Service Officers power of attorney, so they may legally represent veterans seeking benefits from the U.S. Department of Veterans Affairs, primarily Disability Compensation. Because of advocacy work through the Veterans Service Officers, the program annually generates in excess of \$5M+ in new federal benefits to veterans each year, which benefits the veterans and ensures disabled veterans are supported by federal programs rather than state programs.

Vermont Military Records Repository - This office maintains nearly 200,000 military discharge records from World War II to present, used to verify eligibility for state and federal benefits. As a result of a fire in 1973 at the national archives, many of these records are unique. Receipt of new records are the driving force behind marketing of federal benefits.

Recognition Programs for Veterans - Some of the various programs offered to express the state's appreciation for the service of veterans included the Vermont Medals Program, High School Diplomas, Veteran License Plate verifications, and the Veteran Assistance fund, which provides financial assistance to low income veterans in critical need.

Vermont Veterans Memorial Cemetery - The state is responsible for maintaining the Veterans Memorial Cemetery in Northfield Center, VT. Maintenance and operation of the cemetery is largely funded by reimbursements for internments from the Department of Veterans Affairs. A recent expansion funded by the National Cemetery Administration added a new Public Information Center, a new maintenance facility and 1,640 additional burial plots over 12 acres of land. The expansion now allows for year-round operations at the VVMC.

The Office of Veterans Affairs also offers grants to individuals and organizations that provide assistance to Vermont veterans, paid for by the Vermont Veterans Fund. Funds for this program are raised by donations through Vermont State tax returns and brings in an average of about \$70,000 annually.

Veterans Affairs advocates for more than 43,000 Vermont Veterans.

Critical initiatives in the Fiscal Year 2023 budget request include the funding for a new Veterans Service Officer (VSO) position in the Office of Veterans Affairs in Montpelier. For years the office of Veterans Affairs has operated with three (3) VSO's who help to coordinate Veterans benefits through outreach and assistance with completing various benefit applications. This team recovers anywhere from \$4.5M to \$7.7M of new Federal benefits for Vermont veterans on an annual basis. The filling of a fourth VSO position is critical to address the growing backlog of claims, as well as an anticipated uptake of claims as new veterans reach out for assistance following the wars in Afghanistan and Iraq.

Center for Crime Victims' Services

Department/Program Description

Department Mission Statement

The Vermont Center for Crime Victim Services is mandated to administer the Victims Compensation Program, the Vermont Restitution Unit, and the Victim Assistance Program. In addition, per 13 V.S.A. 5361, the Vermont Center for Crime Victim Services is directed to:

- Strengthen and coordinate programs serving crime victims
- Promote the rights and needs of crime victims statewide
- Assist in the development and administration of other programs and services for crime victims and witnesses, as needed;
- Administer federal Victims of Crime Act funds (VOCA); and
- Serve as a clearinghouse for information regarding crime victims.

Criminal Justice Council

Department/Program Description

Description of Department: The Vermont Criminal Justice Council (VCJC) operates the Vermont Police Academy (VPA) and the Vermont Police Canine Training Program.

The VPA operates two Level III classes each year, consisting of a total of twenty weeks each including the four-week post-basic training for those graduates without prior certification in such topics as DUI Enforcement, RADAR, etc. The VPA also operates three Level II certification schools each year. The Level II program consists of three Phases. Phase I consists of 80 hours of basic training and is classroom-based. Phase II is a minimum of 50 hours of additional classroom training and Phase III requires 60 hours of on the job, supervised training. While phase II and III are being completed, the officer must work under the direction of a fully certified police officer. The VCJC certifies approximately 50 Level II officers and 70-76 Level III officers each year plus approximately five waiver students from other states. Additionally, an average of 40-50 people attend the VPA each day for in-service education and re-certification training.

The Vermont Police Canine Program currently consists of 51 certified teams from various of departments including Vermont State Police, municipal police, Sheriff's deputies, Fish and Wildlife wardens, and Department of Motor Vehicle inspectors. These teams are required to train each month and demonstrate their skills during a proficiency test each year. They are trained in one or more of the following areas: patrol, tracking, drug detection, black powder detection and bomb detection.

The VCJC cooperates with various community organizations by offering the facility for student seminars, recreation events, and leadership classes. Additionally, the VPA houses youth programs geared to a future in law enforcement and/or firefighting.

Appropriations, Programs: The VCJC is funded through the general fund and interdepartmental transfers (sub-grants). In addition, federal, state, county, and local departments are donating nearly a half million dollars in time and equipment through adjunct faculty. The VCJC is the recipient of additional sub-grants (interdepartmental transfer) funding in the areas of domestic violence and impaired driving.

The VPA works closely with all police agencies in the state in areas of recruiting and retention as well as providing audiovisual programs the recruiters can use away from their department. Every month, police agencies send police officer applicants to the Academy to complete an entrance exam, psychological inventory, and fitness test as part of their screening/hiring process. The Level III basic training program consists of sixteen weeks of intense educational, physical, and mental training to prepare students for their new level of responsibility in the community. The Level II program, consisting of a minimum of 190 hours is also offered. There is no cost passed on to agencies for basic or mandatory training as required by law. All other training is delivered at cost.

The agencies that the Academy serves are continuing to demand alternative methods of training. This includes distance-learning modalities and regional training offerings. These alternatives are expensive and time consuming, requiring investment in the areas of information technology and related equipment.

"The mission of the Vermont Criminal Justice Council is to enhance public safety of the citizens we serve and promote law enforcement excellence by establishing policies, certification standards, training, and resources that embrace best practices in criminal justice."

The Vermont Criminal Justice Council offers modern training based on identified best practices to all police officers in the State of Vermont. The VCJC also provides technical assistance to communities, counties, and state agencies. To that end, the VCJC, through the Vermont Police Academy, conducts Level III basic training, Level II basic training, and in-service training designed to allow officers to achieve and maintain certification in the State of Vermont. Additionally, the Vermont Police Academy holds canine training and certification, and dispatcher training.

Department/Program Description

Agency of Agriculture, Food and Markets Mission Statement

Facilitate, support and encourage the growth and viability of agriculture while protecting the working landscape, human health, animal health, plant health, consumers and the environment.

Agency of Agriculture, Food and Markets Vision Statement

The Agency of Agriculture, Food and Markets will help to develop a safe, secure, ecologically responsive, profitable and fair local foods system for Vermont and Vermont customers which will enable Vermont to be a leader and participant in the global food system. The Agency will do this by assuming a leadership position important to the evolving food system, through access to and the application of resources (human, financial, social and environmental) and by supporting the creation of new opportunities.

Agency of Agriculture, Food and Markets

Description of Appropriations, Divisions & Programs

The ADMINISTRATION Division provides oversight and direction for the entire Agency to include policy development, legal counsel, and enforcement actions. In addition, it conducts agricultural land use planning, develops the biennial report and provides business and research services for the Agency. The Licensing and Registration Unit is administered through this Division.

Funding Sources: *General Fund* *Special Funds* *Federal Funds*

The FOOD SAFETY AND CONSUMER PROTECTION Division maintains and advances an equitable and safe marketplace through fair enforcement of Vermont's laws and rules and by providing technical assistance to involved parties to foster their success. The Division comprises five sections: Animal Health; Meat and Poultry; Dairy; Agricultural Products; and Weights and Measures. While specific section responsibilities are numerous, the core responsibilities of each are summarized in the following statements:

Animal Health: Through its prudent inspection and enforcement programs, this Section maintains the ability of Vermont's livestock, poultry, and livestock products to be sold locally, nationally and internationally. Through its technical assistance program, the Animal Health Section provides outreach to producers, processors and consumers on appropriate animal agricultural practices that ensure the health and humane treatment of livestock and compliance with best practices, laws and regulations.

Meat and Poultry: This Section's inspection and enforcement programs protect the health and welfare of consumers and the public by ensuring meat and poultry products produced and/or sold in Vermont are wholesome, unadulterated, and properly market, labeled, and packaged. Section personnel provide technical assistance to business owners involved or interested in the meat and poultry sector.

Dairy: This Section has regulatory oversight of and provides technical assistance to Vermont's dairy industry, including farms milking cattle, sheep and/or goats and over 140 firms processing that milk into value-added dairy products. The Dairy Section enforces the federal Pasteurized Milk Ordinance and state statutes to ensure sanitation standards are followed to minimize the risk of unsafe products entering the marketplace. The Dairy Section comprises a team of dairy farm and plant specialists qualified to work with all industry sectors along the farm to plate continuum.

Agricultural Products: This Section conducts produce safety farm inspections to assess compliance with the federal Food Safety Modernization Act's Produce Safety Rule and maple product retail inspections to ensure compliance with the VT Maple Products Regulations. These inspection programs and the technical assistance provided to producers

and processors help ensure the quality and safety of food products and maintain a safe marketplace. The Section also conducts the Country of Origin Labeling (COOL) reviews on behalf of the USDA Agricultural Marketing Services to ensure consumers are provided with accurate labeling for food products subject to the federal COOL regulations.

Weights and Measures: This Section's regulatory program promotes commerce by ensuring confidence in marketplace transactions, fair competition, and consumer protection anywhere a good or service is sold by weight, measure, or count. The program provides for compliance with laws and regulations related to weighing and measuring devices such as fuel meters (gasoline, propane, oil), all types of scales, retail pricing integrity, accurate package weights, and labeling through technical assistance, tests, and inspections in these areas.

Funding Sources: *General Fund* *Special Funds* *Federal Funds* *Inter-Departmental Transfers*

The AGRICULTURAL DEVELOPMENT Division supports and develops Vermont's agricultural industry by providing leadership, technical and business expertise, marketing assistance, and coordination of the following:

- * Promoting Vermont agriculture and food products at local, regional, and international events.
- * Connecting Vermont agricultural businesses to resources and market opportunities and convene food system stake-holders to focus on critical agricultural sectors and investment areas.
- *Identifying and assisting in developing new markets, local and out of state, for Vermont agricultural products.
- *Developing individual growth strategies for each sector of the agricultural industry.
- * Increasing agricultural literacy and access to local foods to support vibrant and viable communities.
- *Improving the economy of the state and competitive position of the dairy industry by increasing the consumption of dairy products and through management of the Northeast-Vermont Dairy Business Innovation Center.
- *Administering the Vermont Working Lands Enterprise program to include managing the Working Lands Enterprise Board.
- *Promoting the development of innovative agricultural energy and nutrient management business through leadership and recruitment.
- *Ensuring produce growers are educated, supported, and have the tools to achieve compliance with the on-farm produce safety requirements in the Food Safety Modernization Act's (FSMA) Produce Safety Rule.

Funding Sources: *General Fund* *Special Funds* *Federal Funds* *Inter-Departmental Transfers*

The PUBLIC HEALTH & AGRICULTURAL RESOURCE MANAGEMENT Division supports and grows agriculture while protecting human, animal, and plant health, consumers, and the environment.

- *Supports agriculture by implementing programs to allow for sale and trade of Vermont crops and timber products in national and international markets. Programs ensure Vermont products are free of injurious pests through quarantine activities, inspections, crop and pest monitoring.
- *Ensures public health, market access and economic opportunity for farmers through registration, regulation and research into the cultivation and processing of industrial hemp in Vermont.
- *Protects public and worker health and the environment from the adverse effects of pesticides through training, licensing, monitoring, disposal, enforcement, education for pesticide applicators, dealers, manufacturers, and the public.

- *Provides mosquito control districts with financial and technical assistance, to reduce mosquito populations below nuisance levels or those of public health concern.
- *Monitors state-wide for mosquitoes and ticks and disease pressure in these vectors; collaborates with the health department to ensure rapid response to any reports of human illness from these vectors.
- *Registers, inspects and regulates commercial animal feed and pet food products, commercial feed facilities, commercial and specialty fertilizer products and facilities, seed products and pesticide products to ensure they meet state and federal standards, comply with consumer guarantees and do not result in adverse impacts to the environment, human or animal health.

Funding Sources: *General Fund* *Special Funds* *Federal Funds* *Inter-Departmental Transfers*

The VERMONT AGRICULTURE AND ENVIRONMENTAL LABORATORY serves the Vermont public and agricultural industries by providing testing of agricultural products and environmental (water and air) samples. Services provided by this collaborative laboratory include:

- *Providing serological testing of cattle, sheep, goats, llamas, alpacas, horses and swine for several infectious diseases including Brucellosis and Equine Infectious Anemia. The Serology lab is certified annually by the U.S. Department of Agriculture.
- *Examining equine blood from State Fair horse pull events for the presence of performance-enhancing substances.
- *Providing official dairy product analysis, technical service and industry lab personnel training, certification and licensing.
- *Providing oversight, training and evaluation of milk laboratories in compliance with the Pasteurized Milk Ordinance, Food and Drug Administration, and the National Conference on Interstate Milk Shipments.
- *Testing agricultural fertilizer sold in Vermont for nutrient guarantees.
- *Analyzing livestock feed and pet foods for protein, fat and fiber guarantees.
- *Examining meat for protein, fat, moisture and salt guarantees.
- * Molecular testing technology to detect West Nile Virus in mosquitos, Lyme disease-causing bacteria in ticks, fungal plant diseases and Avian Influenza Virus in domestic poultry and wild birds.
- *Providing lab analyses in support of AAFM's role as the regulatory entity for pesticide use.
- *Providing lab analyses in support of AAFM's role as the regulatory entity for Vermont's Hemp Rule.
- *Metals Analysis supporting Department of Environmental Conservation programs including hazardous waste investigations, landfill assessments and long-term monitoring of acid deposition.
- *Microbiology testing for E. coli, and total coliforms in water. Samples are received from a variety of programs including state park swimming waters, surface water monitoring, wastewater treatment facilities, public and private drinking water sources, and at slaughter facilities and meat processing operations.
- *Testing for Per- and Poly-fluoroalkyl Substances (PFAS) in food and drinking/surface waters to support public and environmental health monitoring priorities of the Public Health & Agricultural Resource Management Division of AAFM, The Department of Environmental Conservation and the Agency of Transportation.

*Performing a wide variety of inorganic chemical analyses used in water quality and wastewater monitoring for the Department of Environmental Conservation and the Water Quality Division of AAFM. These analyses include nutrient testing that directly support the VT Clean Water Initiative Program and the Vermont Phosphorus Innovation Challenge.

*Supporting Air Quality and Climate and Waste Management and Prevention Divisions of the Department of Environmental Conservation. Water and solid samples are tested for polychlorinated biphenyls (PCB), semi-volatile organic compounds, volatile organic compounds (VOC), pesticides, fuels, and other organic compounds. Air samples are tested for VOCs and carbonyl compounds.

Funding Sources: *General Fund* *Special Funds* *Inter-Departmental Transfers*

The AGRICULTURE - CLEAN WATER INITIATIVE Division utilizes farmer assistance, education, research, regulations, monitoring, and compliance and enforcement that simultaneously promote the long-term viability of farms and the health of our state waterways.

The primary functions of this division include:

*Rulemaking - Promulgate new rules as required by law and revise and renew existing rules and permits based on learning, scientific research, and experience to date

*On-farm inspections to ensure farms meet water quality standards

*Technical assistance and training for farmers and custom manure applicators

*Engineering support in design of farm projects to improve water quality

*Engagement and outreach to build partnership, expand participation, increase compliance, and identify connections with local, state, and federal agencies

*Administering granting programs in conjunction with and in support of federal funds

*Implementing the agricultural provisions of the Act 64 of 2015 to improve statewide water quality and to meet the EPA approved clean-up plan to limit the Phosphorus Total Maximum Daily Load (TMDL) in Vermont's waterways thus protecting the water quality in the Lake Champlain basin and other Vermont lakes, rivers and streams. This involves efforts to limit pollution through:

*Offering financial incentives to farmers to protect waterways by establishing and maintaining vegetated buffers along the waterways of Vermont.

*Developing and implementing alternative manure management technologies and techniques.

*Protecting groundwater and surface water quality from agricultural non-point source pollution by enforcing required agricultural practices, providing technical and financial assistance to the farm community, participating in the watershed planning process on behalf of farmers, and administering the permit process for medium and large farms.

Funding Sources: *General Fund* *Special Funds* *Federal Funds* *Inter-Departmental Transfers*

FOOD SAFETY CONSUMER PROTECTION DIVISION

The Food Safety and Consumer Protection Division (FSCP) of the Agency of Agriculture, Food and Markets performs regulatory and technical assistance work in order to meet its objective of advancing a safe and secure food supply within a marketplace that provides fair and equal access to consumers and processors. The measures chosen for the

performance-based budgeting initiative were chosen because they are the easiest to quantify and represent a large portion of the regulatory work performed by Division employees. The number of licenses, registrations, and permits overseen by the Division indicates the scope of businesses falling under the regulatory authority of the Division. The number of inspections indicates the activities undertaken by staff to ensure compliance and provide outreach services to constituents. Administrative actions taken above the level of the field staff demonstrate the follow-through by the Division management to ensure the Division is meeting its objective.

In this year's report, the Division information is being reported by program including: Dairy Program, Animal Health, Meat Inspection, Weights and Measures, Maple and Country of Origin Labeling (COOL). Analogous measures are used for each program since all are regulatory in nature.

Although these measures are objective, there are nuances associated with the data the reviewer should keep in mind when attempting to draw conclusions from the information. The definition of an "inspection" is different for each of the four sections of the Division; one inspection completed by Meat Inspection Program staff does not constitute the same scope or type of work as one inspection performed by an Animal Health section employee. A daily slaughter inspection performed by a Meat Inspection Program employee is comprised of multiple sub-inspections including procedures that vary from day to day, while a livestock dealer inspection performed by an Animal Health section employee consists of reviewing a defined set of parameters to ensure compliance at one snapshot in time.

The Division is tracking the number of compliance activities completed that go beyond the level of the field staff, and these include Letters of Warning, Notices of Violation, Assurances of Discontinuance, etc. Again, this is a quantifiable measure, but the data provided does not capture the intangible amount of technical assistance and proactive compliance work done by the managers and field staff during almost every interaction with regulated constituents, including that which occurs during phone and email communication, consumer complaint investigations, and site/facility inspections. As a result, the data provided grossly underestimates the total amount of technical assistance and compliance work completed by the Division on an ongoing basis.

The FSCP Division might be unique in that the measures chosen for this project are entirely linked to Vermont's private business sector, which the Division does not control. This makes it difficult to provide accurate data projections for future fiscal years for all three measures. Although the Division strives to meet its goal of ensuring 100% of the individuals and businesses operating in Vermont under Division jurisdiction are appropriately licensed/registered/permitted and inspected in accordance with statutory requirements, attaching accurate projected numbers to this is not possible. The compliance activities anticipated for completion during any given year also correlate with the number of businesses in existence at that time and so can only be fully known in retrospect.

WORKING LANDS ENTERPRISE INITIATIVE

Working Lands Enterprise Initiative Program Description

The Vermont Working Lands Enterprise Initiative program aims to strengthen and grow the economies, cultures, and communities of Vermont's working landscape. The Working Lands Enterprise Board (WLEB) achieves this by making essential catalytic investments in critical leverage points of the Vermont farm and forest economy and facilitating policy development to optimize the agricultural and forest use of Vermont lands.

Working Lands Enterprise Initiative Program Measurement Tactics

The FY23 RBA Results include increases in jobs, total gross income dollars, and average percentage increase in products output reported by grantees at this time. For gross income and increase in jobs, the RBAs are reported in aggregate, meaning, the reporting here changes from the implementation of a reporting grantee's working lands project through calendar year 2020. Reporting in aggregate adequately allows us to see the changes in RBA metrics due to the implementation of the project. For production output percentage, reporting is in a singular year, as year to year production increases may vary depending on business strategy and size of business. Working Lands Program impacts from grant recipient projects may or may not be immediate, depending on the project; our small and emerging business.

nesses may see incredible changes in product output immediately (depending on the goals of their project), whereas our mature businesses may see a vast increase in gross sales.

Working Lands Program Manager continues to seek new ways of collecting and reporting metrics: updating questions via applications, surveys, and virtual site visits to better understand both qualitative and quantitative key performance indicators. In addition, it has been suggested to the Working Lands Enterprise Board that a retrospective analysis must happen, in order to potentially capture gaps in reporting prior to the grants management system being put in place. Staff will continue to collect new and different reporting which will be published in the Working Lands Enterprise Fund 2021 annual report. The updated WLEF annual survey response rate continues to increase (e.g., of the (24) 2017 and 2018 businesses reporting back; 80% responded with additional metrics on payroll totals, employee turnover rate, and additional benefits offered in the workplace above healthcare as a direct result of Working Lands investments). We expect to see increased response with the 2019 and 2020 surveys. The program manager also facilitates two WLEB Committees to develop long-term strategies specifically attending to improving executive business skills among working lands grantees, via business viability supports.

Fiscal Year 2020

The Working Lands program had an allocation of \$1.5 million dollars with \$500,000 legislatively mandated for dairy focused projects, with four buckets of funding: Dairy Focused grants, Service Provider grants and contracts, Business grants, and Trade Show Assistance grants. Based on strength of applications, grants were awarded to Vermont-based businesses ranging from for \$5,000 - \$150,000. WLEB investments were designed to respond to imminent needs, sectors and markets that had potential and/or challenges, including:

- WLEB decision to scale-up specific industry impact investments in 2019 focused on dairy industry and 2nd grade wood and forest-based products
- o WLEB FY20 focus is to continue market level industry impact investments, adding a mid-tier opportunity with supply chain impact grants
- Legislatively focused dairy dollars allowed WLEB to fund value-added dairy production, diversification opportunities (e.g., maple, hemp, grass-fed beef, agritourism opportunities), and innovative solutions to soil health and water quality

In March 2020, the pandemic arrived. In April, the WLEB quickly launched \$251,000 in FY20 unallocated funds to a Covid Response Business Development program. In June, these general fund dollars, paired with a small portion from the Dairy Business Innovation Center were awarded to 16 businesses for forward-thinking pivoting for emerging business needs as a result of Covid-19. One contract for Covid business coaching was awarded to Vermont Housing and Conservation Board's Viability Program. The Vermont State Legislature appropriated Coronavirus Relief Funds via bills S.351, H.966, and H.961 (now Act 138, Act 137, and Act 120 respectively) for Agriculture and Working Lands Assistance, which were signed by Governor Scott on June 30 and July 2, 2020. Of these funds, \$2.5 million was appropriated to the Working Lands Enterprise Fund for agricultural, food and forest, and wood product industries.

Fiscal Year 2021

The Working Lands program had a general fund allocation of \$594,000 dollars which will be used for forward thinking projects, with three buckets of funding: Service Provider grants and contracts, Business grants, and Trade Show Assistance grants. Based on limited funds, and the number and strength of applications, business grants are designed to address supply chain impacts, with awards to Vermont-based businesses ranging from \$25,000 - \$75,000.

Projects prioritized for funding will include:

- 1. Production and Processing in Agriculture Enhancing production of value-added agriculture or forest- based products and/or manufacturing efficiencies; transitioning to operation as a new processor or expansion as an existing processor; addressing known bottlenecks along the supply chain, such as meat processing and slaughter capacity
- 2. Low Grade Wood Equipment Producing, screening, weighing, and/or packaging wood fuel products (firewood, pellets, or chips) for heating; kiln or flow-through dryers; increasing commercial sawmill throughput or efficiency

Fiscal Year 2022

The Working Lands Program had a general fund allocation of \$5.594M, for investments focused on business development and growth, with 500k legislatively allocated to meat slaughter and processing development grants. There are four buckets of funding for this Fiscal Year: Business grants, Producer Association grants, Trade Show Assistance grants and Service Provider grants and contracts. Business grants are designed for addressing mid-scale supply chain impacts to market-level industry impacts, with awards to Vermont-based businesses ranging from \$10,000-\$250,000.

Projects prioritized for funding will include:

- Meat Slaughter and Processing Development -
- Increase facility to scale production, processing and/or distribution, address known existing bottlenecks; developing marketing plans and/or sales strategies, accessing new markets; equipment infrastructure such as value-added production or additions (smoker); expansion as an existing processor; transitioning to new pack-size/labeling or enhancing production and/or manufacturing efficiencies; additional facility infrastructure to increase efficiency (e.g., hydraulic lifts); continued navigation beyond Covid; research and development; testing new systems or technologies; energy focused projects
- Workforce training or apprenticeship opportunities; HCAAP (food safety) plans and implementation, inventory management; procurement, and pricing management; meat cutting and cured meat operation; cut and wrap for case-ready products, value-added processing: grinding, casing, smoking, transforming meat and trimmings from cutting step to ready-to eat products; product development, sales, and marketing skills training

Production and Processing in Agriculture and Forestry -

- o Infrastructure, energy focused projects, enhancing and or scaling production of value-added agriculture or forest-based products and/or manufacturing efficiencies; transitioning to operation as a new processor or expansion as an existing processor; addressing known bottlenecks along the supply chain
- Scale of the primary product being brought into supply chain has the ability to broaden the industry, address the sector on a market-wide scale, and/or address a market downturn; technology or approach is innovative and will lead to new opportunities for multiple businesses; automation equipment to amplify business viability; amplify viability with business and technical assistance as a secondary component; workforce development opportunities i.e., hiring skilled operators and training or re-training workforce to operate the machines.
- Business and Technical Assistance (service providers)
- Marketing support, e.g., business technical assistance, especially vis e-commerce and digital/online marketing; building executive business skills core skills that are associated with strong business acumen and management, appropri-

ate to the type, scale, and stage of growth of an entrepreneur's business; feasibility studies: technical assistance (production - securing expertise to assist with help a business with a specific business; business assistance (finance - cash flow, succession planning, etc.).

MOSQUITO CONTROL

Program Description

Per 6 VSA Sections 1082-1085 the Mosquito Control Program exists to conduct statewide surveillance of biting arthropod habitat and provide financial and technical assistance to the Mosquito Control Districts (MCDs) with their nuisance mosquito control efforts. Performance measure data are based on summer field season data rather than fiscal year; for example, FY 2018 data represent survey and analytical results for the period May 1 through November 20, 2017.

Program Objectives

*

Identify and map biting arthropod (mosquitoes, ticks) habitat throughout Vermont;

*

Conduct surveys of identified habitats for human and animal disease arthropod vector presence;

*

Collect specimens from habitats for identification and quantification of human and animal diseases present in arthropod populations throughout the state;

*

Provide control actions in collaboration with the Vermont Department of Health (VDH) when survey and analytical results indicate control is necessary, or human cases of arboviruses occur and warrant such action as determined jointly with VDH;

*

Provide financial and technical assistance to MCDs in support of their nuisance mosquito survey and control activities;

X

Provide general public and specific audience-targeted education and outreach information regarding biting arthropods and their control; and

*

Monitor changing environmental conditions; as shown by the steep increase in percent of arboviral detections in some years, data such as number of mosquitoes or ticks collected, identified, and tested, as well as the percentage of arbovirus detected, can vary widely owing to such factors as weather, drought, local flooding, species favored by extreme conditions such as drought, cyclical proliferation of different vector species, and changes in migratory or native wildlife populations. For example, although the total number of mosquitoes collected in a given year may decrease, the percentage of arbovirus detections in the same year could increase dramatically, as conditions greatly favor proliferation of a certain vector species.

Performance Targets

*

Continue statewide mosquito surveillance and expand surveillance in areas where data are underrepresented, including a more robust rapid-response surveillance program when human or animal illness occurs or in response to extreme instances of nuisance mosquitoes to rule out the presence of significant numbers of vector species;

Identify arbovirus-carrying vector mosquitoes and provide outreach information in a timely and effective manner, ideally before human infections occur;

Continue and intensify surveillance for one of the suspected Zika virus mosquito vectors (Aedes albopictus) using BG Sentinel traps and oviposition traps. This non-native, tropical/subtropical mosquito species was detected in Vermont for the first time in 2019:

Ensure grant and permit compliance by MCDs;

Verify that treatment criteria for MCDs are fulfilled prior to nuisance mosquito control management efforts;

Continue statewide tick surveillance for tick density and pathogen prevalence in collaboration with VDH;

Conduct ongoing identification of tick-borne disease statewide through collection and testing for 5 arboviruses (Borrelia burgdorfori, Borrelia miyamotoi, Anasplasma, Babesia, and Powassan virus);

Continue and promote outreach for the Passive Tick Surveillance Program in which VT citizens submit ticks for identification and VAAFM gathers statewide tick data from the submissions as well as providing submitters with tick identification and educational materials.

VERMONT PRODUCE PROGRAM

Program Description

The Vermont Produce Program works with farms to enhance produce safety and promote public health. This cross-divisional program regulates farms that meet certain thresholds in the FDA Produce Safety Rule and offers outreach, education, and technical assistance to all Vermont farms that grow produce. Produce Safety Improvement Grants (PSIG) help growers implement on-farm produce safety improvements.

Program Objectives

*Help Vermont fruit and vegetable growers implement on-farm produce safety practices through outreach, education, technical assistance, and financial assistance.

*Ensure compliance with the FDA Food Safety Modernization Act (FSMA) Produce Safety Rule by conducting inspections for all farms covered by the rule and taking enforcement actions where necessary.

The FDA Produce Safety Rule sets science-based minimum standards for the safe growing, harvesting, packing, and holding of fruits and vegetables grown for human consumption. The rule went into effect January 26, 2016, and initial inspections for farms covered under the rule began in calendar year 2019. Farms with less than \$25,000 in average

annual produce sales are not covered by the rule, and other produce farms are eligible for certain exemptions and therefore do not require routine inspection.

Performance Measures

1) Number of farms with produce sales enrolled and verified in the Vermont Produce Portal.

We encourage all Vermont farms that grow, harvest, pack, or hold produce to enroll in the Vermont Produce Portal. After a farm enrolls, Produce Program staff contact the grower to help them determine whether their farm is covered under the FSMA Produce Safety Rule and understand their farm's requirements. Growers enrolled in the portal can also request an On-Farm Readiness Review,* receive early notice and registration access for Produce Safety Alliance Grower Trainings** in Vermont, and apply for Produce Safety Improvement Grants to help pay for on-farm improvements. We also provide periodic news and regulatory updates on produce safety requirements and resources to portal enrollees.

2) Percentage of Produce Safety Improvement Grant (PSIG) grantees who indicate new markets reached or current markets maintained.

Vermont Produce Safety Improvement Grants help Vermont produce growers implement on-farm food safety practices, transition to compliance with the Food Safety Modernization Act (FSMA) Produce Safety Rule, and meet market demands for on-farm food safety. Although many Vermont produce growers are not required to undergo Produce Safety Rule inspections, wholesale produce buyers often require farms to implement on-farm produce safety practices. Buyer requirements may be met by verifying on-farm produce safety practices and/or by completing an accreditation or certification program like the Vermont Vegetable & Berry Growers Association Community Accreditation for Produce Safety (CAPS) program or the USDA Good Agricultural Practices (GAP) program. When applying for a PSIG, growers are required to indicate whether their proposed projects will help them reach new markets or maintain current markets. Growers who receive PSIG awards report on reaching new markets or maintaining current markets in their final reports.

3) Total number of support services provided to Vermont produce farms.

Our program provides outreach, education, technical assistance, and financial assistance to Vermont produce growers directly and through grants provided to University of Vermont Extension. These grants, funded through an FDA cooperative agreement, allow Extension produce safety experts and agricultural engineers to provide one-on-one technical assistance to growers, including PSIG applicants and grantees. We also collaborate with Extension to provide educational On-Farm Readiness Reviews* on Vermont farms. Extension staff can provide follow-up technical assistance to help growers overcome specific produce safety challenges.

- * On-Farm Readiness Reviews are voluntary, non-regulatory farm visits to help growers prepare for Produce Safety Rule inspections and identify areas for produce safety improvements.
- ** The Food Safety Modernization Act (FSMA) Produce Safety Rule requires that "at least one supervisor or responsible party" from every farm covered under the rule "complete food safety training recognized as adequate by the FDA (21 C.F.R. 112.22(c)). The Produce Safety Alliance (PSA) Grower Training Course satisfies this requirement.

NORTHEAST DAIRY BUSINESS INNOVATION CENTER

Program Description

New Program Reporting

The Northeast Dairy Business Innovation Center (NE-DBIC), hosted by the Vermont Agency of Agriculture, Food and Markets, is one of three USDA Dairy Business Innovation (DBI) Initiatives in the nation. VAAFM was selected competitively in 2019 by USDA Agricultural Marketing Service to receive funding and received non-competitive funding in

2020 and will again in 2021; each funding round is for three years. Total funds received to date equal \$12.5 million, including the new 2021 funds. The NE-DBIC serves the Northeast region of the United States, supporting dairy businesses across ten states, which includes all of New England and Delaware, New Jersey, New York, and Pennsylvania through projects that promote the development, production, marketing, and distribution of dairy products. Projects target dairy farms and processors while providing additional support through market research and technical assistance. At least 50% of funds go directly to dairy farmers, processors, and producer associations. Performance metrics specific to Vermont can be provided in future reporting years.

Program Objectives

Across Rounds 1 and 2, NE-DBIC objectives target the success of dairy businesses and industry stakeholders through:

*Technical assistance delivered to Vermont dairy farmers that for dairy herd health, transition to grazing, and forage management

*Competitive grant programs which tackle challenges for farmers and processors on food safety, business viability and diversification, supply chain improvements, and access to professional and technical services

*Research and events focused on streamlining product movement, increasing marketability and sales, and consumer experience.

In 2019 and 2020, activities related to the above objectives were initiated. Results of activities are, at this point, limited as most are underway.

During FFY2022, several projects will have concluded related to grazing/forage, technical assistance programming, market and consumer research, initial competitive grant programs, and several in-person events. Mid-project reporting will also be available to show progress the objectives above. Additionally, the scope of the NE-DBIC will expand once funding is finalized through DBI Round 3 funding which will commence in October 2021. With this round, NE-DBIC will continue to support activities that farmers and processors will directly benefit from grant-funded opportunities and technical assistance, while shifting toward a focus on climate forward and innovation projects.

Performance Measures

1) Number that experienced increased sales because of marketing and/or promotion activities.

A primary goal of the DBI is to promote business development through marketing innovation and to promote the use of regional milk. Northeast dairy farmers and processors who participate in events, technical assistance, or access research through NE-DBIC will be asked to share whether their activities that they participated in played part in increasing their sales, via post-activity survey. All competitive grant recipients are required to share sales information and impacts as part of grant reporting.

Number of new and/or existing delivery systems/access points.

This performance measure captures any existing methods or outlets that dairy businesses reached through participating in NE-DBIC activities that expanded and/or improved dairy product sales. Farmers markets, grocery stores, wholesale markets, agritourism activities, and other systems/access points are included in "deliver systems/access points". This performance measure will be captured in grant reporting and post-activity surveys for dairy farmers and processors.

3)
Number of farmers who have learned new management strategies.

Market research shows that consumers are increasingly demanding products that are values-based and produced with a focus on sustainability, beyond water and soil health. Northeast farmers participating in activities which increase their knowledge in ways that will help them reduce cost of production, increase lifestyle satisfaction, improve water quality, and/or increase soil health will be captured in this measure. Similarly to the above measures, this measure will be captured in grant reporting and post-activity surveys for dairy farmers.

Percentage of participants that expressed satisfaction and positive outlook for the future of their business.

With low milk prices and marketplace volatility, the NE-DBIC seeks to provide support for dairy farmers and processors to access to resources to help them respond to current conditions while getting what they need to stabilize their businesses and place importance on career/workplace satisfaction. NE-DBIC funds resources for businesses so they can develop production efficiencies, marketing strategy, and increase their business viability. In this vein, NE-DBIC will evaluate measures of success through post-event surveys and grant reporting that will assess farmer and value-added processor satisfaction and positive outlook for the future of their business as a direct result of participating in grant objectives or learning from outcomes.

ACT 250 CRITERION 9(B)/PRIMARY AGRICULTURAL SOILS

New Program Reporting

Program Description

The Agency's Act 250 work provides in depth review of impacts to primary agricultural soils (PAS) associated with proposed developments under Criterion 9(B), and issues recommendations to the District Environmental Commissions of the Natural Resources Board. The Agency's reviews address whether soils meet the definition of PAS, acreage of proposed impacts to PAS, acreage of mitigation warranted, and sufficiency of any proposed on-site mitigation.

Program Objectives

The objectives of this program include farmland set aside for present and future agricultural use through on-site mitigation (enforceable by permit condition issued by the District Commission); as well as off-site mitigation where approved by the Commission. Off-site mitigation consists of a payment to the Vermont Housing & Conservation Board's (VHCB) off-site mitigation fund, leveraged with other funds to achieve permanent farmland conservation easements in the region of development. The Act 250 Coordinator provides quarterly and annual programmatic reporting to VHCB, including comprehensive project spreadsheets.

Performance Measures

*Number of projects reviewed under 9(B) (review letters/correspondence issued)

*On-site mitigation, acreage warranted

*Off-site mitigation, acreage warranted

*Off-site mitigation fees (VHCB off-site mitigation fund) anticipated/payable prior to commencement of construction. Approximate figure associated with projects from past Fiscal Year.

KEY BUDGET ISSUES for the Agency of Agriculture, Food and Markets are as follows:

\$735,203- Annualization of Pay Act of which \$459,290 is attributable to the FY22 Retirement Rate Increase

\$129,285 - Internal Service Fees Increase

\$31,876 - ADS Service Level Agreement Increase

Financial Regulation

Department/Program Description

PROTECTS, LICENSES, AND REGULATES

The Department of Financial Regulation (DFR) is a state agency that touches the lives of every Vermonter through the regulation and monitoring of a broad spectrum of financial services. The Departments job is to protect consumers against unfair and unlawful business practices in the areas of banking, securities (investments) and insurance, while ensuring that licensed entities are financially healthy. The ongoing work of the Department on behalf of Vermonters helps consumers access financial services with confidence that:

- -Consumers are treated fairly, according to the terms of contracts and laws.
- -Regulated companies, institutions and individuals operate within the law.
- -Regulated entities operate in a financially sound manner, and remain able to deliver on consumer's earnings, benefits, claims, or other services.
- -Costs and services are reasonable for the marketplace.

Because of its current structure, the Department is able to serve a unique role within state government by providing a single point of access for consumer complaint resolution, enforcement authority and legislative contact on issues affecting financial services in Vermont. The synergies created through its shared staff expertise combined with a centralized administrative and business infrastructure enable the department to effectively provide:

- -Timely, consistent consumer protection and enforcement.
- -Access to affordable, high quality financial services in Vermont.
- -Quick and appropriate responses to important legislative matters.
- -Increased efficiencies that keep operating expenses low through the elimination of duplicate operational systems and staff positions.

Banking Division

The mission of the Banking Division is to protect consumers, regulate banking activities in Vermont, ensure soundness and stability of financial services providers, promote competition and availability of financial services, and educate the public. It regulates all state chartered banks, trust companies and credit unions, and licenses entities or individuals engaged in lending, residential mortgage brokering, mortgage loan origination, purchasing retail installment contracts, money transmitting, check cashing, currency exchange, and debt adjusting in Vermont.

Insurance Division

The Insurance Division oversees insurance companies and the products that the sell to Vermonters. The division works to protect Vermont consumers and help guarantee that companies with which Vermonters do business treat them fairly and pay claims in a timely manner. The division does this by enforcing solvency and consumer protection laws, monitoring insurance company finances and reserves, licensing insurance agents and companies, approving rates and forms and providing education and assistance to consumers.

Captive Insurance Division

The Captive Insurance Division regulates insurance that allows corporations and groups to establish a subsidiary to take financial control and manage risks by underwriting their own insurance, rather than paying premiums to third-party insurers. 3

Securities Division

The Securities Division regulates entities and individuals who offer, buy, sell, and for provide advice on securities, such as stocks and bonds, or mutual funds. The mission of the Securities Division is to protect Vermonters and promote the legitimate formation of capital in this state.

A major issue facing departments today are technology advancements. DFR will need to update an aging document management system. This requires a large upfront cost and an ongoing maintenance cost. DFR is building the maintenance cost into the budget, but will be requesting excess receipts to cover the upfront cost.

Secretary of State

Department/Program Description

The Office is comprised of the divisions of Vermont State Archives and Records Administration, Elections, Corporations, and Professional Regulation, as well as the Safe at Home address confidentiality program.

VERMONT STATE ARCHIVES AND RECORDS ADMINISTRATION

The Vermont State Archives and Records Administration (VSARA) is charged with administering the Statewide Records and Information Management (RIM) Program for all public agencies in accordance with generally accepted record-keeping principles and industry standards and best practices. As defined in 1 V.S.A. Section 317a and 3 V.S.A. Section 117, division responsibilities and services for state and local public agencies and their public records and information, regardless of format, include:

Establishing policies for the management, retention and disposition of public records and information;

Assisting public agencies with their internal records and information management programs;

Ensuring low-cost, secure, and compliant repositories and systems for public records and information are available at an enterprise or statewide level, including operating a State Records Center and State Archives; and

Taking legal custody of archival public records and information for permanent preservation and access.

In addition to the Statewide RIM Program, VSARA administers statutory filings related to the Administrative Procedure Act (APA) and municipal district formations; serves as the legislative liaison between the Secretary of State and General Assembly for Acts and Resolves; issues certified copies of vital records on behalf of the Department of Health; and authenticates certified public records and Vermont notarized documents for legal use in foreign countries.

ELECTIONS

The Elections division of the Office of the Secretary of State protects the integrity of elections and campaigning in Vermont; facilitates the engagement of all citizens in the electoral process; provides administration and support for the orderly conduct of elections, including making recommendations for improvements to the process (both technological and policy-based); provides advice and materials to 246 town clerks and Boards of Civil Authority (local election boards) to promote compliance with all requirements of federal and state election laws; provides materials and direction to public assistance agencies and the Department of Motor Vehicles to promote compliance with federal voter registration laws; provides responsive and accurate information and advice to citizens, public officials, candidates, and the press on elections, campaign finance, lobbyist disclosure, open meeting law, public records law, and municipal questions; administers the campaign finance and lobbyist disclosure laws; continues to increase the availability of information through its web site, online filing systems, and publications; and provides public education to encourage the participation of all citizens of voting age in the Vermont elections process.

As of the 2010 census, there were 496,508 citizens of voting age, and as of November 8, 2018, there were 490,074 registered voters in Vermont. As of January 21, 2021, there are 498,145 registered voters. The Elections division serves citizens, voters, candidates, political parties, political committees, public officials (elected and appointed), members of the press, lobbyists, lobbyist employers, students, public interest groups, and a wide variety of researchers and academicians.

CORPORATIONS

The Corporations division strives to provide a business-friendly environment, and to facilitate commerce by administering state law with respect to the registration and maintenance of foreign and domestic corporations, partnerships, limited liability companies (including block chain), sole proprietorships, and data brokers doing business in Vermont. Furthermore, the division acts as the State repository for trademarks and trade names registrations, and Uniform Commercial Code liens and related filings.

The division accomplishes an average of 105,000 unique transactions per year and collects over \$7 million in annual receipts for the services it provides.

OFFICE OF PROFESSIONAL REGULATION

The Office of Professional Regulation within the Office of the Secretary of State regulates 50 profession types and 78,989 licensees (FY20) by providing administrative, policy, and legal assistance to the regulatory programs for these professions. Regulation of a profession assures that practitioners meet minimum standards for initial licensure or registration, continue to meet minimum competency requirements on renewal, and if there is a complaint filed, practitioners are held responsible for their conduct. State investigators and prosecutors pursue disciplinary action. Sanctions can include a reprimand, restrictions on the ability to practice, a monetary penalty, or even suspension or revocation of a license. These actions protect the public and elevate the practitioners within any regulated group by removing incompetent, unethical, and dishonest actors.

SAFE AT HOME ADDRESS CONFIDENTIALITY PROGRAM, SERVING VICTIMES OF DOMESTIC VIOLENCE, HUMAN TRAFFICKING, SEXUAL ASSAULT AND STALKING

The Vermont legislature established the Safe at Home address confidentiality program within the Office of the Secretary of State. The program was implemented in July 2001. Currently the program serves approximately 200 individuals.

The goal of the Safe at Home program is to help victims of domestic violence, human trafficking, sexual assault, and stalking, who have relocated or are about to relocate, in their effort to keep their perpetrators from finding them. Safe at Home has two components: a substitute address service and a protected records service. These services limit a perpetrator's ability to access public information that could identify the new location of a victim who is in a program. This is not a witness protection program; rather it is a mail forwarding service.

MUNICIPAL

We provide information and education to local officials and members of the public regarding municipal matters. Municipal inquiries average 100+ per month. The Office publishes municipal handbooks and Opinions. We promote civics education and civic participation by citizens of all ages.

The Secretary of State's office promotes public trust and enables good government by:

Vermont State Archives and Records Administration (VSARA)

Protecting, preserving, providing, and promoting Vermont public records.

Elections Division

Preserving the integrity of campaigns, voter registration, and elections.

Corporations Division

Providing the business community and public with easy access to information about business registration and doing business in Vermont.

Office of Professional Regulation (OPR)

Protecting the public through streamlined, focused regulation of licensed professionals to prevent unethical, incompetent, or unprofessional practitioners.

Municipal

Promoting and strengthening positive state-local interactions by providing information, assistance, and educational materials related to municipal and open government laws through Municipal Programs.

Public Service - Regulation and Energy

Department/Program Description

Department/Program Description

Funding Sources:

The PSD is predominantly funded by the gross receipts tax on utility bills, pursuant to 30 V.S.A Sec. 22 and bill back authority pursuant to 30 V.S.A Sec. 21, with some programs funded through federal grants. The Clean Energy Development Fund is funded pursuant to 10 V.S.A Sec. 6523. The Low-Level Radioactive Waste Fund is funded by a bill back pursuant to 10 V.S.A Sec. 7067.

Divisions:

Commissioner's Office: Provides management and leadership and sets the priorities, goals, and strategic vision for the Department.

Public Advocacy Division: This Division serves as the ratepayers' Public Advocate, in all utility matters before the Public Service Board, other State and federal agencies and courts, on issues related to electricity, natural gas, telephone, cable TV, and to some extent for water and wastewater services. The Division enforces statutes and rules related to transactions and activities between utilities and their customers and upholds established rules of service when a consumer is not satisfied with service received from a regulated utility company.

The Consumer Affairs & Public Information (CAPI) Division at the Department of Public Service advocates for policies that protect consumer interests, educates consumers about utility issues, and helps people and businesses reach an informal resolution of their disputes with regulated utilities.

Regulated Utility Planning Division: This Division is responsible for reviewing the power supply components of electric utilities' rates, ensuring compliance with renewable energy and least-cost planning requirements, reviewing petitions for generation and transmission infrastructure, and preparing forward looking planning documents and reports as required by statute.

Efficiency and Energy Resources Division: The Efficiency and Energy Resources Division develops, coordinates, implements, and evaluates programs, policies, and plans that promote energy efficiency and other end-use solutions for customers, such as customer-scale renewable energy and electrification measures. EERD advocates for a regulatory structure that facilitates cost-effective, environmentally sound options for consumers while minimizing impacts to energy rates and bills. The Division implements best-practice evaluation, measurement, and verification of energy programs to ensure value is delivered to customers. EERD also serves as the Vermont State Energy Office under the US Department of Energy - State Energy Program, pursuing strategies aimed at reducing Vermonters' energy impact, including regular updates of Vermont's building energy codes.

Telecommunications: The Division provides policy development and regulatory enforcement related to local exchange telephone services, toll services, cable television, and federal telecommunications issues. It also provides policy guidance and expert support to the PSD public advocacy function.

The Engineering Division provides engineering support in the following three areas: electrical, nuclear, and gas pipeline safety. In the electrical area, the division reviews petitions for electric generation, storage, or transmission projects, reviews utility integrated resource plans. With respect to the nuclear area, the division monitors the decommissioning activities at Vermont Yankee, provides logistical and other support to the Nuclear Decommissioning Citizens Advisory Panel (NDCAP). With respect to pipeline safety, the division inspects natural gas and certain "jurisdictional" propane pipeline systems for compliance, reviews petitions for construction of natural gas pipeline facilities, administers the underground damage prevention program.

Administration: This Division performs the administrative, human resources, and business management functions for the Department. Administrative Division staff provide service and support to all members of the PSD staff and ensure the smooth daily office operations. This includes items such as accounts payable and accounts receivable processing, grant and contract processing, telecommunications needs, office equipment, facility issues and motor vehicles for the Department. All annual reports are distributed and collected through this division, as well as the collection of all gross receipts tax and fee collections processed each year.

Other Key Responsibilities of the Department:

Utility Finance and Economics: Provide financial and economic policy guidance and analysis including providing expert support to the PSD public advocacy functions. Reviews all rate cases, rate designs, tariff filings, alternative regulation proposals and financings of Vermont regulated utilities coordinate new information systems acquisitions and implementation.

