

Thank you for including MadFreedom in your consideration to amend H.729.

MadFreedom is not opposed to the substantive provision of H.329 (statute of limitations). We are concerned with process equity and question whether it's a fair process to Vermonters, particularly those who advocated for the original bill, to remove selectively provisions of a bill that did not pass crossover and insert them in a bill that did meet the deadline.

Thank you.

Wilda
