

Dear Representatives,

I am writing about your vote today:

THERE ARE GOOD ALTERNATIVES TO PFAS FOAMS. REQUIRE THEIR USE IN VERMONT!

Only deep corruption in the DoD and FAA can explain why PFAS foams are still required (see below).

Vermont has a proud history of leading resistance to immoral federal legislation from the Fugitive Slave Act to the Defense of Marriage Act. Dear Representatives, proudly resist! This is one of your finest hours of moral courage!!

We have No Excuse Before God for continuing to poison Guard members and all downstream and future Vermonters. It simply must stop, and NOW!

Please vote your conscience while thinking of your children or loved ones drinking a glass of water.

I am so very lucky to live in Vermont where most of our officials really do want to do the right thing for all their fellow citizens.

Thank you, sincerely, for being among them,

Joanna Rankin