Regional Grid and Markets: The Department is responsible for representing the interests of Vermont ratepayers, and to otherwise advance Vermont state energy policy regarding regional grid and wholesale market matters. The Department is the appointed representative of Vermont on the New England States Committee on Electricity (NESCOE). Through NESCOE, the Department participates in proceedings and meetings with the Independent System Operator of New England and its leadership, as well as with the New England Power Pool, the Federal Energy Regulatory Commission, the Conference of New England Governors and Eastern Canadian Premieres, the New England Conference of Public Utility Commissioners, the National Association of Regulated Utilities Commissioner, and a variety of other regional and national stakeholder groups.

Purchase and Sale of Power: The Department contracts on behalf of the state for the purchase of cost-effective power for sale, from time to time, at retail to residential customers and at wholesale to the state's electric companies. PSD currently sells a small amount of wholesale power and has not engaged in retail sales since 1996.

Energy Emergency Planning: The Department has developed and documented a procedure that defines steps that must be taken in the event of a serious energy shortage, including energy monitoring activities, responsibility assignment, and specific directions to be carried out under various energy emergency conditions.

Emergency Response: The Department is involved in direct, on-site intervention at utility and fuel related accidents. PSD participates in preparedness programs for providing technical assistance in the event of nuclear accidents, and PSD coordinates with local, state, and federal emergency response teams.

Utility Oversight: PSD has a significant role in utility systems oversight, gas safety programs, and utility accident prevention and investigation.

Monitoring of Non-Regulated Fuels: The Department collects and reports price data for non-regulated fuels (heating oil, propane, and kerosene) on a weekly basis during the heating season and monthly otherwise. This information is published on the Department website. Data is also captured on retail gasoline prices which are used by the Department of Motor Vehicles to calculate fuel tax and infrastructure assessment fees.

Goals/Objectives/Performance Measures

The PSD serves all citizens of Vermont through public advocacy, planning, programs, and other actions that meet the public's need for least cost, environmentally sound, efficient, reliable, secure, and sustainable energy, telecommunications, and regulated utility services in Vermont for the short and long term. This involves many areas including, but not limited to:

* Providing regulatory oversight support regarding Vermont utilities by providing research, analysis, and opinion to the Public Utility Commission (PUC) on the impacts on the public of utility rate increase requests, business practices, and acquisitions/divestitures of Vermont utilities

- * Providing research and analysis to the PUC regarding requests to build and expand energy generation and transmission facilities
- * Investigating consumer complaints against regulated utility companies
- * Overseeing the purchase and resale of power to Vermont utilities from the New York Power Authority
- * Encouraging, supporting, and funding the development of alternative clean renewable energy resources
- * Conducting energy grid, energy supply, and long-term energy planning and economic modeling to ensure that Vermont's anticipated energy needs are met in an efficient, affordable, and environmentally responsible manner
- * Planning for Vermont's telecommunication needs in the short and long term.

These responsibilities critically impact each and every citizen in Vermont, and now in particular, the issues related to Vermont's energy and telecommunications future are under justifiably intense public scrutiny. This level of work has contributed greatly to the increased demands on a very small staff with limited resources.

Public Service Department

Mission

Public Service Department Mission: The PSD serves all citizens of Vermont through public interest and ratepayer advocacy, planning, program administration, and other actions that are directed at meeting the public's need for least-cost, environmentally sound, efficient, reliable, secure and sustainable energy, telecommunications, and regulated utility services in Vermont for the short and long term. This involves many areas including, but not limited to:

* Performing regulatory oversight of Vermont utilities through advocacy before the Public Utility Commission (PUC) on the impacts on the public of utility rate adjustment requests, business practices, and

acquisitions/divestitures of Vermont utilities;

- * Providing research and analysis recommendations and advocacy on PUC proceedings regarding requests to build and expand energy generation and transmission facilities;
- * Investigating consumer complaints against regulated utility companies;
- * Overseeing the purchase and resale of power to Vermont utilities from the New York Power Authority;
- * Encouraging, supporting and funding the development of alternative clean renewable energy resources;
- * Conducting energy grid, energy supply, and long-term energy planning and economic modeling to ensure that Vermont's anticipated energy needs are met in an efficient, affordable, and environmentally responsible

manner;

* Planning for Vermont's telecommunication needs in the short and long-term.

These responsibilities critically affect every Vermonter, and now in particular, the issues related to Vermont's energy and telecommunications future.

Public Utility Commission

Department/Program Description

The Public Utility Commission is a three-member, quasi-judicial commission whose mission is to ensure the provision of high-quality public utility services in Vermont at minimum reasonable costs, consistent with the long-term public good of the state. The Commission strives to achieve this mission by providing an independent, fair, and efficient means of resolving public utility disputes, and by guiding the development of state utility policies and rules for public services to best serve the long-term interests of Vermont and its residents, all as defined in Title 30 V.S.A.

The Commission supervises the rates, quality of service, and overall financial management of Vermont's utilities: electric, natural gas, telecommunications, and private water companies. The Commission also supervises cable television companies, although federal law preempts most authority to regulate cable rates or programming. The Commission also reviews the environmental and economic impacts of proposals to purchase energy supply or build new energy facilities; monitors the safety of hydroelectric dams; evaluates the financial aspects of nuclear plant decommissioning and radioactive waste storage; reviews rates paid to independent power producers; and oversees the statewide Energy Efficiency Utility programs.

Enhanced 9-1-1 Board

Department/Program Description

The Enhanced 9-1-1 Board has statutory responsibility for the design, installation, and operation of the Vermont state-wide 9-1-1 system. Our primary mission is to connect citizens with the appropriate emergency responders, including police, fire, and emergency medical service agencies, in order to help ensure citizens receive quick and effective assistance in the event of an emergency.

The Enhanced 9-1-1 Board ensures that no matter where an emergency occurs, the citizen in need of assistance can expect the same high level of service focused on the protection of life, health and property.

The Board focuses on goals and measurements that relate to call-taking performance, database accuracy and system reliability. The Board is responsible for establishing standards for all aspects of the program.

All Vermont 9-1-1 call-takers are trained and certified by Board staff in accordance with industry standards and best practice. Call-takers are required to follow written protocols and guidelines for dealing with the specific emergency that is presented by the caller. Robust reporting tools in the Consolidated Communications-provided system allow Board staff to monitor other performance standards, such as call answer times, call answer rates for primary catchment areas and statewide queues, call answer rates vs presented calls, and the activity and use of workstations installed at the various PSAP's.

Database accuracy is of utmost importance in Vermont's Next Generation 9-1-1 system. NG911 is dependent upon accurate GIS data for call routing, displaying the location of the caller, and identifying the correct emergency responders for any location in Vermont -- dynamically at the moment of the call. Robust daily data accuracy reporting allows for immediate identification of any critical data errors. Board staff work daily with multiple stakeholders including government and private entities, telephone service providers, members of the public, and municipal 9-1-1 coordinators to help ensure accurate and complete addressing information for each community.

The Board works with the system vendor, Consolidated Communications, to carefully monitor system performance. Redundancy and resiliency are built into the system. Multiple layers of alarming and monitoring systems are in place to alert the vendor, and Board staff, in the event of a system problem.

People Served:

9-1-1 is a statewide service that is processes approximately 200,000 requests for assistance (calls and/or text messages) each year. The goal of the 9-1-1 program is to provide a resilient network that provides reliable access to 9-1-1 for all of Vermont's citizens and visitors.

Providing Access to All Citizens:

Vermont 9-1-1 is recognized nationally for our implementation of statewide text to 9-1-1 services. Text to 9-1-1 enables individuals who are deaf or hard of hearing, as well as individuals who find themselves in a situation where it could be dangerous if it was known they were calling 9-1-1, to interact directly with the 9-1-1 call-takers. In recent years, the deaf community has migrated away from using telephone and video relay services as they adopted texting as their primary means of communicating. Text to 9-1-1 provides an alternate means of summoning emergency services when it is not possible to make a voice call.

Human Rights Commission

Department/Program Description

The Commission's primary role is to conduct impartial investigations of allegations of discrimination and determine whether there are reasonable grounds to believe that unlawful discrimination occurred. The Commission receives approximately 500-1000 inquiries and roughly 60-80 complaints annually (a relatively stable number of charges over the past three years). The Commission's staff seeks to resolve complaints through conciliation during all phases of the matter, including during an investigation and after a reasonable grounds finding. If the Commission is not able to resolve a matter post-determination, the Commission may file suit in court to obtain remedies for violations of the state's civil rights laws. The Commission also engages in efforts to educate the public and potential complainants and respondents on the requirements of the law. While some discrimination is intentional, many cases are due to a lack of understanding of the applicable laws. The Commission has focused much of its recent efforts on racial discrimination, discrimination against persons with psychiatric disabilities, children with disabilities in schools and recreational facilities and more. The Commission is funded by a combination of State general funds (GF) and federal funds. The Governor is recommending a GF budget of \$700,290 for FY2023. Federal funds resulting from an on-going contractual relationship with the U.S. Department of Housing and Urban Development's (HUD) to investigate housing discrimination complaints in Vermont have been budgeted at \$80,257 for this FY2023. The actual amount received from HUD will vary depending on the number of cases processed and the outcomes. The combined GF and federal funds are roughly equivalent to the total of salary and benefit costs of the Commission's now six FTE staff members and its operating budget.

The Vermont Human Rights Commission is the state agency having jurisdiction over claims of unlawful discrimination in housing, state government employment, and the provision of goods and services by places of public accommodation. The Commission has four statutorily mandated roles: enforcement, conciliation, education and outreach and policy development and advancement.

Liquor and Lottery - Commissioner's Office

The operational integration of the Department of Liquor and Lottery (DLL) is a priority for the Department. DLL's leadership continues to identify shared tasks, work processes, and systems within the Division of Liquor Control and Vermont Lottery that can be integrated for more efficient operation. The reorganization of the Department along operational functions, rather than outdated divisions, will streamline work processes, foster a more inclusive and collaborative work environment, illuminate our shared mission, and redirect resources to mission-focused strategic goals.

Staffing Shortages

The Department continues to see several vacancies across functional areas which puts added pressure on current staff, resulting in increased overtime for some positions. With continued labor shortages across the State of Vermont, we expect this recruitment challenge to continue. Staffing shortages at our liquor and lottery agency stores and retailers continue to be problematic. The worker shortages force store to reduce hours or temporarily close certain days of the week. For our lottery agents, this results in lost sales and reduced revenue opportunities for the Department.

Liquor - Enforcement and Licensing

Our goal in the Compliance and Enforcement division is continue the progress being made in work pre-planning and daily accomplishment submissions. Our objective is to improve the efficiency of our investigative and supervisory personnel and to create more consistent outcomes throughout the division. We will remain focused on data driven compliance and enforcement activities and building bridges with other law enforcement agencies through the Place of Last Drink data and to effect positive changes in alcohol consumption outcomes. We will endeavor to increase productivity through improved policies and supervision and to improve our operating procedures by leveraging new technology to assist in accomplishing our core mission.

We wish to continue developing data driven compliance and enforcement techniques using data gathering and analytics.

Liquor - Warehouse Distribution

Our goal in the Warehousing division is to continue improving our distribution procedures through investments in technology and changes in policies and procedures to increase efficiencies. Our objective is to improve our procedures to sustain growth with an existing warehouse facility that is antiquated and undersized. The national shortage of CDL drivers creates a perennial lack of qualified CDL drivers to transport and deliver distilled spirits to our 802Spirits stores across the state. Ultimately, this leads to logistical issues. We are assessing the option of using smaller box trucks that do not require CDL drivers for our deliveries. We continue to manage the out-of-stock inventory of certain liquor brands by transferring products among agency stores, identifying alternate products, communicating with suppliers, and leveraging the annex location for bulk buys.

We will continue to evaluate our warehouse logistics model and modify our delivery schedules as needed to better serve the public and our agencies. We will continue to look for opportunities to expand the delivery of palletized warehouse shipments. We will implement changes to minimize product out of stocks.

Liquor - Administration

Department/Program Description

DLL Admin consists of IT services, Marketing, Purchasing, Retail Operations, Licensing and Education divisions.

802Spirits Retail Operations

To help grow the economy, the Department is creating an On-Premise Program and eCommerce site that will reduce the cost of goods for distilled spirts of DLL licensees (bars, restaurants, hotels, resorts), improve the efficiency of ordering distilled spirits from the DLC for these hospitality businesses, and allow consumers to order distilled spirts for pick up, and find what products are available and at which 802Spirits locations. We have also established a strategic goal to expand the number of kiosk model 802Spirits stores from 3 to 6. We are launching a pilot Cocktail Rack Program with Vermont distillers to showcase the versality of their products. Each rack will include cocktail recipe cards and encourage multiple product purchases. We are prioritizing the purchase of more craft spirits to meet consumer demand and provide additional choices.

Licensing

The Department will launch its online licensing portal in July 2022 to process all the liquor, tobacco, and lottery licenses online. The portal will significantly improve the efficiency of issuing and renewing licenses and enhance the interactions and service that our customers have with the Department. We will develop training resources to assist town clerks, licensees, and others in understanding and effectively utilizing the new licensing system. We will also integrate the licensing departments of the Lottery and Liquor divisions to further streamline processes.

Marketing

For both Vermont Lottery and 802Spirits, our marketing team is refocusing its efforts to humanize promotions in recognition of the importance of making a personal connection with our consumers. We will continue our 802Spirits Shop Local campaign with three educational points: VISIT, CONNECT, and SHOP. Both in print and through social media, we are showcasing retail shop owner stories and emphasizing the benefits of shopping local. For Vermont Lottery, our marketing campaigns will highlight the connection between tickets sales and support for Vermont's school aged educational programs.

Education

We are revising our eLearning modules to be more streamlined, cohesive, and consistent, and to integrate more scenario-based interactions to increase student engagement. We will work with NIC Vermont to integrate our event registration system functionality within our existing Education Storefront. We plan to make educational materials available in other languages for our non-English speaking and reading business customers and servers/sellers. An area of focus for the Department in building safe and healthy communities is to increase the awareness of the consequences of underage drinking through increased focus on education and collaboration with health coalitions and the Department of Health. We will continue to promote our online Youth Education Initiative that uses a BuzzFeed style quiz to educate minors and guardians about the negative consequences of underage drinking. We intend to launch a Just Ask for ID education campaign to encourage retail store clerks and servers to ask for ID.

Budget Summary

Lottery - Operations

Department/Program Description

The Lottery was established in 1977, Public Act Number 82, now codified as 31 V.S.A. Chapter 14 for the establishment and management of the Lottery. Through a network of approximately 600 agents, lottery tickets are available for sale to the 18 and over population of Vermont. The Lottery offers ten products to the playing public: Instant scratch ticket games; and, On-line games known as Powerball, Mega Millions, Lucky for Life, as well as Tri-State games known as Megabucks, Gimme 5, the daily numbers games of Pick 3 and Pick 4, Fast Play and Fast Play Progressive games. The Lottery strives to have the best product mix delivered in the most appropriate manner possible and attempts to maximize the revenues to the state education fund, while preserving the dignity of the state and considering the welfare of its people.

The Vermont Lottery Division is on track to complete the rollout of a 10- year 150-million-dollar new gaming system on September 18, 2022. This massive undertaking will strengthen the Department by improving technology, streamlining processes, improving the ordering and shipment of products to agent stores, and enhancing consumer experience.

Mission/Vision Statement

The Agency of Human Services strives to improve the health and well-being of Vermonters today and tomorrow, and to protect those among us who are unable to protect themselves.

Agency of Human Services Vision:

- The reduction of the impacts of poverty in our state
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

Office of the Secretary: The Office includes the Division of Administrative Services that provides Agency planning and oversight functions for the Secretary. The Secretary's Office also provides support for the AHS Chief Information Officer, the Portfolio Management Office, the Director of Housing, the Division of Rate Setting, the Human Services Board, the Developmental Disabilities Council and SerVermont (formerly the VT Commission on National & Community Service).

Department of Disabilities, Aging and Independent Living (DAIL): The Department assists older Vermonters and adults with disabilities to live as independently as possible. It helps adults with disabilities to find and maintain meaningful employment. It licenses inpatient health care facilities and long-term care providers. The Department also protects elders and adults with disabilities from abuse, neglect and exploitation.

Department of Corrections (DOC): In partnership with Vermont communities, DOC serves and protects the public by offering a continuum of graduated sanctions for offenders to repair the damage their crimes have caused to victims and communities. The Department operates Corrections facilities for incarcerated offenders and Community Correctional Service Centers for offenders on community supervision statuses. It also supports Community Reparative Boards that develop sanctions and restorative plans to enable nonviolent offenders make amends for their crimes and return value to their communities. The Department offers an array of treatment and educational opportunities for offenders. The goal of these programs is to assist in the rehabilitation of Vermont offenders and to reduce the social, economic and criminal impact of crime on the lives of victims, perpetrators and the community.

Department of Health (VDH): VDH protects and promotes public health, and prevents disease and injury through programs to maintain and improve the health status of all Vermonters. Programs focus on infectious and chronic disease control and prevention (e.g., injury prevention, and healthy babies programs), surveillance (e.g., disease reporting), and protection (e.g., restaurant inspections).

Department of Mental Health (DMH): DMH promotes the health and well-being of Vermonters in coordination with community organizations, such as Designated Agencies, Specialty Services Agencies and schools, as they provide statewide mental health services for children, families, adults and the elderly. These services include psychiatry, case management, employment, crisis and residential care. The Department also provides inpatient services for involuntary emergency examinations and commitments in which adults have become dangerous to themselves or others, or for psychiatric evaluations of competency to stand trial in criminal cases. In addition to the provision of inpatient services at the Vermont Psychiatric Care Hospital, the Department works in collaboration with advocacy and consumer organizations to ensure that educational, support and peer-directed services occur statewide.

Department for Children and Families (DCF): DCF programs and services foster the healthy development, safety, well-being and self-sufficiency of Vermonters. The department develops and administers a continuum of high-quality, comprehensive child development and family support services that promote children's health and well-being, school readiness and foundations for lifelong success; determines the eligibility of Vermonters who apply for disability benefits; administers state and federal anti-poverty programs that help individuals and families meet their basic needs (e.g., 3SquaresVT, Fuel Assistance, and Reach Up); works with families and communities to make sure children and

youth are safe, their basic needs are met and youth are free from delinquent behavior; ensures children receive the child and medical support to which they are entitled; and works with community partners to provide direct services to low-income Vermonters in need.

Department of Vermont Health Access (DVHA): DVHA promotes the well-being of families and individuals through the provision of health care coverage. DVHA is the state office responsible for the management of Medicaid, the State Children's Health Insurance Program and other publicly funded health insurance programs in Vermont. Additionally, DVHA is the lead agency in the implementation of the state's health care reform. It is the largest insurer in Vermont with regard to dollars spent and the second largest insurer with regard to covered lives.

Agency of Human Services - Secretary's Office

Department/Program Description

The Agency of Human Services strives to improve the health and well being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves.

Agency of Human Services Vision:

- The reduction of the impacts of poverty in our state and the creation of pathways out of poverty
- The promotion of health, well-being and safety in our communities
- An enhanced focus on accountability and effectiveness in achieving our goals
- The assurance of high quality health care for all Vermonters

Secretary's Office Administrative Services:

The Secretary's Office for the Agency of Human Services oversees the operations of the Agency (including the General Counsel, Integrated Family Services and Administrative Support), its Divisions, and Departments. It is comprised of several organizational units:

- Operations
- Policy
- Health and Human Services Enterprise
- Fiscal Division of Administrative Services
- Information Technology

The Health Care Operations, Compliance & Improvement unit directly under the Secretary's Office serves to ensure that health care operational, compliance and improvement initiatives that cross multiple departments are planned and implemented consistently and effectively. Medicaid policy development and interpretation for eligibility and coverage including the Global Commitment to Health Waiver, Medicaid State Plan and Children's Health Insurance Program; administers grievances, appeals and fair hearings; processes public records requests; directs quality improvement activities, and oversight of compliance activities.

Operations:

The Chief Operations Officer oversees many of the day to day activities of the Secretary's Office, at the direction of the Agency deputy secretary. The duties can vary considerably from working to improve operational efficiency, problem solving and handling logistics to acting as EEO and ADA Officer for the agency. This wide range of responsibilities includes the following Secretary's Office units/operations:

Developmental Disabilities Council: The Vermont Developmental Disabilities Council is a state-wide board led by people with developmental disabilities and their families. It is charged with conducting comprehensive review and analysis of services & supports in Vermont, and informing the Governor and other policymakers about issues impacting the lives of individuals with developmental disabilities.

Emergency Management: The Director of Emergency Management directs all aspects of activities for State Support Function 6 (mass care, emergency assistance, housing and human services) and coordinates with all AHS Departments to meet the Agency's responsibilities for all-hazards emergency response.

Facilities: Facilities manages all of the spaces that AHS occupies in both State-owned property and leased space.

Human Services Board: The Board is a citizen's panel consisting of seven members. Its duties are to act as a fair hearing board for appeals brought by individuals who are aggrieved by decisions or policies of departments and programs within the Agency of Human Services.

Investigations Unit: The Agency of Human Services' Investigations Unit is a specialized unit responsible for conducting the Agency's labor investigations.

The Tobacco Evaluation and Review Board: This board works in partnership with AHS and VDH in establishing the annual budget, program criteria and policy development, and review and evaluation of the tobacco prevention and treatment programs.

Workforce Development: Workforce development provides resources, programs, and training including leadership development, new employee orientation, and process improvement. Included in this effort is engaging the workforce in professional development, continuous improvement and organizational and cultural change.

Policy:

The Policy Division is responsible overseeing the direction of policy and planning efforts across the Agency of Human Services and its six departments. Work involves a wide range of complex policy initiatives across the spectrum of health and human services and ensuring a coordinated and integrated approach to policy development, strategic planning and direction setting, and direction setting for Agency priorities and the development, implementation and support of a culture of performance accountability. The division is responsible in defining scope, direction and priorities for AHS major legislative projects and planning.

The AHS Director of Housing oversees the stable, safe, affordable housing that is critical to all of the clients of the Agency of Human Services.

The State Refugee Office director is a federally mandated position (45 CFR 400.2) and directs the US Resettlement Program for the state, in compliance with federal statutes and regulations.

Field Services which has broad responsibility for the operations of all Agency of Human Services functions within each region. Regional Field Directors are charged with assuring the optimal functioning of the Agency, oversight of district offices and mobilization of the local community to design and implement a human services system which contributes to the health and well-being of all Vermonters.

Health and Human Services Enterprise:

The Health and Human Services Enterprise Division (HSE) is a multi-year, multi-phased portfolio of programs that are aimed at reshaping and enhancing business processes, improving public/private sector partnerships, optimizing information management and modernizing the IT environment, which will result in an end-to-end transformation of the customer experience.

Fiscal Division of Administrative Services:

Fiscal Operations coordinates the development of the Agency's budget to ensure that departmental programs reflect the Governor's priorities and are in compliance with legislative requirements. The Unit develops financial status reports and manages Global Commitment funds state-wide, including associated federal reporting and fiscal compliance under the State's 1115 waiver. The Fiscal Unit also coordinates all federal block grant and statewide single audit functions, updates the federal cost allocation plans and manages the receipt and reconciliation of federal funds per year. In addition, the Unit is responsible for reviewing and approving all AHS contracts and grants for the Agency of Human Services and works to coordinate the financial interests of the Health & Human Services Enterprise (HSE).

Information Technology:

The Information Technology Division provides project management, business analysis, IT procurement, applications management, enterprise content management, solution development and data services to the entire Agency. Its goal, in collaboration with the Department of Information and Innovation, is to plan, develop, implement, and maintain information technology and infrastructure to support the strategic goals of the Agency.

DVHA - Administration

Department/Program Description

The DVHA is the State office responsible for the management of Medicaid, the State Children's Health Insurance Program (CHIP), and other publicly funded health insurance programs in Vermont. Eligibility and Enrollment into Vermont's publicly funded programs is managed by the DVHA through the Health Access Eligibility and Enrollment Unit (HAEEU). The DVHA is the largest insurer in Vermont in terms of dollars spent and the second largest insurer in terms of covered lives.

The Department of Vermont Health Access strives to fulfill its responsibilities to Medicaid members, Medicaid providers, and Vermont taxpayers while making progress on its three priorities: adoption of value-based payments, management of information technology projects, and operational performance improvement. The Department's priorities support progress in the Administration's 3 priority areas Growing the Economy, Making Vermont More Affordable, and Protecting the Most Vulnerable. Within the goals and objectives section, DVHA provides a high-level overview of the Department's work in 3 priority areas over the last year and describes the ongoing work that supports the attainment of the Administration's priorities and strategic budgeting goals.

DVHA's Three Priorities

1) Adoption of Value-Based Payments

The Department continues to advance value-based payments through its Accountable Care Organization program and payment reform for Medicaid providers through Applied Behavioral Analysis, Children and Adult Mental Health, Residential Substance Use Disorder Treatment, Developmental Disabilities Services, and Children's Integrated Services program work. The goal of this work is to control both the rate of growth and variability in health care costs over time by incentivizing quality over quantity and ensuring that providers are connected to the total cost of care. This report will focus on the Accountable Care Organization program and describe how payment reform activities in that program can address the projected gap between revenues and expenditures for state fiscal year 2021 through fiscal year 2025.

2) Management of Information Technology Projects

The Department is working with the Agency of Digital Services to transform the way the Agency of Human Services plans for, implements, and manages large scale Medicaid information technology projects. These new approaches are designed to improve outcomes and efficiency, reduce financial risk to the State of Vermont, reduce vendor lock-in, and to build systems that are nimble and responsive in the face of changing customer expectations, a shifting federal landscape, and advancements in the marketplace. This report highlights recent accomplishments including the new online provider management module for enrolling providers in Vermont Medicaid, the new fully electronic process for prior authorization requests, and the ability of Vermonters to upload application and verification documents through their mobile device. It also discusses the ways in which these initiatives, if executed successfully, can reduce operating expenses over the next 5 fiscal years.

3) Operational Performance Improvement

The Department has focused on business efficiencies for improving the way Medicaid members and providers are served and has implemented Scorecards for performance metric tracking as part of its system for strategic management. Each of the Department's units are responsible for assessing performance on identified measures that are aligned with the core responsibilities of enrolling members, paying for care, and promoting health. The performance measures are used to drive decision making and the pursuit of better customer service, a higher quality of care, and operational efficiencies. Targeted performance improvement projects have resulted in numerous operational and financial efficiencies; for example, reduced call center contract costs, improvements in sub-recipient grant monitoring, a lean procurement process (Rapid Agile Procurement), improved processes for Early and Periodic Screening,

Diagnostic, and Treatment services, Vermont Chronic Care Initiative model evolution, and a reduction in audit findings.

Budget Summary

		FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend
Salaries and Wages		24,020,776	22,707,132	23,485,461
Fringe Benefits		12,362,559	13,473,070	15,389,532

Health

Department/Program Description

Vision - Healthy Vermonters living in healthy communities.

Mission - To protect and promote the best health for all Vermonters.

The Department of Health is proud to continue a long tradition of public health service in Vermont. We are the state's lead agency for public health policy and advocacy.

Public health is the system that works to protect and promote the health of citizens. It is the science and art of preventing disease, prolonging healthy life and promoting physical and mental health. Not only do people with better health habits generally live longer; those years are more likely to be free of disease and disability.

The Health Department's many programs and initiatives help Vermonters live fuller, healthier lives from birth through old age. We focus on prevention, which is perhaps the best investment that can be made in health.

We educate and inform Vermonters about eating a healthy diet, regular exercise and not smoking.

We promote and improve access to immunizations, mammograms, HIV/AIDS testing and care, and prenatal care.

We license physicians and hospitals, inspect food and lodging establishments, and enforce health regulations.

We prepare for and respond to public health emergencies and threats, and provide the public with information to help them stay safe and healthy.

Essential public health and disease prevention services are available across Vermont through our 12 district offices. The district offices work in partnership with local health care providers, voluntary agencies, schools, businesses and community organizations to improve health and extend statewide initiatives in local communities throughout the state.

As part of the Agency of Human Services, the department works in concert with the Departments of Mental Health, Children and Families, Disabilities, Aging and Independent Living, Corrections, and the Department of Vermont Health Access to improve the health and well-being of Vermonters.

Health - Administration and Support

Department/Program Description

The Office of the Commissioner: Provides public health leadership, policy development, direction and management guidance to staff and programs throughout the Department.

Planning & Healthcare Quality: Works with staff throughout the department to facilitate planning and integration of activities to improve population health outcomes and internal systems. Collaborates with external partners to improve health care quality. This includes:

- Public health accreditation maintenance
- Hospital quality improvement/access to care Medicare Rural Hospital Flexibility Program (Flex), Small Rural Hospital Improvement Program (SHIP)
- Health Equity
- Performance Management
- Prevention team support/program integration
- Quality in healthcare with external partners
- Rural health & primary care programs
- Workforce development
- Nursing

Communication Office: Works with department leadership and staff to provide useful, accurate, credible and timely public health information and messages to Vermonters. Leads or coordinates local, state and national public health communication efforts through tasks including:

- Crisis, emergency and risk communication
- Media relations
- Social marketing/social media
- Graphic design/branding
- Website
- Public Information Office (PIO) function for emergency events

Operations: Develops, coordinates, manages and facilitates the operational and business practices for the department. These operations include:

- Business Resource Center: mail, facilities and maintenance, conference room scheduling, shared financial resources, inventory surplus, space management, workstation design and assembly, in-house printing, telecommunications and security

- Continuity of Operations (COOP): plan for/manage business continuity to ensure essential functions in the event the buildings are closed, staff are relocated or redeployed to other locations
- Intranet: to facilitate internal communication, consistent business systems and operations
- Public Records: respond to Freedom of Information (FOIA) requests, disposition of stored records
- Business Systems & Process Improvement: ensure that business systems are efficient, customer responsive and financially sound
- Respiratory Protection Program: fit-testing employees based on job responsibilities, ensure that policies are developed and reviewed, administer record keeping compliance required under OSHA
- HIPAA: ensure that all employees are trained, and divisions and units are compliant in managing confidential health information

Business Office: Provides business management services to the Department of Health in accordance with Vermont Agency of Administration policies and procedures. Services provided include:

- Budget preparation and financial monitoring
- Payroll/Accounts payable and receivable
- Audit/Cost allocation and federal programs financial services
- Subgrant and contract processing

Health - Public Health

Department/Program Description

Environmental Health Division: Works to prevent disease and reduce or eliminate environmental risk using science, education and regulation.

- Asbestos and Lead
- Climate Change
- Environmental Public Health Tracking
- Food and Lodging
- Healthy Homes
- Private Drinking Water
- Radiological Health
- Radon
- Recreational Water
- School Environmental Health (Envision)
- Toxicology and Risk Assessment

Office of Local Health: Provides public health leadership and direct service to Vermonters in their communities.

District health offices in 12 locations around the state work closely with other Agency of Human Services district office staff to provide public health leadership, community health assessments, coalition building, and planning. They provide health promotion, disease prevention, outreach, education, emergency preparedness and follow-up necessary to support an effective public health system. It is through the district offices that most Health Department programs reach Vermonters.

Health Promotion and Disease Prevention Division: Promotes healthy behaviors, reduction of risky behaviors, and improvement of chronic disease self-management. Program elements include individual, family, organizational, community, and policy level strategies to promote population-based health. Below are some of the areas where the department work is focused:

- Asthma
- Chronic Disease Prevention
- Colorectal Cancer Screening and Prevention
- Comprehensive Cancer Control
- Diabetes Prevention and Control
- Nutrition/Physical Activity

- Oral Health
- Tobacco Cessation, Education and Control
- Women's Health: You First a breast and cervical cancer and heart health screening program

Health Surveillance Division: The Division of Health Surveillance informs the planning, implementation and evaluation of public health practice through on-going systematic collection, analysis and interpretation of health data.

The major programs include:

- Public Health Statistics
- Infectious Disease Epidemiology
- Public Health Laboratory

Public Health Statistics - Collects, analyzes, interprets and reports information to determine health risk behaviors, health status, health disparities, morbidity and mortality of the population. Provides research, statistical and analytical support to all Health Department programs. Maintains and analyzes vital records (births/deaths/etc.). Conducts health surveys. Operates the Vermont Cancer Registry and Vermont Immunization Registry. Provides GIS mapping support and coordination.

- Cancer Registry
- Geographic Information System (GIS) Projects
- Immunization Registry
- Research, Epidemiology, and Evaluation
- Research and Statistics
- Vital Records

Infectious Disease Epidemiology - Monitors, investigates and takes action to limit the spread of infectious disease to prevent or control illness and death in the community. Provides vaccines for children and adults. Provides prevention and, in some cases, treatment services for zoonotic diseases (including mosquito- and tick-borne diseases and rabies), HIV/AIDS, sexually transmitted diseases, viral hepatitis, healthcare-associated infections, foodborne disease, vaccine-preventable disease, and tuberculosis.

- Epidemiology Program
- Healthcare-Associated Infections
- HIV/AIDS/STDs/Hepatitis C
- Immunization Program
- Tuberculosis
- Zoonotic Disease

Public Health Laboratory - Provides the highest quality laboratory tests and analytical services to support public health work including disease prevention, control and surveillance, environmental health and protection, food safety and emergency response. The Laboratory provides a wide range of test services such as clinical microbiology, rabies, drinking water, radiochemistry, blood lead and forensic toxicology. The Laboratory is certified under the Clinical Laboratory Improvement Act (CLIA) for clinical testing by the Centers for Medicaid and Medicare Services and accredited by the National Environmental Laboratory Accreditation Program (NELAP) for drinking water analyses. When new health risks emerge or well-known problems reoccur, public health laboratories analyze the threats and provide the information with which health authorities, first responders, and other officials mount an effective response to protect citizens. Public health laboratories safeguard entire communities. Across the nation, public health laboratories:

- Monitor communities for pathogens that spread in food or through contact with people or animals.
- Screen 97 percent of the babies born in the US for potentially life-threatening metabolic and genetic disorders.
- Perform almost all testing to detect and monitor infectious diseases like West Nile virus, SARS and Avian Influenza.
- Test drinking and some recreational water for bacteria, parasites, pesticides and other harmful substances.
- Rapidly identify suspect agents, as in 2001 when public health laboratories tested over 1,200 specimens a day during

the anthrax attacks, ultimately conducting over one million laboratory analyses.

Office of the Chief Medical Examiner: In the interest of public health and public safety, performs autopsies, investigates and determines cause and manner of unexpected or unnatural deaths from violence, injury, suicide, drugs and other circumstances.

Emergency Preparedness, Response, and Injury Prevention: Coordinates, develops and manages preparedness and response capabilities within the department. Works with external partners to manage emergency health/medical preparedness and response, including:

- Emergency Medical Services
- Health Alert Network
- Health Operations Center/Incident Command System
- Health Care and Hospital Preparedness
- Strategic National Stockpile/Cities Readiness Initiative
- Volunteer Registration

Board of Medical Practice: The Board of Medical Practice licenses physicians, physician assistants, podiatrists, physician and podiatric residents, and certifies anesthesiologist assistants and radiologist assistants. The Board provides licensing and investigation support and investigates complaints and charges of unprofessional conduct against any health care profession it licenses or certifies, and determines if charges are substantiated. The Executive Director also administers the Hospital Licensing program for the Board of Health.

Maternal and Child Health Division:

- Assure delivery of core MCH public health services (infrastructure building, population-based, enabling, and direct health care)

- Breastfeeding Promotion and Support
- Child Developmental Clinic
- Childhood Injury Prevention
- Children with Special Health Needs
- Comprehensive Sexuality Education
- Domestic violence and sexual violence prevention
- Early and Periodic Screening, Diagnostic and Treatment Services (EPSDT)
- Hearing Outreach
- Maternal and Child Health Planning
- Medical Social Worker care coordination
- Newborn screening
- Nurse Home Visiting program
- Preventive reproductive health including preconception and family planning
- School Health
- Specialty clinics and support services
- WIC: Supplemental Nutrition Program for Women, Infants, and Children

Health - Alcohol and Drug Abuse Programs

Department/Program Description

The Division of Alcohol and Drug Abuse Programs (ADAP) of the Department of Health aims to create an accountable, community-based system of services and supports that empowers Vermonters to embrace resiliency, wellness and recovery by becoming active participants in self-management. This system includes the entire range of services from prevention through recovery and is composed of a continuum of timely, interconnected and coordinated components with multiple entry points.

ADAP helps Vermonters prevent, reduce and/or eliminate alcohol and other drug related problems. In partnership with other public and private organizations, ADAP plans, funds, manages, and evaluates a comprehensive, consistent, and effective system of substance use prevention, intervention, treatment and recovery services.

Mental Health

Department/Program Description

Department of Mental Health (DMH) promotes the health and well being of Vermonters in coordination with community organizations, such as Designated Agencies, Specialty Services Agencies, other state departments and schools, as they provide statewide mental health services for children, families, adults and the elderly. These services include psychiatry, case management, therapies, skill building, employment, crisis, and residential care. The Department also provides inpatient services for involuntary emergency examinations and commitments in which adults or children have become dangerous to themselves or others, or for psychiatric evaluations of competency to stand trial or criminally responsible in criminal cases. In addition to the provision of inpatient services at the Vermont Psychiatric Care Hospital, the Department also works in collaboration with advocacy and consumer organizations to ensure that educational, support, and peer-directed services occur statewide.

VISION: Mental health will be a cornerstone of health in Vermont. People will live in caring communities with compassion for and a determination to respond effectively and respectfully to, the mental-health needs of all citizens. Vermonters will have access to effective prevention, early intervention, and mental-health treatment and supports as needed to live, work, learn, and participate fully in their communities.

MISSION: It is the mission of the Vermont Department of Mental Health to promote and improve the mental health of Vermonters.

VALUES: We support and believe in the Agency of Human Services values of respect, integrity, and commitment to excellence and express these as:

Excellence in Customer Service

- People receiving mental health services and their families should be informed and involved in planning at the individual and the system levels
- Services must be accessible, of high quality and reflect state-of-the-art practices
- A continuum of community-based services is the foundation of our system.

Holistic approach to our clients

- We can promote resilience and recovery through effective prevention, treatment, and support services.

Strength Based Relationships

- It is important to foster the strengths of individuals, families, and communities.

Results Orientation

- Strong leadership, active partnerships and innovation are vital strategies to achieve our mission.
- We are accountable for results.

The Mental Health appropriation funds:

- Adult mental health services
- Children's mental health services

- Mental health legal services
- System Development and Planning (Inpatient and Community-based urgent, emergent, and aftercare support services)
- Two facilities, Vermont Psychiatric Care Hospital (VPCH and Middlesex Therapeutic Community Residence (MTCR)

The Department of Mental Health provides services to adults with severe mental illness and adults with less severe emotional or behavioral problems that still disrupt their lives; children and adolescents experiencing a serious emotional disturbance and their families; and anyone who is experiencing an acute mental-health crisis. All mental health services to individuals are provided through contracts with ten private non-profit designated agencies and two specialized service agencies located throughout the state.

Adults receive mental health services for the treatment and amelioration of mental health and behavioral symptoms. These include but are not limited to: suicidal or homicidal ideations and/or behavior, significantly self-injurious behavior, severe psychoses which diminish or destroy one's ability to care for oneself in ordinary life situations. Psycho-social factors include homelessness, substance abuse, marital and family distress, and medical management of symptoms of mental or other illnesses. Services are in general, focused on the need for rehabilitation and supports to restore the ability to function in the community and avoid hospitalization, where appropriate. Approximately 9,500 clients receive these community-based mental health services.

Additionally, children and adolescents and their families receive community-based mental health services. These children and adolescents either experience a severe emotional disturbance or are at substantial risk for developing a severe disturbance. They include youth who exhibit behavioral, emotional, or social impairment that disrupts academic or developmental progress or family or interpersonal relationships. They fall into at least one of three categories: (1) exhibit seriously impaired contact with reality and severely impaired social, academic and self-care functioning; (2) classified as management or conduct disordered because they manifest long-term behavior problems (e.g., aggressiveness, anti-social acts, suicidal behavior, substance abuse); (3) suffer serious discomfort from anxiety, depression, or irrational fears whose symptoms may be exhibited as serious eating and sleeping disturbance, or persistent refusal to attend school. Approximately 11,000 children or adolescents receive these community-based mental health services.

The contracted designated agencies operate mental health Emergency Services programs which are available 24 hours a day, seven days a week, responding to any individual experiencing a mental health crisis and to communities following natural disasters, accidental deaths, suicides, and other traumatic events. Emergency programs also screen individuals to determine if there is a need for admission into involuntary and/ or acute-care arrangements. Approximately 6,500 Vermonters are served through these Emergency programs.

During FY 2014 additional resources allowed the expansion of more outreach and flexible service capacities given the ongoing constraints on inpatient hospital beds and unmet needs identified by communities and stakeholders. DMH is tasked with monitoring individual and system-wide performance and outcomes of these initiatives.

DMH received approval through the CON process to build a new 16-bed secure residential recovery facility, which will be the new location for the current MTCR (Middlesex Therapeutic Community Residence). The current MTCR is a 7 bed facility located in Middlesex Vermont, and is being replace by the new 16-bed facility which will be located at the site of the former Woodside facility in Colchester. Proposed funding in the FY 23 budget represents the cost of the new positions needed to open the new secure residential facility, as well as operating and contract cost. DMH anticipates staff to begin occupying the facility for training purposed around October 2022. Beds are projected to be open on January 1, 2023.

In addition, DMH has worked with AHS and DVHA to develop an Alternative Payment Model (APM) to stabilize the Brattleboro Retreat. This model requires that all funding for the Retreat move to DVHA as the payer for the APM. DMH, DVHA and AHS continue to work together to monitor the requirements of the agreement and the progress of the Retreat.

DMH is also requesting to implement two new budget initiatives, Suicide Prevention and Crisis Response.

Crisis Response: DMH has requested funding to support Mobile Response in five regions of the State. During FY 22, a pilot program began in Rutland through Rutland Mental Health Services. DMH is requesting roll out 4 additional programs in FY 23. Mobile Response and Stabilization Services (MRSS) differ from traditional crisis services in that MRSS provides more upstream services. A mobile face-to-face response is provided to a family-defined crisis to provide support and intervention for a child/youth and their family, before emotional and behavioral difficulties escalate.

Budget Summary

		FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Children and Families

Department/Program Description

Description of Appropriations, Divisions and Programs

The Department for Children and Families is comprised of the Administration and Support Office and six divisions as follows:

- Administration and Support Office (Admin)
- Family Services Division (FSD)
- Child Development Division (CDD)
- Office of Child Support (OCS)
- Office of Economic Opportunity (OEO)
- Office of Disability Determinations Services (DDS)
- Economic Services Division (ESD)

Administration and Support Office (Admin)

The Administration and Support Office includes the Commissioner's Office, the Business Office, Information Technology and Legal Services. The Commissioner's Office provides administrative oversight and support to the operating divisions. It is responsible for policy and budget development, operational management of all programs and divisions, human resource development for approximately 1,000 DCF staff, internal and external communication and is charged with maintaining relationships with other state agencies, the legislature and federal officials.

Family Services Division (FSD)

Program Focus/Population Served:

This division provides the following services: child abuse and neglect investigations and assessments, child protective services, family support services, services to children in the custody of the Commissioner of DCF and youth justice services including supervision of youth on juvenile probation.

Major Programs/Services:

Centralized Intake Unit - FSD manages calls 24 hours a day, 7 days a week from mandated reporters and other citizens who suspect a child is the victim of child abuse or neglect. Unit supervisors decide which cases merit a child safety intervention based on law, regulation, and policy.

Child Abuse and Neglect Investigation and Assessment - FSD responds to reports alleging that children are being abused or neglected. In both investigation and assessment, the primary focus is on a child's immediate safety.

Ongoing Services to At-Risk Families - FSD provides direct services and coordinates other therapeutic services targeted at preventing child maltreatment for families who are at the highest risk of abuse or neglect.

Substitute Care, Treatment, and Permanency Planning for Children in Custody - FSD focuses on providing the most appropriate out-of-home living situation when a child cannot remain safely at home. Children are placed in their own

school districts whenever possible. FSD works to ensure children achieve permanency through reunification, adoption, or legal quardianship as quickly as possible.

Transition Services - FSD assists youth in custody as they transition to adulthood. For example, it provides training and support services through the Youth Development Program, housing support, extended foster care, and financial assistance with post-secondary training.

Probation and Restorative Justice Services - FSD provides services to youth who have committed delinquent acts with a focus on balanced and restorative justice. In prior years, FSD managed Woodside Rehabilitation and Treatment Facility with a central goal to ensure that youth avoid later involvement with the adult correctional system. SFY22 marked the codification of the move to a community provider for these services and the closure of the Woodside facilities. FSD will continue to manage the contract with the community provider which supplanted Woodside.

Adoption Subsidy and Post-Permanence Supports - FSD provides financial support to children with special needs that are adopted through the foster care system. In addition, it provides post-permanence services to families of children with special needs joined through adoption or legal guardianship.

Residential Licensing and Special Investigations - FSD promotes the safety of children by licensing foster families, residential facilities, and child placing agencies. Additionally, RLSI investigates those licensed entities when there are allegations of child maltreatment or regulatory non-compliance.

Child Development Division (CDD)

Program Focus/Population Served:

The Child Development Division (CDD) works in partnership with families, communities, schools, and providers to improve the well-being of Vermont's children by increasing access to a continuum of high-quality comprehensive child development and family support services. These services promote health and well-being, school readiness and foundations for lifelong success. Investing in prevention in the early childhood years reduces the likelihood of having to fund more costly interventions in social services, special education, and corrections later in life.

Major Programs and Services:

Child Care Licensing - CDD is responsible for regulating and monitoring 1200 - 1300 child care programs in Vermont. These include school-based and center-based early childhood and afterschool programs as well as registered and licensed family child care homes.

Child Care Financial Assistance - CDD helps families pay for child care so parents can increase their economic stability through work and training or education while their children participate in developmentally beneficial early childhood and after school programs.

Quality Improvement and Workforce Development - CDD develops standards and funds state wide systems of support for development of early childhood and afterschool professionals. It also supports continuous quality improvement of early childhood and afterschool programs with specific focus on Step Ahead Recognition System - STARS.

Children's Integrated Services - CDD provides a range of early intervention, home visiting, mental health, and inclusion services for children and their families experiencing significant challenges.

State-wide Systems and Community Partnerships - CDD works with community, state and federal partners to establish, sustain and enhance infrastructure and direct service capacity for a coordinated early learning and development system in Vermont.

Office of Child Support (OCS)

Program Focus/Population Served:

The Office of Child Support (OCS) manages Vermont's child support program under Title IV-D of the Social Security Act by enforcing court-ordered child support obligations, establishing child support, medical support, parentage orders and locating missing non-custodial parents. OCS is the sole organization in Vermont responsible for the child support program - one mission, one program.

Major Programs/Services:

Child Support Services: OCS serves families by providing services, that include educating families about parentage and how to establish, enforce and modify child support; assisting families in preparing agreements that work for everyone and composing court filings; determining and collecting money owed; reviewing families' change in circumstances, striving for realistic orders and consistent payments and referring family members to community and State programs for employment and life skills services. Receiving child support often makes the difference between needing state financial assistance and remaining financially independent.

Office of Economic Opportunity (OEO)

Program Focus/Population Served:

The Office of Economic Opportunity (OEO) connects communities to resources within government and the private sector in order to eliminate poverty. OEO provides grant program management, resource identification and development, training and technical assistance and advocacy for community-based organizations in a manner that fosters creativity and innovation.

Major Programs/Services:

Community Services - OEO works to alleviate poverty and provide crisis assistance through emergency food, shelter and other services. The Community Services Block Grant provides basic funding for five Community Action Agencies (CAA) and has been in existence since 1964. The CAA's provide direct services that include emergency food shelves, employment, health, nutrition, housing and other assistance.

Homelessness Services - OEO provides grants and technical support to community non-profits engaged in sheltering the homeless, homelessness prevention and moving families and individuals towards permanent housing. In addition, it provides funding to Vermont homeless shelters and providers of services to the precariously housed to meet the needs of persons who are homeless or at risk of homelessness.

Asset Development Programs: OEO provides a statewide Micro Business Development Program through Community Action Agencies to promote self-employment and business opportunities for low income Vermonters via business planning and technical assistance. It also provides a grant to support the Vermont Matched Savings Program, which provides financial education and matched savings for low income Vermonters.

Home Weatherization Program: OEO seeks to reduce energy costs for low-income families by improving the energy efficiency and comfort of their homes while ensuring their health and safety. The Home Weatherization Assistance Fund provides state funding for weatherization through a tax on all non-transportation fuels sold in the state. Services to income-eligible people include: 1) comprehensive whole house assessment of energy related problems; 2) state-of-the-art building diagnostics including blower door testing, carbon monoxide and heating system testing and infrared scans; and 3) full-service energy retrofits including dense-pack sidewall insulation, air sealing and attic insulation, heating system upgrade or replacement.

