

Dear Honorable Members of the Vermont House Committee on Education,

U-32 Middle and High School's Seeking Social Justice and Green Team Alliance created a petition to support inclusive flags at Vermont public schools in response to Bill H.92. Inclusive flags are important to us because they are a representation of our diverse communities. Limiting the flags to just the Vermont state flag and the United States flag is a deliberate effort to silence our voices. We denounce the efforts behind this bill. In the two weeks since starting this petition we have gathered 800 signatures from people all over Vermont, and all over the world.
