

Dear Chair Webb and Members of the House Education Committee,

I know you are reviewing S13 and wanted to ask you to please narrow the focus of the taskforce to focus on creating an implementation plan using the corrected, empirically-driven per pupil weights that were derived in the "Vermont Per Pupil Weighting Study."

I am in full support of the Coalition for Vermont Student Equity and the testimony given by Doug Korb and Alex Yin.

Thank you for taking up this important work to help ensure equitable educational opportunities for all of Vermont's children. Best,

Kendra Sowers  
Burlington School Commissioner
