Subject: Testimony error on H.718 - CFD#1

Rep. LaClair ask me during testimony if the bond debt for CFD#1 was carried over to all of the CWD and I replied that I thought so. However, I contacted the GM of CWD and this was his reply:

"We treat CFD #1 as it's own enterprise system. The existing debt is specific to CFD #1 so only CFD #1 system users are charged to recover costs for the annual payments. It is essentially as it was before CWD took ownership."

I asked about Rep. Vyhovsky's question about a vote and he stated the following:

"My understanding from Jerry is that CFD #1 did hold a vote at a publicly warned meeting for the dissolution of their district. I've copied Jerry on this so he can respond as necessary."

Sorry I had that wrong. They were good questions.
