8 <i>Priority space scheduling for</i> <i>legislative meetings.</i> Standing Committees, joint committee meetings, and public hearings should have priority use of legislative spaces through standard scheduling processes administered by the Sergeant at Arms' office. Specialty and issue caucuses should meet in 109 or 133 State Street when appropriate space in the State House is not available. The Sergeant at Arms' office should coordinate a unified scheduling process for spaces.	Joint Rules Committee for any orders to Sergeant at Arms re: space scheduling. The Committee reviewed application of air standards to the current State House heating and cooling system. Most specifically, the Committee reviewed whether and how the American Society of Heating, Refrigerating and Air- Conditioning Engineers (ASHRAE) Standard 62.1 for Ventilation of Acceptable Air Quality could be required for the current heating and cooling system or could be used as a standard for air quality or air flow in the State House. The Advisory Committee determined that ASHRAE 62.1 was not feasible for implementation under the current State House system.