Office of Disability Determination Services (DDS)

Program Focus/Population Served:

Disability Determination Services (DDS) serves the public by making prompt, regulation-compliant decisions of medical eligibility for disability benefits under Social Security and Supplemental Security Income (SSI). The large majority funds expended by DDS to process Social Security and SSI disability claims, including staff salaries and benefits, are federally reimbursed, including the indirect cost for administrative overhead as determined by the cost allocation plan. A small part of the DDS workload involves disability determinations for Medicaid, as governed by the Memorandum of Agreement between SSA and DCF.

Economic Services Division (ESD)

Program Focus/Population Served:

The Economic Services Division (ESD) administers a variety of state, federal/state, and federal programs that address the basic needs of low and moderate income Vermonters. Factors that contribute to need include unemployment, part-time or low-wage employment, family breakup, single parenthood, age, temporary or permanent disability, death of a family member, or other catastrophic event. ESD programs and services are more fully described below, but it is important to note that more than one in five Vermonters receive benefits or services from ESD.

Major Programs/Services:

Reach Up Program - ESD serves families with children who are unable to provide for themselves due to family breakup, single parenthood, temporary or permanent disability, unemployment, or low-wage employment. Families receive cash assistance, case management and other help to achieve self-sufficiency including Medicaid coverage and federal supplemental nutrition assistance benefits (3SquaresVT).

Postsecondary Education Program - ESD provides financial assistance and support services to families while an adult member works toward an associate or bachelor's degree.

Reach First Program - ESD provides short-term help to families who financially qualify for Reach Up but do not need ongoing financial assistance by providing them with a limited financial benefit and services.

Reach Ahead Program - ESD provides additional support to families who are transitioning from Reach Up and the Postsecondary Education Program in the form of a monthly food subsidy for up to 24 months.

Child Care Subsidy - ESD determines eligibility for Reach Up families to assist with the cost of child care. Payment is provided through the Child Development Division child care subsidy program and is based on income, family size and familial risk factors.

Aid to the Aged, Blind, & Disabled (AABD) - ESD provides a state supplement to the federal government's Supplemental Security Income (SSI) cash benefit. It also funds the Essential Person Program by providing cash assistance to household members whose care and/or services are essential to an aged or disabled person remaining in their home.

General Assistance (GA) - ESD provides emergency financial assistance and services to eligible individuals and families. It also provides emergency help to low income people who are homeless or likely to lose their housing. Finally, it pays for emergency dental, medical and prescription services, and burial services if necessary.

3SquaresVT - ESD manages the USDA Supplemental Nutrition Assistance Program (SNAP), which is a federally regulated entitlement program that is 100% percent federally funded. Its mission is to provide low-income households better access to a healthy diet while supporting American agriculture. In Vermont, SNAP is known as 3SquaresVT.

Farm to Family - ESD provides Farm to Family coupons to help Vermonters buy locally-grown fresh vegetables and fruits. They can be used at over 60 participating farmers' markets throughout Vermont.

Home Heating Fuel Assistance (LIHEAP) - ESD's fuel assistance program has two components. Seasonal fuel assistance is operated state-wide by ESD's Office of Home Heating Fuel Assistance and crisis fuel assistance is operated through grant agreements with the state's five community action agencies.

Energy Assistance - ESD conducts eligibility assessments to lower the cost of energy consumption for clients of Green Mountain Power and Vermont Gas.

Vermont Spay Neuter Incentive Program (VSNIP) - ESD provides assistance to eligible Vermonters to have their dogs and cats spayed and neutered to reduce pet overpopulation.

Department Mission Statement

The Department for Children and Families, as part of an integrated Agency of Human Services, fosters the healthy development, safety, well-being, and self-sufficiency of Vermonters.

We are passionate about prevention and will:

- Reduce poverty and homelessness;
- Improve the safety and well-being of children and families;
- Create permanent connections for children and youth; and
- Provide timely and accurate financial supports for children, individuals, and families.

Disabilities, Aging, and Independent Living

Department/Program Description

The mission of the Department of Disabilities, Aging and Independent Living is to make Vermont the best state in which to grow old or to live with a disability, with dignity, respect and independence.

The Division of Vocational Rehabilitation (VR) assists Vermonters with a disability to enter or re-enter the work force through a wide variety of programs and individual support services. The core program (VR Section 110) enables Vermonters with a disability to assess their skills and abilities, identify a vocational goal, develop an Individualized Plan for Employment and receive services leading to meaningful employment. VR invests heavily to service people with the most significant disabilities through supported employment programs and has developed a network of specialized Transition Counselors to support young adults from school to work. The Division operates a state wide Benefits Counseling Program to support Social Security beneficiaries to work, and the Assistive Technology (AT) Project that provides Vermonters with information and training on AT devices and services.

The Division for the Blind and Visually Impaired (DBVI) assists Vermonters who are blind or have a visual impairment to enter or return to work, much the same as VR. It also provides some funding for independent living services, to help blind or visually impaired individuals to live in and contribute to their communities. The major programs in DBVI include: The core rehabilitation work, known as Section 110 services and the Older Blind Program.

The Division of Licensing and Protection (DLP) performs a critical role in ensuring the quality of many health care services and protecting vulnerable adults from abuse, neglect and exploitation. Major programs in DLP include: Survey and Certification which conducts inspections and surveys of all Medicare and Medicaid facilities and organizations including nursing home and home health agencies, state licensure of residential care homes and other facilities, and Adult Protective Services which investigates allegations of abuse, neglect and exploitation against vulnerable adults.

The Developmental Disabilities Services Division (DDSD) is responsible for services to people with developmental disabilities and guardianship services to adults with developmental disabilities and older Vermonters. DDSD works with private organizations to provide a broad array of long term services and supports, including: service coordination, family supports, community supports, employment supports, guardianship services, residential support, crisis support, clinical intervention, respite and rehabilitation services. The Division supports older Vermonters and Vermonters with disabilities to live as they choose, pursuing their individual goals and preferences within their chosen community. DDSD seeks to ensure their basic human and civil rights, health, well-being and safety, provides effective leadership for disability and aging policy and services in Vermont, and meets federal and state mandates by developing and managing public resources effectively.

The Adult Services Division (ASD) is responsible for long-term services and supports to older Vermonters, individuals with traumatic brain injuries and adults with physical disabilities. ASD works with private organizations to provide a broad array of long term services and supports, including: residential support, community support, case management, family supports, respite, employment support, crisis services, clinical interventions, assistance with activities of daily living, assistive technology, guardianship services, nursing home level of care, rehabilitation services, support to live at home, information and referral, integrated health care and personal care. The Division supports older Vermonters and adults with physical disabilities to live as they choose, pursuing their goals and preferences within their chosen communities. ASD seeks to ensure their basic human and civil rights, health, well-being and safety, provides effective leadership for disability and aging policy and services in Vermont, and meets federal and state mandates by developing and managing public resources effectively.

Disabilities, Aging, and Independent Living

Corrections

Department/Program Description

In partnership with the community, we support safe communities by providing leadership in crime prevention, repairing the harm done, addressing the needs of crime victims, ensuring accountability for criminal acts, and managing the risk posed by offenders.

The vision statement for the Department states it more broadly: To be valued by the citizens of Vermont as a partner in the prevention, research, control, and treatment of criminal behavior.

The Department is guided though the following principles:

We believe:

- -In the inherent worth and dignity of all individuals;
- -In treating people with respect and dignity;
- -That people can change;
- -In individual empowerment;
- -In fairness throughout decision making;
- -In non-violent conflict resolution;
- -In the value of individual, cultural, and racial diversity;
- -In respect for the liberty interests, rights, and entitlements of the individual;
- -In maintaining a safe and secure environment;
- -In the placement of offenders in the least restrictive environment consistent with public safety and offense severity;
- -That community participation and support are essential for the successful delivery of correctional services;
- -That victims have the right to have an active role in determining how their needs can best be met;
- -That offenders are responsible, to the extent possible, to repair harm done to victims and the community;
- -In professional self-improvement; and
- -In teamwork and the process of continuous improvement.

Description of Appropriations, Divisions and Programs:

ADMINISTRATION

The administration of the Department consists of the Commissioner, Deputy Commissioner, Administrative Services Director, Financial Director, and the supporting division of Finance, as well as a Legal division staffed by the Attorney General. Information Technology support is also provided through the Agency of Digital Services.

PAROLE BOARD

The Parole Board is an autonomous body that is included in the Corrections appropriation for administrative purposes. The Board reviews referrals by the Department for individuals incarcerated or on furlough supervision who are eligible for parole consideration to include initial eligibility hearings, presumptive parole administrative reviews, or subsequent reviews. The Board reviews all requests to address allegations of violation of conditions of parole supervision through a reprimand hearing or a formal violation hearing. The Board reviews requests for condition modifications, parole rescission, or early discharge. In addition, the Parole Board is responsible for reviewing all individuals placed on Supervised Community Supervision (SCS) at the expiration of their minimum sentence to determine if the individual should be discharged or to continue the individual on SCS. The Board is also responsible for reviewing all requests to address violation of conditions for individuals on SCS. The Board attends virtual hearings to perform parole and SCS hearings as required by law.

EDUCATION

As part of the Department's Risk Intervention Services (RIS) Corrections Education/Community High School of Vermont (CHSVT) provides an accredited, coordinated, and personalized education that assists incarcerated individuals as students in their academic, social, and vocational successes. Students incarcerated in Vermont's correctional facilities obtain academic and workforce readiness skills that they can utilize to become contributing members of their communities upon their release.

Corrections Education offers services in foundational skills, high school, vocational education, and developing post-secondary partnerships. For incarcerated individuals with low basic skills foundational skills courses are offered in reading, writing and math along with behavioral and living skills. For individuals working toward their high school diploma, the Department has an accredited high school, Community High School of Vermont. For individuals with a diploma and academically ready we offer our workforce readiness program and partner with colleges to offer post-secondary education. All three educational services concentrate on the academic and workforce readiness skills at the appropriate level.

In FY21 Corrections Education served 348 unique individuals, 322 were enrolled for services, 237 did not have a high school diploma, 85 had a high school diploma and participated in our workforce readiness program. Correctional facility COVID protocols limited educational services to one-on-one making it challenging to assess and plan with students. Average CASAS reading and math levels at enrollment were in the basic skills range or 5-6 grade level. Despite these challenges 8 students earned their high school diploma, and 72 Industry Recognized Credentials were awarded. Our reading intervention program resulted in two grade level increase in reading ability. Adherence to our McGraw Hill curriculum has resulted in a consistent curriculum and assessments across all correctional facilities.

As part of the Department's Risk Intervention Services (RIS), Corrections Education supports the holistic approach to correctional risk reduction services. We ensure our students have a well-developed Personalize Learning Plan (PLP) informed by assessment, transcript review, and their learning goals. This PLP supports incarcerated students during their education with Corrections Education and supports a more seamless transition to their community work setting, Adult Education and Literacy centers, and/or college setting.

CORRECTIONAL SERVICES

In complying with the principle that placement of individuals should be in the least restrictive environment consistent with public safety and offense severity, the Department implements a gradient of restrictions and freedoms. The "legal status" is a frequently used term which relates to this concept. From most restrictive (and most expensive to implement) to least, these legal statuses are:

Facility Statuses:

Incarceration -

Sentenced: The sentence is confinement to a correctional facility, under the care and custody of the Commissioner.

Detained: A confinement pending court adjudication for a criminal charge or a violation of probation.

Field Statuses:

Home Detention: A program of confinement and supervision that restricts a detainee to a pre-approved residence continuously, except for authorized absences, and is enforced by appropriate means of surveillance and electronic monitoring by the Department of Corrections. Detainees receive credit while on Home Detention status.

Reentry/Furlough: Furlough status is considered an extension of the confinement of a correctional facility, but is served in the community under the care and control of the Commissioner of Corrections.

Community Supervision Furlough: At the completion of the minimum term of sentence, the incarcerated individual may be released to the community, still under confinement, subject to conditions of furlough.

Treatment Furlough: A status for a supervised individual who is sentenced to a term of confinement but is eligible for release on furlough or placed directly on furlough before the expiration of their minimum sentence for the following reasons:

1.

To participate in an approved residential treatment program outside of a correction facility,

2.

To participate in Risk Reduction Programming, or

3.

To participate in a work crew program

Medical Furlough: A status for an offender who is diagnosed with a terminal or debilitating condition. The offender may be released to a hospital, hospice, or other licensed inpatient facility, or other housing accommodation deemed suitable by the commissioner.

Supervised Community Sentence: Based on a law passed in 1990 that provides the legal framework for the intermediate sanctions program. The judge sentences, with prior approval of the Commissioner, to a set of conditions, minimum and maximum time frames and an intermediate sanctions program. The offender is under the supervision of the Department of Corrections. The Parole Board is the appointed authority and violations are resolved through a Parole Hearing. When the offender reaches his minimum sentence the Parole Board may continue on SCS, convert to Parole, or discharge from supervision completely.

Parole: The transition of an incarcerated individual to the community temporarily or permanently before the completion of the incarcerated individual's sentence, subject to conditions imposed by the Parole Board and subject the supervision and control of the Commissioner of Corrections.

Probation: Subject to the conditions and supervision by the Commissioner of Corrections, this is a contract between the offender and the court, to abide by conditions in return for the court not imposing a sentence of confinement. Violation of this sanction requires due process, with a court hearing, counsel, and preponderance of evidence. Within the probation sanction is the reparative probation program, which allows citizens on community panels to determine the quality of restitution made to the victim and repair of harm to the community, consistent with 28 VSA Chapter 12.

PROGRAMS:

Correctional Facilities:

Central Correctional Facilities: Northern State [Newport], Northwest State [Swanton] and Southern State [Springfield] hold and treat violent and sexual offenders serving longer sentences.

Regional Correctional Facilities: Northeast Regional [St. Johnsbury] and Marble Valley Regional [Rutland] serve courts and law enforcement agencies by providing detention, classification and short sentence housing.

Work Camp: The Caledonia Community Work Camp [St. Johnsbury] provides restorative opportunities for appropriate offenders working in the community.

Facility for Female Offenders: Chittenden Regional Correctional Facility [South Burlington] provides incarceration for sentenced and detained women.

Program Services:

Program services combines the research on evidence-based programming with correctional best practice to provide a range of services that address crime-related need areas (criminogenic needs) and lower the likelihood of recidivism or further criminal conduct by individuals in the care and custody of the Department. Services address criminogenic needs areas such as: sexual aggression, general violence, domestic violence by offering evidenced based curricula and interventions such as cognitive behavioral interventions, motivational interviewing in predominantly group modalities. Over the last four years, Risk Reduction Program, Corrections Education and Vermont Correctional Industries have been building an integrative system (Risk Intervention Services) to improve the range of services and ability to capture skill attainment and progress in multiple areas. This furthers the ability to address multiple criminogenic needs including education, vocation and financial previously not incorporated into the services plan. The Department prioritizes requiring that these services be offered to those incarcerated individuals who score in the moderate to high range on general risk assessment tools or violence/sex offense specific risk assessment tools and have a listed violent offense. These services may also be offered to those who score in the low range on general risk assessment tools, but whose risk of harm scores are moderate or above.

In FY21, 293 individuals participated in incarcerated Risk Reduction programming with COVID -19 modifications in service model.

Field Services:

The Vermont Department of Corrections has 12 field offices across the state, called Probation and Parole (or "P&P") offices. The Field Services Division is responsible for the supervision of approximately 5,000 individuals in the community on a variety of legal statuses. The legal statuses can be grouped as probation, parole, furlough, supervised community sentence, and home detention. Probation and Parole staff supervise individuals placed on probation and supervised community sentence by the Courts and those awarded parole by the Vermont Parole Board; individuals released from a correctional facility on furlough; individuals sentenced to a specified number of days on a work crew; and, individuals awaiting adjudication who are supervised in the community on home detention.

It is the responsibility of the Field Services Division to provide the most effective community supervision of offenders based on best practices, evidence-based research, and available resources. Supervision parameters, including intensity and duration, are based on the individual's risk to re-offend, the severity of the offense, the individual's needs, and the individual's legal status. The foundations of effective supervision are quality risk assessments and the application of appropriate supervision services. The adoption of Justice Reinvestment strategies reinforced and enhanced community supervision practices around supervision, condition setting, addressing violations, and incentives. In addition the supervision differences based on legal status has been reduced and supervised individuals are supervised based on risk and need instead of their legal status.

P&P staff operates with a dual mission; public safety and offender rehabilitation that is carried out through the supervision of offenders. Supervision combines the use of risk control and risk reduction strategies that are vital in order to have positive outcomes for offenders under community supervision.

Risk control strategies are directed at deterring future non-compliance by holding offenders accountable through reprimands, warnings, loss of privileges, and, when appropriate, the imposition of more intrusive/restrictive requirements and sanctions, that could include incarceration. Risk reduction strategies are directed at promoting future com-

pliance by assisting the offender through information, education/training, counseling, and/or treatment to bring about positive changes in the circumstances that led to their criminal behavior.

The implementation of purposeful interventions and activities is what distinguishes supervision from mere monitoring and reporting of offender activities. Research has demonstrated that, to reduce offender recidivism and obtain positive results from community supervision, combining risk control and risk reduction strategies is far more effective than selecting one strategy over the other. Throughout everything that it does, the Field Services Division balances a variety of competing interests. In a P&P office, public safety is always a priority, as is offender growth, positive change, and acceptance of personal responsibility. We accomplish this by using the least restrictive supervision practices, consistent with community, victim, and offender safety.

In FY21, DOC provided funding to 18 Community Justice partnerships that operated restorative panels in 27 host communities across the State. A total of 760 citizen volunteers contributed in excess of 17,250 service hours to restorative justice panels and restorative reintegration services such as Circles of Support and Accountability (COSA). 794 individuals received restorative reentry services from CJCs, 133 of whom were Core Members in COSAs. Community Justice Centers (CJC) provided panels and/or restorative accountability processes in 385 cases involving offenders under DOC supervision and served another 1,262 individuals who were not placed under DOC supervision. Additionally, 1,082 victims were contacted by CJCs and offered the opportunity to participate in DOC-funded restorative processes.

A 2015 independent empirical evaluation of DOC's CoSA program conducted by Dr. Kathryn Fox (UVM) demonstrated an 86% comparative reduction in felony reconvictions for sexual offenders under DOC supervision between those who had CoSAs and a matched group that did not receive this service.

In FY21, DOC provided grant funding to 19 transitional housing partners for 256 transitional housing beds, across 29 service locations. A total of 505 individuals participated in transitional housing, received housing search and retention services, and/or other reentry support services including mental health, substance abuse and employment support. Upon program exit to the community, 60% of participants were employed, enrolled in educational/training programs, and/or receiving benefits. 97% of all participants avoided new criminal charges while residing in DOC-funded transitional housing. Additionally, \$75,633 in release money was issued in 104 payments to 54 unique individuals for assistance with residential prerequisites such as security deposits, first and last month's rent at an average expenditure of \$1,401 per person.

CORRECTION FACILITIES - RECREATION

The recreation program provides the incarcerated population with leisure activities and other recreational opportunities that are meant to promote and create prosocial activities as well as help to prevent idle time. Some examples of the items provided through the recreation programs include gym and cardiovascular equipment, televisions, living unit furniture, incentives, and prizes for various tournaments. This also includes a variety of programs those who are incarcerated. The recreation program is funded by the receipts from incarcerated individual commissary purchases and the incarcerated individual telephone system. The recreation fund is managed by both the Department of Corrections and committees of incarcerated individuals at each facility.

CORRECTIONAL SERVICES-OUT OF STATE BEDS

Due to the current size of the sentenced and detainee populations in Vermont, additional space to house incarcerated individuals is provided by correctional facilities outside the state. The Out of State population (at this time, 137 incarcerated individuals) is managed by the Out of State Unit. This office coordinates the classification, casework, and movement of appropriate offenders between Vermont DOC facilities and the out of state facility located currently in Mississippi. The Department currently has a contract through September 2022 for these supplemental housing needs.

VERMONT OFFENDER WORK PROGRAMS (VOWP)

Vermont Offender Work Programs provides industrial and vocational training programs as well as work opportunities. The Vermont Correctional Industry (VCI) shops include a print shop, a furniture manufacture and assembly shop, a license plate and sheet metal working shop, and smaller correctional industries. The program also works with the CRCF (work camp component), and Caledonia Community Work Camps, providing many surrounding communities with work service crews that perform a wide variety of reparative services.

The majority of Vermont DOC Probation and Parole Offices provide work crews comprised of offenders supervised in the community. These crews provide work service to communities across Vermont. Among their many projects, correctional community work service crews maintain all fishing access areas managed by the Department of Fish and Wildlife, while also providing support to the Vermont State Parks and several forest projects. Crews work for nearly every town in Vermont, and many of the non-profit agencies, ranging from food shelves to public libraries.

The Department of Corrections has five basic goals: to involve the community; to address the needs of victims; to restore the community; to ensure that offenders are held responsible; and to keep offenders safely in custody.

Corrections - Administration:

The Administration of the Department of Corrections continues to face fiscal, programmatic and infrastructure challenges. Despite these challenges, the Department has continued to meet its mission, while managing to the appropriated budget.

Corrections - Education:

Through education, students in the custody of the Department of Corrections obtain knowledge and job skills that they can utilize to become contributing members of their communities upon their release. These skills support the reduction of recidivism and add to the economic health of our state upon release. As educational and training needs for individuals in DOC custody continue to change, the CHSVT has transitioned. These changing needs have created challenges, but also opportunities.

Due to a decline in eligible students (specifically, those under 23 years of age), the high school has gradually lost federal grant funds and has also sustained several other programmatic reductions over the past several years. Given these declines in population and funding, the Department has utilized resources differently to continue to deliver these services. The high school has been integrated with Program Services, and this collaboration has had positive benefits. The delivery of risk reduction services by state staff has created areas of savings where contractors had previously been needed.

Corrections - Correctional Services:

The Department of Corrections continues to review current roles and operations to maximize their potential, and to deliver services and programs in an effective and as cost-efficient a manner as is possible.

Included in this request are the standard adjustments related to regular inflationary items which impact facility operations (food and utilities), normal internal service fund and employee fringe benefit adjustments.

While the department continues to face challenges related to the COVID-19 pandemic, funding received through the CARES Act has been instrumental in the FY20-FY22 budgets to address the many needs of the population as well as DOC staff. Maintaining proper distancing, including isolation and quarantine of incarcerated individuals as needed, and the prevention and mitigation of the spread of COVID continues to be of paramount importance.

In addition to helping fund personal protective equipment, necessary cleaning supplies, and other operational costs related to the pandemic, funding has been used to support domestic violence intervention programming, and to support the successful release of individuals to the community by providing rental assistance.

There has been significant work and planning over the past year related to Justice Reinvestment II, as leadership has initiated data-driven processes to identify areas of need and address the challenges within the criminal justice system. This includes establishing presumptive parole, streamlining the furlough system, and incentivizing good behavior though earned good time. These initiatives also include identifying gaps in mental health and substance use needs of those individuals who have criminal justice involvement, as well as identifying and reducing racial disparities in the criminal justice system.

DOC began a new contract for health services in FY21, which also includes funding for Medication Assisted Treatment (MAT), and hepatitis C (HCV) treatment. While there are savings as compared to the overall cost of the previous contract, this remains an area that is closely monitored, since health service needs for the incarcerated population and the treatment costs include many variables, for which costs can exceed the budgeted amounts.

Finally, efforts to reduce overtime are underway, and the goal is to reduce overall costs while simultaneously increasing employee retention. The department continues to face staffing-related challenges and has been engaged in recruitment and retention efforts. Overtime requirements have continued to put considerable pressure on the correctional facilities and have created issues with staff retention. During the pandemic, vacancy issues have been a challenge, though the department continues to hire new staff and provide Correctional Academy training, though the class sizes have been much smaller by design to ensure that all COVID mitigation measures are maintained. The department received 30 new Correctional Officer I positions in FY20 and, once the positions are able to be filled, these should be very beneficial in terms of reducing overtime demands placed upon staff.

Corrections - Recreation Fund:

This fund/program continues to benefit from a renegotiated commission structure related to commissary items. To ensure that the recreation fund can continue to be self-supportive, internal allocations are limited to annual fund receipts. This had been a challenge over the past few years, due to revised FCC rules regarding receipts from phone calls made by incarcerated individuals which initially resulted in a substantial decrease to the annual receipts for this fund. Vermont has continued to be among the lowest in the country with regard to the cost for incarcerated individual phone calls.

In FY16, a Request for Proposals was issued for commissary, phone, and tablet services, and a new contract was awarded and signed in May 2017. The cost for incarcerated individual calls was reduced considerably through this agreement, and is resulting in an increased volume of calls, helping to sustain this fund and the programs it can provide for the incarcerated population. There continues to be work done to identity additional services through the tablets, as the technology and available options continue to improve.

Corrections - Out-of-State Beds:

Currently there are 137 males incarcerated outside of Vermont in supplemental housing. This population housed outside of Vermont has substantially decreased from a high of 589 individuals in Fiscal Year 2012. This decrease is the result of the implementation of additional transitional housing, working closely with our partners, with the judiciary community, and the hard work of our staff in implanting supervision by risk versus legal status. The percentage of incarcerated individuals who have served past their sentence minimum with no housing has also decreased significantly through the efforts of DOC staff.

Currently, Vermont houses incarcerated individuals in Mississippi. There is a contract with CoreCivic that allows for this supplemental housing. While out-of-state providers are significantly less costly on a per-capita basis than Vermont DOC prisons, these funds flow out of the state with no positive impact on the local economy. The FY23 budget includes funding for up to 160 beds.

The in-state population has been declining throughout the pandemic, allowing the Department to reduce the number of individuals housed out of state. The in-state incarcerated population has declined as well though, throughout the pandemic, there has been a need to have quarantine units which has limited the ability to more aggressively reduce the out of state caseload.

Over the past year, the supplemental beds were provided through a contract and incarcerated individuals have been housed in a facility in Tallahatchie, Mississippi. This agreement includes an annual per diem increase of 2.8%. For FY22, the total cost per bed per day was \$77.14 (total increase of \$2.10 from FY21).

VOWP:

The VOWP provides offender work and vocational training. All three divisions of VOWP (Correctional Industries, Community Restitution Service Units and Work Camps) have seen declining revenues in recent years and, while the Department has worked to minimize unnecessary expenses related to the VOWP fund, this is not self-sustaining. The challenge that this program faces is that revenues have not been able to keep pace with the increased cost of maintaining this program. The fund requires assistance from some other state funding source in order to maintain solvency going forward. The pandemic has had a significant impact on the offender work program, as work crews have not been able to provide services in the community through the past year. The Correctional Industries have been impacted as well, but have greatly supported the Department in manufacturing and providing masks, gowns, and other necessary supplies to help mitigate the spread of COVID-19.

VOWP Service Impacts:

In addition to the programmatic value of preparing offenders for the work force, the VOWP adds value in several other ways. The majority of this money is spent in Vermont. All raw materials are purchased in the private sector, as are many services. Wages to offenders and VOWP staff are also spent mostly in the Vermont economy. Essentially, nearly all VOWP revenues represent an equal amount of money put into the local economy in the form of operating expenses.

Budget Summary

		FY 2023 Position Count	FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Vermont Veterans' Home - Care and Support Services

Department/Program Description

The Vermont Veterans' Home was established in Bennington in 1884. It is governed by a Board of Trustees appointed by the Governor. The Vermont Veterans' Home offers a complete range of specialized care services for its residents. The goals of Vermont Veterans' Home are to focus on insuring the dignity, independence, and the highest possible care and quality of life for each resident.

The Vermont Veterans' Home provides best of class healthcare services to veterans, their spouses and gold star parents while honoring their choices and respecting their right of self-determination.

Commission on Women

Department/Program Description

The Vermont Commission on Women is an independent, non-partisan state agency dedicated to advancing rights and opportunities for women in Vermont. The Commission advises and consults with the legislative and executive branches of state government on policies affecting the status of women in Vermont; conducts research and study of issues affecting the status of women in Vermont; educates and informs business, education, state and local governments and the general public about the nature and scope of sex discrimination and other matters affecting the status of women in Vermont; and serves as a liaison and clearinghouse between government, private interest groups and the general public concerned with services for women.

The Commission consists of 16 commissioners, appointed by multiple appointing authorities, and drawn from throughout the state from diverse backgrounds. An Advisory Council, representing a range of partnership organizations, provides information and assists the Commission. The Commission is staffed by an Executive Director, an Executive Staff Assistant, and a Women's Commission Program Coordinator.

The Vermont Commission on Women is committed to working to advance rights and opportunities for women in Vermont. Through our work we:

- -Act as an advisor and information source for the legislative and executive branches and other policymakers on issues affecting women
- -Provide the most local and most appropriate information and referrals to the public on matters related to women and families
- -Serve as an educational resource by conducting research, producing publications, and coordinating conferences and workshops
- -Engage partnerships and networks of diverse groups to consider issues of interest to women and take action

In FY2021, 8778 individuals accessed VCWs online resource guide or our online version of the Legal Rights of Women in Vermont. 22%, or 2957 of our website visitors downloaded a VCW publication during their visit.

VCW testified in the legislature 14 times; VCW was invited to testify 9 times.

VCWs informational videos about pregnancy accommodations were viewed 253 times.

Approximately 82.5% of the Commission's budget is for personal services, providing for 3.00 FTE staff positions. Approximately 14.5% is for allocated expenses such as fee-for-space, insurance, and information technology. Approximately 3% covers all other operating expenses, which include commissioner travel reimbursement (mandated), staff travel, office supplies, phone, printing/publications, postage, membership/dues, meeting and conference registration, copier maintenance, computer replacement, repair, and maintenance.

Retired senior volunteer program

Department/Program Description

During the past year, the State of Vermont's investment helped to leverage 247,794 hours of service by 1785 RSVP volunteers to 491 non-profits throughout Vermont. This state allocation continues to help our projects secure \$501,224 in federal and over \$130,000 in local funding. The services provided by RSVP volunteers are estimated to be worth just over \$5 million back to the citizens of Vermont.

RSVP outcomes continue to reflect the important role of volunteers in creating a vibrant Vermont. As reductions in federal funding continue to negatively impact vital nonprofits in our state, now more than ever volunteerism must be seen as a key strategy in maintaining supports and services to our communities. If funding allows, RSVP programs will continue to ensure that our community nonprofits have the social capital (volunteers) needed to meet their missions.

The overall mission of RSVP is to engage volunteers aged 55+ in the service of the most vulnerable among us, as well as their communities at large. Our volunteers achieve measurable outcomes while providing companionship to isolated seniors; delivering meals to those who are food insecure; and leading free exercise classes that prevent falls, increase social connection and help our rapidly aging population remain mobile. You will find RSVP volunteers in schools mentoring at-risk children, staffing meal sites, preparing taxes at senior centers, providing transportation to seniors and individuals with disabilities to life sustaining and life enriching appointments, and making sure the volunteer needs of our partner agencies are met. However, there is more to volunteering than the outcomes achieved in service of others. A recent study conducted by the Corporation for National and Community Service clearly indicates that volunteering provides both social and health benefits for the volunteers themselves. Published in a report titled The Health Benefits of Volunteering: A Review of Recent Research, this research illustrates the strong relationship between volunteering and health: those who volunteer have lower mortality rates, greater functional ability, and lower rates of depression later in life than those who do not volunteer.

Our federal grants require that our programs target specific outcomes and measure the impact RSVP programming is having on our volunteers, the agencies they serve, and the clients receiving the services. This targeted approach continues to allow us to fine tune our outcomes-based programming, while increasing the quality of service provided to our communities.

Below are just a few examples of how RSVP programs make a positive impact on Vermont communities:

- Each year, over 500 trained RSVP Bone Builders volunteers lead free strength training and balance building exercise classes, helping more than 2,500 Vermonters combat the negative impacts of osteoporosis. This popular, still-growing program has received many accolades including recognition in the Congressional Record by Senator Patrick Leahy and as a recipient of a Healthy Aging Award from the Vermont Governor's Office. The still-growing program recently celebrated its 18th year in Vermont.
- RSVP built and facilitates mentoring programs at nearly 30 schools (from pre-K through high school), giving children identified by their teachers as needing extra supports a strong foundation for success in school and beyond. Outcomes data provided by participating schools consistently indicate a significant positive impact on social skills, educational engagement and performance by children involved in both the RSVP Read to Me and School Buddies programs.
- RSVP programs create outreach opportunities for nonprofits that rely on volunteers, including volunteer fairs to share information with community members and recruit/match volunteers appropriately to achieve sustainable community impact. In addition, many RSVP programs offer shared learning opportunities for Volunteer Coordinators at our partner organizations. The RSVP program and its volunteers dramatically improve capacity and outcomes for non-profits across the state.
- RSVP staff and volunteers continue to strengthen and support the Meals on Wheels Delivery program to seniors aging in place in Vermont. Finding and maintaining volunteer drivers is still one of our largest statewide challenges.

Retired and Senior Volunteer Program

Many programs need help to continue recruiting and supporting their vital community services for those most in need.

- Volunteers engaging in service consistently show positive health outcomes: higher functionality, lower rates of depression, lower mortality rates, reduced incident of heart disease, reduced rate of medications and better management and prevention when comparing states. A general trend shows that health problems are more prevalent in states where volunteer rates are the lowest. Vermont currently ranks 8th in the nation as having an active and involved volunteer force.

While our programs continue to deliver outstanding results, private grant availability, reduced financial supports from cities and towns, and a still-stagnant fundraising arena threaten to impact our capacity to do great work. As our programs struggle in the face of financial losses, operating costs have not gone down. We continue to seek out new funding sources while we make efforts to cut costs wherever possible.

Green Mountain Care Board

Department/Program Description

While writing this report, Vermont hospitals are experiencing record cases and hospitalizations related to COVID-19. Health care workers are currently battling the fourth wave of the pandemic. They are tired, worn down, and exhausted. The COVID-19 surge, sicker patients due to deferred care, and the lack of health care workers in Vermont and throughout the nation have created a perfect storm.

The Board is immensely grateful for Vermont's nurses, doctors, respiratory therapists, environmental services staff, and all other providers throughout the system of care. The commitment and dedication health care workers have shown over the last two years is immense, and the Board will continue to focus on improving the supply of health care workers serving Vermonters well into the future.

Further, the pandemic has reinforced concerns such as the unpredictability of the fee-for-service reimbursement system, the pricing of prescription drug costs, and access to care inequities. While the GMCB has utilized its regulatory levers, where possible, to address these issues, the pandemic has informed the Board that more effort is needed, especially in support of fixed, population-based payment models across the broad spectrum of Vermont's payers and health care providers.

The Vermont Legislature mandated in 2020 that the Director of Health Care Reform update the State's Health Care Workforce Strategic Plan for review and approval by the Board. When the Legislature passed this mandate, it was clear the state's health care workforce needed more focused attention. However, Vermont was unaware the pandemic would prove how fragile and essential our health care workforce was and continues to be. Simultaneously, the Legislature was working on how to address the rising cost of prescription drugs at the state level. The Board offered to convene a stakeholder group under our technical advisory group authority to address the cost of prescription drugs and held the first meeting in December of 2020. The group will share its ideas to address prescription drug out-of-pocket costs with the Legislature this upcoming session.

Even before the pandemic, rural hospitals struggled to survive in Vermont and throughout the country. Nationally, 180 rural hospitals have closed their doors since 2005. As reimbursement for health care continues to change from a per procedure model to a population fixed payment model, our regulatory system and hospitals must prepare for this shift. Further, as more of our population shifts to government payers, Vermonters paying commercial premiums will pay more to cover the gap if the growing cost shift is not addressed. Per Act 159 of 2020, the Board is hoping to finalize recommendations for sustainability planning for Vermont's hospitals early in the new year,

contingent on the ability of hospitals to provide input. Among other recommendations, the Board will identify ways hospitals can be supported and resourced to transition to fixed population payments and sustain operations. The pandemic highlights the benefits of fixed, predictable payments to our health care providers to care for Vermonters. We will continue to work with Vermont's hospitals and state leaders to ensure access to high-quality health care in all communities throughout the state.

The Board is also strongly committed to improving health equity in Vermont. Last year, the Board requested to update Vermont's All-Payer Claims Database (APCD) Regulation H-2008-01 to improve Vermont's data related to health equity. The legislature approved the change to allow race and ethnicity data to be securely reported to Vermont's APCD. This legislative change will improve analysis regarding equity and access to health care. In addition, it will provide a more robust and longitudinal understanding of COVID-19 and its costs. We will continue to identify areas in the Board's regulatory duties and data systems to assist in addressing the inequities, such as access to care and costs for patients, in our health care system.

Regulatory Response to COVID-19

The primary focus of the Board throughout the pandemic has been to balance appropriate regulation of Vermont's private sector and non-profit health care entities as required by statute while reducing administrative burden and

allowing flexibility for the Board's regulated entities, especially Vermont's hospitals, to focus on care for patients. The regulatory work of the Board is immensely important in containing health care costs while maintaining access to high quality care for all Vermonters and yet our processes must be tailored to accommodate the needs of front-line provider organizations during the pandemic. In 2021, the Board was successful in complying with all its statutory duties and roles despite the ongoing pandemic.

When Vermont's State of Emergency ended in June 2021, the Board quickly returned to offering a physical location for Board meetings and hearings to comply with Vermont's Open Meeting Law, while maintaining remote access. Members of the GMCB staff continued to work with members of the public, stakeholders, and parties to ensure all meetings were truly accessible. To promote transparency and accountability, the Board will continue to provide both inperson and remote access to all meetings and hearings. We will continue to work with the Scott Administration, legislators, and regulated entities to provide appropriate flexibility within the Board's regulatory authority.

Hospital Sustainability

In 2021, the GMCB continued to evolve the hospital sustainability framework based on feedback from stakeholders and national and state-level experts on rural hospital sustainability. The framework focuses on the link between hospital financial health and equitable access to high quality, affordable health care for all Vermonters. Given the demands of COVID-19 on hospitals in addition to the fear of more hospital bankruptcies, the Board took on most of the hospital sustainability work to allow hospitals to focus on patient care. Even with ongoing challenges, the hospitals participated in a series of meetings and were invited to join conversations last summer with Eric Shell, MBA, CPA of Stroudwater Associates, a rural hospital finance expert. Due to the pandemic response, limited feedback from hospitals was provided to the Board. Therefore, further work will be necessary to refine the data and analysis based on provider feedback.

Implementing Vermont's All-Payer Model

The APM Agreement between the State of Vermont and CMMI enters Year 5 in 2022, providing the continued opportunity to improve health care delivery to Vermonters by rewarding providers to keep people well. The APM Agreement is consistent with the federal shift toward alternative payment models that reward value over volume.

Fixed payments offered to providers under the APM proved immensely valuable again this year as health care utilization remained low for a while due to the COVID-19 pandemic. Fixed payments provided a financial lifeline for the many providers who elected to receive them while highlighting the pitfalls of traditional fee-for-service payment models. Due to the pandemic, the Board also requested and received federal flexibility regarding financial penalties related to quality measures.

COVID-19 also caused challenges in evaluating APM performance in 2020 (PY3) and beyond. While PY3 results were below APM Agreement targets, results showed growth in all-payer scale. CMMI recognized in an October 2021 letter that the targets are not achievable and therefore waived enforcement through PY5 of the Agreement. However, in August, the federal government released its first evaluation report of Vermont's APM, focusing on Medicare's participation and Medicare beneficiaries. The report examines the first two years of the Model (2018-2019) and found Medicare spending in Vermont declined compared to other states with similar reform activities. In addition, the report found positive effects for the full Vermont population since many of the Model's population health initiatives serve Vermonters regardless of insurance or ACO participation and the Board's regulatory structure has statewide impacts on cost containment. The report also notes the APM is supporting collaboration across the health care system and identifies areas for improvement, many of which echo AHS' APM Implementation Improvement Plan.

In September, the GMCB updated its All-Payer Model Performance Summary dashboard profiling performance todate on the APM Agreement targets. The dashboard will continue to be updated as more results are finalized.

In December, the state submitted a request to CMMI for a one-year extension of the Agreement, noting that the pandemic response has limited the ability of the administration to develop a concept for a new or renewed Agreement,

due at the end of 2021. After negotiations on the extension are complete, the final proposal will come back before the Board for a vote.

Regulation, Oversight, and Data

Regulatory Alignment:

Under the APM Agreement, integration of the Board's regulatory processes - including health insurance rate review, hospital budget review, Certificate of Need, and ACO certification and budget review - has become increasingly important. In 2019, the GMCB announced its intention to develop a white paper series focused on opportunities for improving alignment across regulatory processes. This white paper series aims to improve the Board's ability to make decisions consistently across regulatory processes and ensure appropriate assessment of regulated entities in a reformed payment and delivery system environment. In summer 2021, the GMCB released final versions of two white papers focused on exploring the GMCB's regulatory processes and the connections between them in their current state, and on potential changes to the annual regulatory timeline to improve alignment.

Hospital Budget Review:

In 2021, following budget hearings and lengthy Board discussions, the Board approved a system-wide increase in net patient revenue (NPR) of 6.20% (compared to a requested 6.4%, a total reduction of approximately \$6.3 million) and lowered the system-wide average increase in charges from 5.98% to 5.21%. The ongoing impacts of the COVID-19 pandemic was at the center of many hospitals' narratives, as well as the impact of Federal and State efforts to stabilize hospitals' finances. Factors such as health care workforce shortages, cost of

travelers, prescription drug costs, inflationary pressures, health care reform investments, and access to care challenges were common themes that emerged from hospital budget submissions. In addition, payer mix and the cost shift were continued themes for hospitals that serve higher proportions of Medicare and Medicaid enrollees versus higher reimbursed commercial enrollees. In making their decision, the Board considered COVID-19's ongoing impact, rising inflation factors, workforce challenges, the demographic impact of an aging population, including increased patient acuity and patient demand, and shifting payer mix, as well as hospitals' financial solvency and the growing impact on access to care. All of these considerations led the Board to approve historically higher NPR and charge growth for the 14 community hospitals.

Health Insurance Premium Rate Review:

Many of the forces affecting hospitals have also affected health insurance premiums. Price is the major driver of increases in health care premiums, which is in part due to the uncertainty of utilization and out-of-state health care utilization. Higher costs of specialty prescription drugs and medical services have continued to place additional pressure on health care premiums, deductibles, and copays this year. Through the health insurance rate review process, the Board reduced the rates requested by insurers by approximately \$14.5 million, including \$13.6 million for plans sold to individuals, families, and small businesses through Vermont Health Connect. In addition, the 2021 American Rescue Plan Act expanded subsidies for plan year 2022 in the individual market. In response, Vermont unmerged the individual and small group markets for plan year 2022, resulting in small group premiums decreasing relative to individual premiums with enhanced subsidies offsetting the individual market increase.

Certificate of Need (CON):

In 2021, because of delayed capital improvement projects in 2020, the Board received more CON applications. The Board reviewed six CON applications, while determining that another eight proposed projects fell outside of statutory jurisdictional parameters and were not subject to Board oversight. The increase of CON requests is expected to continue into 2022.

ACO Oversight:

Beginning in the fall of 2021, the Board rigorously examined the budget and operations of OneCare Vermont, which resulted in the Board approving OneCare's FY2022 budget on December 22, 2021, with 19 conditions. The conditions include implementing an ACO benchmarking

system to compare key quality, cost, and utilization metrics to national benchmarks; maintaining funding for timely rewards for providers who meet clinical quality goals (\$2.24 million); working with Medicare Advantage plans to develop scale target qualifying programs for FY23; and continued emphasis on increasing fixed payments, tying payments to performance on clinical quality measures, and increasing commercial insurer participation. These conditions will support robust oversight, transparency, and accountability for the ACO in 2022.

Data:

GMCB supported increased quality of and access to the VHCURES all-payer claims database and VUHDDS hospital discharge database through improved data linkage and integration, standard reports, and analysis-ready files, and continues to update interactive reports related to the Health Resource Allocation Plan.

Priorities for 2022

Health Care Workforce and Access to Care

Health care workforce issues impact the Board's ability in its regulatory processes to focus on ensuring access to high quality health care while reducing the cost of that care. Workforce has been a major focus of the Board's work under Chair Mullin's active leadership and a priority of the Board's Primary Care Advisory Group. Act 155 of 2020 established that the Director of Health Care Reform in the Agency of Human Services will maintain a current health care workforce development strategic plan to ensure that Vermont has the workforce necessary to provide care to all Vermonters. In 2021, the Board reviewed, modified, and approved the Health Care Workforce Strategic Plan submitted by the Director of Health Care Reform, which identified potential solutions to alleviate the serious shortage and looming crisis of health care workers in Vermont. The Board plans to receive periodic updates on the Health Care Workforce Strategic Plan to ensure accountability and will continue to work with educators, health care providers, and state and community organizations to discuss

opportunities to address Vermont's health care workforce challenges, including developing sustainable in-state educational pathways to train Vermont health care providers and staff. The Board will also continue to work in partnership with AHS and DFR to identify challenges to access to care with the goal of improving quality and access for Vermonters while also reducing cost.

In partnership with health providers, advocates, independent experts, and community members, the Board is also working with the Agency of Human Services and Department of Financial Regulation to study excessive health service wait times. The interagency investigation team has been meeting since October 2021 and held two public listening sessions in the fall in partnership with the Health Care Advocate to hear from the public. The team will report its findings and recommendations to the Vermont Legislature in early 2022.

Data Integration, Transparency, and Quality

The Board will continue to work in 2022 to produce more timely, focused information to directly inform regulatory activities and expand the capabilities of VHCURES, including requiring data related to race, ethnicity, and preferred languages. Per Act 159 of 2020, the Board will develop an interactive report highlighting reimbursement variation, which will be released in early 2022 and updated annually. This Annual Report also includes information regarding high-volume outpatient surgeries and procedures performed in ambulatory surgical centers and hospital settings in Vermont, any changes in utilization over time, and a comparison of the commercial insurance rates paid for the same surgeries and procedures performed in ambulatory surgical centers and in hospitals in Vermont, as required by 9375(b)(14)(B).

Hospital Sustainability

Ensuring hospital sustainability will be a major focus of the Board's work in 2022. The Board will continue to work with hospitals to complete the sustainability planning process, focusing on price, cost, capacity, quality, and access. The goal is to optimize our delivery system and ensure that hospitals are sustainable and prepared for a shift from fee-for-service to value-based payment models. Per Act 159 of 2020, the Board updated the Legislature on the findings from this work in April and September 2021 and will submit the final report by February 1, 2022. The Board expects the work will be ongoing, given the limited availability of hospitals to engage in the process due to the pandemic.

ACO Oversight

As we enter Year 5 of implementation of the APM, the Board continues to focus on meeting the goals of the APM Agreement while continuing to exercise robust oversight over OneCare Vermont. In addition, the Board will be reviewing the budget of a second ACO, Clover Health LLC, which is based out-of-state and participates in the Centers for Medicare & Medicaid Services' (CMS) Direct Contracting Model. The Board plans to continue to develop and refine ACO reporting requirements in 2022 as part of its statutory monitoring and oversight responsibilities, and to work with the Scott Administration and the Centers for Medicare and Medicaid Services' (CMS) to achieve Vermont's goal to pay for value in the form of fixed payments.

All-Payer (APM) Implementation

On December 15, 2021, the Board voted to approve the submission of a proposal for a one-year extension of the current APM Agreement. The proposed Year 6 (2023) allows for additional time to develop a proposal for a 5-year subsequent agreement, which has been delayed by COVID-19. Given the proposed extension, the State has proposed to delay the deadline for making a formal proposal to the Center for Medicare and Medicaid Innovation (CMMI) for a subsequent model for one year, to December 31, 2022. AHS and the Scott Administration are taking the lead in proposing a potential subsequent APM Agreement (APM 2.0), and the GMCB will continue working with providers, payers, advocates, and other stakeholders to implement the Agreement.

Regulatory Alignment and Integration

GMCB will continue to work on regulatory alignment, incorporating feedback and input from other State agencies and the legislature. As we continue to move to population-based payments away from fee-for-service, the Board's regulatory structures will evolve to align with these changes.

Labor - Programs

Department/Program Description

VDOL Divisions and Programs

Technology (ADS)

The Department of Labor is an independent department in State government and the Commissioner is a member of the Governor's cabinet. The Department is approximately 86% funded by federal, special and inter-department funds (federal 68%, Special 18%, inter-departmental .5%), and 14% State General Fund.

The Department's Central Office and Unemployment Insurance Call Center are located in Montpelier. In addition, the Department has 12 regional offices, also known as Vermont Job Centers, which are a part of the federal American Job Center network. These regional offices, which are located across the state, are funded through federal workforce dollars. VDOL staff from other programs (i.e., Workers' Compensation, Unemployment Insurance, Wage and Hour, VOSHA, Labor Market Information, etc.) also have workstations in many of our offices. Approximately 35% of the Department's staff work in the field.

