Pursuant to the request of Chair Grad I am including the language I referenced in my testimony today concerning an additional exception under Sec. 3, 7607(c) as follows:

A person or a court in possession of an order issued by any court regarding a matter that was subsequently sealed may file or cite to that decision in any subsequent proceeding. The party or court filing or citing to that decision shall ensure that information regarding the identity of the defendant in the sealed proceeding is redacted.

Thank you and please let me know any questions.
