**Check-in on pending bills**

Discussion over H.492 – rumors of veto

Rural Omnibus bill – caucus must specify what it wants to see – what elements of pending bills they support

S.234 – consider whether testimony has been taken or could there be another opportunity to change or influence the bill

H.492, UVA, and 30 x 30 – consider if there's a way to prioritize a balanced package that could gain full caucus support.

Discussion over whether each caucus member's priorities could be ranked. Rep. Katherine Sims plans to create a survey that could allow caucus members to rank priorities (sent out later Thursday, April 7, 2022)

S.704 – the bill is not yet back from House committees, but the caucus is determined to protect Forest Futures. Caucus considered how the bill could affect the budget.