VDOL consists of the following divisions/units: 0 Commissioner's Office (executive, communications and legislative affairs) Business Administration (including fiscal, personnel, contracting, equity, continuous improvement, and facilities) **Unemployment Insurance** Workforce Development **Economic and Labor Market Information** Workers' Compensation Vermont Occupational Safety and Health Administration (VOSHA) Project WorkSAFE Passenger Tramway Wage and Hour Legal (appeals)

VDOL has statutory authority/responsibility for the following Councils and Boards:

State Workforce Development Board (federally recognized)

o

Vermont Employment Security Board

0

State Apprenticeship Council

0

Passenger Tramway Board

0

Labor Board Review Panel

0

Governor's Misclassification Taskforce

0

Labor Advisory Council

Overview of VDOL Programs

Unemployment Insurance

The Unemployment Insurance (UI) Division processes claims for unemployment compensation, oversees employer tax contributions, ensures UI program performance, integrity and compliance.

The Employer Services Unit and Unemployment Claims Center handle employer and claimant unemployment insurance issues and investigate fraud. The Benefit Accuracy Measure and Tax Performance System programs test methods and procedures to ensure compliance with federal performance measures. The Program Integrity Unit audits paid unemployment benefits to detect and resolve improper payments stemming from unreported employment.

In total, the Unemployment Insurance Division has paid out more than \$1.13 Billion in state and federal benefits from the Regular UI, FPUC, PUA, PEUC, EB, High EB, LWA, and VSTS programs between March 2020 and November 2020. During this same time, it has processed more than 128,000 initial unemployment claims and over 1,300,000 weekly claims. For comparison purposes, the Department has paid out more benefits in 2020 than the previous 10-years combined.

Unemployment Insurance RESEA

In 2018 the U.S. Department of Labor gave the RESEA program permanency. Additionally, this program was made permanent as of the federal budget. The program is premised on the idea that early and intense intervention with a person who has become unemployed will lessen their duration on unemployment. In addition, requiring the person to connect, face-to-face with VDOL reemployment caseworkers/job counselors and labor-market specialists will help identify available jobs, as well as possible employment barriers. The RESEA program serves unemployed Vermonters with a high likelihood of exhausting their benefits. Services include personal skill assessment and intensive job counseling sessions. The RESEA program has consistently proven to decrease the duration that a claimant is on unemployment.

Legal Services

Vermont Department of Labor

VDOL's Legal Unit provides a variety of services across the Department. Most notably, the unit handles all unemployment insurance appeals (claimant and employer) that are heard by an Administrative Law Judge or that come before the Employment Security Board. Additionally, staff attorneys are assigned to the Workers' Compensation Division to hold evidentiary hearings and issue determinations in cases of Workers' Compensation benefit disputes. There is a staff attorney assigned to the VOSHA program, as well as the Wage and Hour program, where they provide adjudication services. This unit is lead by the Department's General Counsel, who also serves as the government transparence officer and Notice of Potential Layoff Officer.

Wage and Hour

The Wage and Hour program handles a significant number of calls from employees and employers seeking assistance with workplace rights and employment practices. Most of the calls are asking for an explanation of Vermont's labor and employment laws. W&H also produces informational materials (e.g., mandatory workplace posters). When an inquiry or complaint may present a possible violation of state or federal law, the staff intake the complaint, conduct a review and adjudicate if the issue falls within VDOL jurisdiction; if not, it is referred to the agency where enforcement authority exists. The legislature has passed workplace protections that have steadily increased the unit's workload. This unit of two specialist and one staff attorney is supported with state General Funds and some UI funding.

Economic and Labor Market Information Division (LMI)

Promote and maintain LMI data for public use: www.vtlmi.info

This division has a staff of 12 employees and is 99.9% federally funded. LMI is a State partner to the federal government's U.S. Bureau of Labor Statistics (BLS) which provides nearly 70% of the divisions overall funding. The balance of the LMI budget (~ 30%) comes from the US Department of Labor's Employment and Training Administration (ETA). VDOL's LMI Director serves as an economic consultant to Vermont state agencies, the State Workforce Development Board, and many outside public and private entities on key workforce and economic issue, and initiatives. LMI produces a wide variety of Vermont related reports and data about:

Employment by industry

O
Unemployment and labor force statistics

O
Monthly Jobs Reports

O
Wage data by occupation

O
Occupational Projections

USDOL provides some funding to LMI that allows for some expanded research on projects such as:

O
Long-term (10 year) and short-term (2 year) occupational projections

O
Monitor and forecast UI Trust Fund solvency

o
Perform analyses, support special studies relating to public policy such as:

О

Pathways to promising Careers brochure

0

Healthcare workforce study groups

o

Wage analyses of publicly funded training

0

Minimum Wage determinations

0

Prevailing Wage determinations

0

Public outreach: The importance of LMI's public outreach (including the LMI internship program) has been a priority during this year. Through ETA funding, LMI is able to outreach and travel for presentations Vermont businesses and trade associations, regional workforce development groups, high schools and universities, workforce education and training partners, state agencies, the legislature, non-profit organizations, and to the general public.

Workers' Compensation and Safety Division

The Workers' Compensation Program administers and adjudicates the statewide WC system. A worker who suffers a work-related injury can receive medical and wage compensation from the employer or the employer's insurance carrier. The WC staff members provide audits, dispute resolution, mediation, adjudication and compliance reviews. The Division's investigators pursue fraud and misclassification and issue Stop Work Orders and administrative penalties to enforce compliance with the law.

The Vermont Department of Labor does not set Workers' Compensation insurance rates; the rates are set by the Department of Financial Regulations.

The Division offers services focused on workplace safety and resolving disputes between injured workers and their employers. The Workers' Comp and Safety Division's goals and strategies are to:

0

Ensure that injured workers claims are properly adjusted and timely paid, with disputes resolved in a fair and appropriate manner consistent with the requirements of the Workers Compensation Act.

o

Reach out to the medical community, business and labor organizations, health and safety associations, insurers and others to reduce injuries, identify trends and best practices.

0

Reduce injuries and shorten time before a return to work.

o

Make safety a priority for all Vermont employers.

o

Lower workers' compensation costs.

o

Determine which business sectors need the most safety focus.

Publicly acknowledge employers in Vermont who have successful workplace safety programs.

Investigate complaints that employers are not providing WC Insurance coverage and enforce compliance.

VOSHA

Vermont has a state-based OSHA program. The VOSHA staff works to ensure that all persons are provided a safe and healthy workplace. VOSHA has jurisdiction over workplace safety and health, inspecting workplaces for violations of VOSHA standards, and issuing penalties for violations classified as serious and/or uncorrected after being formally advised by VOSHA of the violation. VOSHA Compliance Officers investigate serious workplace accidents and fatalities.

The program also recognizes businesses for their efforts in workplace safety through programs such as Green Mountain Voluntary Protection Program (VPP). Vermont Compliance Assistance Specialists work with trade associations and industry groups to help employers comply with the VOSHA standards. The 14 employees are funded by a 50-50 match of federal and state (general fund) dollars.

Project WorkSAFE

This program provides voluntary consulting services to Vermont employers seeking to improve the health and safety condition of their workplace. WorkSAFE's 6 employees are funded with a combination of federal and state funds, (75% is federal money, and the remainder is funding from VDOL's Workers' Comp administrative fund). Federal OSHA grant requirements have a target of 200 visits to the private sector for on-site safety and health consultations and review/ development of safety and health programs. Responsibilities also include: developing and providing safety and health trainings to Vermont companies on new OSHA regulations and other topics; emergency response consultation and assistance with radiological and biological issues, (with the Vermont Departments of Health and Public Safety; maintaining and increasing the amount of Vermont companies in the Safety and Health Achievement Recognition Program (SHARP); and developing recommendations for the Governor's Workplace Safety Awards.

Passenger Tramway

This program has three employees who inspect the construction or modification of ski new lifts, as well as the operation and maintenance of ski tows, lifts and trams, and monitor for compliance with State regulations. Vermont ski areas pay the program costs with a fee due annually set by the Passenger Tramway Board, which consists of the Commissioner, two mountain representatives and two public representatives.

Workforce Development Division

VDOL's Workforce Development Division offers Vermont businesses and employees comprehensive services. For businesses, we offer job registration into our Vermont Job Link system, applicant searches, screening and job matching, hiring events, job fairs, current labor market information, programs for interns, apprentices and OJTs, tax credits, programs for layoff avoidance, rapid response services, short-term compensation programs, grants for job training for new and incumbent workers, and assistance with employment and labor law questions. For job seekers, services include skill assessment, skill training, labor market information, career counseling, and job placement assistance. Our workforce programs serve all Vermonters regardless of education-level, income, location or other demographic identifier. WIOA basic and career services are provided, with programs focusing on at-risk out-of-school youth, disadvantaged adults, and dislocated workers under Title I. The Wagner-Peyser Program under Title III provides all customers with employment services, labor market information, referrals to job opportunities, workshops and occupational skills development activities. Augmenting Title I and III services are the apprenticeship, migrant seasonal farm worker, Jobs for Veteran Services and SNAP and ABAWD employment programs. All services are provided through the 12 American

Job Centers (Career Resource Centers) operated by the VDOL throughout the State. VDOL also operates as the State's One-Stop Operator in addition to administering the following federal programs:

- 1. Youth. VDOL provides intensive case management, paid and unpaid support services, and follow-up services for one full year after a youth exits. Additionally, VDOL places youth in work experiences, summer employment opportunities, and on-the-job training, as appropriate. Work based activities that have academic and occupational education as a component are integral to VDOL's youth program design.
- 2. Adult. The adult program is open to all individuals 18 years of age and older with priority given to veterans and individuals who are low income, recipients of public assistance, and those who are basic skills deficient. The program provides career services to individuals ranging from basic labor exchange information to more individualized career coaching, occupational skills development and work-based employment opportunities such as on-the-job training. The provision of a range of occupational skills pathways and employment-based activities assists participants in gaining and/or retaining employment that will lead to economic self-sufficiency. VDOL will continue to identify specific labor market needs in order to create and expand occupational credentialing through stackable training opportunities with a variety of entrance points for adult participants.
- 3. Dislocated Worker. VDOL's dislocated worker program offers employment and training programs for eligible workers who are unemployed through no fault of their own or have received an official layoff notice. A description of the full range of services available through the one-stop system and how services can be accessed is made available to dislocated workers. An initial assessment including a basic review of the individual's work history, skills, training, education, career objective, and self-identified service needs is used to inform decisions on next steps such as scheduling additional career services. The program provides similar re-employment and training activities as the adult program. The driving emphasis is placed on providing timely intervention and immediate assistance to laid off individuals unlikely to return to the occupation they came from. Shepherding displaced workers through an assortment of timely and relevant training activities that lead to in demand occupations is paramount to the program's success.
- 4. Wagner-Peyser. The Wagner-Peyser funds support employment services for job seekers and business customers in the Vermont's American Job Center Network. The Vermont Network physically embodies the required coordination of core and local partner program services, as all programs are present at these locations across the State and is operated under the concept of universal accessibility. Title III funds support State staff, facilities, and information technology needed for partner program delivery at the American Job Centers and for improving the overall capacity of the workforce development system to match labor demand with labor supply. These funds are directed as necessary to best support the system and to most efficiently fulfill Federal mandates. Vermont's AJC provide activities that support the development of a competitive workforce, including appropriate recruitment services and special technical services for employers. Vermont's AJC work with all individuals and other job seekers to obtain critical job search, assessment, and career guidance services that support them in obtaining and retaining employment. In addition, AJC offer activities that assist employers with building skilled, competitive workforces through recruitment assistance, employment referrals, and other workforce solutions. AJC staff also assist in developing and disseminating regional workforce information and related resources, which provide both job seekers and employers with comprehensive and accessible economic and industry data to inform workforce and economic development activities. VDOL is working to establish more comprehensive business needs programs, teaming up with employers, chambers, regional workforce development and investment boards, trade associations, training and education partners, state agencies, SBDC, the Agency of Commerce/Department of Economic Development, and others to support small business and offer technical assistance and support for existing businesses. Assistance can range from providing technical assistance on programs, guiding them to resources, assisting with labor law explanation and compliance, helping with job development, advertising and recruitment for their vacancies, and assisting with specialized needs.

State Workforce Development Board

The State Workforce Development Board (SWDB) is designated as the single State Workforce Development Board under the federal Workforce Innovation and Opportunity Act, and under Vermont statute, 10 VSA 541. The Department of Labor oversees and provides the administrative support to the 50+ member board. The work of the Board is performed by an executive director and an administrative assistant, with significant legal and policy counsel from the

Vermont Department of Labor

Department of Labor. By law, the Board's membership must represent a business majority to help ensure that the workforce development efforts are consistent with business needs. The Board advises the Governor on how to promote and improve the effectiveness of a comprehensive and responsive workforce development system. The Vermont State Workforce Development Board (SWDB) advises the Governor on the development and implementation of a comprehensive, coordinated, and responsive workforce education and training system. Vermont is designated as a Single State Local Area, and the SWDB is designated as the State and Local Workforce Development Board under the federal Workforce Innovation and Opportunity Act. Under Section 101(d) of the WIOA, the SWDB assists the Governor in the following functions:

o
The development, implementation, and modification of the State plan.

o
Review of statewide policies, statewide programs, and of recommendations on actions that should be taken to align
workforce development programs in a manner that supports a comprehensive and streamlined workforce development system, including the review and provision of comments on the State plan, if any, for programs and activities of
one-stop partners that are not WIOA core programs;

o
The development and continuous improvement of the workforce development system

Our Mission

The Vermont Department of Labor's (VDOL) mission is to promote Vermont's economic strength by assisting employers with job creation, retention and recruitment; coordinating education and training of our workforce for Vermont's current and future job opportunities; ensuring that Vermont workers have well-paying jobs in safe and healthy work environments; administering economic support and reemployment assistance to workers who suffer a job loss, or workplace illness or injury; and providing timely and accurate labor market information and analysis.

Funding Targets and Budget Pressures in FY 2023

The greatest challenge for the Department of Labor continues to be the uncertainty of our federal funding. It is important to note that federal government determines our funding levels prior to the notice of award without input from us, and the Department must manage its operation to the level of funding awarded. Rarely are their opportunities to request increases to the base funding that is award by the U.S. Department of Labor.

If federal dollars do not increase at the same or greater rate as inflation, COLA, etc. the Department slowly runs out of programmatic dollars and must make operational changes to ensure expenditures remain within funding allotment. Additionally, the use of Continuing Resolutions by Congress can have a severe impact on Department operations and at times, the federal government has chosen to withhold program funding and partially fund programs to ensure they can support the Department programs at the federal level. Any loss of funding in federal money will critically undermine VDOL program services and the continued existence of our twelve regional offices. For instance, the funding provided to the Unemployment Insurance program prior to the Pandemic had remained level, or slightly decreased over the years, but the cost of the program, especially overhead costs, have continued to rise annually. In this case, the Department had been forced to leave positions vacant for extended periods of time in order to maintain a positive balance sheet.

Additionally, there will likely be funding pressures within the Unemployment Insurance Division for both administrative and modernization costs. The UI Division's administrative costs have sharply increased as a result of the Pandemic in order to serve Vermonters in a timely manner. In fact, the cost of operating the program in order to meet the needs of its customers costs roughly 2-3 times more than its federal allocation. The Administration has increased funding in this budget for ongoing UI operations and for UI systems modernization.

Vermont Department of Labor

The UI Mainframe is antiquated and is not considered stable. Its limited functionality, and lacking security features leave the state vulnerable. Additionally, limited available technical support with knowledge in COBOL-F, as well as unemployment law, have created a perfect storm scenario.

Overall, the Department's FY23 budget shows little change in areas which were/are not impacted by the Pandemic. Unemployment insurance administration and modernization, and workforce recovery efforts are the two drivers or significant changes to the Department's proposed budget.

Budget Summary

		FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Agency of Education

Department/Program Description

Mission - Provide leadership, support, and oversight to ensure that the Vermont public education system enables all students to be successful.

Vision - Every learner completes his or her public education with the knowledge and skills necessary for success in college, continuing education, careers, and citizenship. The public education system provides flexible learning environments rich with 21st century tools that promote self-development, academic achievement, and active engagement in learning. It operates within a framework of high expectations for every learner with support from educators, families and the community.

Finance and Administration: Provides the operating functions of the Agency, including the Secretary's Office, business and financial management, some human resources, school district accounting, Medicaid and special education administration and accounting, legal support and complaint investigation, public relations and legislative support and data management and analysis.

Education Programs: The major areas comprising education programs are Student Support Services, Education Quality, Federal & Education Support Programs, and Student Pathways. Each of these areas provides technical assistance and program support for Vermont's education system. The types of programs supported range from special education for preschool aged children to literacy skills for adults. This also includes the education quality review process that measures the progress a school district and its associated schools is making toward meeting the State Board of Education's Education Quality Standards.

The remainder of the education budget is composed of the following programs.

Career and Technical Education: Provides funding to help reduce tuition costs for students participating in career and technical education at the state's 16 technical centers.

Special Education Formula: State share of special education funding including a block grant, reimbursement for extraordinary expenses, and intensive reimbursement. This averages to about 60% of the district's special education costs after federal special education funds are applied

State-Placed Students: Reimbursement to Local Education Agencies for non-mainstream special education services and residential placements for students placed by the Department for Children & Families or the Department of Mental Health in a school district outside of the parents' district of residence.

Adult Education and Literacy: Funding for the four community nonprofit organizations which deliver the statewide adult basic education program distributed through a county needs-based formula.

Flexible Pathways: Funds reimburse districts for high school completion programs and pay tuition costs for the Dual Enrollment and Early College Programs to give high school students an opportunity to learn in a college setting before graduating from high school.

Statewide Education Funding: This is the primary source of funding for the state's public school districts and follows the provisions of Chapter 133 in Title 16.

Essential Early Education: Funds to support the costs of providing special education services for children aged three to five who have Individualized Education Plans.

Transportation Grants: Funding to provide aid to districts transporting students to and from school.

Small Schools Grant: Grant to assist small schools with high per pupil fixed costs and is available to schools with an average two year enrollment of 20 students or less per grade.

State Board of Education

Department/Program Description

The State Board of Education is responsible for the establishment, advancement, and evaluation of public education policy. The powers and duties of the Board include making regulations governing: attendance and records of attendance of all pupils, standards for student performance, adult basic education programs, approval of independent schools, disbursement of funds, and equal access for all Vermont students to a quality education.

Teachers' Retirement System Administration

Department/Program Description

The State Teachers' Retirement System is the uniform public pension plan covering all public school teachers and administrators in the state. It was created in 1947 and is now governed by Title 16, V.S.A., Chapter 55. It has undergone significant changes over the years, with the most recent being the implementation of a non-contributory group with major benefit reforms as provided by Act No 41 of 1981, and a significant change in a return to a mandatory contributory system as of July 1, 1990.

As of June 30, 2021, the State Teachers' Retirement System consisted of approximately 9,955 active members, 2,915 inactive members, 911 terminated vested members and approximately 10,106 retirees and beneficiaries.

Administration of the system involves the management of the assets of the retirement fund as well as the administration of the benefits and recordkeeping for the membership. The actuarial value of the assets of the fund was approximately \$2,192 million as of June 30, 2021, compared with about \$2,036 million as of June 30, 2020. The system paid approximately \$213 million in retirement benefits during fiscal year 2021.

Personal services and operating expenses totaled approximately \$4.4 million in FY2021, rise to \$5.1 million in the FY2022 budget and are budgeted at \$1.8 million in this request. The changes are primarily attributable to estimated investment manager fees, which are based on the investment assets under management, and the method by which the investment managers receive fees for services. Estimated directly billed and expended investment manager fees are included in the budget request. These expenditures are made from the VSTRS Pension trust funds.

The Office of the State Treasurer, the Administration, Legislative leadership, the Vermont-NEA and other partners agreed to and initiated a 10-year plan during the 2014 legislative session to develop long-term sustainable funding for a Retired Teachers Health & Medical Benefits (RTHMB) fund with shared responsibility from a variety of sources. The Plan includes: steadily increasing State funding; loans from the State's general fund for 4 years followed by 5 years of repayments of principal and interest; establishing a separate RTHMB fund (16 V.S.A. 1944b) from which to pay retired teachers health and medical benefits; setting the employee contribution rate 1% percent higher (to 6%) for teachers with less than 5 years of membership service; adding statute directing school administrators to properly charge employer retirement costs and administrative operating expenses applicable to those teachers whose funding is provided from federal grants and to pay that portion of federal reimbursement to VSTRS; and adding statute requiring the employers of teachers that become members of VSTRS on or after July 1, 2015 to pay an annual assessment based on the Actuary's recommendation of the future value of those teachers' health and medical benefits.

The Governor's Recommended State payments to the RTHMB fund for FY2023 are \$29,606,128, which funds VSTRS OPEB on a pay-as-you basis. In addition, funding of \$6,091,170 is anticipated from other sources. These amounts total the Treasurer's estimate of FY2023 VSTRS retiree health insurance premium costs of \$35,697,298.

The STRS board of trustees recommended an ADC for the STRS defined benefit retirement system for FY2023 consisting of a normal cost of \$42,142,965 and an unfunded liability contribution of \$163,018,686, for a total of \$205,161,651, which is an increase of \$8,955,147 or 4.56% from the FY2022 ADC. The Governor's recommended budget includes general fund funding of \$157,545,678 and education fund funding of \$40,728,104. An estimated additional \$6,887,869 contribution is expected from local education associations (LEAs). The total amount to be contributed in the Governor's recommended budget is \$198,273,782.

The State Teachers' Retirement System Board of Trustees is responsible for the administration of the system. The Board consists of the State Treasurer, Secretary of Education, Commissioner of Financial Regulation, two active members elected by the membership, and one retired teacher appointed by the Vermont Retired Teachers Association. Staff is provided by the Retirement Division of the Office of the State Treasurer, which also administers the Vermont State Retirement System and the Vermont Municipal Employees' Retirement System. Beginning in FY2023, the investment management of the retirement funds will be the responsibility of the independent Vermont Pension Investment Commission created in 2021 H.449 (Act 75), which replaces the previous Vermont Pension Investment Committee.

Mission/Vision Statement

Agency Mission Statement

It is the mission of the Agency of Natural Resources to protect, sustain, and enhance Vermont's natural resources for the benefit of this and future generations. To accomplish this mission, the Agency directs its activities to accomplish four primary goals:

- To promote the sustainable use of Vermont's natural resources
- To protect and improve the health of Vermont's people and ecosystems
- To promote sustainable outdoor recreation
- To operate efficiently and effectively as an agency so that we can fulfill our mission.

Agency Vision

Vermont's environment and natural resources are vital to our quality of life, culture and economy, and environmental stewardship is essential to our collective prosperity, based on a shared ethic of protection, respect and enjoyment of our natural environment.

Agency Values

Draw from and build upon Vermonter's shared ethic of responsibility for our natural environment, an ethic that encompasses a sense of place, community and quality of life, an understanding that we are an integral part of the environment, and that we must all be responsible stewards for this and future generations. Cultivate stable, efficient, effective, inclusive decision making, informed by science and the rule of law.

Department of Fish and Wildlife - responsible for the conservation and management of Vermont's fish and wildlife resources and the protection of the state's threatened and endangered species.

Department of Forests, Parks and Recreation - responsible for the conservation and management of Vermont's forest resources, the operation and maintenance of the state park system, and the promotion and support of outdoor recreation for Vermonters and our visitors.

Department of Environmental Conservation - responsible for the conservation and management of the state's natural resources and protection of the public health through various grant, regulatory, technical assistance, and public information and education programs.

Agency Central Office (Administration, Management and Planning) - responsible for leadership and general oversight of all programs, as well as policy and planning, legal services, financial management and administrative support for the agency.

The Agency of Natural Resources FY 2023 budget is funded to maintain current service levels across our programs with few exceptions. General Fund increases mainly support portions of the annualization of Pay Act, and internal service funds. Federal Funds are budgeted at normal levels.

Natural Resources Central Office

Department/Program Description

The mission of the Agency of Natural Resources Central Office is to provide both leadership for agency programs and the support that those programs need to protect, sustain, and enhance Vermont's natural resources for the benefit of this and future generations.

The major components of the ANR Administration, Management and Planning appropriation are:

Secretary's Office - The Secretary's Office is responsible for the overall leadership and management of the Agency, oversight of legal services throughout the Agency, and coordination of Agency policy and public information.

Office of General Counsel - The Agency of Natural Resources' Office of General Counsel provides legal assistance and services to the Office of Planning; Department of Environmental Conservation; Department of Fish and Wildlife; and Department of Forests, Parks and Recreation. The range of legal services includes drafting and reviewing policies and permits, rulemaking and providing general advice on Agency matters. The attorneys in the Enforcement and Litigation Section also represent the Agency in litigation before the Environmental Court and other administrative bodies, Act 250 proceedings, and enforcement matters.

Office of Policy and Planning - The Office of Policy and Planning coordinates Agency policy positions in relation to other state agencies, federal agencies and outside stakeholders. The Office also works with Counsel for the Department of Environmental Conservation; the Department of Fish and Wildlife; and the Department of Forests, Parks and Recreation in representing the Agency in proceedings before the Environmental Court, the Public Service Board, and the Natural Resources Board. These proceedings include: (1) Appeals of Agency actions such as the issuance or denial of permits, Appeals of Act 250 permits (2) the review of proposed projects seeking an Act 250 permit, and (3) the review of proposed projects seeking a certificate of public good before the Public Service Board. In addition, members of this Office provide case management for large, complex projects in the Act 250 / Section 248 process, including but not limited to managing timelines for submittals and Agency responses; coordinating intra-Agency discussion of the impacts of a project; and mediating disputes with the applicant, members of the public, and state and federal officials with regard to a project.

Administrative Services Division - The Administrative Services Division is responsible for providing financial and administrative management services for the Agency and its departments, preparation and management of the Agency budget, coordination with the Agency of Administration on finance and office operations, personnel administration support, management of Agency offices and other facilities, and logistical support of the Agency's six regional offices.

Regional Offices - The ANR Central Office appropriation includes funding to support office operations of the Agency's six regional offices, four of which are shared by staff from the Natural Resources Board Act 250 program.

In addition to the work of the Secretary's office, the Central Office is responsible for an appropriation for payment in lieu of property taxes on lands owned by the Agency.

The ANR Central Office FY 2023 budget continues the level of service provided in FY 2022.

In 2020 the General Assembly passed Act 153, the Global Warming Solutions Act, which required the development of a Climate Action Plan. This budget includes an additional \$650,000 to formalize a Vermont Climate Office within the Agency of Natural Resources. These additional funds will support 4 new positions and additional contractual services needed to continue the work of implementing Act 153.

Finally, the ANRCO budget includes a request for an additional 0.5 FTE to fully fund the part time position added in the FY 2022 Budget to work on diversity, equity, inclusion, environmental justice, and civil rights work within ANR. This work is critically important to ensure that all Vermonters feel that they can engage with the work of the Agency

Natural Resources Central Office

and to ensure these policies are consistently implemented throughout our work at the Agency. After brining this position on board in FY 2022, ANR received notification of an audit on compliance with Federal Civil Rights law from two different federal agencies. This additional compliance work requires that this position be converted to a full time role.

Per 32 V.S.A sec. 3708, as part of the FY 2023 budget request, the Secretary of Natural Resources must propose an adjustment to the base payments used to calculate the Payment In Lieu Of Taxes (PILOT) to towns for land owned by the Agency of Natural Resources (ANR). ANR staff worked with the Tax Department to come up with a recommended adjustment to the PILOT base payment for ANR Land. ANR worked with the tax department to establish a method using data that is publicly available. ANR is proposing to use the 5-year Compound Annual Growth Rate (CAGR) of the Effective Municipal Tax Rate to calculate the change in the PILOT base payment.

Fish and Wildlife

Department/Program Description

The mission of the Vermont Fish and Wildlife Department is the conservation of fish, wildlife, plants, and their habitats for the people of Vermont.

The fish, wildlife, and plant resources of Vermont are tremendous assets, which contribute to the State's high quality of life. A 2015 survey conducted by Responsive Management identified that 98% of Vermonters find it very important that native fish and wildlife populations are healthy even if they never view these species. The Department is responsible for the conservation of fish and wildlife in its broadest sense: 40 species of reptiles and amphibians, 91 species of fish, 252 species of birds, 58 species of mammals, more than 15,000 insect species, and important fish and wildlife habitats. To that end, native wildlife such as beaver, moose, fisher, wild turkey, common loon, bald eagle, osprey, and peregrine falcon have been successfully restored through Department efforts. The Fish and Wildlife Department has conserved and manages over 130,000 acres of land for public use and as important habitat. In addition, the Department provides safe, high-quality hunting, fishing, trapping, and wildlife viewing opportunities.

The Support & Field Services appropriation provides funding for the Department's core services. These core services include: conserving, restoring and enhancing fish and wildlife habitat, wetlands and natural communities; inventorying, monitoring and managing game species to ensure sustainable population levels are maintained; inventorying, monitoring, and managing non-game species and developing recovery initiatives for species that are threatened or endangered; promoting and providing a diversity of hunting and angling opportunities; promoting and facilitating land management planning and stewardship in Vermont; managing wildlife habitat on 100 Wildlife Management Areas, maintaining public access to water bodies on over 190 Access Areas, providing wildlife-based recreation opportunities; ensuring safe practices for those participating in fish and wildlife based recreational activities; maintaining full fish and wildlife response capabilities for citizens and agencies regarding threats to human life or safety; limiting the number of human injuries and fatalities that result from encounters with wildlife (i.e. moose and deer car collisions); ensuring the enforcement of fish and wildlife laws; informing and educating the public; and performing mission critical research. Also included in this appropriation is funding to support watershed education efforts and projects that protect, restore, or enhance Vermont's watershed resources.

Key Divisions within the Department are as follows:

The Administration Division provides policy, legal, planning, personnel, and financial management for the Department. It oversees the production, distribution, and sales of all hunting and fishing licenses and over fifteen types of other permits related to resource protection. The division is also responsible for the management of \$9 million annually in federal grant dollars, ensuring the funds are spent appropriately and that all reporting requirements are met.

The Wildlife Division is responsible for the conservation and management of all wildlife, plants, and their habitat throughout Vermont. Division staff are engaged in a variety of activities such as: conducting research in support of management actions and decisions; monitoring populations of rare, threatened and endangered plant and animal species; preparing harvest recommendations for wildlife species with open regulated hunting or trapping seasons; participating in the protection of critical wildlife habitat through regulatory processes such as Act 250; land acquisition and management of more than 130,000 acres on the Department's Wildlife Management Areas, monitoring wildlife diseases and the importation of wildlife into Vermont; and technical assistance, planning and outreach to wildlife observers, landowners, hunters, school children, and natural resources professionals regarding wildlife in Vermont.

The Fish Division is responsible for the conservation and management of fish and all aquatic habitats throughout Vermont. Staff members are engaged in a wide variety of activities, including: monitoring populations of sport fish species, endangered species, and their habitats; cooperating in the research, management, and restoration of fish communities across the state; operating fish hatcheries that rear and stock trout, salmon, and walleye annually for recreational and restoration purposes; maintaining more than 190 developed fishing access areas and a variety of riparian lands that provide public access to waters of the state; monitoring fish health; regulating fish importation; preventing the spread of aquatic nuisance species; controlling sea lamprey in Lake Champlain; evaluating current and

preparing new fishing harvest regulation recommendations for a variety of species; participating in the protection of aquatic species and critical aquatic habitat through regulatory processes, providing technical assistance; and preparing educational materials.

The Warden Service Division is an integral part of fish and wildlife conservation and management. Its primary duty is to enforce Vermont's fish and wildlife laws and regulations. Fish and wildlife species are held in the Public Trust and this division enforces laws related to the protection of these resources for the benefit of all Vermonters. The division provides a response to citizens' requests for Department assistance involving fish and wildlife resources including conflicts. The division also assists in search and rescue operations and provides many other additional law enforcement services to citizens and other law enforcement agencies.

The Outreach Division is responsible for informational and formal educational programs of the Fish and Wildlife Department. Programs are designed to improve the public's knowledge and appreciation of Vermont's fish and wildlife resources and their habitats as well as related laws, disease issues and management programs. Division staff supports the Department's mission by providing professional communications and education to residents and visitors alike. These efforts are a means to create awareness and achieve voluntary compliance with state laws, regulations and programs and encourage support for fish, wildlife and habitat conservation and protection programs. The division also manages Vermont's conservation camps and hunter education courses.

The Department utilizes various performance measures to understand the success of management actions. These performance measures range from the number of acres conserved to the number of fish and wildlife violations. The Department has focused on performance measures related to energy efficiency, habitat conservation, outdoor recreation, education, and law enforcement for results-based accountability reporting. The energy efficiency performance measures are related to the Department's fish culture program adopting and implementing renewable energy and energy efficiency projects, which have reduced the programs carbon footprint. The fishing access area metric focuses on the number of sites upgraded and new ADA docks and parking areas added. The habitat restoration metrics include the fish and land and habitat programs. The fish program focuses on metrics of improved aquatic habitat through strategic wood addition and dam removal. The land and habitat program has a broad appeal to Vermonters through conserving ecosystems and landscapes, as well as providing public access for wildlife-based recreation. The land and habitat program is responsible for reviewing Section 248 and Act 250 development projects, completing land acquisitions, providing private lands technical assistance, overseeing habitat management on state lands, creating long-range management plans, and maintaining infrastructure on state lands. This program ensures that Vermont's ecosystems have high wildlife resource values and public access is maintained. The education metric focuses on the number of people participating in events that informs them about the state's unique fish and wildlife, natural communities, and sustainable recreational activities. The final metric identifies the volume of responses that Game Wardens make related to fish and wildlife issues, search and rescue, and assisting other law enforcement agencies.

The Department's annual performance-based budget document will highlight performance measures and trend data for: percentage of women hunters and anglers, meat harvested through hunting, conservation education and outreach programs, habitat conservation, threatened and endangered species recovery, wild trout restoration and law enforcement.

The Department's FY 2023 budget proposal is a 12.9% or \$3.3M increase from FY 2022. Much of this increase is due to structural statewide budget pressures due to changes in salaries and benefits for staff and one-time projects with dedicated funding. The Department's total General Fund increase is \$480k, with the Federal Fund and dedicated funds combined funding nearly \$2.2M of the budget increase. Changes in the Department's budget are composed of several components: standard increases for personal services and operating costs, 2 positions funded with the American Rescue Plan Act, a one-time increase for fishing access area improvements, an increase in Great Lakes Fishery Commission funded work in the Lake Memphremagog basin, and land acquisitions.

The FY 2023 budget proposal includes the following items.

Standard budget increases that are seen across state government related to personal services and the internal service fund. Personal service costs increased \$939k and the internal service fund increased by \$80k.

Two positions funded by the American Rescue Plan Act for environmental permitting work.

The fishing access area program will have a \$180k net upward increase. This reflects a \$300k increase for improvements to the Vantines Access Area in Grand Isle, which will include a new dock, creation of a second ramp, and a fishing platform. It also includes the reduction of a \$120k for an access area user study that was budgeted in fiscal year 2022. The Department manages 196 fishing access areas. These sites are heavily used by the nearly 30,000 Vermont registered motorboats, more than 100,000 hunting, fishing, and trapping license holders, and an untold number of paddle craft.

A \$154k of additional project work with Great Lakes Fishery Commission funds. This worked is focused on land acquisition and habitat restoration in the Lake Memphremagog basin.

Completion of six land acquisition projects funded by duck stamp funds, Federal Wildlife Restoration funds, and Federal Recovery Land Acquisition Grant funds. The projects total roughly 2,500 acres and are in the towns of Georgia, Danby, Cornwall, Newport, Benson, and Orwell.

A \$93k increase to implement a body camera program for the Warden Service Division. The Department estimates it will cost \$138k to fund the purchase and management of body cameras for the Warden Service Division. It includes \$93k to purchase body cameras, \$20k for annual maintenance and operating fees, and \$25k for a temporary employee. A total of \$45k of the total cost will be funded in fiscal year 2022 and the remaining \$93k in fiscal year 2023.

Forest, Parks, and Recreation

Department/Program Description

Forestry - Forestry programs affect a broad and expanding constituency concerned with the sustainable use, management, protection, and health of Vermont's forest landscape, representing 75% of the state. These forests provide the economic resource base for Vermont's diverse forest economy through sustainable timber management (\$1.4 billion annually and over 10,000 jobs), as well as providing the foundation of the state's recreation and tourism economies. Vermont's actively managed forests also provide critical biological diversity, natural communities, and wildlife habitat as well as critical functions such as water supply and quality, flood resilience, air pollution prevention, and uptake and storage of carbon dioxide.

The Forestry Division has responsibility for administration and oversight of over 15,000 parcels covering more than 2 million acres of private land enrolled in the Use Value Appraisal (current use) program for forestland; stewardship and public access and recreation activities on over 355,000 acres of state-owned land (state forests, state parks, and wildlife management areas); assisting municipalities in the management of urban and community treescapes and municipal forests; forest health monitoring and technical assistance; preparing and responding to wildland fires, and assisting forest economy enterprises including the wood energy sector.

State Parks - The State Parks Division is a highly complex business enterprise responsible for planning, staffing, operation, construction and maintenance of the State Parks system and the conservation and interpretation of the natural and cultural resources within it. The State Park system includes 55 developed Parks. Visitation continues to be very strong even in light of the current pandemic. Parks provide a safe and healthy recreation opportunity and serve as a valuable refuge for relaxation and connecting to Vermont's natural world.. During the 2021 season parks received near record paid attendance with over 1,034,000 visits to the systems woodlands, trails, vistas, waterfronts, campsites, picnic pavilions, event halls, and nature interpretive programs. Paid, operating-season admissions are only a subset of total, year-round visitation and use. Collectively state parks incorporate a small city of infrastructure and facilities dispersed throughout all geographic regions of the state. During the busier periods the park system is hosting 50,000 to 60,000 visitors in a given week.

Lands Administration and Recreation - The Lands Administration and Recreation Division is responsible for the administration and land records of state-owned lands managed by the three departments within the Agency of Natural Resources (ANR) and management of recreation across all FPR program areas. ANR holds approximately 355,000 acres of lands held in fee-simple ownership and an additional 140,000 acres of conservation and recreation easements on private lands held by the Agency. In this capacity, the Division maintains ANR property records and maps; administers leases, licenses and special use permits for a great variety of uses and activities on ANR lands; carries out ANR land acquisitions and other property transactions; administers the ANR Payment in Lieu of Taxes (PILOT) program; coordinates long-range management planning for ANR lands; conducts land surveys and prepares maps of ANR lands; and coordinates the development of ANR lands policies.

Recreation services are not only a prominent program of the department, but also a growing and diversifying aspect in terms of volume and public demand. The increasing demand for recreational access to the state-owned lands managed by the department coupled with a renewed appreciation for the multiple values of outdoor recreation activity to individuals and communities has led to the department's current concentrated effort to focus on expanding and improving access to recreational opportunities on department lands and in conjunction with private landowners and statewide recreation partner organizations. It is also of paramount importance to maintain stewardship and care of public recreational infrastructure assets commensurate with expanding and diversifying use so as to sustain a high-quality environment and user experience, and the economic and wellness benefits they drive.

Forests and Parks Access Roads - This program uses state funds to repair and maintain the extensive network of several hundred miles of access roads to over 360,000 acres of ANR lands. This network consists of approximately 600 miles of roads and is essential to the maintenance of state park and forest land, timber management, and providing access for the recreating public and emergency response.

Administration - The Administration Division is responsible for leadership, management and oversight of all Department divisions, programs, financial management, personnel management, policy development and legal services.

The mission of the Vermont Department of Forests, Parks and Recreation (FPR) is to practice and encourage high-quality stewardship of Vermont's environment by:

Monitoring and maintaining the health, integrity, and diversity of important species, natural communities, and ecological processes.

Managing forests for sustainable use, including providing and promoting opportunities for compatible outdoor recreation.

Providing related information, education and service.

FPR is responsible for the conservation and management of Vermont's forest resources, the operation and maintenance of the State Park system, and the promotion and support of outdoor recreation for Vermonters and our visitors. In addition, FPR is responsible for the acquisition, planning coordination, and administration of all Agency of Natural Resources lands. Department employees are stationed throughout Vermont, including offices in Montpelier and five regional locations.

State Park visitation continues to be strong with 1,034,426 paid visitors during the 2021 operating season. This is the highest level in the past 33 years and continues a now decade-long 40% increase. High visitation also brings increased operating costs primarily for maintenance equipment and materials, infrastructure improvements, and seasonal staff who provide high-quality front-line service for park visitor's enjoyment and safety. While ski lease revenue projections were down in the FY22 budget due to the uncertainties of the pandemic in FY23 revenues are anticipated to return to normal, with \$3.5M budgeted. Parks operations are supported by \$1.54M of price increases. Parks special fund balance of \$733K is used on a one-time basis to preserve current services across the Department.

Recognizing the critically important role forests play in mitigating atmospheric carbon dioxide and conferring land-scape and economic resilience, the Department is using \$91K of general funds to support the climate forester position, currently a limited-service grant-funded position that will end in July. Vermont's 4.5 million acres of forests are a net carbon sink, meaning that they take in more CO2 from the atmosphere each year than they emit and offsetting almost half of Vermont's annual emissions. Many of the strategies outlined in Vermont's Climate Action Plan rely on forests' mitigation capacity. FPR's climate forester leads the SOV in understanding forest carbon, management strategies to enhance carbon sequestration and storage and climate resilience, and opportunities to maximize the potential of forests in the face of climate change.

The retirement rate increase results in \$328K of cost pressure for the Department. This increase is covered by the parks special fund for parks staff and by the general fund for forestry, lands administration and recreation, and administration staff.

Environmental Conservation

Department/Program Description

Department Mission Statement

The mission of the Vermont Department of Environmental Conservation is to preserve, enhance, restore, and conserve Vermont's natural resources, and protect human health, for the benefit of this and future generations.

Description of Divisions, Appropriations, and Programs

By statute and through delegation from the Agency of Natural Resources, the Department of Environmental Conservation is charged with protecting public health and the environment. The Department meets this challenge through: (1) limiting environmental impacts through permits, compliance inspections, and enforcement; (2) delivering financial assistance to communities, citizen groups and businesses; (3) providing public education and technical assistance to communities, citizen groups and businesses; (4) monitoring environmental quality and public health; and (5) protecting and restoring natural resources. The Department strives to treat citizens and businesses fairly, honestly and openly, to provide programs that are efficient and cost-effective, to lead by example, and to make timely decisions.

The Department administers various state and federal programs with responsibility for regulating the discharge or emission of pollutants into the air, water or soil. Many of these programs are administered under the authority of federal law with the approval of the United States Environmental Protection Agency. In this way, the State of Vermont retains a central role in decisions affecting its citizens and is eligible to receive federal funds to implement these programs.

The Department has three appropriations that cover the Departments work across seven divisions. Descriptions of each division are located below under their appropriation. An appropriation for the Connecticut River Valley Flood Control Compact for Tax Losses, formerly its own appropriation, was integrated in SFY2018 within the Office of Waters Appropriation.

Management and Support Services Appropriation

Commissioner's Office

The Commissioner's Office provides leadership, management, business, policy and planning services for all departmental divisions and programs.

Environmental Compliance Division

The Environmental Compliance Division houses the Environmental Assistance Office and the Environmental Enforcement Office, providing the regulated community the full range of compliance activities, through proactive environmental assistance as well as reactive environmental enforcement. Assistance activities include providing guidance to potential permit applicants, continuously working to streamline environmental permitting and information, working with communities and municipalities to better understand and comply with environmental regulations, and providing help to businesses and individuals who are new to or have difficulty navigating environmental permitting. The Division assists businesses, communities, state agencies, and others in identifying effective and economical ways to promote environmentally sustainable development and to safeguard human health. The Division is also charged with enforcing the laws and regulations administered by the Agency of Natural Resources, primarily for the Department of Environmental Conservation, but also for the Department of Forests, Parks and Recreation. The Department of Fish and Wildlife handles most of its own enforcement. The Division also coordinates with the Agency of Agriculture, Food and Markets regarding cases involving that agencys jurisdiction. Enforcement activities include civil and criminal investigations, prosecution of administrative enforcement cases before the Environmental Court, and screening and referrals of criminal and civil cases (as appropriate) to the state's attorneys and the Attorney General. The goal is to integrate all compliance activities in a manner that protects the environment and public health, ensures the integrity

of the Agencys regulatory programs, and provides an even playing field for all Vermonters. Providing the full range of compliance strategies under one division allows for the strategic administration of Department compliance services and promotes the recognition of and responsiveness to compliance trends.

Vermont Geological Survey

The Vermont Geological Survey conducts mapping, research and provides aid and advice about the state's geology, mineral resources and topography. The Geological Survey performs bedrock and surficial mapping, applied studies, digital map products, data distribution, and education. Geological information collected, analyzed and disseminated by the Survey plays a significant role in locating groundwater supplies, arranging waste disposal, understanding the movement of contaminants, and addressing natural hazards such as landslides, radioactivity, erosion, and earthquakes. Public service maps derived from the base geology are used to protect public health and safety.

Administration & Innovation Division

The Administration & Innovation Division encompasses a range of central services functions which serve the entire Department. Those functions include financial management; operational services including resource allocations (e.g., information technology, personnel, Fleet, records management, procurement, office space and logistics); and Department-wide planning and reporting (e.g., U.S. Environmental Protection Agency Performance Partnership Agreement, strategic planning, results-based accountability, and performance measures tracking). In addition, the Department's ECO AmeriCorps Program and Business Transformation Initiative (BTI) is led by this division. Our ECO AmeriCorps Program stands for Environmental Career Opportunities and is a service-based program aimed to guide the next generation of Vermont's environmental leaders through enriching and immersive experiences. By collaborating with our host site partners, we can add vital capacity to strengthen local communities and foster a deeper stewardship of our natural environment. This Initiative involves coordination with both internal and external entities as DEC undertakes a system of continuous improvement in our business practices. The BTI is a resource strategy, allowing the Department to free up and shift capacity where possible to higher value work as efficiencies are found. The goal is to provide the best level of service to the Vermont public, making it easier for businesses, municipalities, and citizens to access our programs and services. A related goal of this effort is to increase the transparency of the department's work, making information more readily available and accessible electronically.

Air and Waste Management Appropriation

Air Quality and Climate Division

The Air Quality and Climate Division (AQCD) implements state and federal programs to protect and improve air quality, with the goal of protecting public health and the environment. As part of this implementation, the AQCD monitors air quality and air pollution sources, conducts emissions inventories and modeling, proposes regulations to improve existing air quality, ensures compliance with the regulations, and issues permits to control pollution from sources of air contaminants across the state. Additionally, the AQCD has been actively involved at the national level in efforts to document and reduce the impact of out-of-state coal-fired power plants on public health and the environment in Vermont. The Division has worked with neighboring jurisdictions to develop a regional climate action plan, and participates in the Regional Greenhouse Gas Initiative (RGGI), the first market-based regulatory program in the US to reduce greenhouse gas emissions. The Division actively advances strategies to reduce sources of air pollution in Vermont, including efforts to increase zero emission vehicles and the corresponding infrastructure in Vermont, and to decrease particulate matter emissions from outdoor wood boilers and wood stoves. The Division has been at the forefront of greenhouse gas reduction initiatives and is one of a small number of states that have joined with California in adopting Low Emission Vehicles Rules. The AQCD's five Sections (Planning, Monitoring, Compliance, Permitting, and Mobile Sources) coordinate to protect and improve air quality through identification, characterization, and management of risks and impacts to public health and the environment.

Waste Management and Prevention Division

Environmental Conservation

Through a combination of assistance, planning, regulation, permitting, and inspections, the Waste Management and Prevention Division oversees the management of solid and hazardous wastes to protect the public health and the environment. Hazardous and solid waste programs are managed to meet Vermont environmental law and regulatory standards and U.S. Environmental Protection Agency standards for the Resource Conservation Recovery Act. This program also implements the State's Materials and Solid Waste Management Plan with a focus on helping Vermont households and businesses find convenient, affordable ways to divert organic material (yard and food waste) and recyclables away from landfills and into economically valuable uses. The Division also oversees the investigation and remediation of sites contaminated by hazardous wastes from petroleum, chemical, and industrial release. The Petroleum Clean-up Fund is managed to remediate sites contaminated by petroleum. The Brownfield Program promotes and assists in the clean-up and reuse of contaminated properties. The Underground Storage Tank Program is responsible for overseeing the management of underground storage tanks. In addition, the division maintains a 24-hour Spill Response Team to provide assistance in the control and clean-up of spills.

Office of Waters Appropriation

Water Investment Division

In response to enactment of water quality legislation Act 76 in 2019 and to facilitate the provision of funding for clean water projects, the Water Investment Division was formed through restructuring of two existing divisions. The new division is responsible for managing tens of millions of state and federal dollars annually, and providing in-house technical assistance, to support a wide array of clean water projects.

