

Just a note in support of a favorable report from your committee on S. 20, an act relating to restrictions on perfluoroalkyl and polyfluoroalkyl substances and other chemicals of concern in consumer products, and also an endorsement of the Attorney General's [memorandum of April 22, 2021](#) to clarify and tighten the compliance provisions of the bill.

It is clear that these chemicals need to be strictly regulated.

Thank you for your attention to these matters.

Robert A. Oeser
