

S.13

An act relating to the implementation of the Pupil Weighting Factors Report  
It is hereby enacted by the General Assembly of the State of Vermont:

Sec. 1. FINDINGS

(a) 2018 Acts and Resolves No. 173, Sec. 11 directed the Agency of Education to undertake a study examining and evaluating the current formula used to weigh economically disadvantaged students, English language learners, and secondary-level students in Vermont for purposes of calculating equalized pupils. The study was also to consider whether new cost factors and weights should be included in the equalized pupil calculation.

(b) The findings from the Pupil Weighting Factors Report dated December 24, 2019 (Report), produced by a University of Vermont-led team of researchers, including national experts on student weighting, were stark, stating that “[n]either the factors considered by the [current] formula nor the value of the weights reflect contemporary educational circumstances and costs.” The Report also found that the current “values for the existing weights have weak ties, if any, with evidence describing the difference in the costs of educating students with disparate needs or operating schools in different contexts.”

(c) As a corrective to this situation, the major recommendations of the Report are straightforward, specifically that the General Assembly increase

certain of the existing weights and that it add population density (rurality) as a new weighting factor, given the Report's finding that rural districts pay more to educate a student. However, given the statewide nature of Vermont's education funding system and the reality that any change in the weighting formula is complex due to its relationship to other educational policies and will produce fluctuations in tax rates across the State, the General Assembly has chosen to develop a phased approach to revising the weighting formula.

WEIGHTING FACTORS REPORT
