11 benefit of the homebuyer to reduce the cost of purchasing the home, provided

8                               \* \* \* Residential Construction Contractors \* \* \*

9       Sec. 12. FINDINGS

10       The General Assembly finds that:

11       (1) There is currently no master list of residential construction  
12       contractors operating in the State.

13       (2) There is no standard process for determining or adjudicating  
14       construction contract fraud complaints either on the part of contractors or  
15       consumers.

16       (3) Public authorities have no mechanism to contact all contractors  
17       when necessary to provide updates to public health requirements, safe working  
18       protocols, codes and standards, available trainings and certifications, or  
19       building incentives or construction subsidies.

20       (4) Wide dissemination of information on codes, standards, and  
21       trainings is vital to improving construction techniques throughout the State's

1 construction industry. Since building thermal conditioning represents over  
2 one-quarter of the State’s greenhouse gas emissions, improving energy  
3 performance is a key strategy for meeting the requirements of the Global  
4 Warming Solutions Act, 2020 Acts and Resolves No. 153.

5 (5) While registration is not licensure and confers no assurance of  
6 competence, consumers have no way of knowing whether a contractor is  
7 operating legally or has been subject to civil claims or disciplinary actions.

8 (6) A noncommercial, standardized public listing will provide  
9 contractors an opportunity to include in their record optional third-party, State-  
10 sanctioned certifications.

11 Sec. 13. 3 V.S.A. § 122 is amended to read:

12 § 122. OFFICE OF PROFESSIONAL REGULATION