The Division provides the critical service of developing 15 Tactical Basin Plans (TBPs) that provide a holistic guide to inform clean water restoration and protection priorities statewide. The priorities described in TBPs are based on information provided by the Watershed Management Division's monitoring and regulatory programs and are implemented by state, federal and non-profit organizations, municipalities, regional planning commissions, natural resource conservation districts, watershed groups, and private citizens. Plans in the Lake Champlain Basin provide the basis for implementing the Lake Champlain Phosphorus TMDL. These plans are updated every 5 years to show where progress has been made and where more work needs to be accomplished.

The Division funds, tracks, and reports on priority projects identified in TBPs and communicates progress toward meeting water quality restoration targets. This work includes coordinating funding, tracking, and reporting of clean water efforts for federal and state partners, such as the Agencies of Agriculture, Food and Markets, Commerce and Community Development, and Transportation, and the Lake Champlain Regional Conservation Partnership Program of the Natural Resources Conservation Service. In addition, the Division offers technical expertise in stormwater master planning, illicit discharge detection and elimination, and green infrastructure.

Additionally, the division assists in the planning, design, construction, and first year operational phases for new construction or upgrade of municipally owned (including public schools) and privately-owned public water supply, wastewater, and stormwater systems. These projects are financed through various state and federal grant and revolving loan programs administered by the Division.

Planning and implementation of construction improvement projects for state lands and facilities owned by the Agency of Natural Resources and its three Departments that include: dams, parks, fishing access areas, fish culture stations, and wildlife management areas, are also managed by the division.

Lastly, the Division also administers a Dam Safety Program, which involves safety inspections of non-power generating dams and review and permitting for dam alteration projects.

Watershed Management Division

The Watershed Management Division is responsible for managing surface water quality and quantity for over 800 significant lakes and ponds, 23,000 miles of rivers and streams, and 300,000 acres of wetlands that exist within Vermont.

To accomplish this mission, the Division's eight major programs act to protect, maintain, enhance, and restore surface waters in the following ways.

The Division provides regulatory oversight and technical assistance to ensure proper design and construction of storm water treatment and control practices as well as construction-related erosion prevention and sediment control practices, necessary to minimize the adverse impacts of storm water runoff to surface waters throughout Vermont. It also administers the federally delegated permitting programs for municipal and industrial wastewater discharges, and the state permitting programs for residuals management. The Division oversees the wastewater operator certification program.

The Division conducts chemical, physical and biological environmental monitoring and provides guidance to citizen monitoring programs to determine current quality and threats to that quality. It publishes assessments of streams, rivers, lakes and wetlands that are utilized by the Water Investment Division and external partners to develop tactical basin plans and implement clean water projects.

The Division is responsible for identifying and protecting wetlands and the functions and values they provide. Activities to achieve these goals include education and permitting. Similarly, the Division protects lakes by providing h assistance to municipalities, lake associations, and individuals regarding lake management and protection. Finally, the Division protects river systems and floodplains by providing technical and regulatory assistance for projects in river corridor and floodplains to avoid and mitigate flood and erosion hazards, and to increase retention of sediments, nutrients, and riparian habitat. This program also coordinates hydroelectric dam licensing reviews, and assures that stream flows below dams, water withdrawals, and hydropower reservoirs meet minimum standards.

Drinking Water and Groundwater Protection Division

The Division's drinking water programs are responsible for ensuring that Vermont's 1,400 public water systems provide clean and safe water to their customers. It does this through permitting all aspects of source water development, construction and operation. In addition, public health protection is provided by performing sanitary survey inspections, providing technical assistance, performing compliance assistance, certifying public water systems operators (including operator training), performing implementation management of EPA regulations of the Safe Drinking Water Act, and developing a public water system's managerial, technical and financial capability of operating (otherwise known as the capacity development program). Some recent successes of the capacity development program were providing leak detection services and asset management training, which helped water systems target needs for improvements and funding. For example, the Drinking Water State Revolving Fund is a low interest loan program that has been used to help finance technical and compliance issues. In support of the Groundwater Public Trust concept, the Division also oversees the state's groundwater protection and well driller's regulatory programs and regulates large groundwater withdrawals.

The Division administers the wastewater system and potable water supply rules from its five regional offices. These rules regulate soil-based wastewater systems and on-site water supplies with a design capacity of less than 6,500 gallons per day as well as all connections to the municipal water and wastewater systems. The program currently covers all single-family residences, commercial development, public buildings, mobile home parks, and campgrounds and issues approximately 3,000 permits annually. This division also licenses the designers of the systems it permits.

The Division issues Underground Injection Control permits that regulate the discharge of non-sanitary wastewater into the ground. The Division also issues permits for land-based sewage treatment and disposal systems greater than 6,499 gallons per day, including septic tanks, leach fields, and treatment plants and spray disposal systems

The Connecticut Valley Flood Control Compact (CVFCC) was formerly in its own appropriation; however, this small appropriation was incorporated into our Office of Waters appropriation back in the SFY2018 budget. This CVFCC special fund facilitates the management of receipts from Connecticut and Massachusetts as well as Vermont's share for tax losses in Vermont towns where the U.S. Corps of Engineers has built flood control projects.

Programmatic Opportunities and Obligations

In order to build a balanced SFY23 budget, DEC is requesting additional general fund to meet some of the demands of the ongoing operational costs, as well as reducing one position within our Office of Waters appropriation to help absorb the increased salary and benefit costs. With the increased operational costs, coupled with growing state and federal obligations, the Department is reaching a critical point in terms of financial resources in several key programmatic areas necessary to meet its obligation to protect public and environmental health. In the construction of the SFY24 budget, DEC and the Administration will need to consider the revenue sources for all of our programs and propose changes to address shortcomings in order to support the Administrations priorities as it pertains to the environment.

There is a request for a new federally funded position within our Public Drinking Water Program within the Office of Waters appropriation which is seeking to add an Environmental Analyst V to administer the federal Safe Drinking Water Act requirements. The Safe Drinking Water Act compliance team administers the state and federal drinking water requirements to public water systems in Vermont. There are over 1,400 public water systems providing drinking water to 70% of the Vermont population and serving approximately 625,000 citizens and visitors each day. The work of this team is the front lines of ensuring Vermonters and visitors have drinking water that meets primary, secondary, and state standards and is safe to drink. This work includes assessing compliance with Maximum Contaminant Levels/ Action Levels, monitoring requirements, and public notification for the 18 federal regulations that comprise the National Primary Drinking Water Standards and state standards relating to Uranium and PFAS. When water is determined not suitable for human consumption this team issues Do Not Drink and Boil Water Notices and determines when these notices can be lifted, and the water is again safe to drink. Both state and federal drinking water requirements have increased substantially in volume and complexity over the last decade while staffing in the program has remained same. In many cases a single staff member is assigned to implement multiple major federal regulations, and in all cases, we lack redundancy for any of the rule managers. Each new requirement has substantial impact on this team and the situation has reached a critical point; not only in terms of staff burnout but also our ability to successfully maintain primacy requirements for Vermonts program. The Drinking Water Program (and the Division as a whole) has undergone a significant re-organization effort. The over-arching purpose of the re-organization plan was to improve the efficiency, quality, and effectiveness of public drinking water regulation for Vermont and re-align resources with strategic priorities for the program. The plan also sought to addresses historical pain points within the Division that are resource constrained, including changes to the compliance section to address workload issues. While the plan has been successfully executed, it is clear the resource issues still exist within this team and addressing this constraint is once again a top strategic priority for the Division. The reallocation of existing resources has been fully evaluated and there are no clear options that exist within the existing organization. Existing resources have been optimized through the recent re-organization. The Department has included a new position in our Office of Waters appropriation as a New Initiative in Vantage. This position added as a decision item in Vantage under the Office of Waters appropriation. Environmental Analyst V (Job code: 145308 Pay Grade 24). This position will be funded with federal funds from the U.S. Environmental Protection Agency and is budgeted at \$125k.

In addition, with CARES Act funding, in FY21 the Department was able to contract out and build an electronic Permit Navigator tool that works to make environmental permitting more transparent, accessible, and user-friendly. This online tool allows a potential permit applicant to drop a pin on a map and answer a series of Yes No I dont know questions, and the Navigator will return information on what permits might be needed for their project, the regional contact for that permit, how much it will cost, and how long that process might take. Permit Navigator utilizes a persons answers and queries existing ANR atlas information and the Salesforce customer relationship management (CRM) system to improve the efficiency and transparency of permit assistance between the public and internal staff. A second phase of Permit Navigator (named Permit Collaborator) is in the early stages of development that will connect the Salesforce platform from Permit Navigator directly to ANR Online (the Departments electronic system for applying for environmental permits) and the individual permit databases. This will bring more efficiency and transparency to the permitting process by allowing staff and the public to know the real-time status of each permit thats being applied for, who is working on those permits, and facilitating better communication around projects that require multiple permits from different programs. Both Permit Navigator and Permit Collaborator are part of a larger vision and process to make environmental permitting quicker, less complicated, and more transparent for the public. Implementation funding to develop the Permit Collaborator is part of the BAA (shifting funding from ARPA to General Fund). Also, \$400,000 of additional funding would be to the Department for the ongoing long-term operational and software licensing costs to support these permit process improvement activities.

The proposed budget includes funding that will be used to overhaul the States outdated Vermont Significant Wetlands Inventory (VSWI) mapping to vastly improve the identification of Vermonts wetlands statewide. The VSWI is commonly used by municipalities, landowners, developers, and conservation organizations for project planning. The updates will allow for improved notice of wetland locations and increase the reliability of the map product. The \$250K one-time funding will allow for experienced mapping contractors to create the updates that meet federal standards* and for the DEC Wetlands Program to provide draft map review and map outreach to the public. The statewide map will be completed by the end of 2024, with improvements starting this summer. After the initial overhaul, the additional base budget funding of 150K will allow contractors and DEC staff to maintain wetland mapping using the latest technology and wetland information to ensure the relevance of the map product into the future.

Pressures on Staff and Administrative Costs

At DEC current staffing levels (approximately 300+ employees) and incorporating the increased benefit rates from SFY22, as well as those for SFY23, we are projecting an overall salary and benefit increase of \$2.7m across all funding sources. DEC absorbed these increased salary and benefit costs to the maximum extent practicable with available special and federal fund revenue resources but were unable to fully cover the increase. As a result, the FY23 budget includes a continued aggressive vacancy savings target (\$763k), which is approximately 6 positions); in order to be attainable, this will necessitate holding vacant one position within our Office of Waters appropriation throughout FY23. The position is in the Lakes & Ponds Program.

Within the detail of this budget, to address the Pay Act (salary) and SFY22/SFY23 benefit rate increases, DEC has maximized the use of all special and federal funds available to be able to absorb 82% of the \$2.7m (\$2.2m) increase in salaries and benefits leaving a general fund need of the remaining 18% (\$460k). In addition to this \$2.7m, there is an increase of \$68k for the additional salary and benefit costs associated with the staff attorneys servicing DEC but located in the ANR Central Office. Relatedly, there is also an increase in the DECs Administrative Services Allocation that spreads largely the total Pay Act (salary) and benefit increases from within our Management and Support Services appropriation across the DECs media programs within the Air and Waste appropriation and the Office of Waters appropriation to effectively leverage against their respective funding sources for a total of \$885k. This \$885k is not an additional increase in expenses, but rather a budgeting of spending authority needed to process the intra-departmental allocation of these administrative costs proportionately back to the programs and their funding sources.

This budget includes an increase in some of the various Internal Service funds (Fee for Space, W/C G/L Insurances, DHR, VISION, etc.) of approximately \$85k~. The budget also includes various adjustments related to grants and contracts, several one-time, that DEC administers annually whose amount and categorization between grant and contract line items regularly fluctuates from year to year. Overall, they include a net decrease of \$3.7m and are detailed individually in our attached SFY23 Budget Development form. Lastly, this budget includes an increase of \$200k across all three of our appropriations for minor adjustments to various DEC operating line items (i.e., bank fees, NL lease, Fleet leases, lab sampling, training, etc.) and the related funding sources.

Budget Summary

Natural Resources Board

Department/Program Description

The Natural Resources Board (NRB) oversees the Act 250 permitting process, which is implemented by nine District Environmental Commissions that serve specific geographic areas. The District Commissions are supported by NRB staff in four district offices. The NRB and District 5 Commission are now located together in Montpelier. The District Commissions are composed of three members and four alternates appointed by the Governor. District Commission decisions are made through a public, quasi-judicial process to assure that major subdivisions and developments comply with Act 250. District Commissioners are paid on a per diem basis.

Specific goals of the Act 250 program include reviewing each land-use permit application under the 10 statutory criteria. The overall goal is to assure protection of Vermont's environment, public resources, and quality of life. We assist applicants and other parties to the Act 250 process and are responsible for Act 250's enforcement. Other functions include issuing jurisdictional opinions on the applicability of Act 250, participating in Act 250 appeals to the Superior Court, Environmental Division, and promulgating environmental and land use policies, procedures and rules. The NRB routinely coordinates its policy work with other state agencies, regional commissions, municipalities and private (for and not-for-profit) stakeholders.

Work continues on the NRB Lean process as staff carry out the improvement recommendations through the implementation plan.

University of Vermont

Department/Program Description

The University of Vermont's mission is to discover, create, evaluate, share, and apply knowledge and to prepare students to be accountable leaders who will bring to their work dedication to the global community, a grasp of complexity, effective problem solving and communication skills, and an enduring commitment to learning and ethical conduct. Chartered in 1791, the same year that Vermont became the fourteenth state in the Union, the University of Vermont was established as the fifth college in New England. It became the state's land-grant institution in 1865, when it was merged with the Vermont Agricultural College that had been formed one year earlier in accord with provisions of the Morrill Act. In 1955, the General Assembly recognized the University of Vermont and State Agricultural College "as an instrumentality of the State for providing public higher education." Previous to that recognition, Vermont had annually appropriated funds specifically to the College of Medicine and to the Agricultural Services and had appropriated tuition scholarship funds for Vermont residents in certain fields of study.

DESCRIPTION OF APPROPRIATIONS, DIVISIONS, and PROGRAMS

The University of Vermont is comprised of seven separate undergraduate colleges and schools (the College of Agriculture and Life Sciences, the College of Arts and Sciences, the College of Education and Social Services, the College of Engineering and Mathematical Sciences, the Grossman School of Business Administration, the College of Nursing and Health Sciences, the Rubenstein School of Environment and Natural Resources), the Graduate College, the Larner College of Medicine, the Honors College, the Extension System, and the Division of Continuing Education that operate statewide and nationally. The University offers a rich environment for research, scholarship, and creative work in many realms of human inquiry, sharing the excitement and fruits of investigation and discovery with students and society.

The University conducts its mission through teaching, research, and service. This tri-parte mission supports a full range of inquiry and application within the University and in the broader community. The University of Vermont is unique in the Vermont educational system because of its comprehensive and complex offerings. The University is involved in undergraduate education but also to a significant extent in graduate and professional education, research, and public service. These high level and complex educational opportunities which are vital for the welfare of this state are more costly than are programs of institutions that do not offer degrees in, for example, engineering, medicine, clinical health programs, advanced science, or agriculture. These areas, as well as the general educational mission of the University of Vermont, are critical for Vermonters well-being and economic impact in the future.

MORGAN HORSE FARM

The Morgan Horse Farm was established in 1878 by Joseph Battell of Middlebury, who in 1907 deeded the farm to the U.S Government. In 1951, the Government turned the farm over to the University of Vermont. The University operates the Morgan Horse Farm as a center for the improvement of the Morgan Horse, Vermont's state animal and source of outstanding stock to Morgan breeders throughout the country. The farm also serves as an educational facility for use by University classes in animal science, 4-H clubs, adult horse groups, and breeding associations. The farm, which is open to the public, provides information to horse breeders and others on horse care, breeding, and training. It is largely supported by contributions, admission fees, and the sale of horses, and was the recipient of a Federal grant through the Department of the Interiors Save Americas Treasures program. In the 58 years that the University has been custodian of the farm, it has produced over 80 national and world champions. The UVM Morgan Horse Farm is a symbol of excellence and a tribute to the role of the Morgan horse in the history of the state and the nation.

The Farm has recently seen a complete turnover in management, and is now being led by a group of young, native Vermonters who intend to elevate the Morgan Horse Farm to its full potential. Part of this vision is to increase the amount of research and teaching activity that occurs at the facility, thereby extending the reach of main campus into Addison County. We also envision fully renovating the site to include venues for weddings and other significant celebrations that will draw more tourism interest and dollars to the state. We are asking for a state investment to assist us in leveraging private dollars to complete this project.

OUTCOMES

The state appropriation is used to support the following areas of activity at UVM and in the projected amounts indicated.

Tuition Support (\$25,400,000)

UVM provides scholarships, need based aid, and other support to Vermont students, which the additional \$25.4 million of the state appropriation helps to fund.

Medicine (\$10,351,000)

The University applies \$4,000,000 of the appropriation to physician education fulfilling the agreed global commitment as part of a \$5.6 million direct University allocation to medicine programs. \$4.6 million is allocated within the University to the support College of Medicine infrastructure and facilities.

Agriculture and Extension (\$10,130,000)

Our land grant status and federal partnership with Extension (Smith Lever Act) and USDA Agricultural Experiment Station (Hatch Act) funding requires matching state funds. We allocated a total \$6,796,000 directly to agricultural programming and a further \$3,334,000 is allocated within the University to agriculture infrastructure support.

Vermont Technology Council (\$141,000)

The Vermont Technology Council is a catalyst for the creation of science- and technology-based business in Vermont and is funded in part from the state appropriation to UVM.

EPSCOR (\$402,000)

The Experimental Program to Stimulate Competitive Research (EPSCoR) is a program designed to fulfill the National Science Foundation's (NSF) mandate to promote scientific progress nationwide and is directed at those jurisdictions that have historically received lesser amounts of NSF Research and Development (R&D) funding. This includes Vermont and we are required to allocate some state support to be eligible for federal funding. These funds serve as required State cost sharing administered through the University.

State funding of the University of Vermont's base state appropriation is essential for the University to continue to provide these services.

The University stresses the importance of educating individuals, thereby providing the State with strong leadership, good citizens, entrepreneurship, and social responsibility. In addition to high quality education, the University of Vermont is a distinguished, comprehensive research institution of nationally renowned reputation, a critical driver for enhancing the State's economy, health, and well-being. The newly educated professionals entering the workforce, research dollars generated, the businesses created, and the hundreds of millions of dollars brought into Vermont from other states and countries by the University of Vermont are essential to Vermont's future vitality. UVM's return on investment of the state appropriation is clear as it advances economic development and jobs in Vermont.

The University of Vermont: Educating Vermonters

*Vermonters comprise 32% of the University's student body (fall 2017: 4,223 Vermonters out of a total enrollment of 13,340)

*The University is attracting academically strong Vermont students from every county in the State.

*First to second year retention for Vermont students is currently 86% (Fall 2106 cohort,) and the four-year graduation rate for Vermonters was 64% (Fall 2013 cohort.)

*The University supports Vermonters through academic scholarships including: the Green and Gold Scholarship for the top student in each Vermont public high school and select private high schools; the Vermont Scholars Award, the Patrick Family Scholarship, and the Justin Morrill Scholarship for students who have demonstrated a high level of achievement in high school; and Vermont Merit Scholarships for high-achieving Vermonters who qualify as National Merit Scholars, National Achievement, and National Hispanic Scholars.

*The University also supports Vermonters through institutional grant aid based on financial need. 89% of Vermont undergraduates received some form of financial aid, scholarships or grant in the 2016-2017 academic year. The University currently ensures that the cost of tuition and fees for all Federal Pell Grant-eligible Vermonters is covered with grants and scholarships. In addition to state and federal support, \$14.8 million in grant and scholarship aid from the University's own funds went to Vermonters in FY 2017.

*The University provides continuing education to more than 17,000 individuals from Vermont and beyond.

The University of Vermont: A Research Enterprise to the State

*In FY 2017, UVM was awarded \$123.18 million in grants and contracts.

*In FY 2017, 90% of grant and contract funding came from out-of-state sources.

*University spin-off companies as a result of intellectual property generated at UVM include: Apollo Bioscience, Plomics, Stromatec, TeleMedTest, Vermedx, Vermont Natural Coatings, PhosphoReduc, Costa Enterprises, Microgen, and Green Mountain Spark. In addition, the following companies did not have UVM intellectual property but were founded by UVM faculty: Bio-Tek Instruments, Haematologic Technologies, Green Mountain Antibodies, Rowing Innovations, Inc., and Vermont Soy. In fact, the University of Vermont has helped to create over 27 companies since the year 2000.

*One million dollars (\$1M) in FY 2007 one-time funds was invested in agriculture and environmental innovations, advanced engineering and technology, and public knowledge programs. In FY 2013, \$100,000 appropriated from the Next Generation fund was used by the University's technology transfer program to help bring University research innovations to the marketplace.

*The Vermont Business Center, a partnership between the Grossman School of Business Administration and Continuing Education, provides executive and professional education for Vermont employers, and the Center's Family Business Initiative offers support to small businesses.

*The University supports Vermont agriculture through research-based programs such as the Proctor Maple Laboratory, the Center for Sustainable Agriculture, the Center for Rural Studies, and a partnership with the non-profit Center for an Agricultural Economy.

The University of Vermont: Service to Vermont

*UVM students perform more than 110,000 hours of community and internship service annually.

*Medical, nursing, and allied health students help to meet a broad range of health care needs in communities throughout the State. Physician graduates of UVM/UVMMC programs account for 42% of Vermont's primary care doctors, and 38% of all physicians practicing in Vermont.

*Education and information are provided in Vermont communities with more than 1,000 significant educational programs to over 10,000 non-traditional students focusing on issues important to Vermonters. The University's Extension

programs make over 75,000 direct contacts annually, including more than 10,000 youth, through workshops, consultations and various other educational events.

*The University's George Bishop Lane Series, among Vermont's premier presenters of performing arts, entertained over 7,500 patrons last year.

*In the wake of tropical storm Irene the University has committed extensive efforts to assisting recovery through the Extension systems working with Vermont framers and the Agency of Agriculture, provision of extensive soil testing and agricultural services and the provision of laboratory space to displaced state scientists. In addition, here has been extensive volunteer activity by faculty, staff and students, donations throughout the UVM and alumni community.

The University of Vermont: A Major Vermont Industry

*Over 33,000 alumni -- 29% of all UVM graduates -- reside in Vermont and contribute to their communities. The earnings of UVM alumni in the state are estimated at \$1.6 billion annually.

*The University of Vermont is the third largest employer in the state. Almost 4,000 employees will receive wages and benefits of almost \$405 million this year. Together with the UVM Medical Center, The University is the largest employer in Vermont.

*The direct and indirect economic impact of the University, faculty, staff, student, and visitor spending in Vermont is estimated at \$1.33 billion dollars annually.

*Since the beginning of 2012, the University has invested \$491m in capital projects.

*The University's total operating budget for FY 2017 was \$654 million. This resulted in a 15 to 1 return on the state's base appropriation of \$42.5 million.

The competition for high quality students is intense. In order to remain competitive, the University must make additional strategic investments to:

- * Provide adequate financial aid for students who need it.
- * Nurture and promote a reputation for academic excellence,
- * Recruit and retain high quality faculty and staff,
- * Construct and maintain excellent facilities,
- * Invest in state-of-the art technology

These investments will allow the University of Vermont to maintain its position as a distinguished institution of higher learning, critical to the long-term economic security and overall vitality of Vermont. The University's plan to improve its competitive position involves strategic cost reductions, focused academic programming, and garnering additional resources from multiple sources including planned growth in the student body, private giving, and sponsored research. With increased based funding, as identified above, UVM can remain Vermont's Land Grant, Flagship research University.

Vermont State Colleges

Department/Program Description

For the benefit of Vermont, the Vermont State Colleges System, Castleton University, the Community College of Vermont, the new Northern Vermont University, and Vermont Technical College provides affordable, high quality, student-centered, and accessible education, fully integrating professional programs, liberal arts, and career studies, consistent with student aspirations and regional and State needs.

The System colleges and universities annually confer over 2,000 graduate, bachelor and associate degrees and credentials of value to Vermonters. The System provides access to post-secondary education from 20 locations in all corners of Vermont and online, serving almost 11,500 students, of whom almost 85% are Vermonters and over 50% are first generation college students. The System colleges and universities are also economic drivers and cultural centers in their regions.

As an integrated system, the VSCS provides expansive opportunities for students statewide, a network of shared resources and a common strategic vision to reach and serve more Vermonters.

VSCS strategic goals are tailored to boosting degree and credential attainment in Vermont:

- 1) Increase the continuation rate of high school students on to postsecondary education.
- 2) Improve the retention and graduation rates at our colleges.
- 3) Become a more attractive destination for Vermont high school graduates.
- 4) Serve well more working age Vermonters.
- 5) Operate as a more integrated system to expand student opportunities and achieve operational efficiencies.
- 6) Increase financial support and supplemental revenues.

Achieving and maintaining structurally balanced budgets at both the System and individual college and university levels, and continuously improving efficiency through System-level shared services, while implementing strategies to counter regional demographic and competitive pressures.

Vermont Student Assistance Corporation

Department/Program Description

VSAC was created by the Vermont Legislature in 1965 as a public nonprofit corporation and instrumentality of the state (16 V.S.A. Ch. 87) and is overseen by an 11-member board of directors. Its mission is to ensure that all Vermonters have the necessary financial and information resources to pursue their education goals beyond high school.

VSAC is unique among state-based agencies of its kind in that it provides, under one roof, a full range of services aimed at helping residents save for education, explore careers, and plan and pay for education or training beyond high school. VSAC also supports a variety of education initiatives and addresses Vermont's education and workforce development goals through myriad collaborations with agencies of state government and many public and private organizations.

Services supported by state appropriations and/or administered on behalf of the state

State-appropriated dollars are the only source of funding for five forms of grant and scholarship assistance provided to eligible Vermonters: (i) the Vermont State Grant is the need-based grant program for full-time, part-time or nondegree study; (ii) the needed-based Vermont Opportunity Scholarship for foster youth; (iii) the Vermont Honor Scholarship for a high-achieving graduate from each participating Vermont high school; (iv) the Vermont National Guard Education Assistance Program, which promotes recruitment and retention for the Guard; and (v) the Dual Enrollment Stipend program. Also, VSAC administers the Health Incentive Scholarships using federal funds flowing to Vermont the Department of Health. In addition, VSAC administers the Vermont Higher Education Investment Plan.

Services supported by private funds and education loan revenues

VSAC administers 168 scholarships, and finances, originates and services student and parent loans, in the Vermont Advantage Loan program. VSAC continues to service about \$991 million in student and parent education loans made under the Family Education Loan Program (FFEL) and VSAC's own Advantage Loans.

Services supported by federal grants, loan revenues and other VSAC resources

VSAC outreach counselors serve students in middle schools, high schools and agencies serving adult learners throughout the state. Counselors funded by federal GEAR UP, Talent Search and Education Opportunity Center grants work with low-income and first-generation, college-bound individuals through caseload or group models, and also provide career and education planning services to the general population of Vermonters.

In addition, VSAC offers many online resources; hosts workshops and events for students and parents; and provides professional development for those who work with students, including school administrators, guidance counselors and teachers.

VSAC's College Pathways program, the state's largest college planning event, offers high school sophomores, juniors and their parents a wide range of workshops led by experts on a variety of college planning topics. VSAC partners with Vermont colleges (Saint Michael's College, Johnson State College and Castleton University) to host the events on their campuses, providing many first-generation students the opportunity to visit a college campus for the first time. More than 17,700 Vermonters have attended this free, day-long conference since its inception.

The VSAC Research Department, which has conducted the biennial Senior Survey since 1978, is increasingly regarded as a statewide resource on higher education matters. VSAC also provides consultation and research support to our partners, including the Vermont Agency of Education, Vermont State Colleges, Vermont Higher Education Council and PreK-16 Council.

The grant and scholarship programs achieve their goals by providing more affordable access to higher education and training opportunities, to enable them to leverage those opportunities into jobs and career advances. A soon-to-be-

released report on a 2016 study of the Nondegree Grant Program documents that program's significant, positive impacts on the job and economic prospects of grant recipients.

New England Higher Education Compact

The New England Board of Higher Education (NEBHE), created in 1955, is an interstate educational compact of the New England states authorized by the U.S. Congress and approved by the state legislatures. Two of NEBHE's goals are to promote regional coordination and efficient use of education resources among the six New England states and to strengthen the connection between higher education and economic development in the region. NEBHE also sponsors the Regional Student Program (RSP) that allows New England students to attend public colleges and universities throughout New England at a discounted tuition rate for programs that are not otherwise available in their home state.

Mission/Vision Statement

The mission of the Agency of Commerce and Community Development is to help Vermonters improve their quality of life and build strong communities.

The Agency grows state revenues by managing 63 unique programs that provide technical assistance; awarding and administering tax credits, grants, and economic incentives; and marketing the state to tourists, entrepreneurs and potential residents. These activities and investments lead to new investments in our downtown and village centers, expanded job opportunities for Vermonters, more housing opportunities for families, and more visitor spending. ACCD is the income side of the state general ledger. Investments in ACCD result in income-generating activities that will put Vermont on solid financial footing in the future.

The Agency is comprised of four Departments: the Department of Administration; the Department of Economic Development (DED); the Department of Housing and Community Development (DHCD); and the Department of Tourism and Marketing (VDTM).

Administration

Administration consists of the Office of the Agency Secretary, Deputy Secretary, Administrative Services, and Legal Counsel. Together they provide managerial direction, coordination, and support services to the agency.

Economic Development

The Department of Economic Development provides support for businesses and job creation by assisting with finance, permitting, foreign trade, workforce training and recruitment, business recruitment and expansion, government contracting, and captive insurance sales and marketing services. The Vermont Economic Progress Council is housed in the department for administrative purposes but operates under direction of a separate board. The department also funds and supports regional economic development efforts through the Regional Development Corporations and general business development and technical assistance through other partners.

Housing and Community Development

The Department of Housing and Community Development serves Vermont's regions, municipalities, housing development organizations, owners of older and historic buildings, and the visiting public through six principal functions: 1) administration of state and federal grant programs; 2) provision of technical assistance, including coordination of education and training for local land-use decision makers; 3) implementation of state and federal housing, planning, community development, and historic preservation policy, programs, and statutes; 4) management, maintenance, operation, and interpretation of the state-owned historic sites, with an ongoing objective of increasing historic, educational, and economic value to Vermont citizens and tourists; 5) provision of funds that support local and regional planning efforts through the Municipal Planning Grants Program and Regional Planning Commissions; and 6) provision of matching funds to historic buildings owned by nonprofits or local governments, to historic barns, and to Certified Local Government municipalities for planning and education.

Tourism and Marketing

The Department of Tourism and Marketing promotes Vermont as a travel destination to domestic and international visitors and expands awareness of the Vermont brand to potential residents as the ideal place to live, work, play and do business. The department employs a combination of owned (providing an engaging user experience on vermont-vacation.com; email marketing; and social media), earned (facilitating positive press coverage and hosting press familiarization trips) and paid (seasonal advertising campaigns with digital, native content, print, and out-of-home components) media strategies to promote and position the state in target markets with collaborative support from the tourism industry. Through a reorganization of Agency marketing and communications staff, the department is also now able to support the delivery of creative services to agencies and departments enterprise-wide through the Chief Marketing Office, and to support recruitment marketing efforts to convert visitors to new residents through the Think Vermont economic development campaign and Stay to Stay Weekends initiative.

COVID-19 has devastated Vermont's economy, and the impact is ongoing. Leaders at all levels have agreed that significant investment is, and will continue to be, needed to revive our economy. ACCD has received a massive influx of federal and state funding for this purpose.

- -One of the Department of Economic Development's most visible successes has been the Worker Relocation Grant Program, which launched in August 2021. The program looks to expand Vermont's declining working-age population, and provide support to employers who are unable to fill positions, by offering incentives to people looking to relocate to Vermont. Thanks to strong media coverage, and further fueled by the pressures of the pandemic, DED saw a significant uptick in individual inquiries this year. At the same time, the Department has been flooded with contacts from businesses seeking to use the program as a tool to fill job openings across all industries and regions.
- -In the Department of Housing and Community Development, federal funding has fluctuated from year to year; however, the administrative requirements for grant monitoring and compliance continue to increase, causing budget and resource pressure.
- -The overall condition of our state-owned historic sites has been deteriorating over the last decade due to deferred maintenance. The total annual maintenance appropriation through the Capital Construction Bill is \$350,000. However, the projected maintenance needs are estimated to be over \$1 million for the urgent and high-priority projects. In particular, the state's most visited monument -the Bennington Battle Monument is in need of major repairs over the next several years, especially as we approach the 250th Anniversary Commemoration of the American Revolution in Vermont in 2027.
- -The Vermont Department of Tourism and Marketing continues its efforts to promote the state as a tourist destination an activity that brought in \$3 billion for the state in 2019 alone. Vermont continues to have the smallest tourism marketing budget in New England and the Northeast.

Department/Program Description

Description of Appropriations, Divisions, & Programs

The Department serves as the backbone of administrative and leadership services for the Agency. The Secretary's office provides policy leadership, direction and support to the Agency's three departments. The finance team develops and implements the entire Agency's budget, provides human resources support, liaises with the Agency of Digital Services, and manages multiple other administrative tasks such as space management. The legal services division provides general counsel services across department lines, manages the Agency's contract and grant processes, and ensures the Agency is complying with public records laws, open meeting laws, and annual legislative directives.

Pass through Grants:

Additionally, the Department of Administration oversees several pass-through grants to agency partners, including the Vermont Sustainable Jobs Fund, the Vermont Council on Rural Development, and the UVM Center for Rural Studies State Data Center.

The mission of the Department of Administration is the oversight and coordination of agency efforts to implement programs, develop policy and meet statutory objectives.

The FY23 Department of Administration budget incorporates minor expense reductions to stay within the 3% maximum General Fund increase.

This budget proposal includes adding a Grants Program Manager position from the pool to handle the additional grants and contracts workload. This position will be funded by lowering our expenses in IT.

This budget also includes a shift of a financial position to the Administration division from the Vermont Department of Tourism and Marketing.

Department/Program Description

Vermont Community Development Program: The Vermont Community Development Program (VCDP) administers funding from the U. S. Department of Housing and Urban Development (HUD) under the Community Development Block Grant (CDBG) program. Activities that support economic development and affordable housing continue to be VCDP's top priorities for funding. This past year we had an increased focus on funding projects that planned for or produced housing in response to our statewide housing crisis. The VCDP assists communities on a competitive basis by providing financial and technical assistance to identify and address local needs in the areas of housing, economic development, public facilities, public services, and handicapped accessibility modifications. The program is designed to predominantly benefit persons of low and moderate income. In addition, financial assistance is provided to communities with urgent needs, such as threats to health and safety and removal of slums and blighted properties.

VCDP staff are assigned to each region of the state and provide technical assistance to municipalities, businesses, nonprofit organizations, and housing developers to help them meet the complex and increasingly rigorous federal requirements. Typically, the program provides guidance to approximately 80 communities and received 50 applications last year. Requests always exceed available resources by more than 200%. State funding to support the VCDP program is established in the federal authorizing legislation and requires a minimum 2% state match of the federal funds which must be used for program administration. Additional state funds above the required 2% state match are sometimes necessary as federal funding has fluctuated year to year, but grant monitoring, administrative and compliance requirements at the state and federal level continue to increase. Grants are made available to all municipalities in Vermont except for Burlington which receives a direct allocation through HUD's CDBG Entitlement Program.

Last year's CDBG allocation was \$7,246,223. This past program year VCDP awarded nearly \$10.3 million to 37 projects, which leveraged over \$84million. The funds were awarded to housing, economic development, public facility, and planning projects. The VCDP also collects approximately \$400,000 annually in Program Income from grants that were converted to loans (principal and interest) and subsequently repaid. These funds are used to enhance the annual allocation from HUD and increases the grant funding available to assist communities. The VCDP is both the Department's and Agency's single largest source of ongoing grant funding to support communities and address their needs. Though we have seen modest increases in the program in the past few years, the annual allocation remains below its pre-2010 annual average of \$8 to \$9 million.

During the end of the past state fiscal year VCDP was allocated and additional \$8.8M in federal funding for Covid-19 response (CDBG-CV). Of this \$8.8M CDBG-CV funding over \$7M has already been obligated, leaving a balance of \$961,488 to obligate. The Public Facility and Public Service program has only \$247,911 remaining to obligate. To date, over \$3.5M has been expended for the Sole Proprietor Business Program and \$713,577 remains to be obligated. The CDBG-CV funds also leveraged over \$2.9M, serving 158 businesses; 23 projects have been funded; and 27 affordable housing units have been created/retained.

VCDP funding priorities are established in the HUD Consolidated Plan for Vermont. The Consolidated Plan covers not only the VCDP, but the Home Investments Partnership Program (HOME), administered by the Vermont Housing and Conservation Board and the Emergency Solutions Grant Program (ESG), administered by the Vermont Agency of Human Services. HUD's move to an electronic submission of the plan through the Integrated Disbursement and Information System (IDIS) requires far more collaboration on reporting data and programs serving the same populations, to measure goals and outcomes. DHCD is the HUD point of contact for the Consolidated Plan and all programs that populate the HUD required Consolidated Annual Performance and Evaluation Report (CAPER). The Consolidated Plan is developed every five years and then updated through an annual Action Plan. DHCD conducted public outreach for the Annual Plan of the Consolidated Plan and of the Programs represented in the Annual Plan none put forth any substantive updates.

Due to the State of Vermont's opioid mortality rate the CDBG Program received an allocation of \$1.4M in CDBG-Recovery Housing Program funding to assist individuals in recovery from substance use disorders to be safely housed. The funding is in support of transitional housing for a two-year period. Staff conducted considerable outreach with

various stakeholders and the Agency of Human Services to develop the Action Plan for the RHP. During this past year RHP funds were awarded to 2 projects totaling \$700K to create 4 units new units, make available 14 beds and serve approximately 30 individuals.

Housing: DHCD's work is designed to produce, support and/or protect housing that is affordable for all Vermonters. Efforts include chairing and staffing both the Vermont Housing Council and the Rental Housing Advisory Board, administering the request for proposals and contract for the State's five-year Housing Needs Assessment, general housing policy work, advocating for federal housing resources, administration of the Charitable Housing Investment Tax Credit and during the past year, administration, and coordination of several federal Covid Recovery Housing programs. DHCD also provides oversight of the federal HOME program, which is administered by the Vermont Housing and Conservation Board (VHCB). Other initiatives include enhanced fair housing activities, and ongoing participation in interagency efforts to promote the preservation and development of housing and ending homelessness. The DHCD Commissioner also represents the Governor on the Joint Commission for Tax Credits and the Vermont Housing Finance Agency.

During the last year, DHCD and the Housing Division was allocated or asked to help manage and coordinate over \$447M in Covid Recovery and Relief funding. This includes \$42.6M in federal Corona Relief Funding (CRF) and \$405M in ARPA/State Fiscal Recovery Funds. In addition, DHCD and the Housing Division was asked to participate in coordination efforts for \$140M in housing capital funds appropriated to VHCB for affordable housing production. This historic investment in housing, which must continue, has already assisted over 42,000 VT Households with some type of assistance including rental, utility and mortgage payment assistance, emergency housing, services, supports and direct aid. Over 14,000 households in VT have received more than \$77M in Emergency Rental Assistance to-date, also supporting over 4,000 property owners & landlords to pay their bills. Rental & Utility Assistance is on-going and available for at least another year and can assist eligible households for up-to 18months of total assistance. More than 1,100 Households have received assistance in paying their mortgage & property taxes to date, saving homes, and preventing foreclosure and tax sales. An additional \$50M for this purpose will soon be available and will continue for the next few years. Collectively, we have helped over 1305 households to-date exit homelessness into permanent housing, many with ongoing subsidies and services. DHCD working with regional housing partners and private landlords, rehabilitated, and brought on-line 240 rental housing units, in formally vacant and un-inhabitable properties in record time, to serve those Vermonters exiting homelessness. In total, with these new resources 779 new affordable housing units have already been built and about half of these units were made available to re-house those experiencing homelessness. Nearly 800 additional affordable housing units, again with half dedicate to the homeless are currently under development and even more will be funded over this winter/spring. Despite dramatic, cost increases, supply shortages and labor shortages we have been able to more than double the affordable housing production compared to the average of the preceding 5 years (350 total units annual).

With historic levels of federal and state funding available and a severe housing crisis fueled by lack of supply, scarcity, and poor-quality housing, DHCD and the Housing Division continues innovate and develop new programs such as a First-Generation Homeowner Purchase & Rehabilitation program and a new pilot Missing Middle-income Homeownership Program. The First-Generation Homeowner Purchase & Rehabilitation program aims to assist the BIPOC community as they have much lower homeownership rates in VT and improve our aging and poor-quality housing stock, making quality affordable homes once again available to Vermonters of modest means. The Missing Middle-income Homeownership Pilot Program is focused on increasing the production and the supply of new modest priced homes, hardworking Vermont families deserve.

Mobile Home Parks Program: DHCD is tasked with administering Vermont's mobile home park laws, which are designed to protect the safety and rights of owners and residents. DHCD adopted and implements rules concerning mobile home park leases, lot rent increases, the sale or closure of mobile home parks, and habitability, and conducts an annual registration of all mobile home parks (3 or more mobile homes on a parcel). Two hundred and thirty-six mobile home parks (18 cooperatively owned, 47 non-profit owned, 171 privately owned -- down from 174 last year) are registered with the Mobile Home Park Program with a total of 7,080 lots. The program serves as a resource on mobile home and park issues; and provides technical assistance to residents, park owners, and advocates. Highlights from the past year include again increasing the number of online registrations of mobile home parks, to 90% up from 87%, and assisting residents and park owners of mobile home parks put up for sale or for closure. The Department

also continues to improve and create an efficient process for addressing complaints from residents concerning habitability and lease volitions under Act 8 of 2016, which expanded the Department's authority to enforce the mobile home park law to include administrative penalties and investigate and resolve complaints of park owner violations by residents. The program also continues to administer the annual CVOEO First Stop grant which provides direct education, advocacy, and referral services for individual mobile home park residents and has increased the grant to \$80,000.

Division for Community Planning and Revitalization (CP+R): Vermont's distinctive sense of place is tied to its primary land use planning goal: to maintain the historic settlement pattern of compact village and urban centers separated by rural countryside. Through collaboration with sister agencies and external partners, the CP+R Division works to provide communities with the tools, training, grants, and incentives for local leaders to plan and implement projects that support thriving and walkable communities - furthering Vermont's foremost statewide land use goal. This year the division expanded its program portfolio to support pandemic recovery.

State Designation Programs: CP+R administers the State's designation programs (Downtowns, Village Centers, New Town Centers, Growth Centers, and Neighborhood Development Areas) which support Vermont's goal of fostering compact urban centers. Communities value the benefits from the state designations and the support they receive from working with CP+R's professional staff that include a team of planners, economic development professionals, landscape architects, historic preservationists, and grant specialists.

Applications for designation are reviewed and approved by the Downtown Development Board. Upon designation, communities receive specialized training and technical assistance from the CP+R team as well as development incentives, such as access to downtown and village center tax credits, reallocated sales taxes, and downtown transportation fund grants; priority state grant consideration; waived or lowered permit fees; and streamlined Act 250 requirements.

- Downtowns (23 total). This program provides grants, tax credits, and technical assistance to keep Vermont's historic, regional centers of commerce strong and vital. The towns of Shelburne, Hardwick and Morristown are currently exploring designation.
- Village Centers (220 total, 16 new designations added in 2021). Like the downtown program, the village center designation program provides training and tax credits to help Vermont's smaller centers thrive. The number of designated village centers has increased by over 100% in the last five years.
- New Town Centers (2 total, 1 conditional approval). This program is designed to help communities without a traditional downtown, but with the ability to plan and develop a new downtown. The program supports South Burlington's build out of its City Center with plans to infill the underused University Mall parking lot with pedestrian-friendly housing and businesses. This year the Town of Berlin revived conditional approval of its New Town Center Designation.
- Growth Centers (6 total). Not all development fits in central business districts, and this program helps communities plan for orderly growth in areas that surround a designated downtown village center or new town center. Data shows that the program is achieving its goal to concentrate more than half the towns' new development within the designated growth center, helping to reduce development pressure on Vermont's farms and forests.
- Neighborhood Development Areas (9 total, 2 new designations added in 2021). This program provides regulatory benefits and reduced fees for new housing in areas within walking distance of a designated downtown, village or new town center. Lower costs for moderate to affordable housing projects within designated neighborhoods were achieved through state permitting benefits. Timelines were shorter by an estimated average of over 7 months and projects saved an average of \$50,000 in state permit fees.

Downtown and Village Tax Incentives: A benefit of downtown and village center designation, this program spurs investments in traditional commercial centers and provides incentives to encourage investments that make existing buildings safe and accessible. In 2021, the Department allocated \$3.6 million in state tax incentives for 28 projects, supporting more than \$83million in downtown and village center rehabilitation efforts. Projects awarded include the

old Bennington High School which will be adaptively redeveloped into a community center with recreation and arts programs, local businesses, and new housing; creation of three apartments in a formerly vacant home in the village of East Hardwick; reinvestment to support the reopening of Currier's Market in Glover; and support of a major investment to adapt a vacant warehouse at the former Ide Feed Mill in St. Johnsbury into a processing facility for a local hemp-based manufacturing company.

Downtown Transportation Fund: This program supports revitalization efforts in designated downtowns by making these areas more pedestrian, bike, and transit friendly. Recently awarded projects include: a parking lot expansion in Brattleboro, sidewalk extension in Middlebury, Confluence Park in Montpelier, street lighting in Newport, Slate Quarry Park in Poultney, wayfinding signage in Springfield, and sidewalk reconstruction in St. Albans City. Since its inception in 1999, the program has invested over \$11 million to support 136 projects in 23 different communities leveraging over \$49 million in additional funding.

CP&R Partnerships in 2021 granted or facilitated the distribution of over \$33 million in new funding to support pandemic recovery, local community planning and revitalization efforts:

- Everyone Eats Vermont: Supported the investment of \$19.5 million in 2021 in the Everyone Eats program that employed the hard-hit restaurant sector to prepare meals for food insecure Vermonters. Vermont farms and food producers have supplied 25% local ingredients for meals prepared by restaurants. From August 2020 through November 2021, the program has invested \$25 million and delivered 1.92 million total meals in all 14 counties. The program is 100% funded by FEMA and is expected to continue to into 2022.
- Better Places: This groundbreaking \$1.5 million initiative will fund public space improvements and programming to increase economic and civic vitality, livability, and the democratization in grantmaking. Grants between \$5,000 and \$40,000 can be made until July 2024. Municipalities, nonprofits, and community groups with a fiscal sponsor are eligible to apply and must raise 33% matching funds through a crowdfunding approach. Grants will be administered by DHCD and be available in early 2022.
- Working Community Challenge: Administered \$2.32 million in grants to support diverse, cross-sector local teams as they focus on the complex challenges of economic opportunity for communities and residents with low incomes.
- Municipal Recovery Assistance: Administered \$650,000 to the Vermont League of Cities and Towns (VLCT) to provide administrative support for cities and towns in the administration of municipal projects funded with American Rescue Plan Act (ARPA) funds. \$300,000 was allocated to the Regional Planning Commissions.
- Regional Planning Commissions: Pandemic Response and Energy Funding Vermont's eleven RPCs will each receive \$75,000 to support pandemic response activities through FY24. An additional \$1 million in FY22 funding will support enhanced energy planning and energy plan implementation for municipalities.
- Downtown Transportation Fund: \$5 million in one-time is available for multi-yea25r investments that improve infrastructure, public spaces, and create a sense of identity and pride in designated downtowns and qualified village centers.
- Zoning for Great Neighborhoods: Awarded \$500,000 grants to support bylaw updates in 41 municipalities aimed at expanding opportunities for housing as well as \$150,000 technical assistance and training for accessory dwelling unit and small-scale builders and developers.
- Electric Charging Stations for Multi-Family Housing: The division is standing up a \$1 million pilot grant program to expand home-site charging options to renters at multi-unit affordable housing and non-profit-owned dwellings. Building on past work, the program will be designed by an inter-agency team led by CP+R. Grants will be available in early 2022.
- Clean Water Funding: \$200,000 in grants with Agency of Natural Resources to plan and build stormwater management features into downtowns and village centers.

