

**S.285 – House Human Services Committee proposed revisions to Sec. 8 (moderate needs)**

Sec. 8. OPTIONS FOR EXTENDING MODERATE NEEDS SUPPORTS; WORKING GROUP; GLOBAL COMMITMENT WAIVER; REPORT

(a) **The As part of developing the Vermont Action Plan for Aging Well as required by 2020 Acts and Resolves No. 156, Sec. 3, the** Department of Disabilities, Aging, and Independent Living shall convene a working group comprising representatives of older Vermonters, home- and community-based service providers, the Office of the Long-Term Care Ombudsman, the Agency of Human Services, and other interested stakeholders to consider extending access to long-term home- and community-based services and supports to a broader cohort of Vermonters who would benefit from them, and their family caregivers, including:

(1) the types of services, such as those addressing activities of daily living, falls prevention, social isolation, medication management, and case management that many older Vermonters need but for which many older Vermonters may not be financially eligible or that are not covered under many standard health insurance plans;

(2) the most promising opportunities to extend supports to additional Vermonters, such as expanding the use of flexible funding options that enable beneficiaries and their families to manage their own services and caregivers within a defined budget and allowing case management to be provided to beneficiaries who do not require other services;

(3) how to set clinical and financial eligibility criteria for the extended supports, including ways to avoid requiring applicants to spend down their assets in order to qualify;

(4) how to fund the extended supports, including identifying the options with the greatest potential for federal financial participation;

(5) how to proactively identify Vermonters across all payers who have the greatest need for extended supports;

(6) how best to support family caregivers, such as through training, respite, home modifications, payments for services, and other methods; and

(7) the feasibility of extending access to long-term home- and community-based services and supports and the impact on existing services.

(b) The working group shall also make recommendations regarding changes to service delivery for persons who are dually eligible for Medicaid and Medicare in order to improve care, expand options, and reduce unnecessary cost shifting and duplication.

(d c) On or before January 15, 2023 2024, the Department shall report to the House Committees on Human Services, on Health Care, and on Appropriations and the Senate Committees on Health and Welfare and on Appropriations regarding the working group's findings and recommendations, including its recommendations regarding service delivery for dually eligible individuals, and an estimate of any funding that would be needed to implement the working group's recommendations.

(e d) The Department shall collaborate with others in the Agency of Human Services as needed in order to incorporate the working group's recommendations on extending access to long-term home- and community-based services and supports **as an amendment to the Global Commitment to Health Section 1115 demonstration in effect in 2024 or** into the Agency's proposals to and negotiations with the Centers for Medicare and Medicaid Services for the iteration of Vermont's Global Commitment to Health Section 1115 demonstration that will take effect following the expiration of the demonstration currently under negotiation.
