STATE OF VERMONT
OFFICE OF THE STATE TREASURER

October 29, 2021

The Honorable Phil Scott
Pavilion Office Building
109 State Street
Montpelier, VT 05609

Dear Governor Scott:

As provided in Title 16, V.S.A., Chapter 55, Section 1942(r), the Vermont State Teachers' Retirement (VSTRS) Board of Trustees voted at a meeting held on October 28, 2021, to adopt the actuarial valuation prepared by Segal Consulting and to recommend the following contribution (the actuarially determined employer contribution or ADEC) to the State Teachers' Retirement System:

Fiscal Year 2023: \$ 205,161,651

The recommended State contribution, based on statutory requirements, to the VSTRS fund is made up of an employer normal cost of \$42,142,965 and an unfunded liability amortization payment of \$163,018,686

A copy of the valuation as of June 30, 2021, which outlines the Fiscal Year 2023 contribution is available on our website for your review at:

https://www.vermonttreasurer.gov/sites/treasurer/files/VSTRS/PDF/2021/Vermont%20State%20Teachers%E2%80%99%20Retirement%20System_Actuarial%20Valuation.pdf

Also please note that pursuant to Section 1944(b)(2), the actuary has determined that the reduction to the recommended contribution for Fiscal Year 2021 attributable to the increase from 5% to 6% for Group C members with less than five years of service as of June 30, 2014 is \$3,380,823.

Additionally, the VSTRS Board of Trustees, requested that the Treasurer, as a matter of principle, convey the position that prefunding for the other postemployment benefits (OPEB) trust fund, the Vermont Retired Teachers' Health and Medical Benefits Fund (RTHMB), is a more prudent approach than pay-go funding. We anticipate that amount, as well as the accompanying actuarial report, will be made available to you in November.

The VSTRS pension ADEC is an increase of \$ 8,955,147 as compared to the Fiscal Year 2022 ADEC of \$ 196,206,504. The 2021 unfunded actuarial accrued liability (UAAL) is \$ 1,950,363,905, an increase of \$ 17,074,539 over the 2020 valuation of \$ 1,933,289,366. Given excellent investment

performance, the funding percentage did improve, from 51.29% in 2020 to the current 52.91% in 2021 even though the liabilities continue to increase, but at a more moderate level.

As Treasurer, I do wish to comment on next steps. By way of background, last year's UAAL increased by \$379 million as compared to the 2019 valuation. In light of that increase, the VSTRS Board of Trustees directed the Treasurer to review and provide recommendations to lower the unfunded liability and the actuarially determined employer contribution and to present those recommendations to the Governor and the Vermont General Assembly. I submitted those recommendations in a report dated January 15, 2021. This report provided the General Assembly with some preliminary options to address the increased costs associated with the pension system.

I was disappointed that the General Assembly was unable to make the needed legislative changes to reduce these liabilities. At this point the vehicle for addressing them is the Pension Benefits, Design, and Funding Task Force created by the General Assembly via Act 75 and signed by the Governor on June 8, 2021.

The Task Force must produce feasible recommendations and subsequently, the General Assembly must act this year. With the Governor's appointment of a voting member on the Task Force and the inclusion of employee group representatives, all parties needed to resolve this issue are at the table. The Trustee Boards and Treasurer's Office, with a non-voting member, continue to be available to provide assistance.

The General Assembly, the Governor, the employee groups, the Trustees, and the Treasurer's Office all have an interest in making this Task Force work. Success is about creating a sustainable system that will provide retirement security for our hard-working public employees—this generation, the next generation, and the generation after that.

Each year we delay addressing the problem results in increased costs. It is time to take decisive action to reduce our unfunded pension and health care liabilities, and to adequately fund these benefits.

Let's look forward to a collaborative approach and resulting legislative action in the 2022 session.

Sincerely,

Elizabeth A. Pearce
Vermont State Treasurer