Community Planning: CP+R also provides technical assistance to local and regional officials integrating planning with community revitalization and place-based economic development, working closely with the Regional Planning Commissions (RPCs) and other agencies within state government. Program outcomes include:

- -Represented ACCD on the Vermont Climate Council, building consensus around pathways, strategies, and actions to strengthen Vermont's brand, economy, and communities; while driving down emissions, expanding equity and environmental justice, preparing communities for warmer and wetter weather, and removing the carbon already in the atmosphere.
- Drafted the land use section in the state's Comprehensive Energy Plan and developed recommendations to reduce emissions and enhance community vitality.
- Led trainings to raise statewide awareness on housing needs and solutions and organized a Zoning for Great Neighborhoods training in partnership with AARP-VT.
- Partnered with stakeholders to support Act 250 reforms that promote development in downtowns, villages, neighborhoods.
- Continued work with partners including sister agencies, USDA-RD, VHCB, VLCT, Preservation Trust of Vermont, VHFA, AARP-VT, VAC, VCF, Efficiency Vermont, Local Motion, VCRD, and others to identify and coordinate investments to implement community-driven projects.
- Administered \$2.9 million in Regional Planning Commission work plans focused on modernizing local zoning to welcome housing.
- In partnership with Efficiency Vermont, provided targeted energy assistance to businesses and property owners in Irasburg, Barre City, Island Pond, and Johnson.

Municipal Planning Grants (MPG): This year's Municipal Planning Grants, range from \$8,960 to \$23,527 with total requests exceeding \$851,165. Competitively awarded, 50 total applications were reviewed with 24 recipients selected. Funded projects range from streetscape and village center master planning to a water system study, infrastructure needs for increasing childcare, public art plan, and amending zoning rules to expand housing choice using the Zoning for Great Neighborhoods guide. Grants continue to help towns revitalize by adopting useful and relevant municipal plans and capital infrastructure and facility plans, charting the way for strong communities and a better future.

Division for Historic Preservation: The Vermont Division for Historic Preservation (VDHP) is dedicated to identifying, preserving, and interpreting historic resources on behalf of the state and promoting them as significant components of our communities. VDHP encourages preservation projects through local and statewide partnerships, project review, educational outreach, State and National Registers listings, and grant and tax credit programs. The National Park Service supports the division with an annual federal award to support the federally required duties of the State Historic Preservation Officer (SHPO). Last year's federal award for FFY2021 was \$645,546 and it is expected to be increased for FFY2022 (\$357,143 already available with remainder of funds tied to the Congressional Continuing Resolution).

In 2021, VDHP successfully processed sixteen nominations to the National Register with 265 historic districts and 12,294 buildings, structures, and sites listed statewide since 1966. The number of nominations processed and forwarded to the National Register of Historic Places for successful designation has increased 70% from the previous five years. One reason for this increase is the Paul Bruhn Historic Revitalization Grant Program administered by the National Park Service; funding requires listing in the National Register of Historic Places within three years of award. Another observation is the need to update historic district nominations originally listed in the 1970s and 1980s as buildings and structures have been altered or demolished, and additional historic context information has been researched. This resulted in amendments for Woodstock Village Historic District, University Green and Redstone Historic Districts in Burlington, and Waterbury Historic District. The new listings this year recognized eleven individual

properties, including the Park Street School in Springfield, Immaculate Heart of Mary School in Rutland, Salisbury Village Blacksmith Shop, Norwich's Eldredge House and Bennington's Julius & Sophia Norton House, Green Mountain Cottage in Mount Holly, Converse Hall on the campus of the University of Vermont, Brookline Baptist Church, Ovitt Grist Mill in Enosburgh, Bullock Block in Readsboro, VTrans' relocated Vergennes Station House, and ANR's Roxbury Fish Culture Station. The Park Street School, Immaculate Heart of Mary School, and Julius & Sophia Norton House are applying for rehabilitation investment tax credits. Thirty-one additional nominations are presently being processed.

The Barn Grant program, begun in 1992, is the oldest state barn grant program in the country and cumulatively has provided \$4.1 million in grants to help repair and restore 433 historic barns and agricultural outbuildings. Of the 44 applications requesting \$496,729, 20 projects were awarded grant funds totaling \$230,866 for the 2021-2022 grant period. This leverages \$635,000 in restoration and rehabilitation efforts and provides approximately 30 construction job for Vermont workers. Funding through the Capital Construction Bill increased the funding for this program from \$200,000 to \$300,000 for fiscal years 2022-2023. In October 2021, for the next grant period, 52 applications were received requesting \$646,120 with total project costs reaching over \$2 million; \$297,296 is available. The applications will be reviewed and awarded in February 2022.

Since the Historic Preservation Grant program began in 1986, it has provided \$5.78 million in grants for the rehabilitation and preservation of 596 of Vermont's iconic community buildings. In 2021, 14 of the 37 applications submitted were awarded \$204,896, leveraging \$465,818 and about 25 construction jobs. Funding through the Capital Construction Bill increased the funding for this program from \$200,000 to \$300,000 for fiscal years 2022-2023. For the 2022 grant cycle, applications for 41 proposed projects were received, requesting \$639,596 with \$299,325 available. With the additional funding, nineteen of those projects were awarded in December 2021, leveraging just over \$1.0 million in project costs and about 28 construction jobs.

Since 2016, 58 Vermont construction projects received Federal Rehabilitation Investment Tax Credits (RITC), with nearly \$16.62 million in qualified rehabilitation expenditures bringing historic properties back into service; total project costs reached over \$105.8 million. For 2021, nine completed projects in six Vermont towns and cities were granted \$6.35 million in RITC, leveraging more than \$41 million in qualified rehabilitation investment through the employment of contractors and purchasing of materials. The program continues to have great success in supporting development and rehabilitation of housing and despite a pause or delay in construction caused by COVID-19, four projects were completed in federal fiscal year 2020, while thirteen projects were submitted for Part 2 approval. Of these seventeen projects, fourteen involve rehabilitation for housing, resulting in an anticipated 169 units of new or rehabilitated housing. Since 2016, 407 housing units have been created through this program. Projects completed include the Putnam Block, Bennington County Courthouse, and Winslow Block in Bennington; three properties on Pine Street in Burlington, Alvarez Block in Montpelier, Woolson Block in Springfield, and Stimson and Graves Block in Waterbury. Several of these buildings were underutilized with vacant upper stories that now provide much needed housing. There are roughly thirty active RITC projects at various phases currently being reviewed by SHPO and another forty potential projects have been identified by the Vermont Tax Credit Reviewer. Vermont has been assigned a new National Park Service Tax Credit Reviewer in late 2020; the same reviewer is also focused on Massachusetts and New Hampshire.

Certified Local Government Program (CLG): The CLG program helps 17 communities save the irreplaceable historic character of their places by supporting the active role of local preservation commissions. The City of St. Albans became our newest CLG in September 2020; since 2013, the number of CLG communities has increased by three. For 2021, the CLG funds supported six community projects with \$73,750 in funding and a local match of \$50,989. These projects include National Register nominations for the Bennington College Campus, Maple Corner in Calais, and an update of the St. Albans City downtown historic district. Rockingham will be provided program support that includes educational community programs, staff assistance for the Historic Preservation Commission, and a preservation awards program. Additionally, material analysis will be conducted on the iconic Rockingham Meeting House, one of Vermont's National Historic Landmarks. The paint analysis process recently completed revealed the building was originally painted a deep red, becoming the more familiar white/cream color in the early part of the 20th century following alterations. Montpelier, having completed an update on the National Register nomination documentation and defined a design review district, is focusing on design guidelines. Four applications were received for the 2022 award and outreach continues to all CLG communities for project ideas to ensure the required 10% funding of the Historic

Preservation Fund Grant is passed through to the local level. Because of COVID-19, extensions of one year were provided to those projects supported for 2019-2020. This resulted in the National Park Service altering the program schedule to run three years rather than two years for each grant.

Roadside Historic Site Markers Program: VDHP is charged with approving and overseeing the creation and installation of Vermont Roadside Historic Site Markers. This is a small state program with a great reach and overwhelming popularity. The program was established in 1947, with the installation of ten markers. Since then, nearly 300 site markers have been placed statewide, with one in Virginia, to commemorate events significant to local communities, the state, and nation. More than twenty applications for new markers are submitted annually, a notable increase in the past two years. In fiscal year 2021, 25 new or replacement markers were installed, honoring Vermont's history. Such markers include commemoration of Finnish immigrants in Andover; surveying of Hinman Road north from Greensboro to Canada; histories of Granville Corner School, Pratt Hall, and Vernon Union Church; and the Chester homestead of five generations of the Hugh Henry family. Covered bridges, iconic landmarks of Vermont, were noted with markers at the Longley, Comstock, and Fuller bridges in Montgomery. For fiscal year 2022, so far, markers have been installed commemorating significant African Americans such as Abijah and Lucy Terry Prince in Guilford and Sheriff Stephen Bates in Vergennes. Our Civil War heritage is noted by markers placed at the homes of General Stannard in Milton and John P. Bowman in Cuttingsville. Rehabilitated markers, many dating from the late 1940s and 1950s, include Smugglers Notch in Stowe, Eighteenth Century Settlement in Pownal, St. Johnsbury Trade School, and the Dorothy Thompson Memorial Common in Barnard. Seventeen markers were rehabilitated or replaced due to age, vehicular accidents or vandalism, or text that has proven inappropriate today. In response to recent events across our country, review of all Vermont Roadside Historic Site Markers for cultural humility, accuracy, and context began. Twenty-five new markers are now being reviewed or are in production. Working with the foundry that has created the markers for Vermont since 1947, a full inventory with dates of production has been created and the online database was updated to reflect the numbers of production. The online interactive map was upgraded from a shortlist story map to an interactive web application, providing full access on all mobile devices, and allows visitors customized tours by marker content type, or regions of the state (it went live in FFY20). The application includes thematic identification that allows study of marker topics, including African Americans, Native Americans, Civil War, Revolutionary War, religious edifices, bridges, education, women's history, and state-owned historic sites. Funding is earmarked for markers related to the Revolutionary War, the founding of our nation, and events/life related to this period; installation shall coincide with the 250th Anniversary events of 2025 to 2027.

State-owned Historic Sites: The State-owned Historic Sites connect visitors to the places where Vermont's history happened. There are fourteen sites comprised of 62 buildings and structures serving the public, including the homes of Presidents Chester A. Arthur and Calvin Coolidge, two nationally recognized Revolutionary War sites, three architecturally significant buildings representing design and construction from the first half of the 19th century, a monument to a Revolutionary War patriot, and the iconic Bennington Battle Monument - the tallest structure in the State of Vermont. Due to COVID-19, just six of the nine sites open annually to the public were operating again for this second year. The season opening for three of the sites was delayed by two months (extending from July 1 to October 31 rather than opening Memorial Day weekend). Hours were reduced, some exhibits closed, and all indoor events cancelled.. All five gift shops were open; one was closed for all of 2020. Pandemic restrictions and cleaning measures were implemented once again in coordination with Vermont State Parks, Vermont Historical Society, local historical societies and museums, and the National Park Service's Marsh-Billings-Rockefeller National Historical Park. Outdoor spaces, such as trails and parks, were heavily visited even at the sites closed. Revenues from admissions, gift shop sales, donations, and rentals typically provide 51% of the sites' budget; with COVID-19 in 2020 this number was reduced to less than 15%. The sites welcome an average of 63,000 annually; for 2020 the number of visitors touring the Vermont State Historic Sites reached just 18,214 and during the 2021 season there were 44,229 visitors (more visitors explored the outdoor spaces, but we have no mechanism to tabulate visitation). The collected statistics record more than 1.4 million visitors have been welcomed by Vermont's State Historic Sites since 1998.

In January 2021, VT SHPO was informed by VTrans of pending upgrades to the rail line to accommodate the extension of Amtrak passenger service from its current terminus in Rutland north to Burlington and increasing freight rail activity. Due to the exceptionally close proximity of the 1868 New Haven Depot (owned by VDHP since 1975 because of its historical and architectural significance) to the active tracks, VTrans determined it was "necessary to relocate the station to meet the safety standards required for the operation of the Amtrak service at full speeds. At the current loca-

tion, the proximity of the building requires current freight rail traffic to observe a slow order through this segment to assure that there are no incidents. A slow order will not be possible on a long-term basis for passenger service to be successful." Moreover, the depot greatly obscures sightline distances from the north to the rail line's intersection with U.S. Route 7. Trains cannot stop quickly enough before the intersection because of the obstructed view caused by the historic depot, which has been leased to commercial tenants since 1986. Together with VTrans, VDHP, ACCD, and the Town of New Haven have actively undertaken the relocation of the brick depot 1.6 miles from the railroad tracks to the center of the village. Ownership of the building is being transferred to the Town of New Haven, which plans to use it for community activities, support of the historical society, and as a museum. The National Park Service has approved the relocation; thus the building shall remain listed in the National Register of Historic Places under Criterion C for its architecture (it will no longer be eligible under Criterion A for its history as a result of the relocation). The move is set to occur in Winter 2022.

VDHP also owns two metal lattice bridges, five covered bridges, and the Forestdale iron blast furnace, as well as serving as custodian of all underwater sites under Vermont waters, including exceptional historic shipwrecks. Nine of these are open to recreational divers as Vermont's Underwater Historic Preserve, with an estimated 504 diver visits (360 visits in FY20 and 588 visits in FY19). None of the bridges are in service, although some are open to pedestrians; the Scott Bridge reopened to pedestrian traffic in May 2017 and was used for wedding ceremonies throughout the season. Partnering with the Vermont Agency of Transportation (VTrans), in 2018, VDHP has visited all seven bridges to assess conditions and address rehabilitation plans. Two of the bridges have recently been restored and stabilized for pedestrian traffic. Plans are underway to use the Fisher Covered Railroad Bridge as part of a rail trail, a rehabilitation project that will stabilize the western abutment. Discussions are ongoing about the treatment of the rail tracks that remain inside the bridge. SHPO and VTrans are exploring the deaccessioning/demolition plans for two of the bridges due to severe structural issues and a railroad depot too close to the tracks.

Conditions studies, conducted in 2017-2018 at all the sites to outline maintenance priorities and aid in creating a tenyear maintenance plan as we address deferred maintenance issues, will be updated in 2021 in coordination with BGS as we continue to identify and prioritize maintenance projects. The total appropriation annually for maintenance through the Capital Construction Bill currently is \$350,000. The projected maintenance needs are estimated to be over \$1.0 million for the urgent and high priority projects. Water and drainage management engineering studies were completed in December 2019 for the Senator Justin S. Morrill State Historic Site, recommending significant deferred and proactive work totaling over \$375,650 for the preservation of this National Historic Landmark property. SHPO received a Save America's Treasures grant in 2021 to address some of the needs at the Morrill Site. VDHP and BGS are contracting an engineer to examine the issues at the Bennington Battle Monument, including but not limited to water infiltration, mortar repointing, spalling of stone, structural integrity of metal stair and entry lintels, emergency lighting, and elevator operations. The monument shall be culminating highlight of the 250th Anniversary Commemoration of the American Revolution in Vermont, and as it is our most visited state-owned historic site, maintenance issues need to be addressed properly and hopefully prior to the anniversary of the battle in 2027. Restoration and maintenance projects undertaken where limited because of the effects of COVID-19 on staffing capacity (required refocus), contractor safety, stay at home executive orders, and availability of materials.

Project Review: For 2020, VDHP reviewed and consulted on 2,409 projects in total, which is a 26% increase over last year; statistics for 2021 are still being coordinated with state and federal partners. This includes 1,889 development projects receiving federal funds, permits, or licenses for their potential impacts to historic buildings and structures, historic districts, historic landscapes, and settings/contexts, and known or potential archaeological resources; this is equivalent to FFY19. Under state statute, VDHP staff processed an additional 221 projects under Criterion 8 of Act 250, which is 53 less than last year and is presumably due to construction delays caused by COVID-19. Three memorandums of agreement were signed for Act 250 projects resulting in adverse effects. Under Section 248, for Vermont Public Utilities, 83 projects were reviewed and fourteen memorandums of agreement for adverse effects were executed. For state involvement under 22 VSA chapter 14, 216 projects were reviewed, which is a 24% increase from FFY19. Overall, the Project Review Team continues to maintain a 97.5% completion rate within 30 days or less. Notably, the team of reviewers (3 full-time/2 part-time) operates the program from submittal to concurrence manually with no active database, a tool much needed to ensure efficiency and better serve Vermonters. For 2020 and 2021, 199 projects reviewed under the CARES Act and ARPA funding were completed within hours of submittal. In 2020-2021, the Project Review Team completed review of 68 renewable energy projects for Title 248 such as solar, battery storage

facilities, methane digestors, and wind installations that require a Certificate of Public Good from the Vermont Public Utility Commission.

Twelve Memorandums of Agreement or Programmatic Agreements were signed for Section 106 activities (18 executed in FFY19 and 13 completed in FFY20). This included SHPO consultation with HUD through community development block grants for two projects; clean-up procedures for Ely Copper Mine with EPA; and flood resiliency with Green Mountain National Forest. Six agreement documents were signed in consultation with Federal Highway Administration and VTrans to allow for archaeological documentation and investigations, primarily along the Lamoille Valley Rail Trail, resulting in adverse effects. A procedural agreement document was executed with Buildings and General Services for project review and historic sites project management. The statewide programmatic agreement with the Department of Energy, Public Service, Economic Opportunity was amended for the Energy Efficiency Conservation Block Grant Program, State Energy Program, and Weatherization Assistance Program. The programmatic agreement amongst SHPO, Federal Highway Administration, VTrans, and Advisory Council on Historic Preservation was revised and executed for another two years, and the agreement for the administration of the Community Block Grant Program was signed by ACCD, SHPO, and the Advisory Council on Historic Preservation.

The review team continues increase time spent on FERC relicensing of hydroelectric projects. For 2018 to 2024, we are anticipating 25+ concurrent relicensing processes. Many of these licensed projects have not had historic resource survey and identification studies completed and will need them during the study periods of the relicensing. It is likely that most facilities will also need new or updated Historic Property Management Plans. For FFY21, three memorandums of agreement have been signed with FERC for relicensing projects: Dunklee Pond Dam in Rutland, Johnsons Mill Dam in Bakersfield, and Dorset Hollow Fish Passage and Flood Resiliency as part of the Governor Reynolds Dam removal (Central Rutland Hydro). There are approximately 12 active FERC projects currently under consultation.

Partner Organizations

DHCD provides grant funding to a number of organizations and these "partners" are critical to achieving outcomes in support of our mission. They include regional and local housing organizations, the Champlain Valley Office of Economic Opportunity's Mobile Home Program, the Fair Housing Project, downtown organizations, and many more.

A particularly important partnership is with the eleven regional planning commissions (RPCs). This statewide network directly delivers a range of critical services that DHCD would need to provide should this network not exist. The RPC's are established under Vermont law as political subdivisions of the State; they operate under 24 V.S.A., Chapter 177. All municipalities are members of their respective RPC. Core funding for RPCs is derived from the property transfer tax; it represents approximately 10-20% of their total operating budgets. This funding reaches them through annual performance-based grants that DHCD administers. These grants support local planning and bylaw development, regional planning, transportation planning, and work with other agencies relating to economic development, brownfields, energy, emergency management, housing, and natural resource planning. If RPCs did not exist, DHCD would have to substantially increase staff and funding to deliver those services. In every case, DHCD's grant dollars leverage dollars from multiple other sources to complete the RPCs' operating budgets.

It is the mission of the Department of Housing and Community Development (DHCD) to support vibrant and resilient communities, promote safe and affordable housing for all, protect the state's historic resources, and improve the quality of life for Vermonters. For the state to grow and thrive, there is a need to carefully integrate growth, environmental protection and economic opportunities into our state, regional and local framework.

DHCD provides training, technical assistance and regulatory guidance as well as funding and incentives. Staff helps businesses, individuals, municipalities, and community leaders determine how to maximize their infrastructure, revitalize town centers, protect our historic and cultural resources, promote the working landscape, create jobs, produce, and preserve housing opportunities, and develop new projects that support the state's land use goals and recreational opportunities.

In preparation for the FY23 budget cycle, there are several challenges that DHCD must address.

Increased workload and federal program implementation related to COVID-19 response has stressed staff capacity and shifted work responsibilities, but the Department has weathered the storm and benefited from several recent Limited-Service Position hires. The caliber of recent staff hired has increased capacity has already made a difference and will benefit Vermont in the long run with the transformational investments we will be able make over the next few years. Until the last FY DHCD had reduced the number of full-time classified positions and held open vacancies to realize budget savings. Recent increases in federal funding and partnering efforts have reduced the stress on General Fund budget for salaries across most DHCD divisions for the next few years. Last year's budget included dramatic increases in housing programs and included authorization and funding to hire an additional fulltime/classified Housing Programs Coordinator.

The Division of Historic Preservation continues to have modest General Fund support for the authorized staff as well as the substantial capital investments needed at the State-owned Historic Sites in SFY22. The federal support (\$645,546 in FFY21) from the National Park Service is provided to support the required functions and duties of the SHPO, including review of all Section 106 impacts related to federally funded projects. The State of VT historic preservation review requirements added over the years by the Vermont Legislature for 22 V.S.A., Act 250 and Section 248 must be funded from state resources. A review of federal-eligible expenses and state-required duties reveals a substantial mismatch between required work and adequate state funding. Federal money cannot be used to fund non-federal work, requiring an eventual increase in state funding or decrease in state-mandated work.

It is the responsibility of VDHP to steward the state's historic sites scattered throughout all of Vermont; they include 99 separate buildings and structures. As a part of this stewardship, VDHP must ensure that the sites are safe, open, and accessible to the public. This has been a challenge during the COVID-19 pandemic and has resulted in substantial budget increases and reductions in earned revenue at the Historic sites in FY21 and FY22. Increased costs and reduced revenue are projected to continue for FY23. Ongoing capital investments are necessary and form a portion of the Administration's Capital Construction Budget request. Due to budget constraints, needed improvements are deferred. A close working relationship with the Department of Building and General Services (BGS) has helped lay the foundation for an updated and comprehensive 10-year major maintenance plan that now serves as our directive for maintenance priorities. Maintenance and conditions assessments have outlined several critical projects and daily operational needs. Major repairs will be needed at the Bennington Battle Monument over the next several years. A formal conditions assessment of the Monument, in coordination with BGS, is currently underway for the next year. Additionally, funding sources are actively sought to support the needed maintenance efforts; a Save America's Treasures Grant from the National Park Service was awarded to the Senator Justin Morrill Homestead in Strafford to undertake remediation of drainage issues plaguing this National Historic Landmark. The funding was matched with Capital Construction Budget funds.

Despite these challenges, the Department is making significant progress on an ambitious agenda of helping Vermonters and their communities. On the Housing side, DHCD's primary goal is to grow the net new units of housing and invest in existing, but off-line housing throughout the state at all income levels and supporting programs and initiatives that accomplish this goal. We have proposed making structural and foundational changes to our zoning, permitting, fee and incentive programs to encourage more housing of all types and sizes in our already built and serviced areas of the state. These changes will have lasting, positive impact for all of VT.

Budget Summary

		FY 2023 Position Count	FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend

Economic Development

Department/Program Description

At present, the 28-person Department of Economic Development comprises the following programs:

DED staff assist businesses through various programs with workforce development, permitting, international trade, government contracting, incentives, business expansion, recruitment and access to capital. We focus on business outreach, working around the state with program leaders, Regional Development Corporations (RDCs) and other partners. We connect businesses to the services and programs they need, identify trends and challenges, and help take the pulse of the Vermont economy, communicating outwards how the state can help, and bringing back intelligence on what businesses need.

Worker Recruitment:

Worker Relocation Grant Program: The intent and purpose of the current Worker Relocation Grant Program expand the Vermont workforce, grow the Vermont population, and provide support to employers who are unable to fill positions. This program combines elements of the previous relocation programs (the Remote Worker Program and the New Worker Relocation Grant Program) to incentivize individuals to relocate to Vermont and either fill a position with a Vermont employer that is included on the DOL Short Term Occupation Projections List with the Most Openings or work in any occupation for an out of state employer remotely from within Vermont. DED developed the grant program guidelines and content as well as an online end to end application portal and launched the program in August 2021. Interest has been very strong and DED staff continue to field inquiries, both national and international, from media, applicants and prospective applicants who are interested in relocating to Vermont. This year DED has seen a significant uptick in the number of businesses, employers and regional partners seeking to use the program as a tool to attract new employees to fill job openings across all industries and regions.

Funding provided for New Relocating Workers, \$480,000, is extremely competitive and we anticipate this will be fully awarded 6 months after the August launch. The Occupational limitations set in statute are overly restricting and caused some applicants filling front line positions to be denied because the position they filled is not one on the Short-Term Occupational Projections with the Most Openings list. This occupational limitation has also prevented many employers from benefiting from this workforce recruitment tool because their vacant positions are not one of the 50 occupations included on the list.

The New Remote Worker funding, \$130,000, has received a lot of interest and the development of the online application is in progress. We anticipate this funding will also be awarded very quickly based on the inquiries.

DFR contracted with PFM, a consultant who recently completed a study on the effectiveness of Vermont's relocation programs. Some of the key findings, were that the programs have changed frequently (including who is an eligible worker, what employers are eligible, and when a person relocates) which has a negative impact. Also of note is that the funding levels have not been sufficient so the programs have awarded all of the funding or could not guarantee funding to workers, so this is a deterrent for some prospective workers. Our recommendation is to remove the Short-Term Occupational Projections with the Most Openings list to allow all full-time workers who meet the wage requirements to be eligible and increase funding to allow the program to operate continuously so workers do not risk being shut out of funding if they do move. These changes would allow Vermont employers utilize this program a tool to recruit front line workers in all industries, specifically the desperately needed healthcare sector, and get Vermont businesses operating back at full capacity.

Business Support Programs:

Entrepreneurship: DED develops and supports a focused approach to grow and retain start-up businesses. DED was a founding sponsor and continues to support LaunchVT. LaunchVT has helped accelerate 68 Vermont startups. These companies have gone on to create over 250 jobs, generate \$22 million in annual revenue (in 2020, a \$7 million increase from 2019), and receive \$50 million in follow-on funding. DED works with partners such as the Small Business Development Centers to educate entrepreneurs and help them in their first steps toward success. Additionally, each of the Regional Development Corporations (RDCs) host workshops about access to financing and capital and they help connect entrepreneurs with available financial tools. In the last legislative session, the legislature provided \$800k to fund the department's Technology-Based Economic Development (TBED) program. Since May, the department has engaged in a Request for Information process to more precisely determine the scope of this technical assistance program. After determining the scope, a Request for Proposal was issued, and the department is currently reviewing the responses to evaluate and choose a technical service provider.

Recruitment: We have a dedicated person on the team to work on recruitment mainly through our Foreign Direct Investment efforts in Canada. To attract businesses to start a branch and/or relocate in Vermont, DED targets recruitment efforts to foreign businesses that seek a U.S. presence (in particular, those based in Quebec) and those for whom co-locating within a cluster or with a supplier makes sense. This fiscal year, a Canadian bi-lateral trade company was contracted to serve as a lead generating agent of the State of Vermont through a legislative appropriation of \$150,000 per year for two years. Their primary focus will be to identify attract, contact quality and poised companies to consider Vermont for their expansion plans. In the past several years, three Canadian companies have expanded their business into Vermont creating 35 jobs. MITICO and THEO Decor, both growing Montreal-based companies, expanded their operations into Northeast Kingdom locations. Importantly, we also encourage foreign investment to retain Vermont jobs and companies. Lucas Industries in North Springfield was purchased by Canadian company PCM Innovations in 2019, keeping 45 quality jobs here in the State. We also want to reach out to those who have a predisposition to Vermont such as alumni, second homeowners and tourists. This targeted approach is driven by the fact that newer companies to Vermont had some prior connection to the state. DED is also collaborating with the Vermont Outdoor Recreation Economic Committee and the Vermont Outdoor Business Association to attract and welcome businesses in that sector. DED deploys a team approach to identifying and working with businesses to ensure we are offering businesses the best possible match of technical assistance expertise. We actively market our applicable financial incentives, specifically Vermont Employment Growth Incentive (VEGI), VT Training Program (VTP), and VT Economic Development Authority (VEDA). Historically, Vermont targets prospects in small to midsize operations, from 20 to 400 employees, which complements the state's small scale and labor force.

In the past, we participated at Select USA conferences to meet businesses looking for a foothold in the USA. We will do so this year virtually. Vermont can and should be present at these and other events to raise awareness of the opportunities and capabilities of Vermont.

Economic Development Marketing: Since FY16 we have been utilizing an initial appropriation and follow-on one-time appropriations to develop a targeted marketing plan to attract investment, entrepreneurs, and talent to Vermont. We completed a strategic marketing plan at the end of FY16 and started to implement elements of the plan. In FY17 and FY18 we developed and launched ThinkVermont.com to attract more people to Vermont. In FY19 we implemented an automated jobs board that aggregates job postings from scores of Vermont businesses and other jobseeker resources, boosting website traffic and offering employers additional exposure. Since FY19 we've received overwhelming media attention as a great place to live and work due to the Remote Worker Grant Program, the New Worker Relocation Grant Program, and the Worker Relocation Grant Program. The grant incentive programs align well with the Stay to Stay program launched by VDTM. We have partnered with VDOL to create a relocation specialist program that directs inquiries from people seeking to live and work in Vermont to VDOL representatives who can help them find jobs. This effort was impacted by COVID-19 but is currently being revised and expanded to include regional partners for a more comprehensive and organized service to potential new Vermonters.

Vermont Training Program (VTP): Workforce training is one of the key challenges identified by states across the nation as new technologies demand new skills. In Vermont, where we have low unemployment, an aging demographic and stagnant population growth, workforce development is critical and one of the Department's priorities. There are jobs employers are unable to fill due to a mismatch of skills. The customized Vermont Training Program helps Vermonters stay on top of skills required in a rapidly changing, global marketplace. The program partners with employers and

training providers to train both new and incumbent workers for the jobs of tomorrow. Training can fall into categories such as on-the-job, classroom, or other specialized training. Grants can cover up to 50% of the training cost, with the employer providing the balance. Since development of a workforce 'pipeline' is of crucial importance, in FY17 the Legislature changed the statute to allow a carve out of up to 10% of the allocated funds to be used on employers who are developing programming at high school and earlier levels to introduce and prepare students for the jobs and careers of the future. During FY21, we awarded \$1.3 M in grants to 43 businesses. The majority of which were in the advanced manufacturing sector, 27% of which are employers with less than 50 employees. 295 of the trainees have received a certificate, credential of value or were enrolled in an apprenticeship.

Vermont Economic Progress Council (VEPC): VEPC is an independent body governed by an eleven-member board, nine members appointed by the Governor and two by the legislature. VEPC has two full-time staff: an executive director appointed by the Governor and a grant programs manager from the state classified system. VEPC administers the application and authorization process for two programs: the Vermont Employment Growth Incentive (VEGI) program (including the Enhanced VEGI for Environmental Technology companies) and the Tax Increment Financing District (TIF) program.

Tax Increment Financing Districts: TIF Districts encourage public and private property development or redevelopment by using incremental property taxes to finance public infrastructure. In addition to the application and authorization process, VEPC staff have considerable responsibilities for the monitoring and oversight of TIF Districts with no additional resources or staff. During the 2017 session, six additional TIF districts were permitted. To date, two additional TIF Districts have been authorized by VEPC including one in the Town of Bennington and one in the City of Montpelier. It is anticipated than the Town of Killington will apply for a TIF District in early 2022 for consideration by VEPC. In Fiscal Year 2020 TIF Districts invested \$21.1 million in public infrastructure and realized a \$15.1 million increase in property values.

Project Based TIF proposal: This program will allow rural comminutes with an identified gap in project financing to move a critical project forward by allowing the town to pay for a portion of their debt and related costs for the improvement project using education and municipal tax increment from the increased taxable value of the identified redeveloped parcels. The proposed project must be located within an approved designation by the Vermont Downtown Development Board, or within an industrial park as defined in 10 VSA 212(7). Municipalities with approved TIF Districts would be ineligible to apply. Due to the small scale, project based economic development will be simpler to both use and administer than the TIF District program and will allow municipalities to advance key community driven development and redevelopment opportunities.

Vermont Employment Growth Incentive: The purpose of the Vermont Employment Growth Incentive Program is to generate net new revenue to the State by encouraging a business to add new payroll, create new jobs, and make new capital investments and by sharing a portion of the State's new revenue with the business.

The VEGI program provides cash incentives to businesses after an approved business in the program meets and maintains approved job, payroll, and capital investment targets. This incentive is used to encourage prospective economic activity that is beyond an applicant's background growth and that would not occur at all, in Vermont, or would occur in a significantly different and less desirable manner, except for the incentive provided. The incentives are calculated using a model approved by the Joint Fiscal Committee. Once authorized, the incentives can only be earned, and installments paid if performance requirements are met and maintained. In calendar year 2021, the Council approved three business projects that will contribute \$2.55 million in net new tax revenue (after the cost of the incentive) over the next five years by creating 406 new jobs, with \$47.1 million in new qualifying payroll and the investment of \$40.6 million in capital plant and equipment.

Vermont companies such as OnLogic, GSR Solutions, MTX Group, Beta Technologies, Glavel, NuHarbor Security, GS Blodgett, DealerPolicy, KAD Models and Prototyping, Twincraft, and Marvell, are growing jobs in Vermont due to the program. 63% of VEGI program participants employ less than 75 people when they apply to VEGI.

The VEGI program was ranked by Good Jobs First, a group that is strongly anti-incentive:

- -Vermont is #1 nationally in taxpayer safeguards
- -Vermont is #3 in job quality standards

Windham County Economic Development Program: In a Memorandum of Understanding between the State of Vermont and Entergy (Vermont Yankee), Entergy agreed to provide \$10 million to the State of Vermont "to promote economic development in Windham County." The terms of that agreement have been satisfied and in calendar 2020 the original allocation from Vermont Yankee was exhausted. This program is administered by the Director of Business Support through the Windham County Economic Development Program. Project authorizations and amendments require the support of the ACCD Secretary. None of the funds are used for administration. Program management, time and resources have been absorbed by existing staff and budget. The generated program income (monies accumulated from loan repayments) balance is nearly \$1.6M. ACCD will need to formalize the close-out of the WCEDP program and determine how best to deploy the program income monies in CY2022.

Brownfields Initiative: Funding from the Environmental Protection Agency (EPA) allowed the State of Vermont to establish the Brownfields Initiative which promotes the return of contaminated properties to productive reuse. ACCD was awarded a \$500,000 EPA Revolving Loan Fund (RLF) in 2014 that supports the clean-up initiative; it is a state-wide effort. Since the 2014 award the program manager has successfully applied for supplemental funding in six rounds of EPA competitions thereby increasing the original allocation by \$3,005,850. Our RLF continues to be one of the most successful RLF's in EPA's Region 1 territory. These funds are administered by the Director of Business Support with a portion of program management borne by the EPA grant. The initiative makes loans to for profits and sub-grants to non-profits to support environmental remediation efforts statewide. These investments support clean-up and redevelopment projects all over Vermont and will leverage millions in public and private funds. In CY2021 cleanup funding was granted to the 161 Wellington Road, Brattleboro project to supplement a \$500,000 direct EPA cleanup grant there. More impressively, in 2021, amidst the COVID housing value boom, three of our RLF housing redevelopments were sold and the balances of those loans were paid in full; this prompted a \$875G deposit to our program income fund (monies accumulated from loan repayments). The program income has amassed to \$1.175M and will be revolved to support additional environmental cleanup.

Office of Local Defense Community Cooperation (OLDCC): VT DED is instrumental within several programs funded by the US Department of Defenses' OLDCC (formerly: Office of Economic Adjustment - OEA)

The State of Vermont, as Fiscal Agent for the New England Regional Defense Industry Collaboration (NERDIC), was awarded \$1,500,000 to benefit all six New England states (Connecticut, Maine, Massachusetts, New Hampshire, and Rhode Island). The objective is to create a regional interactive ecosystem, for small and medium-sized manufacturing enterprises, that addresses and mitigates the challenges facing the New England defense industry's supply chain. The principal focus has been on accomplishing two initial tasks. The first task is to bring cybersecurity awareness and training to small and medium-sized businesses in each New England state. The second task is to expand the supply chain by helping small and medium-sized defense-related companies win more contracts in the defense manufacturing sector. The impletion of work will be at the end of the calendar year 2021.

As Fiscal Agent, DED contracted with CONNSTEP to provide cybersecurity consulting and training services across New England for small and medium-sized enterprises (SMEs). CONNSTEP lead the New England MEP network to provide resources essential to increasing cybersecurity awareness and institute training. DED also contracted with the Connecticut Center for Advanced Technology (CCAT) to assist NERDIC in accomplishing its second goal. CCAT's scope was to create a system to support the efforts of small and medium-sized defense-related businesses as they continually work to make the new skills and capabilities to compete with large firms to pursue defense contracts.

DED, on behalf of NERDIC, has submitted a proposal to OLDCC for an additional \$1,500,000. NERDIC expects approval of the application in January 2022, with work beginning in February 2022. Vermont will remain as the Fiscal Agent representing the six New England States. The core focus of the NERDIC Phase II work includes promoting NERDIC as an information hub and regional convener of the local defense manufacturing base ecosystem, bring the program elements together in an industry showcase, expand the cybersecurity work from the previous grant to create virtual or "bulk" learning opportunities, create an online 24/7 accessible repository to extend the reach of the NERDIC Indus-

try 4.0 Readiness Ecosystem model into a platform, develop a regional workforce and skills development model and pathway to collaborate with regional training providers to address the high needs of the region and lastly, transition the NERDIC foundation into a sustainable operation model.

DED was individually awarded funding from OEA to help jump-start the additive manufacturing sector in Vermont. Our state has many small manufacturing firms that manufacture precision metal parts by removing metal from a block in a process known as subtractive manufacturing. The manufacturing world is quickly adopting additive manufacturing techniques in which components are printed by adding more and more metal to build up each part. Additive requires new machinery, design, and workforce skills. Our grant was structured to help businesses build an additive capability. The grant was divided into two tasks. The first task named Vermont Technical College (VTC) as a sub-grantee to create an Advanced Manufacturing curriculum. VTC began offering classes utilizing the new additive curriculum. In the second task, DED worked with VTC and defense manufacturing businesses in Vermont. VTC would build a lab to house metals-based additive manufacturing equipment and partner with businesses that would utilize the equipment for research and development and prototyping new parts. The manufacturing equipment will be available to VTC to train degree students and incumbent workers during class hours. However, the lab would then be opened to participating businesses on nights, weekends, and vacation periods to do research and design and prototyping work to learn how to use additive manufacturing in their businesses. The work done under this grant provided for roughly \$12 million follow on funding Federal award to VTC to fund the building and equipping a new additive manufacturing lab. This grant is now completed.

VT Procurement Technical Assistance Center (VT PTAC): With seven full-time staff, the VT Procurement Technical Assistance Center works closely with businesses around the state to help them navigate the processes of applying for contracts from federal, state and municipal government organizations. This is accomplished through a cooperative agreement with the Defense Logistics Agency and State General Funds.

Financial Services (Captive Insurance): The financial services program plays a central role in supporting Vermont as the leading captive insurance domicile and is a key contributor to the state's revenues. The captive insurance industry is more competitive than ever, with over 30 states and numerous international jurisdictions competing for new captive business. The Captive Insurance Economic Development Director is responsible for the marketing and business development of Vermont's captive insurance industry, working closely with the Department of Financial Regulation and Vermont Captive Insurance Association to maximize resources and strengthen our state's reputation as the premier onshore captive insurance domicile. Strategies include the development and implementation of marketing plans, providing policy recommendations to state and federal policymakers to assure a beneficial business environment for expansion and relocation within the state, and acting as a spokesperson on behalf of Vermont to the global captive insurance industry. All such efforts, if successful, result in increased revenues for the state and high-quality, high-paying jobs for Vermonters. Based on 2018 figures, Vermont's captive insurance industry supports over 400 direct jobs that paid roughly double the state's average annual wage for all service-providing industries and contributes over \$158 million to the state's GDP. In 2020 the program generated over \$28 million in premium taxes and fees annually for the state. Appropriate funding of this program is vital to the continued revenue, jobs and related economic activity of this industry and its resulting benefits. In calendar year 2020, Vermont licensed 38 new captive insurance companies. Since inception, 1197 captives have been licensed, of which 589 were still operative at year end 2020.

International Trade Division: The International Trade Division provides technical assistance and trade counseling, import and export leads, workshops, coordinated trade missions and trade shows, and many other useful services to help Vermont companies seeking to succeed in international markets. The international team works with partners in US Customs, US Dept. of Commerce, the Small Business Administration, VEDA-EXIM Bank, the Vermont Chamber of Commerce, the VT Small Business Development Center network, Best of New England, The Council of State Governments, the VT Training Program, the Procurement Technical Assistance Center and others in serving Vermont's international trade needs. Two staff share the responsibility of administering a U.S. Small Business Administration State Trade Expansion Program (STEP) grant that helps small businesses export goods. During FY21, DED was awarded \$300,000 and funded 60 ESBC activities to offset expenses associated with exporting, including export training and consultation, participation in (in-person and virtual) international trade shows and missions, upgrades to e-commerce capabilities, digital marketing campaigns, and export finance fees. These 12 New-to-Export activities and 46 Market-

Expansion activities benefitted companies that represented a wide range of business sectors, including the aerospace, medical, and manufacturing industries. Businesses pursued international markets in various countries, such as Germany, Mexico, and Canada, and attended trade shows, including MEDICA and AeroMart. The program was awarded an additional \$300,000 from the SBA in FY22 to aid Vermont businesses attending tradeshows, now mostly virtual, as well as develop and enhance their digital assets for e-commerce and export promotion. The office also has a team member who recruits international businesses, including those from Canada, to locate in Vermont.

DED Partners

Regional Development Corporations (RDCS): The Department partners with 12 Regional Development Corporations (RDCs) around the state to assist in all aspects of business growth and retention, including site location and workforce needs. The RDCs are our key first point of contact with many of the states' businesses and help measure the economic health of each region. They also work with communities on a variety of economic development related projects. They are essentially an "arm" of the department on key issues and opportunities around the state. Each RDC leverages the state dollars with other private and/or public dollars from local communities to fund their operations. The RDCs are independent, non-profit corporations, staffed by professionals and directed by independent boards of directors. Each RDC is operating under a performance-based grant awarded by DED, which includes operational goals, performance measures and expectations aligned with the State's goals. Each RDC also has a regional work plan that reflects the varying programs and needs specific to its own region within the state. The regional network is critical as to support the various needs and challenges of each region.

Vermont Small Business Development Center (Vt. SBDC): The Vermont Small Business Development Center provide valuable no-cost, confidential business advising and low-cost training services to all small businesses and new ventures in Vermont. Its advisors are highly trained, experienced businesspeople who can help Vermont's hundreds of start-ups and small businesses grow and mature by advising on plans, marketing, financing options, partnerships and more. We are encouraging a goal that there will be SBDC coverage in all regions for at least 2 days per week.

Vermont Employee Ownership Center: With an aging demographic, Vermont is particularly challenged in creating paths of succession for its many privately owned and family-owned businesses. The VEOC offers services ranging from conceptual information to hands-on assistance to anyone interested in exploring or implementing employee ownership. VEOC has worked with more than 200 companies, providing education, training and technical assistance, business assessments and an employee ownership loan fund. VEOC is an important pathway to continuity for many businesses.

VCET: The Vermont Center for Emerging Technologies serves as an incubator and a co-working space for entrepreneurs who are at the early stage of their businesses. They provide technical assistance, mentoring and in some cases funding for these startups.

UVM Innovations: The UVM Innovations office helps University Researchers patent discoveries and provides support to help translate early-stage research into commercial products. Funding is provided for some pre-venture and very early-stage work to translate research into commercialized products. In FY22, funding helped support the "Vermontilator" project to support development of a simple ventilator that can be produced quickly.

Housed in the Agency of Commerce and Community Development, the Department of Economic Development works to improve the economic well-being of Vermonters. Our primary objective is to build the Vermont economy by helping companies, individuals and organizations gain access to the resources they need to grow their businesses, expand markets, create new jobs, find workers, build skills, invest in Vermont and improve Vermonters' quality of life.

We will measure our success by the value and number of capital investments in the state, the increase in the number of businesses created or recruited, and the increase in the size of the workforce.

The Department of Economic Development must use its limited resources in the most cost-effective manner to stimulate growth and identify what efficiencies we can. During the past 6 months we have implemented or are in the process of implementing 6 new programs. Economic recovery bridge, worker relocation grant program, capital

Economic Development

investment, state brownfields, SSBCI partnership with VEDA, and the Technical Assistance program for would be SBIR applicants. The SBIR match grant program, and the Cannabis Business development Fund, and the remote worker program are to be developed during the next 6 months. The 6 limited service positions granted in the last session have assisted us in carrying out our responsibilities due to this.

We are also driving forward with the implementation of the Economic Development Marketing plan utilizing internal and external resources. An open question is how to continue to support this important initiative going forward. This effort is of utmost importance to grow the businesses, workforce, and viability and vitality of the future Vermont Economy. One of our limited service positions will be the director of this effort.

Budget Summary

		FY 2023 Position Count	FY 2021 Actual	FY 2022 Budget As Passed	FY 2023 Governor's Recommend
Appropriations

Tourism and Marketing

Department/Program Description

Marketing and Advertising

To promote Vermont as a top, year-round, global tourism destination and an ideal place to live and work, VDTM implements seasonal, direct advertising campaigns to Vermont's core demographic audiences in our top markets. Work by the Department includes developing all advertising creative and promoted content; coordinating purchase of advertising media; engaging in digital marketing and promoting owned media; and collaborating with regional, industry and private partners.

PAID MEDIA

VDTM's FY22 paid advertising strategy includes a combination of digital advertising, native advertising (sponsored content), advertising on social media, streaming audio and connected TV, print and broadcast channels, as well as out-of-home (outdoor advertising). Campaign investments are geotargeted to key drive markets (MA, CT, RI, NH, ME, NY, NJ, PA); drive/fly markets (MD, DC, VA, NC, SC, GA, FL); and well as fly/like markets (Chicago, Denver, Dallas, Nashville, Columbus, Minneapolis, Seattle, Phoenix, Houston, Austin, San Francisco, Los Angeles) based on behavior and intent to increase brand awareness and encourage conversions. The call-to-action on all our advertising and collateral has traditionally directed consumers to 'Start Planning Today' at VermontVacation.com.

OWNED MEDIA

The state's official tourism website, VermontVacation.com, provides travelers with useful tools and trip ideas to research and plan their vacations. Major content areas include specific landing pages for each season; things to do (recreation, arts and heritage, family and made in Vermont); towns and regions; and an Explore Vermont section that includes trip ideas, sample itineraries, an events calendar, lodging deals; and access to the Stay & Play business directory for detailed information on specific dining, lodging or entertainment properties. VDTM's long-standing partner, the Vermont Chamber of Commerce, manages the Stay & Play directory to ensure business listings are accurate and current. Following a major redesign of the Stay & Play directory in FY21, the Events calendar, also managed by the Chamber, was redesigned in FY22 to improve user experience and drive more traffic to tourism properties and community events across Vermont. Both the Stay & Play directory (1000+ business listings) and Events calendar (7000+ events to date) are critical planning tools for visitors.

In addition to VermontVacation.com, VDTM communicates directly with potential Vermont visitors and industry partners using e-mail marketing. VDTM's consumer and events newsletters support the overall advertising and marketing efforts with interest-specific seasonal promotions. Currently, over 120,000 consumers have "opted in" to receive monthly e-newsletters highlighting the best of Vermont.

VDTM also produces in-house video content, featuring downtowns, artists, attractions, and businesses telling the story of Vermont in a visual way. This content is then shared across all digital platforms, the website, and in certain instances, paid advertising.

Industry Support and Outreach

Travel trade relations provide industry support, including national and international representation, to promote tourism properties and attractions in Vermont. VDTM maintains relationships among statewide tourism, outdoor recreation, agriculture, arts and cultural heritage organizations to leverage cooperative advertising opportunities and expand our collective reach to potential visitors.

INTERNATIONAL MARKETS

The key international markets for Vermont are Canada, the UK and Europe, and Japan. Tactics VDTM employs to encourage international visitation include media familiarization trips with journalists to achieve positive press coverage; participation in domestic and international trade shows and sales missions; direct outreach to tour operators and consumers; paid advertising; and owned media and social media.

Membership in the U.S. Travel Association enables VDTM access to opportunities under the Brand USA public-private partnership established at the federal level to increase international visitation to the United States. In addition to coop marketing, international media and tour operator tradeshow opportunities, Brand USA participation allows Vermont to have a page on VisittheUSA.com which is translated into Japanese, Chinese, and Spanish, among other languages.

VDTM also maintains relationships with U.S. based receptive tour operators who contract with lodging properties in Vermont to sell rooms via tour operators abroad. These relationships allow properties to fill rooms mid-week as international visitors tend to come for longer periods of time and generally spend more than domestic visitors.

While international visitation continues to be severely disrupted in FY22 with pandemic-related travel restrictions, with the help of virtual pivots in tactics and events, networks and relationships have been maintained to foster ongoing interest and build demand for travel once conditions allow. The prolonged closure of the Canadian border, and now the arduous testing requirements since the land border has reopened, continue to depress international visitation from Quebec and the rest of Canada.

