Caseload Count by Type of Agency Involvement

Data Source: FSD Quarterly Management Reports - DCF Custody; AHS Report Catalog - CCO Report and Fullcaseload Report.

Data Note: Data is point-in-time as of 09/30/xx, annually for DCF Custody Cases. Family Support & CCO Cases are as of the day the report is ran, as close to 09/30/xx as possible. May not reflect 09/30/xx. DCF Custody and CCO cases are at the child level. Family Support cases are a family count. More than one child may exist.

Family First Prevention Services Act: Child Welfare Reform

Family First Prevention Services Act (FFPSA) is the most significant child welfare law in the last 20 years. FFPSA dramatically alters the federal financial structure for child welfare programming and provides the legislative foundation for states to substantially transform their child welfare systems to invest more in family preservation services, family-based services, and increase the quality of necessary congregate care.

The table below provides the Department's costs for full implementation for FFPSA. Failure to fully implement FFPSA results in DCF's inability to leverage Title IV-E funds for residential care and a failure to move the system of care into alignment with best-practices and federal standards.

FY 2023 SUMMARY & HIGHLIGHTS

Pay Act: \$122,933 (\$119,967 GF)

Retirement Rate Increase: \$173,556 (\$168,236 GF)

Technical adjustment to align anticipated receipts with federal fund sources: \$368,700 (-\$377,508 GF)

CCFAP rate adjustment:

- CCFAP rate adjustment (75th percentile)
- Increase provider closed-days and family vacation days.
- Total cost: \$4,914,233

Expand provider network for school-aged children (CCFAP): \$6,962,587

Child Care Financial Assistance Program (CCFAP) Initiative

High Quality child care, pre-K, and afterschool care are critical components of stable and supported families. Vermont's children depend on their child care settings for early learning, enrichment, and safe, high-quality care. Vermont needs a system that enables both children and their families to thrive.

In the SFY2023 Budget, DCF proposes:

- Increasing CCFAP base allocation by \$4,914,233 to align Vermont with the federal standard for CCFAP rates. By moving from the 50th percentile to the 75th percentile, families will have access to 75 percent of providers within their expected family co-pay with no additional payment thus broadening access to care for low- and middle- income families.
 - In current child care policy, the State pays for 15 provider closed-days and 10 family vacation-days. In this budget proposal, DCF also would increase provider closed-days from 15 to 30, and family vacation-days from 10 to 20.
- Expanding the provider network of afterschool and summer programs for school-aged children. By increasing the number of programs that accept CCFAP, we can expand the breadth of opportunities for Vermont children ages 6-13. Cost: \$6,962,587.

The Vermont Department of Taxes also proposed relief to the child care system:

- Expansion of the Child and Dependent Care Credit equal to 50% of the federal credit.
- A Child Care worker income tax credit of \$1,000.
- A full exemption from education property taxes for Pre-K providers in FY23, partial refund for licensed child care providers in FY24.
