

Re: H.556

My husband and I have been part-time residents in the Vermont community of Quechee for 3 years. I am currently a member on the QLLA's Diversity, Equity & Inclusion (DEI) Council and I have learned much about the Indigenous Peoples of Vermont. I am expressing my support for the the passage of HB 556 which would offer our original settlers some relief on property taxes. I am asking for your full support on this legislation. I believe we owe our state's original settlers respect, support, and a brighter day forward. And I further believe that HB 556 is a good next step in that direction.

Thank you.