DOMESTIC SALES

Group tours and travel continues to be an important part of Vermont tourism's mix. VDTM partners with the Vermont Tourism Network, a group tour planning resource, to support group travel operators that bring hundreds of motor coaches with thousands of travelers to Vermont during all four seasons. Group travel was another casualty of the pandemic, contributing to severe revenue losses at many tourism properties, especially attractions and cultural institutions. Visitation by groups did rebound in Summer 2021, although many fewer properties are either willing or able to accommodate group travel compared to pre-pandemic numbers.

VDTM staff interact with consumers at special events and at select travel and adventure shows to speak directly to consumers to highlight Vermont as a vacation destination, some of whom may not have ever considered a trip to Vermont before speaking to our staff. VDTM also manages the tourism booth in the Vermont building at the Eastern States Exposition (Big E) each year, which attracts over 1.6 million visitors over the course of 17 days. While in times past VDTM would manage about 40 partner volunteers to be able to staff the booth for 12 hours a day, the Department had to provide this customer service support in 2021 due to a combination of health and safety concerns, lack of staff and lack of product inventory on the part of vendors and partner organizations. Given the ongoing uncertainty over the safety and efficacy of in-person consumer events, the Department is soliciting proposals for alternate management and staffing structures going forward.

PARTNERSHIPS AND REGIONAL SUPPORT

Collaborative marketing relationships with industry associations allow VDTM to align strategies and best leverage the state's investment in the tourism sector. Annual agreements with the Vermont Convention Bureau, the Vermont Ski Areas Association, the Vermont Chamber of Commerce and the Vermont Mountain Bike Association give VDTM the opportunity to set goals and expectations to measure the impact of such partnerships.

VDTM also works regularly with regional chambers of commerce, downtown organizations and activity or sector-specific partners across the tourism industry, such as the Vermont Arts Council, the Vermont Fresh Network, the Vermont Outdoor Business Alliance, the Maple Sugar Makers Association, and the Vermont Brewers Association to name a few, in addition to state of Vermont partners including Vermont State Parks, the Department of Fish and Wildlife and our State Historic Sites. We collaborate to produce content to be shared across our own channels and those of our partner organizations, as well as cross-promote events, initiatives and the authentic experiences visitors are seeking when

they come to Vermont and want to immerse themselves in the local culture, whether it be history, arts, culinary, communities, or recreation.

With a supplemental appropriation in FY22, VDTM was able to offer grant funding to many of these organizations in support of Vermont's recovery from COVID-19 through a \$600,000 Tourism and Economic Recovery Marketing Grants Program. Over 41 communities and organizations applied and 23 have been awarded grants up to \$30,000 each to increase visitation and support local businesses. Implementation of the Tourism and Economic Recovery Marketing Grants will continue through FY22 and fund initiatives that range from new annual events and festivals; to the creation of interactive maps and itineraries of local recreation areas, businesses and attractions; to advertising campaigns and promotional asset creation (photography, videos, websites, etc.) to market Vermont to local, regional and diverse audiences.

Communications and Public Relations

VDTM actively engages with the media for positive coverage of Vermont as a tourism destination by distributing press releases, generating and pitching storylines, facilitating news coverage, and coordinating media familiarization trips for journalists to travel to Vermont to experience our tourism destinations and attractions for themselves. These editorial stories inspire potential travelers, reinforce frequent visitors' affinity for the State, and collectively strengthen the Vermont brand. Travel articles published about Vermont translate into millions of dollars in advertising-equivalent publicity annually.

SOCIAL MEDIA

VDTM nurtures social media engagement to build a community of passionate Vermont enthusiasts who amplify our marketing efforts with their personal social media connections. Through social media channels Facebook, Twitter, Instagram and YouTube, VDTM provides a fully interactive experience, enabling Vermont "fans" to share, comment on, and recommend locations, attractions and events that ultimately build Vermont brand awareness and motivate others to visit Vermont. As with editorial coverage, these social media posts illuminate our many tourism assets, reinforce brand affinity and inspire further visitation. The reach of our communications, as measured by followers across social media channels, has seen a consistent and steady growth of over 10-20 percent year over year.

Cross-Agency Initiatives

The Department has increasingly been playing a greater role in providing communications and marketing expertise to support additional Agency goals, namely: to recruit new businesses and residents to the state through the Think Vermont campaign; to position Vermont as the ideal place to pursue an education and start a career through the Choose Vermont scholarship program; and to convert visitors to become full-time residents through support of a Regional Relocation network.

THINK VERMONT

VDTM has been working with the Department of Economic Development (DED) since FY16 to develop a targeted marketing program to attract investment, entrepreneurs, and talent to Vermont. The website ThinkVermont.com is the primary tool for Vermont's recruitment efforts. Site features include economic sector profiles, community resources, an automated jobs board that aggregates job postings from across the state, and a "Meet Your Neighbors" library of stories about incentive programs and the unique accomplishments of Vermonters and Vermont businesses to provide inspiration to potential investors and future residents. The website was fully redesigned in FY21-22 with new content, functionality, and appearance to emphasize the state's focus on recruiting new Vermonters and new businesses.

CHOOSE VERMONT SCHOLARSHIP

In the wake of the closure of several Vermont colleges in the Spring of 2019, ACCD participated in multiple rapid response efforts and brainstormed on ways to help the communities recover. As a result, ACCD led the first state-

sponsored collaborative higher education marketing campaign in more than two decades, working with the Vermont Student Assistance Corporation (VSAC) and the Association of Vermont Independent Colleges (AVIC) to provide \$5,000 scholarships to incoming freshmen who commit to attending a Vermont college or university.

Now in its fourth year, the Choose Vermont Scholarship program has expanded to include 14 individual \$5,000 scholarships, totaling \$70,000 in available aid each year. Promotional efforts run throughout the Winter and Spring 'college commitment' season to increase awareness of Vermont as the best place in the country to go to college and encourage accepted students to 'choose' Vermont for their education and hopefully, a career and future residency in Vermont.

REGIONAL RELOCATION NETWORK

The Regional Relocation Network is the evolution of the Stay to Stay Weekends program that was first launched in 2018 as an economic development tourism initiative. The program was originally conceived as a series of three-day networking weekends that were jointly administered by VDTM and regional partners to connect participants with community leaders, employers, entrepreneurs, realtors, and potential neighbors to help facilitate their relocation to Vermont.

After three successful and instructive years, planning was underway for more targeted, sector-based programming when COVID-19 required the entire program to go on hiatus. Interest in moving to Vermont has only increased since the pandemic started, and regional partners continue to experience a high volume of inquiries from people looking to relocate. In response, VDTM has worked with regional partners and the Department of Labor to develop a more robust lead management system and reinvent Stay to Stay into a virtual experience. The current "Connect with a Vermonter" lead distribution solution creates an automated flow from inquiry to "hand-off" at the local level, so users can be quickly connected with the resources they need to successfully relocate. In FY23 we are hoping to improve the customer service experience, provide more comprehensive reporting, increase our promotional and targeting efforts for high-demand occupations and ultimately convert more interested parties into Vermont residents with additional investment in the relocation network to help reverse declines in the state's workforce and population.

Research and Analysis

Every two years, VDTM prepares a benchmark report on the tourism industry to describe qualitatively and quantitatively the impacts of tourism on the Vermont economy. These impacts include jobs and income for Vermonters, revenue for state and local governments, and improved cultural and recreational opportunities for Vermont residents. The 2019 benchmark report has been delayed due to COVID-19 response needs but is scheduled to be released in early 2022.

The interim 2019 tourism impact figures show direct visitor spending in Vermont at \$3.0 billion. The tourism sector supports over 31,000 jobs with over \$1 billion in wages. Calculations further estimate that visitor lodging receipts in 2019 generated \$373 million in tax and fee revenue to the State and its municipalities.

The economic impacts of the COVID-19 pandemic on the tourism sector and Vermont's economy overall are still being analyzed and calculated, but initial estimates indicate a loss in visitor spending of over \$1.0 billion between March 2020 and September 2021. Employment in the food and accommodations sector still lags behind other sectors, creating severe staffing challenges that threaten the long-term recovery of many tourism and hospitality businesses.

Creative Services

As of FY21, the Office of the Chief Marketing Office (CMO), previously part of the Department of Administration, has been fully integrated into the Department of Tourism and Marketing. This budget restructure formalizes the collaborative relationship that currently exists between the two teams to maximize capacity and consolidate marketing expertise within the Agency.

The CMO supports promotional and marketing initiatives by agencies across state government with strategic expertise, brand and digital asset management, and tactical support, encouraging cost efficiencies and collaboration. For the many state agencies and departments who do not have dedicated communications staff, the marketing consultancy and creative services provided by the CMO are a crucial resource to help them accomplish their outreach and marketing goals. The CMO's office can provide creative services from graphic design, branding support, copywriting and digital advertising to web design, content strategy and data visualization. The centralized creative services the CMO offers results in improved quality and effectiveness of outreach materials, dollars saved, and enhanced success of marketing programs. As importantly, through centralized creative services the Vermont brand is consistently represented and messaged across state government.

The CMO also maintains master contracts for marketing/creative services and media buying to make it easier and more efficient for state entities to enter into agreements with outside vendors when it is determined that the required skills or capacity for a marketing-related initiative are not available in-house. The need for communications expertise and capacity continues to grow across the enterprise, as more and more state agencies and departments are grappling with an influx of federal investments and the need to conduct outreach campaigns and promote new programs to assist Vermonters and Vermont businesses recover from the pandemic.

The Vermont Department of Tourism and Marketing's (VDTM) primary objective is to expand awareness of Vermont as a tourism destination and to increase the number of visitors to the state. More broadly, our mission is to promote Vermont's travel, recreation, cultural and historic attractions, as well as the state's goods and services, in coordination with public and private sector partners and to market to a global audience in a manner consistent with the values and traditions of the state for the economic benefit of all Vermonters.

As with the entire Agency of Commerce and Community Development (ACCD), the operations of VDTM continue to evolve in order to support the state's recovery from the COVID-19 pandemic. The types of activities needed to support Vermont's travel and tourism sector have expanded to include new grant programs, more business outreach and industry facilitation, more research, and more support for regional relocation efforts, in addition to our ongoing work to promote Vermont as a travel destination to local, regional, national and global audiences.

Funding constraints have created consistent challenges for Vermont, especially when competing in a global market-place and directly with neighboring states that substantially outspend Vermont. Vermont continues to have the smallest tourism marketing budget in New England and the Northeast (New Hampshire's tourism budget is \$8M; Maine's is \$17M; and New York's is \$50M).

The State has been losing market share due to this competitive disadvantage with our closest competing markets and we have even more ground to catch up to reinvigorate travel and the visitor spending that Vermont depends on as the nation recovers from the COVID-19 pandemic. Tourism and hospitality businesses all over the state have been severely impacted and are depending on the work of the Department to bring in customers, keep their doors open, and keep employees employed. Any financial reduction in our ability to promote Vermont puts those businesses in greater jeopardy, as well as the communities that depend on those jobs and all the economic benefits that visitors and visitor spending bring.

Thanks to a provision in the American Rescue Act Plan, Vermont is slated to receive a \$10.4M state tourism grant from the Economic Development Administration (EDA) in FY22. While the exact scope of work is still under negotiation with EDA, the Department hopes to utilize this funding to support the tourism industry in the broad categories of:

-Destination Marketing: including a brand study, visitation research and strategic planning; the development of new creative assets and an implementation budget to execute; and competitive grant programs to support local and regional marketing efforts.

-Workforce and Business Development: including funding to develop 'on-the-job' training programs for hospitality workers; talent pipeline work for outdoor recreation and hospitality; and technical assistance services for tourism businesses to adapt to post-pandemic operational challenges.

-Destination Development and Infrastructure Investments: including visitor experience and amenity upgrades at state-owned recreation sites; and wayfinding investments for outdoor recreation and community connections.

Budget Summary

		FY 2023		FY 2022	FY 2023
		Position	FY 2021	Budget	Governor's

Vermont Arts Council

Department/Program Description

The mission of the Vermont Arts Council is to advance and preserve the arts at the center of Vermont communities. This mission is supported by the Arts Council's current strategic plan, which calls for the Council to:

- 1) Increase opportunities for everyone in Vermont to experience and/or participate in the arts
- 2) Demonstrate and promote the benefits of investing in Vermont communities through the arts to policy-makers and the general public
- 3) Expand and sustain the Council's capacity to serve its constituents

In short, the Council encourages all Vermonters to participate in the arts, to value the arts, to support the arts, and to advocate for the arts.

The Vermont Council on the Arts, Inc. d/b/a the Vermont Arts Council was organized as a 501(c)(3) nonprofit corporation in 1964 to promote and support quality art activities and opportunities for all Vermonters and visitors to the state. In 1965, Congress passed PL 89-209 creating the National Council on the Arts and Humanities with funding for the states in both of these disciplines. The Vermont legislature authorized the Arts Council (Act 170 of 1965), as the agency to represent Vermont in state and federal arts programs, for the purpose of "increasing the opportunities for Vermont's citizens and visitors to view, enjoy and participate" in the arts.

The Council's funding sources include: 1) a Federal grant from the National Endowment for the Arts requiring 1:1 match, 2) state appropriations and in-kind office rental subsidy, which provide that match, and 3) relatively smaller combinations of private funds (corporate, individual, and foundation) which no longer qualify for federal match.

The Arts Council serves as the state's largest resource to Vermont's creative sector; a sector that provide 9.3% of the jobs in Vermont in normal times. The sector also serves as a significant attraction for tourists visiting Vermont. The arts play an important role in the education offered to our youngest citizens. Repeated studies reveal that arts education correlates directly with critical 21st Century Learning Skills, critical thinking, collaborative problem-solving, experimentation and reflection, and creativity.

The Council's programs and services are designed to:

- 1) Support the development of vibrant communities through grants and funding strategies that positively impact the quality of local community life
- 2) Support artists and arts organizations through grants to provide important community cultural development and service
- 3) Promote high quality arts education and lifelong learning in and through the arts

The Council works through partnerships, grants, workshops, advocacy, and information services to expand the role of the arts in economic development, cultural infrastructure, and workplace and professional development. The Council commonly works with natural partners to deliver its services.

The Vermont Arts Council has been critical in supporting the creative sector during the pandemic, through direct federal CARES Act funding, Agency of Commerce and Community Development grants and private funding.

When the federal National Endowment for the Arts (NEA) grant amount for the next federal fiscal year becomes known, generally around March, the Vermont Arts Council may request a budget adjustment to be able to meet the NEA 1:1 match requirement.

Vermont Symphony Orchestra

Department/Program Description

The Vermont Symphony Orchestra Association, Inc., a state assisted non-profit institution founded in 1934, exists for the purpose of fostering and encouraging the appreciation of music in all its various forms, with emphasis on orchestral, choral and chamber music. It seeks to raise the common standard of music education and enjoyment, and to provide, at moderate cost, quality performances for a broad and diverse public throughout the State of Vermont.

The Vermont Symphony Orchestra (VSO) traditionally receives a single appropriation from the General Fund to support musical and educational programs around the state, with primary emphasis on the SymphonyKids outreach program and performances in underserved, rural areas.

We are also very proud to offer free Holiday Pops tickets to members of the Vermont National Guard and their families free or deeply discounted tickets to students of all ages for all concerts, and family concerts throughout the state.

Activities

The VSO is Vermont's nationally-recognized professional musical resource, providing residents of and visitors to the state with high-quality services and programs, especially in the area of music education. Activities have ben severely impacted by the pandemic; in FY21 33 live performances were planned and 14 held, ticket sales were down by over 90%. \$380,000 in COVID relief grants, SBS loans and continued VT appropriations reduced this impact, and activities were shifted to include 5 online concerts, live and online education, online community outreach, other online events and smaller scale live performances.

Market

The Vermont Symphony Orchestra is organized to serve all of the communities of Vermont. It is the only orchestra that provides services and programs throughout Vermont. Out of hundreds of professional U.S. orchestras, only a few hold this statewide distinction, but among those, the VSO is unmatched in its dedication to serving rural communities, making it a unique American institution.

The significance of Vermont's rural setting is essential to understanding the VSO's market, challenges, and successes. The average U.S. orchestra in the VSO's budget class serves one metropolitan area; whereas the VSO market of 630,000 is spread over an entire state of 9,609 square miles, with great economic and demographic diversity as well as geographic features that isolate areas from each other. No statistical data is available on the number of communities served each year by other orchestras of similar budget to the VSO, presumably because each orchestra serves one principal community. By contrast, the VSO serves many communities.

Vermont Historical Society

Department/Program Description

Through its rich collections, dynamic programming, effective outreach and resolute leadership, the Vermont Historical Society preserves the past, informs the present and promotes Vermont's shared legacy for future generations. We believe that an understanding of the past changes lives and builds better communities.

- VHS was chartered by the legislature in 1838 and is the oldest cultural heritage organization in the state (22 V.S.A., sections 281-285).

A Unique Collaboration: VHS and the State of Vermont:

- The VHS has a unique relationship with the State of Vermont that creates economic development opportunities, saves the State money from support from private contributions and enhances services to Vermonters:
- In the event of the dissolution of the VHS, management of its collections and related property will become the responsibility of the State (22 V.S.A., section 284). The Public trusts the VHS in keeping their heritage and collections safe.
- Employees of the Vermont Historical Society are classified by the state classification system as if they were state employees and receive all general pay increases granted state employees (22 V.S.A., section 285).
- VHS is both a tenant and a landlord of the State of Vermont. Fee for Space (\$211,469 or \$16.13/sq. ft. in FY2017) is assessed for the museum space in the Pavilion in Montpelier; rent is received (\$11,500 or \$6.22/sq. ft. in FY2017 for 1,850 sq. ft.) for space provided for the Archaeology Center or ACCD at the Vermont History Center in Barre.
- VHS provides secure, environmentally-controlled space and curatorial oversight for the State's collection of historic flags, including Civil War regimental flag and guidons without charge.
- With the downsizing and ultimate change-in-focus for the State Library, VHS is now the primary research facility for the study of the culture and heritage of Vermont by both professionals and casual researchers alike.
- VHS provides meeting rooms and emergency alternate work sites at the Vermont History Center without charge to state agencies.
- The Vermont History Center provides the eastern anchor of Barre's economically vital downtown, serving as a tourist draw, visual punctuation, and key partner in downtown initiatives.
- The Vermont History Museum in Montpelier is a key attraction in the capital city and serves as Vermont's state museum.
- Our work with over 200 local historical societies and museums throughout the State advances their vitality in the communities they serve.

While finances are always a priority of VHS, with the State's continued partnership, we can achieve these realistic goals to make VHS a sustainable partner in preserving the State's story as it has since the legislature created the organization in 1838.

Vermont Humanities Council

Department/Program Description

Vermont Humanities seeks to engage all Vermonters in the world of ideas, foster a culture of thoughtfulness, and inspire a lifelong love of reading and learning. Note: Our fiscal year is the calendar year, and so our 2022 budget relates to the State's 2023 budget.

As we entered the second year of the pandemic in January 2021, the staff and board of the organization set three straightforward goals for the year:

- 1. Provide leadership for the cultural sector as we all work to weather this pandemic.
- 2. Meet our mission in new ways that do not rely on traditional gathering spaces.
- 3. Keep our staff employed to the greatest extent possible.

These three goals may be even more relevant now, as the long-lasting impact of the pandemic continues to drive our daily work plans. We have successfully maintained the staffing and programming of the organization as the pandemic continues, and evaluated and made iterative improvements to our programs, especially in the areas of early literacy, grantmaking, public lectures, and reading groups.

While we are confident that our programs are necessary, well-structured, and making a difference for children and adults, having a chance to look at them with fresh eyes during this pandemic time has truly been a blessing. We are putting our learning into practice online in 2021, and hopefully in-person in 2022.

Covid-19 Pandemic Relief

How we tell the story of our statewide outreach is a little different today than it was before the pandemic. All our work shifted to pandemic response within days of the declaration of emergency. In 2020, 13,382 people took part in our programs and we held 197 digital events, either hosted by us or by our community partners. With the Vermont Arts Council we distributed \$781,000 in CARES Act grant funds to 123 cultural organizations throughout the state.

By the end of 2021, we will have distributed an additional \$1.3 million in emergency funds to arts and humanities organizations across Vermont with funding from the American Rescue Plan in collaboration with the Arts Council.

Public Humanities and Literacy Programs

Zoom-based programming in early literacy, humanities camps, and public programs for adults reached thousands of Vermonters across the state so far in 2021. The numbers below represent the first two quarters of 2021 (January through June). The trendline for strong participation is good for the remainder of the year.

First Wednesdays lectures: An estimated 7,887 people viewed the 50 public First Wednesdays talks we presented online from January to May 2021. However, this is likely an undercount as more than one person often gathered around a single device. 2,202 people watched the events live on Zoom and the recorded talks collected 4,772 views on YouTube or Facebook. Attendance was higher than in past seasons and over 45% of the participants were new to the program this year.

Our Vermont Reads 2020 program was extended through June 2021 so more communities could participate in events centered around The Hate You Give by Angie Thomas. From January to June 2021 2,210 people attended 23 community events. Vermont Reads 2020 concluded with a free public Zoom appearance by Thomas on May 26, followed by a students-only conversation on Zoom the next day. Four hundred people tuned into the evening presentation on Zoom, and at least 2,000 Vermont students attended the Thursday morning session from schools across the state. An

additional 200 people watched a recording of Thomas public talk on Vimeo. The Vermont State Library partnered with us on their first reading and discussion program for Vermont State employees with great success.

Our Speakers Bureau enables libraries, historical societies, and other community organizations to offer free public programs that are high quality, convenient, well-publicized, and affordable. From January through June 2021 over 600 people attended 22 Speakers Bureau events. Nineteen were held online and three in person.

Our popular Reading and Discussion programs are designed to strengthen communities and encourage lifelong learning and literacy. For over 40 years, they have offered libraries and other nonprofits a choice of over 75 themed series on myriad topics, both fiction and nonfiction. Vermont Humanities has a roster of 30 facilitators; these are experts in literature, history, and other disciplines who lead dynamic, participatory discussions. We lend multiple copies of the books to each host organization. From January to June 2021 334 people attended 36 Reading and Discussion online and in-person events.

Our Early Childhood education trainings are provided to librarians and early educators to share best story-time practices and discuss collection development and community program development. We have held five virtual trainings to date in 2021 with 67 participants. By the end of 2021, we will have delivered eight online pilot programs of redesigned Never too Early and Read with Me programs. Vermont Humanities is also partnering with public libraries on the Vermont Early Learning Initiative, previously offered independently by the Vermont Center for the Book, which has been merged into Vermont Humanities.

In a difficult year for medical professionals, the Literature and Medicine book groups offered an outlet for pandemic stress relief and provided a sense of normalcy. Groups at three hospitals met regularly from January through May. The VA Hospital in White River Junction met five times virtually with 51 participants; the Northeastern Vermont Regional Hospital met three times in-person with 51 participants; and the Rutland Regional Medical Center met three times in-person with 75 participants.

We sponsored six in-person Humanities Camps in June 2021 in Burke, Canaan, Richford, St. Johnsbury, West Rutland, and Williamstown, with an average attendance of 15 campers each day for a total of 90 students. These intensive, week-long, summer day camps engage young people with reading and the humanities. Nine additional camps were held in the third quarter.

Our 48th annual Fall Conference. The Humanities and Climate Change will begin with four First Wednesdays talks related to the theme on October 6 and will include a week of virtual events October 18-22. The conference will conclude with an in-person concert by the Fry Street Quartet held in partnership with the UVM Lane Series.

Our newly created Words in the Woods program, a partnership with Vermont State Parks and the Vermont Arts

Council, brings Vermont poets into state parks to share their craft. This program is designed to engage Vermonters by meeting them in the outdoors, where we can celebrate Vermont literature's historic and ongoing connection with the natural world. During the summer of 2021, we recorded two virtual readings and hosted two in-person events. Shanta Lee Gander visited Sweet Pond State Park, Verandah Porche led a group at Knight Point State Park, Sarah Audsley read at Taconic Mountain Ramble State Park, and Abenaki singer-songwriter Bryan Blanchette closed the season at Elmore State Park with an in-person campfire session.

In 2021, we have more than doubled our Community Grants budget to distribute additional funds to local communities engaging in public humanities projects. To date this year, we have funded 20 projects with awards totaling \$69,200.

In an additional special initiative outside our regular grants program, Vermont Humanities partnered with diverse organizations and scholars to create the Vermont Civics Collaborative, a six-month project held from January through June 2021 that looked at the immediate aftermath of the 2020 election and aimed to build understanding of and increase engagement in Vermont's civic life in towns across our state. We distributed seven grants to partner organizations: The Greater Burlington Multicultural Resource Center, Flow of History, Catamount Arts, Slow Democracy, Ver-

mont Council on Rural Development, Center for Whole Communities, and Outright Vermont. All programs were virtual, and all but two of our programs were open to anyone who was interested. (Outright Vermont's programming was limited to LGBTQ+ youth and The Flow of History is a professional development team for primary and secondary school teachers.) As of this writing, we reached 2,555 people, both Vermonters and those beyond our borders. This initiative led to a direct partnership with the Vermont Secretary of State's office to produce updated community resources for civics education that will be published in 2022.

Internet-based and streaming resources became more important than ever in 2020 and 2021, as noted above in our reports about our First Wednesdays and Fall Conference programs. We also produced six new podcast episodes in 2021. Our joint Before Your Time podcast with the Vermont Historical Society garnered 1725 downloads for episodes about mail order and town meeting. And our Portable Humanist podcast featured experts such as State Librarian Jason Broughton, constitutional scholar Meg Mott, and anti-racist writer Tim Wise and earned 415 downloads over four episodes.

Vermont Housing and Conservation Board

Department/Program Description

VERMONT HOUSING AND CONSERVATION BOARD

Department Mission Statement

The Vermont Housing and Conservation Board (VHCB) is a public body established in 1987 (10 V.S.A. Chapter 15) for the purpose of improving economic vitality and quality of life by implementing the dual goals of creating "affordable housing for Vermonters, and conserving and protecting Vermont's agricultural land, forestland, important natural areas, recreational lands, and historic properties."

The Board's programs serve lower income Vermonters (families earning below median income, with an emphasis on very-low income households) and all Vermonters interested in or users of agricultural, natural, and recreational lands, historic properties and affordable housing. The Board makes grants and loans to municipalities, non-profit organizations including land trusts and conservation groups, housing cooperatives, and to qualifying state agencies. It makes awards of federal funds to private entities, as well.

The Board's awards support community-based projects that preserve, rehabilitate and create affordable apartments and homes or conserve and protect agricultural lands, forestlands, natural and recreational land and historic properties. The Board's work results in re-investment in downtowns and surrounding neighborhoods while preserving the rural working landscape. The state's investments through VHCB support rural community development in all corners of Vermont. Several years ago, the Legislature added protection of the state's surface waters and forestlands as statutory goals. VHCB projects and policies also help mitigate and prepare for the effects of climate change.

VHCB provides the state a proven entity for addressing priority and emergent issues. In recent years, it has been asked by the Administration and Legislature to manage a housing revenue bond, support water quality through its existing programs and serve as a clean water service provider, invest in the rural economy through the REDI initiative, and support outdoor recreation and investment in downtowns across Vermont. In 2020 and 2021, VHCB helped individuals and businesses recover from the COVID-19 public health emergency by using Coronavirus Relief Funds to secure housing for the homeless and assist farm, food and forest enterprises. The Board has met and exceeded expectations in these areas and is now deploying additional state and federal resources to address Vermont's historic housing crisis.

VHCB contributes to Vermont's economy in many ways: 1) it leverages more than \$4 in other resources for every dollar appropriated; 2) affordable housing is critical to economic growth and attracting future employees, and its absence constrains economic recovery3) the working landscape is among Vermont's primary economic assets - investment in conservation supports travel, tourism and recreation; investment in agriculture promotes inter-generational transfers, expansion, efficiency and diversification; 4) agriculture, forest products and food industries are increasing Vermont's employment base; 5) VHCB works in public private partnerships to provide early and critical funding for housing key to downtown revitalization; 6) uses historic easements on Vermont village and downtown landmarks to invest in the state's heritage and culture; 7) creating supportive services in affordable housing avoids the cost of institutional settings and houses those experiencing homelessness; and 8) programs like SASH, Lead Paint Hazard Reduction and

Healthy Homes contribute to Vermont health care goals. As an example, national research found that SASH alone has reduced the rate of Medicare expenditure growth by \$1,277 per enrollee or more than \$6 million.

Housing and conservation investments support Vermont's multi-decade policy of compact settlement, surrounded by the working landscape and will help the state manage the opportunities and pressures of pandemic-related migration and development. Both types of investment mitigate the impacts of climate change, by achieving energy efficiency in the built environment, and by maintaining the natural benefits of carbon sequestration in forest and farmland, as well as habitat corridors all while helping reduce the risk of severe flooding.

Description of Appropriations, Divisions, & Programs

Property Transfer Tax

By statute, the Board receives a percentage of revenue from the Property Transfer Tax (PTT) (50% of revenues, after certain other uses.) This statutory requirement is frequently bypassed legislatively for budgetary reasons. The Vermont Housing and Conservation Trust Fund (10 V.S.A. Sec. 312) was established as a special fund by the General Assembly to dedicate PTT revenue as a source for affordable housing and conservation. This revenue source was chosen because as property transfers increase the cost of housing and important land and farm resources also increases, limiting access for Vermonters. This is particularly true now as real estate sales and prices soar. Based on the July 2021 revenue forecast, VHCB's statutory share of the Property Transfer Tax is projected at \$30,791,000. Actual PTT revenues are performing above forecasts.

Capital Bill

In some years (most recently in FY2016 - FY2022), VHCB has been included in the Capital Bill, to offset reductions in the statutory amount appropriated from the Property Transfer Tax to the Housing and Conservation Trust Fund and to provide additional funding for Water Quality Improvement programs that help meet the state's TMDLs. Capital bill funding was deemed appropriate because VHCB's investments in housing and conservation benefit the public well after the bonds issued are paid. Many other states and local governments utilize bonding to invest in housing and conservation programs. In all cases, the state's investment through VHCB secures a perpetual benefit and interest in the project. In the case of housing, the affordability remains with the property in perpetuity. In conservation projects, the investment results in a resource for Vermonters with perpetual benefit.

Special Initiatives and Funding

The Board's mission includes the statutory directive to use its authority for the 'timely response to unpredictable circumstances or special opportunities ...' As examples, VHCB administered relief efforts following the financial crisis of 2008 and Tropical Storm Irene in 2011 and Coronavirus Relief Funds, American Rescue Plan Act funds and special state appropriations to respond and recover from the COVID-19 public health emergency.

COVID-19

In 2021, the Board helped in the response to the Coronavirus and is now playing a key role in the state's recovery from the pandemic and economic fallout. In FY22, the Board was allocated \$64 million of American Rescue Plan Act funds (ARPA) as well as \$80 million in state general funds to respond to the urgent need to develop more housing with an emphasis on housing those experiencing homelessness. This funding has enabled the state to double its rate of production of affordable homes and, in coordination with other housing funders and the Agency of Human Services help create new homes for the homeless and help 1300 households transition to permanent housing.

PROGRAMS

The vast majority of the Board's funds are used to provide grants or loans to eligible projects. In housing activities, the Board generally provides funds for acquisition, new construction and rehabilitation of housing properties. For conservation activities the Board generally provides grants to assist in the purchase of an interest in real estate (an easement or purchase of land in fee).

State funding for housing and conservation is enhanced by federal funds secured and administered by VHCB including the HOME Program, the National Housing Trust Fund, Lead Paint Hazard Reduction Program, Housing for Persons with HIV/AIDS, Agricultural Lands Easement Program, and an AmeriCorps program. Over the history of the program the Board has administered and brought to the state more than \$378 million in federal funds.

VHCB works toward the goal of creating and preserving affordable housing by providing funds for projects with mechanisms that assure perpetual affordability, that serve the most economically distressed households, and by placing a priority on "at risk" housing where a lack of action may result in displacement of residents and where action is necessary to prevent the loss of federally subsidized housing projects. In recent years, because of a housing shortage, the Board has also prioritized developing new units and targeting homes to the homeless. When reviewing a project the Board considers the availability of other amenities related to housing, including access to social services, transportation, recreation, and access to open space. Investments in downtown buildings has made housing a driver in the economic revitalization of community centers across the state.

Objectives for the retention of agricultural land include the funding of projects which have a specific and current agricultural use, have the potential of being an economically viable farm unit, and where the loss of the farm would have significant negative impact on neighboring farms. State funds for purchasing conservation easements are matched on a one to one basis by funds from the Federal Natural Resources Conservation Service - Agricultural Lands Easement Program. VHCB has been able to match state funds with approximately \$65 million from this program to date. Proceeds are used by farmers for reinvestment, debt reduction and diversification. Almost half of all projects assist in the transfer of land becoming a key tool in helping young farmers acquire their first farm.

Climate

Housing projects reduce fossil fuel consumption by achieving energy efficiency above state codes, incorporating renewable energy sources, reusing historic buildings and locating on smart growth sites. More than 14 million lbs. of

carbon is saved annually from energy efficiency upgrades in nearly 3,000 apartments and enhanced efficiency standards in more than 1500 new apartments. Conservation projects protect forests and soils that sequester carbon, restore and enhance floodplains, and preserve lands critical to allowing species to move and adapt as the climate changes. VHCB programs implement many of the recommendations in the Initial Vermont Climate Action Plan.

Water Quality

The Board participates in the state's Clean Water Initiative and supports water quality protection and improvement in several ways.

- 1) Conservation projects result in the permanent protection from development or activities that degrade water quality. VHCB's farmland projects include water quality protections on all parcels with surface waters. The clean water benefits of this work allowed VHCB, several years ago, to help the State secure a federal grant, Regional Conservation Partnership Program from the Natural Resources Conservation Service of \$16 million to focus on water quality in the Lake Champlain Basin. VHCB provided the State with match in excess of the \$5.2 million of the required match for this program, over a five-year period. The success of that initiative led to an extension of the State grant being extended, and an additional \$10 million in federal funds is available to Vermont for water quality improvement. Steady appropriations will be critical to VHCB's ability to assist in meeting the match requirement pledged by the State and secure other available federal funds.
- 2) Beginning in FY2018, VHCB is using approximately \$900,000 annually, in capital bill funding to make grants directly to farmers for water quality improvements and, when appropriate, taking some land out of intensive agricultural use. Recreation and natural area projects also enhance water quality by protecting headwaters, riparian buffers and shore land. For these reasons, capital bill funding for VHCB conservation projects has been included in the Clean Water Section since FY2018.
- 3) VHCB was invited to apply and was selected by the Agency of Natural Resources to become the Clean Water Service Provider for the Lake Memphremagog Basin. The Board's capacity is being used by to fill in a gap in the administration of Act 76 in that part of the state.

Farm and Forest Viability Program

Keeping Vermont's landscape open and working depends in large part of the viability of its ownership. VHCB's Farm & Forest Viability Program provides technical assistance and business planning to Vermont farmers, the forest industry, and food business enterprises. The program operates in partnership with the Agency of Agriculture, Food and Markets and the Department of Forest, Parks, and Recreation and under the guidance of an advisory board, per 6 V.S.A. Section 4710. Over time, the Farm & Forest Viability Program assisted over 850 businesses. The program's effectiveness in strengthening rural enterprises has earned it broad support from the agriculture, food, forestry and environmental sectors. The Viability Program was asked by the Legislature to build on this success and it now administers two new activities developed in response to evolving state priorities. It provides grant-writing assistance to small communities through the Rural Economic Development Initiative. In the first four years of operating this program, the Viability program has used \$335,000 to assist 40 small towns and rural enterprises in securing \$6.9 million in grants. The Viability program also makes the grants referenced above to farmers for infrastructure and equipment to improve water quality.

Outdoor Recreation and Natural Area Protection

VHCB supports the protection of natural areas and public recreation lands through the funding of projects providing valuable public access to the state's water resources, and other important outdoor recreational lands, often in cooperation with the Agency of Natural Resources and local communities to provide opportunities for hunting, fishing, hiking, bird watching, and cross-country skiing among other activities. Vermonters are using these protected areas in unprecedented numbers for solace and health during the pandemic. These public assets will also serve as basis for the state's economic recovery and improve its resilience in the face of climate change.

VHCB projects also focus on perpetually protecting areas essential to maintaining the ecological

diversity or natural heritage of the state, including the perpetual protection of habitat containing one or more endangered species.

Historic Preservation

Many of VHCB's awards support the efforts of local communities to provide ongoing public access to locally important resources. Historic projects include buildings on, or eligible for, the National Register of Historic Places that can be used or converted to affordable housing. VHCB also provides funds for historic buildings of outstanding statewide significance which will have intensive public use. These buildings are often in the heart of communities, have helped revitalize many downtowns and village centers and frequently become the base for community services and outreach during the pandemic.

Need/Demand for VHCB Assistance

As the Board looks to FY2023, demand for VHCB funds far outstrips available resources. One impact of the pandemic has been a doubling of the number of Vermont households experiencing homelessness. Rising housing prices, increased homelessness and a very low rental vacancy rate require the creation both of more supply and in particular more supportive housing projects including, the need to develop recovery residences in response to the opiate epidemic, as well as preservation of the existing affordable housing stock. The unmet need for housing affordable to working households limits businesses' ability to recruit employees and constrains growth.

Climate and COVID-related migration to Vermont is putting tremendous pressure on the state's working landscape. The pipeline of agricultural and natural resources projects in the near term exceeds \$25 million. Rising home, land and construction prices are a significant upward pressure. The Board's revised statutory mission to enhance water quality and support forestry adds new pressures on the Board's budget.

The Board's financial statements are independently audited and are subsequently presented in the state's financial statements as a component unit.

Appropriation Key Budget Issues

The Governor has sought to address the state's urgent need for more housing and protect its working landscape and rural communities through this challenging time and in recognition that VHCB's programs will help individuals, businesses and the economy recover from COVID-19.

The VHCB annual state appropriation comes mainly from Property Transfer Tax receipts. The budget recommendation is \$12,628,985 for VHCB from Property Transfer Tax revenues with a reduction of \$1.5 million for VHCB's portion of the 2017 Housing for All Revenue Bond debt payments for an FY2023 appropriation of \$11,128,985.

VHCB is in the FY2023 Capital Bill at \$4,000,000.

Budget Summary

Mission/Vision Statement

Agency of Transportation's mission is, through excellent customer service, to provide for the safe and efficient movement of people and goods.

Our vision is a safe, reliable and multimodal transportation system that grows the economy, is affordable to use and operate and serves vulnerable populations.

Vermont has an extensive multi-modal transportation system. With oversight from the Vermont Legislature, the Vermont Agency of Transportation (VTrans) is responsible for planning, development, implementation and maintenance of a variety of transportation infrastructure including but not limited to roads, bridges, state-owned railroads, airports, park and ride facilities, bicycle facilities, pedestrian paths, public transportation facilities and services, and Department of Motor Vehicles operations and motor carrier enforcement. VTrans serves the entire population of the State of Vermont.

VTrans has 1,278 employees organized in three divisions: Policy, Planning and Intermodal Development; Finance and Administration; and Highway. The Department of Motor Vehicles is also housed within the Agency of Transportation; it has a main office in Montpelier and ten satellite offices statewide.

VTrans interacts with all State agencies and agencies within the United States Department of Transportation as well as other federal agencies, numerous regional and state governments and international jurisdictions and cross-border organizations, local governments, transit agencies, airports, railroads and the other private and non-profit entities engaged in transportation-related activities.

The Highway Division of VTrans, which has the largest number of employees, is organized into five bureaus: Project Delivery, Municipal Assistance, Construction and Materials, Maintenance and Operations, and Asset Management. Together, the Highway bureaus handle year-round maintenance of the road network; provide oversight for construction projects; ensure the quality of materials; provide grants and technical support for municipal projects; procure and maintain the fleet of trucks; provide information to the traveling public on road conditions; inspect and maintain bridges, culverts, signs, signals; and is the lead entity on safety and training.

The Division of Policy, Planning and Intermodal Development (PPAID) oversees major non-highway transportation modes including state-owned rail lines, nine state-owned airports and public transit providers. In addition to providing statewide planning and policy support, the division works with Vermont's eleven Regional Planning Commissions and, in the Burlington region, the Metropolitan Planning Organization, to develop regional transportation plans and generate input on prioritizing transportation projects in the regions. The division's work is also supported by public input from the Rail Advisory Council, Aviation Advisory Council and the Public Transit Advisory Council. PPAID also is the lead on research, mapping, development review and public outreach.

The Finance and Administration Division provides support for and communicates methods to achieve VTrans' vision and mission. The Division works to maximize financial and human resources, and to improve the Agency's business practices to meet the needs of its internal and external customers. The Division consists of the following sections: Audit, Budget and Financial Operations, Civil Rights and Labor Compliance, Contract Administration, Hearings, Facilities, Performance and Strategic Initiatives and the VTrans Training Center (VTTC) which includes VTrans Safety Officer.

The transportation budget is composed of Federal, State and Local funds. Federal fund sources come from the Federal Highway Administration, Federal Transit Administration, Federal Railroad Administration, Federal National Highway Safety Administration, and the Federal Aviation Administration. State funds are appropriated from the State Transportation Fund and the Transportation Infrastructure Bond Fund. The State Transportation revenues are derived primarily from three sources: motor fuel taxes and assessments, motor vehicle purchase and use tax, and Department of Motor Vehicle fees.

To meet these various objectives, VTrans has established a set of five goals that act as guiding principles in everything the Agency does. These goals are:

Promote organizational excellence by attracting, developing, and retaining a talented, diverse, and engaged workforce.

Grow Vermont's economy by providing a safe, reliable and efficient transportation system in a state of good repair.

Make Vermont more affordable and serve the vulnerable by providing accessible, convenient and affordable travel choices.

Transition to an energy efficient, advanced technology transportation system.

Modernize and improve government efficiency through innovation, continuous improvement and quality customer service.

The Vermont Agency of Transportation (VTrans) provides services through three divisions: Highway; Policy, Planning and Intermodal Development; and Finance and Administration, plus the Department of Motor Vehicles (DMV). These four organizational areas play an integral role in supporting VTrans' mission.

HIGHWAY DIVISION

The Highway Division is made up of four bureaus and the Office of Highway Safety.

The Asset Management Bureau is composed of two sections; Data Management and Corridor Management. The Data Management Section manages one of the Agency's most important assets; data. It also maintains asset inventories and acquires asset condition and location data for the purpose of identifying; prioritizing and optimizing which assets are to be treated during future budget cycles. Personnel are responsible for ensuring that data is properly validated and cleansed so that high quality data is available for analyses. This section also provides supportive services for data collections and analysis functions across the Agency. Another role that this Section plays is that this group transforms Agency data into information that can be efficiently consumed by internal and external stakeholders. The Corridor Management Section, is responsible for programming and budgeting. This Section works closely with the program managers on developing the Agency's annual budget. The National Bridge Inventory System/Inspection Unit is located within the Budget and Programming Section and includes four bridge inspection teams, who are charged with inspection of all state and local bridges on a two-year cycle. The data and information provided by the bridge inspection teams are essential to perform load rating analysis activities and are also used to inform decisions regarding project development and prioritization. In addition to the bridge inspection team are a team of engineers who work with DMV to process overweight permits.

The Project Delivery Bureau consists of the Highway Safety and Design Section, Structures Section, Right-of-Way and Environmental Section and the Municipal Assistance Section. The Highway Safety and Design Section is made up of the Pavement Design, Roadway Design and Traffic Design Units and the Technical Development Unit. It is responsible for the design and delivery of highway improvement projects on Vermont's interstate, state and local highways, involving pavement rehabilitation, roadway reconstruction and intersection safety and operational improvement. The Structures Section is made up of the Conventional Project Delivery, Accelerated Bridge, Alternative Contracting, and Maintenance Project Units, responsible for the design and delivery of bridge and large culvert replacement and rehabilitation projects on Vermont's interstate, state and local highways. It also includes the Hydraulics Unit, which performs hydrologic and hydraulic analyses for bridge scour, drainage, stream flow and the proper sizing of bridges, culverts and other drainage facilities. The Right-of-Way and Environmental Section is comprised of multiple units that support all areas of the Highway Division, and others, within their areas of expertise. The Right-of-Way Units are responsible for the acquisition and management of property needed for transportation uses. The Environmental units are responsible for identifying all cultural and natural resources and obtaining the necessary State and Federal permits and clearances when such resources are impacted by Agency projects. The Municipal Assistance Section consists of the Better Backroads and Local Projects Sections. The Better Backroads Section provides for state funded grant opportunities and technical assistance related to the use of erosion control and maintenance techniques on the

state's gravel roads that save money and protect and enhance Vermont's lakes and streams. The Local Projects Section primarily provides oversight of locally developed municipal capital improvement projects, ensuring that all requirements of the Code of Federal Regulations, the Federal-Aid Program Stewardship and Oversight Agreement, and state regulations are met to ensure full federal and state participation. Projects and staff responsibilities start at scoping or project definition and extend through completion and acceptance of the project and project closure. Locally developed capital improvement projects can be funded through most of the division's capital programs including Transportation Alternatives, Bicycle and Pedestrian Facilities, Park and Ride, Town Highway Bridge, Roadway, Safety and Traffic Operations and Multi-Modal Programs. Included in the Local Projects Section are some agency or state developed projects in the Bicycle and Pedestrian Facilities, Park and Ride and Rest Area Programs.

The Construction and Materials Bureau consists of the Materials, Geotechnical Engineering and Construction Sections. The Materials Section ensures only quality materials are incorporated into the work. The group provides acceptance testing at our American Association State Highway Transportation Officials (AASHTO) accredited facility in Berlin, provides sampling and testing oversight at bituminous and Portland cement production facilities, and includes an independent assurance unit. The Geotechnical Engineering Section is tasked with providing foundation recommendations for all structures, has a subsurface investigation team to take borings and a geologist to analyze rock samples and administer the rock fall hazard mitigation plan. The group also provides slope stability analysis for the highway and rail network and tests soil and aggregate samples. The Construction Section provides oversight of most capital improvement projects with full time resident engineers as required by the Code of Federal Regulations. Staff are located statewide in four regional offices; Colchester, Mendon, St. Johnsbury and Wilder and collocated with staff from the Maintenance and Operations Bureau in the Colchester and Mendon facilities. The primary tasks are to provide full oversight of the contractors' work, to ensure timely reimbursement for the work and to prepare the required documentation to ensure full federal participation.

The Maintenance and Operations Bureau is comprised of three distinct Bureaus - Maintenance Bureau, Operations and Safety Bureau, and the Support Services Bureau. The Maintenance Bureau is the largest in the Highway Division and will be focused on highway maintenance with the district teams and statewide highway maintenance. The Support Services Bureau is comprised of the Central Garage, Logistics/Facilities, Hazmat and Water Quality Units. The Operations and Safety Bureau combines the existing Transportation Systems Management and Operations (TSMO) unit and the Office of Highway Safety.

POLICY, PLANNING AND INTERMODAL DEVELOPMENT

The division of Policy, Planning and Intermodal Development includes the Policy, Planning and Research Bureau and the Aviation, Public Transit and Rail programs. The policy and planning Bureau consists of the Policy and Planning, Public Outreach, Development Review, Mapping and Research sections.

The Policy and Planning Section assists the Secretary in analyzing federal transportation policy and reauthorization issues, manages the Legislative Liaison function of the Agency and periodically updates the State's Long Range Transportation Plan. This section also prepares applications for federal discretionary grants, conducts systems analysis and planning, prepares special studies and reports on emerging issues and when directed by the legislature. The Policy and Planning Section maintains and applies the statewide travel demand model, and prepares policy plans for all modes of transportation. The section is responsible for facilitating agency-wide strategic planning efforts, environmental policy making and providing background and support for Agency legislative activities. This section also has liaison responsibilities with many state and federal agencies, regional and national transportation organizations, and coordinates work with Canadian federal and provincial transportation and cross-border entities. This section manages the day-to-day operations of the Transportation Planning Initiative, a partnership with the state's eleven regional planning commission to engage Vermont's citizens and municipalities in the identification of local and regional transportation needs, planning and evaluation of specific transportation projects and services, coordination with land use, economic development and environmental initiatives, and prioritization of projects for inclusion on the state transportation capital program.

The Public Outreach Section develops web content, social media, media relations, printed materials, updates on construction activity and road closures, support for public presentations and marketing support for Amtrak services.

The Development Review Section reviews Act 250 land use applications to evaluate the impacts of proposed land development projects on the state transportation system and for consistency with Agency plans or policies and often represents the Agency in Act 250 proceedings. This section manages the application of transportation impact fees per Act 145 of 2014 (24 V.S.A. Sections 6101-6111) and is also responsible for issuing state highway access permits per 19 V.S.A Section 1111.

The Mapping Section maintains the official record of all public roadways in the state, which includes the processing of the Certificates of Highway Mileage and maintenance of the Official Town Highway Maps. The Highway Mileage Certificates are the basis for allocation of the legislature's appropriation of annual town highway aid pursuant to 19 V.S.A.Sections 305, 306. Town highway maps are available on-line and paper copies are provided to all municipalities. The road centerline data maintained by the mapping section is used extensively to support local, regional and statewide planning activities. This section also maintains Route Logs for all the highways eligible for federal aid that document all the construction and resurfacing projects completed in the previous years. The Mapping Section also maintains a library of state, town and county maps, statewide highway, town highway, and other special use maps that have been produced by the Agency. These maps are provided to the legislature, VTrans personnel, municipalities and the public. The Mapping Section staff also provides expert GIS data and spatial analysis services that support the Agency's planning projects and asset management systems.

The Research Section compiles the Approved Products List, assures completion of the Agency research program, represents the state on regional and national research efforts and fulfills the Federal mandate to provide required transportation research as a function of the State Planning and Research program grants. The Section manages external research projects completed by the University of Vermont and other contractors. The projects are academically oriented work that provides basic and applied knowledge for VTrans. In addition, the Section provides expert research design and completion in collaboration with VTrans Bureaus and Sections. Research is targeted at new materials, new processes, environmental benefits and issues that affect VTrans. Example projects include extended duration studies on Pavement Life, Aquatic Organism Passage, Reclaimed Stabilized Base for Roadways among many. The Research Section also provides literature searches, national survey of State DOTs, FHWA and agency partners on emerging technology issues.

The Public Transit Program provides planning, administration and oversight of a statewide public transportation system through grants to regional public transportation providers for mobility services for the public. Access to employment, medical services and general mobility are provided through a network of public and private non-profit agencies. These services either provide or are coordinated with human service transportation providers that include elderly and disabled transportation as well as Medicaid transportation services. The program also provides financial support for an intercity bus transportation network.

The Rail and Aviation Bureau consists of the Rail and Aviation Programs. The Rail Program assists in the development of rail transportation infrastructure for shippers and passengers, and provides support to improve the freight and passenger infrastructure with recognition of the social, economic, and environmental importance of rail as a major component of the state's transportation system. The Aviation Program provides a safe environment for users of the system, preserving the state-owned aviation infrastructure, promoting aviation-related activities and education programs, and expanding travel opportunities at the 16 public use airports located throughout Vermont.

FINANCE AND ADMINISTRATION

The Finance and Administration Division provides support for and communicates methods to achieve VTrans' vision and mission. The Division works to maximize financial and human resources, and to improve the Agency's business practices to meet the needs of its internal and external customers. The Division consists of the following sections: Audit, Contract Administration, Facilities, Hearings, Budget and Financial Operations, Performance and Strategic Initiatives, Civil Rights and Labor Compliance and the VTrans Training Center (VTTC) which includes VTrans Safety Officer.

Audit provides audit assistance to VTrans' management and audit assurance about VTrans' administration of public funds. Contract Administration is responsible for the performance of various contracting functions. Facilities Manage-

ment oversees and manages the Agency's buildings and internal service needs. The Hearings Section hears appeals to decisions issued by the various departments of the Agency, including driver's license suspensions issued by the Department of Motor Vehicles, Budget and Financial Operations oversees the development and control of VTrans' budget and processes all financial and related transactions. Performance and Strategic Initiatives is responsible for promoting an organizational culture of continuous improvement, innovation and collaboration by working with VTrans business units on process improvements and process management projects.

Civil Rights and Labor Compliance is responsible for ensuring compliance with all federal and state Equal Employment Opportunity and Affirmative Action regulations and labor requirements within not only the Agency but on all US Department of Transportation funded projects. VTrans' goal of creating workforce diversity and a workplace free from harassment, intimidation and discrimination is pursued through the development and administration of numerous programs and initiatives.

The VTrans Training Center (VTTC) is dedicated to bringing VTrans employees high quality, job relevant training. VTTC prides itself in creating and supporting a learning environment; providing the right tools and resources to develop a skilled, knowledgeable and engaged workforce for today and for the future. The Safety Office maintain policies and practices in compliance with State and Federal regulations to ensure the safety of VTrans staff and worksites as well as municipal highway workers.

Transportation - Finance and Administration

Department/Program Description

FINANCE AND ADMINISTRATION

The Finance and Administration Division provides support for and communicates methods to achieve VTrans' vision and mission. The Division works to maximize financial and human resources, and to improve the Agency's business practices to meet the needs of its internal and external customers. The Division consists of the following sections: Audit, Contract Administration, Budget and Financial Operations, Performance and Strategic Initiatives, Civil Rights and Labor Compliance, Facilities and Logistics Management, Hearings Section, Emergency Management and Response and the VTrans Training Center (VTTC) which includes the VTrans Safety Office.

Audit provides compliance assistance to VTrans' management and audit assurance about VTrans' administration of public funds by reviewing overhead costs and invoices with architectural and engineering consulting firms. This section also serves as the Agency's records management team responsible for the systematic maintenance and disposition of Agency records.

Contract Administration is responsible for the procurement and preparation of all Agency contracts, agreements, grants, and work authorizations while ensuring all state and federal regulatory compliance is upheld. Contract Administration works closely with Project Managers and federal funding partners to maximize efficiency and transparency while promoting fair and open competition through the procurement process.

Budget and Financial Operations oversees the development and control of VTrans' budget. This section is responsible for the compilation and analysis of complex data for federal reports, fiscal management of federal program administration, accounting records for all Agency transactions, preparing payroll, processing all accounts payable and receivable, and oversight and implementation of internal control systems.

Facilities Management oversees and provides services to the entire Agency related primarily to making repairs and renovations to existing VTrans buildings and managing new VTrans building projects, including maintenance facilities and sheds. This section also provides internal services to ensure the continuous needs are met.

The Vermont Agency of Transportation Hearings Section hears appeals to decisions issued by the various departments of the Agency, including driver's license suspensions issued by the Department of Motor Vehicles.

Performance and Strategic Initiatives is responsible for promoting an organizational culture of continuous improvement, innovation, and collaboration by working with VTrans business units on process improvements and process management projects, identifying and measuring programmatic performance measures and contributing to state and federal performance management initiatives.

Civil Rights and Labor Compliance is responsible for ensuring compliance with all federal and state Equal Employment Opportunity and Affirmative Action regulations and labor requirements within not only the Agency but on all US Department of Transportation funded projects. VTrans' goal of creating workforce diversity and a workplace free from harassment, intimidation and discrimination is pursued through the development and administration of numerous programs and initiatives.

The VTrans Training Center (VTTC) is dedicated to bringing VTrans employees high quality, job relevant training. VTTC prides itself in creating and supporting a learning environment; providing the right tools and resources to develop a skilled, knowledgeable and engaged workforce for today and for the future. The Safety Office maintain policies and practices in compliance with State and Federal regulations to ensure the safety of VTrans staff and worksites as well as municipal highway workers.

Emergency Management and Response (EMR) plans, prepares, and coordinates responses to emergent events, The primary mission within EMR is to position the Agency to be prepared for and rapidly respond to situations that may

impact mission essential functions, public safety, or to assist with localized, or statewide emergencies. EMR works closely with Vermont Emergency Management, Federal Highways and FEMA in planning for, and responding to events that impact Vermont.

Transportation - Aviation

Department/Program Description

The Aviation Program provides a safe environment for users of the system, preserving the aviation infrastructure, promoting aviation-related activities and education programs, and expanding travel opportunities at the 16 public use airports located throughout Vermont.

Vermont's aviation assets remain in relatively stable, good condition. The focus in FY23 will be on a continuing level of investment for improvements as well as continuing to maintain the current infrastructure. The Aviation Program will continue to make Federal Aviation Administration (FAA) mandated runway safety area improvements as well as upgrading assets when it makes sense for safety, security and economic development purposes on state-owned airports.

The FY22 budget funded construction improvements like the runway paving of the safety areas at the Morrisville/ Stowe Airport combined with the parallel taxiway project. This project is substantially complete leaving just the fuel farm portion of the project remaining in FY23. The FY23 budget will continue to focus on safety improvements and state of good repair of state-owned assets. VTrans continues to work with the FAA on federally eligible projects that are funded at a 90 percent federal and 10 percent state fund match.

VTrans is focusing on several projects at the Franklin County Airport. This includes final design work on a runway reconstruction project. This project includes a new runway surface that will also expand the runway width from 65 feet to 75 feet. It will include new LED lighting and upgraded paint markings. VTrans is also working on the design of the next phase of the Franklin County Airport runway project which is a runway extension of 1000 feet which will result in a total runway length of 4001 feet along with improved safety area on each end. FY23 will also focus on acquiring easements in Springfield to meet the safety area design and approach criteria. The proposed FY23 budget also includes continued support for Vermont's major commercial service airport - Burlington International (BTV) - which is municipally owned.

In addition to projects, the FY23 Aviation budget also includes the maintenance and operation of the existing infrastructure. VTrans staff will continue to do the seasonal maintenance such as vegetation management in the summer and snow plowing in the winter months. We will continue to focus on the state of good repair for the buildings and infrastructure on the airfields such as lighting, beacons and weather systems.

Convenient air service is an integral component of moving people and goods and has been determined to be among those criteria reviewed by businesses evaluating Vermont.

Cape Air, which provides commercial passenger service from the Rutland Southern Vermont Regional Airport to Boston, continues to have good passenger levels and provides a critical service to the region. Cape Air started using an upgraded aircraft to a more modern, slightly larger, aircraft in 2020 for some operations into Rutland, we expect to see more use of this new aircraft in 2022 Tradewinds will continue service to Morrisville Stowe State Airport to and from White Plains, NY but with a limited schedule. Blade will continue charter service also out of White Plains, NY to the Morrisville Stowe Airport to fill any gap. In addition, Rutland continues working to develop more air service through a strategic plan and Air Cargo continues to grow at both Rutland and Knapp State airports. In addition to the three commercial service options (Burlington, Morrisville-Stowe and Rutland), airports must be able to accommodate corporate and business travelers in all weather conditions with 24-hour access. Appropriate runway length, good instrument approach capability (navigational aids), and lighting facilities are key components for providing a safe environment for business, recreational, and emergency responders. The commissioning of GPS approaches, statewide continue to be a focus, increasing the safety and functionality of all our airports.

Transportation - Buildings

Department/Program Description

Transportation Buildings work includes:

A systematic replacement cycle for facility components such as heating plants and fuel storage tanks.

New salt and sand sheds (to address environmental and operational efficiency issues).

Major renovations and replacement of aging components such as roofing, door, windows, and lighting.

New garages to replace those which due to their poor condition are beyond rehabilitation or repair.

Where appropriate transition to renewable energy sources and reduce emissions with a focus on efficiency.

Transportation Board

Department/Program Description

The Transportation Board performs regulatory and quasi-judicial functions relating to transportation. These responsibilities include response to appeals, petitions and specific activities pursuant to Highways (19 V.S.A.); Aeronautics and Surface Transportation (5 V.S.A.); Scenery Preservation Council construction criteria (10 V.S.A. Section 425); Class 1 Town Highway weight limits (23 V.S.A. Section 1393); Scenic Roads (25 V.S.A., Sections 2501-2502); Utility disputes and requests (30 V.S.A. Section 2521, 2513 & Chapter 71); Eminent Domain (29 V.S.A., Sections 792-4; 30 V.S.A., Sections 113, 114, 117), and disputes between national auto manufacturers and Vermont new-car dealers. (9 V.S.A., Sections 4083-4100; 19 V.S.A. Section 3). The Board also oversees the New Motor Vehicle Lemon Law (9 V.S.A., Sections 4170-4181).

The Transportation Board performs regulatory and quasi-judicial functions related to transportation. Responsibilities include hearing:

- 1. Appeals from agency decisions regarding measurement, description or reclassification of town highways. (19 V.S.A. Section 305).
- 2. Small claims (up to \$5,000) appeals of agency decisions (19 V.S.A. Section 20).
- 3. Appeals, when requested in writing, of highway decisions by the secretary of transportation when assuming powers and duties of a select board in unorganized towns and gores (19 V.S.A. Section 16).
- 4. Appeals, when requested in writing, of decisions of the secretary of transportation relating to approval of weight limits on Class 1 town highways within villages or cities (23 V.S.A. Section 1393(c)).
- 5. Appeals from the decisions of the secretary of transportation regarding the use of town highways (23 V.S.A. Section 1042)
- 6. Appeals, when requested in writing, regarding legal disputes over agency contracts and certain highway access permits.
- 7. Appeals, when requested in writing, regarding the fairness of rents and fees charged for the occupancy or use of state-owned properties administered by the agency.
- 8. Disputes involving the decision of a select board under subdivision 302(a)(3)(B) or subsection 310(a) of 19 V.S.A. not to plow and make negotiable a Class 2 or Class 3 town highway during the winter.
- 9. Appeals by one municipality of a neighboring municipality's intent to close a road that runs through both.
- 10. Conduct public hearings on matters of public interest, after which it shall transmit its findings and recommendations to the secretary and the chairs of the Senate and House committees on transportation in a report which shall be a public document.
- 11. Conduct public hearings pursuant to 19 V.S.A. Section 5(d)(8) on the development of State transportation policy, the mission of the Agency and State transportation planning, capital programming and program implementation.
- 12. Conduct compensation hearings and make damage awards where the Agency of Transportation and affected landowners are unable to agree on the amount of compensation.
- 13. Designate state scenic roads and corridors (19 V.S.A. Section 2501(a)), and approve byway designation.

- 14. Approve new highway or public ways opening into or connecting with established limited-access highways (19 V.S.A. Section 1708).
- 15. Disputes involving utility installations across and along state highways (30 V.S.A. Chapter 71), and approve private utility lines along state highways (30 V.S.A. Section 2521).
- 16.Approve use of state rights-of-way for private sewer and water lines (19 V.S.A. Section 1111(d).
- 17.Disputes regarding compensation of utilities along railroad tracks (30 V.S.A. Section 2513).
- 18. Issues regarding rail-highway grade crossings, farm crossings and other railroad-related responsibilities outlined in Title 5.
- 19. Conduct inquiry into causes of accidents, collisions or derailments regarding railroads, and conduct public hearings on the same, if necessary (30 V.S.A. Section 3454).
- 20.Approve variances pursuant to 5 V.S.A. Section 3670 to the minimum vertical clearance of 23 feet over railroad rights of way.
- 21.Requests for airports and restricted landing areas pursuant to Title 5, Section 207 (a-h).
- 22. Contract appeals against municipalities on projects that involve federal funds.
- 23. Authorize the removal of beaver dams that threaten highways, railroads or airports (19 V.S.A. Section 37)
- 24.Enforce all provisions and hear and determine all disputes arising out of 9 V.S.A. chapter 108, the
- Vehicle Manufacturers, Distributors, and Dealers Franchising Practices Act.
- 25. Maintain the accounting functions for the duties imposed by chapter 108 of Title 9 separately from the accounting functions relating to its other duties.
- 26.Disputes involving a determination of the agency under 19 V.S.A. Section 309c that the municipality is responsible for repayment of federal funds required by the Federal Highway Administration.
- 27.Oversees the New Motor Vehicle Arbitration Board, which adjudicates the so-called "Lemon Law," which was established pursuant to 9 V.S.A. Sections 4170-4181.
- 28. Approve requests to name transportation facilities owned, controlled or maintained by the State.

Transportation - Program Development

Department/Program Description

The core project delivery programs managed by the VTrans Highway Division include the following; Interstate Bridge, State Highway Bridge, Paving, Roadway, Traffic & Safety, and Municipal Assistance Bureau programs such as Park and Ride, Transportation Alternatives and Bike & Pedestrian Facilities. Under a separate appropriation, though managed by many of the same staff, are the Town Highway Bridge Program and the Municipal Mitigation Assistance Program, which includes the Better Roads Program.

General highlights for each of the core programs are as follows:

Bridge Programs; Interstate, State Highway and Town Highway: The structures program provides funding for the inspection, design, construction and maintenance of Interstate, State, and Town Highway bridges. Vermont's aging network of highway bridges and large culverts highlight the significant challenges currently facing our transportation users. To meet these challenges VTrans continues to focus its efforts on the preservation and enhancement of existing bridges and large culverts and continues to achieve steady progress towards improving the overall condition of Vermont's structures. The project selection and program emphasis areas are geared toward ensuring that VTrans is making the right level of investment in the right bridge and at the right time. VTrans is committed to spending preservation dollars on minor improvements to our State's bridges to keep them in fair and good condition thereby reducing the amount of money that would otherwise need to be spent on future, and more costly, major repairs. The Structures Section continues to advance our Accelerated Bridge Program (ABP) and use innovative contracting methods to deliver on-time, effective, efficient and economical projects to VTrans' customers.

Roadway: The Roadway Program has aligned its resources to focus on overall system improvement and preservation strategies, while also delivering multiple high profile, large scale roadway reconstruction projects. The Roadway Program includes a wide range of project scopes, such as major roadway reconstruction projects, increases in the capacity of the transportation system; and asset driven projects such as ledge and slope stabilization activities, small culvert replacements and drainage improvements.

Paving: Paving continues to be one of the Agency's primary focus areas and is recognized as a key program for ensuring a safe and reliable transportation system. The Paving Program continues to support a reduction in the amount of poor and very poor highway mileage while providing funding for preventive maintenance treatments that will improve or maintain highway segments in good or fair condition. Based on 2019 pavement data 12% of the VTrans managed highway system is in very poor condition, which is better than the performance target of 25%. The proposed level of investment will result in the preservation and rehabilitation of over 250 miles of State and Class 1 Town Highway mileage through innovative practices and budget optimization. VTrans is planning to level miles of State Highway by using a combination of District Leveling and Federal Paving strategies.

Traffic & Safety: The Traffic and Safety Program has aligned its resources to focus on projects that will improve safety and/or mobility, as well as improving overall asset condition. In addition to specific infrastructure projects, there are line items with funding which focus on upgrading pavement markings, sign replacements, High Risk Rural Roads (Systemic Local Roads Safety), the Highway Safety Improvement Program, information plazas, the Governor's Highway Safety Program and the Strategic Highway Safety Plan. The collection and assortment of projects within the Traffic & Safety Program reinforce the Agency's continued emphasis on safety, infrastructure improvement, traffic sign and signal upgrades, and pavement marking upgrades on the Interstate, State, and Class 1 & 2 Town Highways.

VTrans also administers the Highway Safety Plan (HSP) required by the National Highway Transportation Safety Administration (NHTSA). The HSP is developed on a yearly basis to address behavioral issues around highway safety. These funds are used by state, local and private non-profit agencies and organizations to address enforcement, education and emergency medical services issues around highway safety. These behavioral safety projects are focused around four main topics: impaired driving, occupant protection, speeding and distracted driving.

Park & Ride: The Park & Ride program is an important investment considering the number of Vermonters and visitors to the state that strive to travel as efficiently and economically as possible, all while minimizing impacts to the environment. The statewide line items address both current and future infrastructure, providing funding for future state park and ride project opportunities, and investments in electric vehicle charging.

Rest Areas: This program primarily funds preservation, preventative maintenance, and repair projects for buildings and pavements at State rest areas. This program does not fund any operating costs. These funds will be used for improvements to a variety of building components including exterior wall systems, exterior doors, windows, roofing, heating systems, cooling systems, mechanical controls, septic tanks, leach fields, generators, lighting and controls, fire/security alarms, security cameras and equipment, flooring, and walkways and sidewalks.

Municipal Mitigation Assistance Program: The Agency remains committed to environmental stewardship and mitigating water quality impacts from the roadway network by providing grant opportunities and technical assistance to communities.

Transportation Alternatives: The Transportation Alternatives Program provides project for many different communities. These projects address environmental mitigation related to clean water and/or stormwater concerns, covered bridge restoration and bicycle and pedestrian facilities.

Bike & Pedestrian Facilities: The Agency remains committed to offering municipalities the opportunity to manage projects at the local level, and the Agency continues to leverage federal and state funds so that communities can deliver transportation infrastructure improvements on the local level. In addition to projects there are several statewide line items to address both infrastructure and education needs.

Transportation - Maintenance State System

Department/Program Description

DISTRICT MAINTENANCE AND FLEET DIVISION

Maintains the interstate and state highway infrastructure; maintains fleet assets, including multi-use trucks and specialized heavy equipment; provides administration over environmental regulatory compliance and natural and cultural resource protection ensuring compliance under various federal and state environmental regulatory programs, provides technical assistance to the district maintenance staff and accomplishes the condition based bridge needs with project design and oversight and is responsible for the temporary bridge management oversees all regional offices, maintenance districts, and garages statewide, including the Central Garage; supports DMV Commercial Vehicle Enforcement Section, Aviation, and Bridge Inspection equipment through intra-agency service agreements.

District Maintenance

The Agency of Transportation recognizes the critical importance of our transportation assets and believes that a focus on maintenance of existing infrastructure is critical to the long-term viability of the transportation network and is a cost-effective method of keeping our assets in good condition. District Maintenance operates out of 9 District offices, which includes 59 maintenance garages.

District Maintenance continues to focus on bridge and guardrail repair, culvert repair, and culvert replacement, but have worked to shift to more cyclical maintenance to extend the useful life of the infrastructure. Routine maintenance activities like pavement patching, ditching, tree and brush cutting, bridge washing and cleaning culverts have often been postponed in past years due to the need to do more "construction" type activities. These cyclical maintenance activities will be a focus for us moving forward.

Our increased emphasis on necessary maintenance for bridges will extend their useful life and lessen the need for more costly repairs and replacements in the future. We have worked with others within the Agency to establish the critical activities such as bridge washing, protective coating for concrete, repair of downspouts, troughs, weep tubes, greasing beam ends & bearings, crack sealing bridge decks and repair of plug joints. We have also added a Bridge Maintenance Section to investigate and design repairs established in "Bridge Findings" that are identified in periodic bridge inspections. This section addresses the previously unmet need between cyclical maintenance of bridges and the rehabilitation and reconstruction that are the most costly and necessary when the structure falls to a state of disrepair.

District Maintenance is working in conjunction with the Highway Division, Project Delivery and the Asset Management Bureaus to capture and implement projects identified by staff performing inspections of the infrastructure such as pavement condition problems, slope issues, failing culverts, etc. The collaboration between these groups has helped to include inspection findings into construction projects to allow for more of the planned work to be accomplished by maintenance forces.

Snow and ice control (SIC) is the single largest expense for district maintenance, so it is imperative to continue to find ways to improve on the efficiencies in providing for the safe and efficient movement of people and goods. The use of pre-mixed liquid salts has been adopted as a tool to assist winter maintenance and has been instrumental in providing salt reductions while meeting the levels of service identified in the SIC plan. We continue to collaborate with other DOTs in the region and nationwide to research and discover innovative ideas on providing this service in the most cost-effective way possible.

Fleet Management - Appropriation 8110000200

VTrans Fleet manages vehicles and equipment owned and assigned to the Agency of Transportation. Fleet preventive maintenance and repairs of agency-owned vehicles and equipment are performed at our 7 fleet service facilities located throughout the State. VTrans Fleet purchases, maintains, and administers the mid-size and heavy-duty high-

way and bridge maintenance fleet assets, including multi-use plow and dump trucks and specialized heavy and construction equipment. The division also supports Highway Maintenance, DMV Commercial Vehicle Enforcement Section, Aviation, and Bridge Inspection equipment through intra-agency service agreements.

VTrans Fleet is also taking a more holistic fleet management approach by overseeing the procurement and tracking of the agency's light-duty fleet vehicles provided by BGS through the State's centralized fleet program. This effort will ensure the VTrans fleet is right-sized, managed cost-effectively, and help meet our fleet electrification goals.

We continue to focus on returning our plow truck fleet to an 8 to 10-year replacement schedule. Timely replacements minimize costly repairs and breakdowns and provide excellent service to Vermont's mission of safe movement of people and goods.

Transportation - Policy and Planning

Department/Program Description

The Policy, Planning and Research Bureau consists of the Policy and Planning, Public Outreach, Development Review, Mapping and Research sections. The Policy and Planning Section fulfills the requirements of the Federal State Planning and Research (SPR) program. It assists the Secretary in analyzing federal transportation policy and reauthorization issues, manages the Legislative Liaison function of the Agency and periodically updates the State's Long-Range Transportation Plan. This section also prepares applications for federal discretionary grants, conducts systems analysis and planning, prepares special studies and reports on emerging issues and when directed by the General Assembly. The Policy and Planning Section maintains and applies the statewide travel demand model and prepares policy plans for all modes of transportation. The section is responsible for facilitating agency-wide strategic planning efforts, environmental policy making and providing background and support for Agency legislative activities. This section also has liaison responsibilities with many state and federal agencies, regional and national transportation organizations, and coordinates work with Canadian federal and provincial transportation and cross-border entities. This section manages the day-to-day operations of the Transportation Planning Initiative, a partnership with the state's eleven regional planning commissions to engage Vermont's citizens and municipalities in the identification of local and regional transportation needs, planning and evaluation of specific transportation projects and services, coordination with land use, economic development and environmental initiatives, and prioritization of projects for inclusion on the state transportation capital program.

The Public Outreach Section oversees Agency media relations; develops website and social media content; creates informational videos, graphics, and audio materials; oversees updates on construction activity and road closures; develops communication campaigns, especially in support of Highway Safety; provides emergency communication when necessary; and coordinates initiatives to improve internal communications and employee engagement.

The Development Review Section reviews Act 250 land use applications to evaluate the impacts of proposed land development projects on the state transportation system and for consistency with Agency plans or policies and often represents the Agency in Act 250 proceedings. This section manages the application of transportation impact fees per Act 145 of 2014 (24 V.S.A. Sections 6101-6111). It is also responsible for issuing permits for work within the state highway right-of-way per 19 V.S.A. Section 1111 for activities such as construction or modifications of driveways, installation or modifications to various utilities, and construction of turn lanes, traffic signals, sidewalks or other transportation projects by entities other than the Vermont Agency of Transportation.

The Mapping Section maintains the official record of all public roadway mileage in the state, which includes the processing of the Certificates of Highway Mileage, maintenance of the Official Town Highway Maps, and publication of the Annual Mileage Summaries. The Highway Mileage Certificates are the basis for allocation of the legislature's appropriation of annual town highway aid pursuant to 19 V.S.A. Sections 305, 306. Town highway maps are available on-line and paper copies are provided to all municipalities. The road centerline data maintained by the mapping section is used extensively to support local, regional and statewide planning activities. The Mapping Section reviews, modifies and requests designation modifications to FHWA for functional class and national highway system designation, in coordination with state, regional and local officials, and to maintain associated files and maps. Annually the Certified Public Highway Mileage report is filed with FHWA that documents all the public traveled highways within Vermont. This section also maintains straight line diagrams, known as Route Logs for all the highways eligible for federal aid that document all the construction and resurfacing projects completed in the previous years. The Mapping Section also maintains a library of state, town and county maps, statewide highway, town highway, and other special use maps that have been produced by the Agency. These maps are provided to the legislature, VTrans personnel, municipalities and the public. The Mapping Section staff also provides expert GIS data and spatial analysis services that support the Agency's planning projects and asset management systems.

The Research Section assures completion of the Agency research program as required by the Federal State Planning and Research program. Section staff represent the state on regional and national research efforts and manage external research projects completed by the University of Vermont, other academic institutions and contractors. External projects generally provide applied knowledge for VTrans and are driven by needs articulated by an Agency Champion

and Technical Advisory Committee. In addition, the Section carries out in-house research projects in collaboration with staff from all Agency Divisions and the Department of Motor Vehicles and assists with integrating research recommendations into practice (implementation). Research is targeted at new materials, new processes, and transportation and environmental policy issues that affect the Agency and State. Example projects from among many include Quantifying Nutrient Pollution Reductions Achieved by Erosion Remediation Projects on Vermont's Roads, Reclaimed Stabilized Base-Stabilizing Agent Selection and Design, and developing a Traffic Safety Toolbox for managing speed. The Research Section also provides literature searches and national surveys of State DOTs, FHWA and agency partners on emerging technology issues.

Budget Summary

Transportation - Rail

Department/Program Description

The Vermont Agency of Transportation Rail Program is the steward of the State's rail network, ensuring the safe efficient movement of goods and passengers, and the management of associated rail assets throughout the state. Vermont led the way many years ago and purchased active railroad property as the rail industry was declining. Many other states across the country have since seen the need to own this critical transportation infrastructure and are now buying rail property. VTrans primary focus is on the preservation and improvement of Vermont's rail infrastructure, both publicly owned and private, and encouraging increased use of rail for moving freight efficiently.

Vermont's rail infrastructure connects to the national freight network which allows for shippers/receivers from all over north America to send or receive products. In order for railroads and shippers in Vermont to compete and be compatible with the National network the rail infrastructure must meet the national weight standard of 286,000-lb. per rail car capacity. Achieving this standard will be essential to the support of future economic growth and will also provide the means for decreased truck traffic on Vermont highways.

In addition to bringing the rail infrastructure to the 286,000-lb. standard, Vermont must continue to work to improve rail clearances to accommodate both high and wide loads such as double stack containers and tri level autoracks. For these investments in Vermont's rail infrastructure to be fully utilized, the rail lines in neighboring states must also increase their capacity to the 286,000-lb. standard and improve rail clearances. Massachusetts has received federal funding to increase their freight capacity to 286,000 lbs. along the New England Central line which puts further pressure on Vermont to allow for thru freight movements at industry standard.

The Federal Railroad Administration (FRA) completed their regulatory rules for a National Bridge Management Program in 2010. Vermont, as a rail owner, is required to inventory, inspect and program repairs to 170 state owned bridges on the state system. As we complete the annual inspections, we continue to generate many new bridge projects based on the inspection data which continues to add budgetary pressures to the rail program. The goal for the rail program is to bring all state-owned bridges to the 286,000-lb. standard and the double stack clearance standard. We have load ratings on all of the VTrans responsible rail bridges and 17 out of the total 170 bridges have a rating of less than 286,000 lbs.

VTrans is in the final stages of upgrades on the Western Corridor projects to meet the goal to extend the Amtrak Ethan Allen passenger train from Rutland to Burlington. This corridor has seen installation of continuous welded rail (CWR), tie upgrades, bridge upgrades, and crossing upgrades, platform projects and added sidings.

Vermont received a grant through the US DOT BUILD grant program in 2019. This funding is for the rehab or replacement of 31 bridges along the Western Corridor that will improve bridge structures between Rutland and Hoosick, NY to 286,000 lbs. 4 of 31 bridge projects are complete and the FY23 budget will continue to advance the remaining 27 bridges in various phases from design and permitting to project advertisement and some into construction.

The federal Passenger Rail Investment and Improvement Act of 2008 (PRIIA) called for numerous changes in roles and responsibilities for funding passenger rail transportation. Under the provisions of PRIIA Section 209, all intercity Amtrak corridor services less than 750 miles must become state-supported routes and states must pay the proportional costs associated with their respective corridor route. PRIIA Section 209 took affect October 1, 2013, for the costs of both the Vermonter and the Ethan Allen services which resulted in a significant increase in the operating subsidy. As PRIIA Section 209 is evolving, so are the costs. VTrans and Amtrak continue the refinement of equipment capital from a lump sum to more actuals. Amtrak is also working on upgrading its aging fleet of equipment as most of the coach cars are over 50 years old. This may result in an additional increase to our Amtrak subsidy. The State of Vermont has entered into an MOU with the States of Massachusetts and Connecticut to share the operating expenses and revenues on the Vermonter service. Vermont has also entered into an MOU with New York on sharing revenues and expenses on the Ethan Allen.

VTrans continues to make infrastructure improvements to the Washington County Railroad's Connecticut River line between White River Junction and Newport. VTrans has invested an average of 4000 ties annually for the past few years and will invest in another 3000 ties in FY23 to improve the safety and reliability of this line. These improvements allow freight trains to move more efficiently and safely and allow for the introduction of passenger excursion trains along various portions of the line.

Budget Summary

Transportation - Public Transit

Department/Program Description

This FY23 Public Transit budget carries out the goals of VTrans to safely provide energy efficient and essential travel options and resembles the previous year's budgets in terms of general programs, funding sources, and priorities. The overall public transit program is geared towards maintaining efforts to strengthen a statewide, integrated public transit system to meet general public, intercity and human-service transportation needs. The Federal Transit Administration (FTA), which funds and rules much of the transit program, requires a high level of coordination among the various facets of the program in order to achieve maximum service and utility. We have completed our seventh year of the city-to-city bus routes run by Premier Coach, from Colchester to Albany, NY, and the Greyhound service connecting Springfield, MA and WRJ. VTrans and its partners continue to adjust routes to accommodate the ever changing employment and service needs throughout the State.

The approach outlined above has continued and there are several service developments and improvements to present here. However, since March 2020, resources have been reassigned to address the operational changes associated with the protective measures to reduce the risks to all employees and riders of the transit system. Additional cleaning and disinfecting measures, barriers within each vehicles, updating communications, procurement of PPE, and screening clients for the demand response trips are some of the primary accommodations that have been put in place, but other challenges with human resource rules, working from home, and the ability to effectively train new staff have had a significant impact on us all. These measures and challenges will likely continue into FY23.

The absence of transit earmarks and the programmed amount of service and capital funding requires continued use of capital funds flexed from the FHWA to the FTA. Those funding sources are described in detail below. We continue to be successful in receiving competitive awards with an award for \$1,123,128 for electric buses. The buses from previous competitive awards, are due to arrive in FY23 and further inform our electrification efforts. Due to expected vehicle delivery dates occurring within FY23, those grant awards may also captured in the FY24 budget.

The 2023 capital funding will support Vermont's ongoing efforts to maintain a fleet of vehicles that are safe and in good working order, a high priority for VTrans and the FTA. It will also allow the continued growth of mobility options for both residents and visitors to Vermont. The statewide AVL project (Automatic Vehicle Locator) has been a success and we will be using additional modules to provide real time route information and scheduled tracking data to improve service and route planning. A new improved version is due to be launched in the Summer of 2022.

The FTA provides funding for public transit service to Vermont's two direct recipients, Chittenden County Transit Authority (CCTA) and the Vermont Agency of Transportation (VTrans). Through the approval of VTrans, the Green Mountain Transit (GMT, formerly CCTA) is a direct recipient for their urban programs. VTrans sub-contracts transportation service through the regional transit providers in the rest of the state. Actual transportation services are provided primarily through the regional, not-for-profit transportation providers. Funding is provided under the terms and conditions of annual grant agreements. These funds are distributed through a competitive process based on need and quality of services.

Funding sources include:

Congestion Mitigation and Air Quality Program (CMAQ) - this federal program (FHWA transfer) - enables transportation agencies (for-profit and not-for-profit) to implement projects which reduce transportation related emissions and reduce congestion. Public transit is an identified transportation demand management measure eligible for projects through the Clean Air Act if an increase in public transit ridership can reasonably be expected to result from the project supported by a quantified estimate of the effects on emissions. The federal share for eligible projects is 80%. The local match (non-federal local funds) requirement is 20% during the 3-year demonstration period and is supplied by the affected transit agency, municipalities, and businesses. Due to the COVID Relief funds awarded to the FTA program (CARES, CRRSAA, and ARPA) we were able to cover a significant portion of these costs with 100% federal funds. Many of these projects have successfully completed their demo period with excellent ridership and fare recovery and use state and other federal funding to sustain them which is included in this budget. MAP-21 allowed continued

CMAQ support for any transit route which was eligible for CMAQ funding in 2012. Vermont has been fortunate to have two of its urban routes qualify for continued CMAQ funding beyond the 3 years.

Rural Areas Transportation Operating funds- assist non-urbanized areas (population less than 50,000) with transportation that is open to the general public. The federal funding share for eligible project planning, capital, administration, and preventive maintenance is 80%. The federal share for net eligible operating assistance is 50% after deducting fares (only FTA formula funds can be used for operating). The local match requirement is 20% and 50% respectively, which is derived partially from Vermont state public transportation funds and partially from contributions from municipalities and businesses. For FY23, we plan to use the majority of remaining COVID Relief funds to cover these costs, as operations require the largest percentage match, saving the most state and local funds possible.

Urbanized Transportation funds - assists urbanized regions (at least 50,000 in population) with transportation that is open to the general public. Chittenden County is the only urbanized area in Vermont. The federal funding share is 80% for admin and maintenance and 50% for operations. The local match is 20% and 50%. VTrans allows CCTA to apply directly to the Federal Transit Administration for this funding. VTrans supplements this funding with funds flexed from the FHWA and with state funds.

Vermont Rural and Urban Preventive Maintenance funds - eligible preventive maintenance for vehicle maintenance functions and non-vehicle maintenance functions (i.e. repair of buildings, grounds and equipment, etc.). The federal share is 80% and the local match (non-federal) is 20%. These funds are flexed from the FHWA allocation and must be matched by local or state funds.

Vermont Rural and Urban Administrative funds - eligible administrative costs. The federal share is 80% and the local match (non-federal) is 20%. These funds are primarily flexed from the FHWA allocation and must be matched by local or state funds. Marketing, an essential tool in the success of public transit, is an eligible administrative expense.

Rural Technical Assistance Program funds - restricted to Federal Transit Administration approved training and technical assistance expenses in non-urbanized areas through a scholarship of \$3,000-\$5,000 to each sub-recipient provided by VTrans' Public Transit Section. In addition, the Public Transit Section administers a statewide training program developed in consultation with the VPTA (Vermont Public Transit Association). The federal share is 100% and supports State and Federal emphasis areas such as safety and proficiency training.

Elders and Persons with Disabilities Program - funds door-to-door human service transportation for elders (age 60+) and persons with disabilities as defined by the Americans with Disabilities Act (ADA). Service is provided for non-Medicaid transportation, transit to senior meal sites, adult day programs, essential shopping trips to the grocery store or pharmacy, employment trips, and others.

Each region has an Elderly and Disabled Advisory Committee which recommends local allocations of E&D funds and authorizes purchases of transportation from the regional providers and others. These committee representatives include the public transit providers and independent partners such as Area Agencies on Aging, adult day services, community mental health centers or designated agencies, community action councils, all Agency of Human Services Field Services Directors in each planning region, consumer representatives, chambers of commerce, statewide advocacy groups, local human service agencies, and other concerned parties. These committees meet at least quarterly to review eligibility approval, current service levels, service quality concerns, budget balances, funding issues, and matters that will improve services to consumers. Reviews of current service levels include verifying that services are the most cost effective and appropriate to meeting consumer needs and use only authorized and appropriate modes of transportation. The federal funding share is 80%. The local match requirement is 20%, which is derived from local human service organizations participating in the committees or through volunteer, in-kind donations. In FY23, we are expecting most of these committees to evolve into "regional mobility committees", where additional partners and organizations representing unserved mobility needs will be part of the discussion and plans for increased demand response service.

Go Vermont Program - The program's mission is to move people from driving alone (SOV, single occupancy vehicles) to more efficient transportation options. Through a one-click/one-call clearinghouse of information and ride match-

ing services relating to carpools, vanpools, public transit routes and park and ride locations, the Go Vermont program encourages Vermonters to examine their travel options and make efficient transportation choices. The Go Vermont Program's commitment to the economic well-being and quality of life for all Vermonters is demonstrated by the program's positive impacts such as the reduction of energy consumption, the reduction of traffic volume, greater mobility and improved air quality. Services provided through the Go Vermont program include automated matching for carpools, a public-private vanpool program, and links to all public transit routes, an emergency ride home service, as well as program development and transportation demand management (TDM) assistance to Vermont employers.

VTrans' Public Transit Section administers this program in-house with the assistance of the ride matching software, Agile Mile, and the Vermont Environmental Investment Corporation (VEIC) which provides a call center service with live operators from 8-6 M-F and messaging service 24/7. VTrans contracts with a vanpool management firm, Enterprise Rideshare, to increase vanpooling. VTrans is implementing an intensive statewide marketing plan promoting a new trip planning tool that better reflects rural transit service. The program continues to expand its services through contracts with existing Transportation Management Associations to bring employer assistance to any interested employer in the state (TDM services include employer/employee surveys, communication plans, and mode workshops). This program also provides staff and financial support to efficient transportation programs such as CarShare Vermont and to various transportation initiatives throughout the state. Go Vermont is supported by FHWA CMAQ funds at 80% or 100%, depending on the type of program support provided.

The program manager is also responsible for overseeing the newly established Mobility and Transportation Innovation (MTI) grant program, where in October 2021, 13 grants were awarded a total of \$330,000 to provide TDM services, such as the expansion of modes, multi-modal infrastructure improvements, and planning processes associated with providing efficient mobility options for underserved communities in the near future.

Capital Assistance funding - provides vehicles and other capital to the elders and persons with disabilities and the general public programs. This assistance must meet FTA vehicle and fleet regulations as well as maintenance and administrative equipment (bus shelters, etc.). The federal share for all capital assistance projects is 80%. The local match requirement is 10%, with the remaining 10% from state funds. Certain vehicle purchases under the formula and competitive 5339 Bus and Bus Facilities grant programs allows for a 85% federal match. This program also pays for mobility management services at an 80/20 rate. Under certain circumstances (transit vehicles), the federal share can be 85%.

Transportation - Central Garage

Department/Program Description

Fleet Management

VTrans Fleet manages vehicles and equipment owned and assigned to the Agency of Transportation. Fleet preventive maintenance and repairs of agency-owned vehicles and equipment are performed at our 7 fleet service facilities located throughout the State. VTrans Fleet purchases, maintains, and administers the mid-size and heavy-duty highway and bridge maintenance fleet assets, including multi-use plow and dump trucks and specialized heavy and construction equipment. The division also supports Highway Maintenance, DMV Commercial Vehicle Enforcement Section, Aviation, and Bridge Inspection equipment through intra-agency service agreements.

VTrans Fleet is also taking a more holistic fleet management approach by overseeing the procurement and tracking of the agency's light-duty fleet vehicles provided by BGS through the State's centralized fleet program. This effort will ensure the VTrans' fleet is right-sized, managed cost-effectively, and help meet our fleet electrification goals.

We continue to focus on returning our plow truck fleet to an 8 to 10-year replacement schedule. Timely replacements minimize costly repairs and breakdowns and provide excellent service to Vermont's mission of safe movement of people and goods.

Department of Motor Vehicles

Department/Program Description

The Department of Motor Vehicles (DMV) is responsible for issuing driver credentials, learner permits, motor vehicle registrations (including snowmobile, motorboat, and ATV registrations), driver license suspensions and reinstatements, enforcement of motor-vehicle related laws, and collecting motor fuel revenue for the State of Vermont. The Department also manages several safety programs, including driver education, vehicle inspections, motor carrier safety, school bus safety and motorcycle training. The Vermont DMV serves 643,000 Vermont residents as well as a significant number of nonresidents.

To carry out its statutory responsibilities the Department operates under the following mission statement:

"With a commitment to excellence, the dedicated employees of DMV strive to provide the highest level of customer service through the administration of motor vehicle laws and the promotion of highway safety."

The Department is comprised of four divisions: Operations, Enforcement & Safety, Finance & Logistics, and Special Programs. The key components of each division are as follows:

The Operations Division is DMV's largest division, encompassing approximately 68 percent of the total Department's workforce. This division has four units: Branch Operations (customer services), Information and Processing, Commercial Vehicle and Training, and Driver Improvement and Information Center. Below is an overview of the function of each unit.

- Branch Operations is responsible for eleven customer counter service locations throughout the state with ten currently open. DMV provides these services from six permanent offices located regionally throughout the State and a team of mobile units that travel to remote regions. The Montpelier office is the central location for DMV activities. A Scheduling System for making appointments keeps wait times short and expands customer access to DMV services.
- Information and Processing Units process all registration and license renewals, retrieve vital records to support all business functions, perform data entry and quality control, and handle all public record requests.
- The Commercial Vehicle Office is responsible for the International Registration Plan (IRP) and International Fuel Tax Agreement (IFTA) to include the collection and distribution of fuel taxes. The Commercial Vehicle Office also maintains accurate and reliable motor carrier records, tracks motor carrier accounts and initiates suspensions on delinquent accounts. They also issue oversize and overweight permits and oversee the e-permitting process.
- The Driver Improvement and Information Unit is responsible for issuing license suspensions, processing license reinstatements, crash reports, restricted driver's licenses, and compliance standards. In addition, the unit manages the Department's call center by directing and guiding our customer inquiries to a fast and efficient outcome.

The Enforcement & Safety Division is comprised of both sworn law enforcement officers and non-sworn civilian staff. This division has three units: Commercial Vehicle Enforcement, Investigative, and Administration. Below is an overview of the function of each of these units.

- Sworn uniformed law enforcement officers staff the Commercial Vehicle Enforcement Unit. Their primary mission is enforcement of laws and regulations pertaining to commercial vehicle safety issues. Duties include assuring commercial drivers have proper credentials, verifying vehicles meet state and federal equipment standards, and ensuring acceptable standards are met concerning size and weight restrictions for all commercial vehicles.
- The Investigative Unit is comprised of sworn and non-sworn investigators. This unit also includes an Education & Safety office.

О

The primary focus of the Investigative Unit is to regulate, monitor, and investigate potential illegal or fraudulent activities relating to licensing, registration, titles, dealer and inspection regulations, as well as general law enforcement support services.

0

The Education & Safety office is responsible for regulating, licensing, and monitoring commercial driver training schools, third party testing programs, training and licensing 'School Bus Driver Training Instructors', and Pupil Transportation Safety laws and issues. This office administers the Vermont Rider Education Program which provides motorcycle safety training to approximately 1,500 students each year at one of eight training sites located throughout the state. This office is also responsible for research and analysis of many other highway safety-related issues.

- The Administration Unit provides support to all units within the Enforcement & Safety Division. These support functions include dealer and inspection station licensing, mechanic certifications, abandoned vehicles and vessels, Vermont Rider Education Program (VREP) information requests, and motor carrier driver and vehicle inspections reports to the Federal Motor Carrier Safety Administration (FMCSA/MCSAP).

The Finance & Logistics Division is comprised of several units utilizing the skills of technical and professional staff. This division has three units: Finance, Facilities Management & Logistics, and Audit. Below is a brief description of each unit.

- The primary mission of the Finance Unit is to protect the financial resources of the Department. The duties include responsibility for planning and managing a \$37 million-dollar budget along with a variety of specialized financial services. Financial services range from categorization of over \$335 million in revenues, payroll administration, grant financial management, contract management, purchasing activity, and payment processing.
- The Facilities Management & Logistics Unit is primarily focused on real estate management. Facilities Management includes interior building modifications and large renovation projects for all DMV office locations throughout Vermont. This unit also manages the Continuity of Operation Plan (COOP) and a variety of security functions related to emergency preparedness and evacuation drills. The unit is responsible for a host of building issues and provides many levels of logistical support to include a Stockroom Operation to provide goods and services and a Mail Distribution Center for incoming and outgoing correspondence.
- The Audit Unit performs auditing and investigative work related to the enforcement of Vermont State and Federal fuel tax laws. Their work is focused on International Fuel Tax Agreements (IFTA), International Registration Plans (IRP), Purchase & Use taxes, and fuel taxes to include motor fuel distributors, aviation, railroads, and car dealership rental audits.

The Special Programs Division

- The Special Programs Division is responsible for strategic planning, engineering daily activities to support department initiatives and maximize efficiencies. This team collaborates with the senior management team to identify opportunities to enhance business processes and improve overall customer experiences. Other responsibilities include managing social media and coordination of legislative activities. The Special Programs Division will also lead the implementation of the Core System modernization project.

Debt Service

Department/Program Description

The State borrows money for capital purposes through the issuance of general obligation bonds, the payment of which is backed by the full faith and credit of the State. General Obligation bonds are used for numerous purposes including construction and renovation of state office buildings and state recreational, cultural, health, correctional and educational facilities; making grants to municipalities for the purposes of funding wastewater and drinking water facilities upgrades; transportation projects funding, and other capital projects.

The State Treasurer may borrow temporary funds, through various methods, revenue anticipation notes, lines of credit and a tax-exempt commercial paper program, for the purpose of defraying the expenses and budget deficits of government incurred by the appropriations authorized in the General Appropriations Act. The proceeds of temporary borrowing, together with certain other available monies in the General Fund are used to make such payments, as set forth in the General Appropriations Act, in advance of receipt of taxes, revenues and other funds.

In addition to General Obligation debt, the State may also sell revenue-backed Transportation Infrastructure Bonds (TIBs). These bonds are secured only from motor fuel transportation infrastructure assessments of 2% of the sales price of gasoline and 3 cents per gallon of diesel fuel. TIBs are used to finance the rehabilitation, reconstruction or replacement of state and municipal bridges and culverts, and state roads, railroads, airports and necessary buildings which, after such work, have a remaining useful life of at least 30 years.

The amount necessary each year to pay the maturing principal and interest are included in and made part of the annual appropriations bill for the expense of State Government.

The Capital Debt Affordability Advisory Committee completes an annual review of the size and affordability of the State tax-supported general obligation debt, including the projected debt service required to pay these obligations.

Economic trends, the bond market and legislative actions will determine the interest rates on borrowing. Estimates are based on the latest information available.
