Budget Context
Legislative Joint Fiscal Office

Prepared for the Pension Benefits, Design, and Funding Taskforce
July 29th 2021

*Stephen Klein, Joint Fiscal Office*
Overview

• Vermont’s underlying revenue and fiscal outlook is strong and impacted by outside events

• What does demographic change, the pandemic and global warming mean for Vermont?

• What are the demands we need to meet as a state?

• Other areas of fiscal pressure
Vermont’s underlying revenue and fiscal outlook is strong and impacted by outside events

• On Friday, July 30th the Emergency Board will be adopting a new revenue forecast
  • Revenues came in with a $200 million surplus for FY 2021 which is allocated by statute- $54 million will go to State Employee OPEB
  • Revenues continue to be strong through FY 2026
  • From FY 2023 - FY 2026, average annual growth of the General Fund will be around 2.5%.

• Vermont’s underlying economy has been impacted by
  • Aging population
  • Fewer Kids – lower birth rates
  • Demographics impact state funding in many ways

• While the Pandemic and Global Warming have had impacts – it is too early to know if they are transitory or how they will impact underlying trends

• What follows are charts from October – December 2020 – We will be updating the demographic and budget charts this Fall.
Background on the State Budget
Budget growth due to federal relief: FY 21/FY 22 up $1 billion (not including ESSER and other Federal ARPA Funds)

Demographics, Pandemic and Federal Funds
Letting Data Inform Policy Discussion

- The State with the Oldest Median Population Age in 2019 was Maine, at 45.1 Years
- Vermont was the 4th Highest, at 42.8 Years, After NH (43.0) and WV (42.9)
- Florida was Next, at 42.4 Years
- Guess Which U.S. State has the Highest Share of 18-21 Year-Olds as a Percent of Its Total Population?
Vermont Public School Enrollment Declines Not Likely to be Reversed Soon...

19% Enrollment Decline Expected Between 1997 and 2020, With Little Prospect of Any Significant Reversal Through 2025

Sources: Vermont AOE and Consensus Administration and Joint Fiscal Office Projections - October 2020
Pandemic
What does demographic change, the pandemic and global warming mean for Vermont

• Changing demographics, Like in other states, Vermont is experiencing difficulties filling positions
  • This is true for the state workforce
    • Need for higher wages
    • Training
    • Other Factors

• Changing demographics will impact service needs
  • Health Care, Social Services, Services generally, Need for child care many others

• The pandemic has led to demographic impacts
  • Vermont has been a leading state in vaccination
  • Growth in housing prices in Vermont
  • New entrants to the state/in education countered by a rise of home schooling
  • An issue of affordability for Vermonters requiring considerable public investment

• Will Climate change have demographic impacts?

• The impact of federal relief has been huge. What will it mean for the future?

• Is fiscal strength transitory or long term?
  • What happens when the Federal Aid diminishes?
  • What will happen when The Federal Government tackles its unprecedented deficits?

**Based on Vermont statutory language**
Other Areas of Fiscal Pressure

• Base State Funding
  • This has been constrained for years it has created issues for workforce replacement and service needs in a variety of departments.
  • Our social service system is built on community service providers. Funding constraints have created difficult financial stress on those entities in their current configurations.
• Higher Education Funding has become a recognized issue
  • State colleges alone have asked for a $12.5 - $15 million increase to annual appropriations from FY 22 levels in addition to further limited period investments
  • VSAC and UVM also have funding issues

• Physical Facilities
  • State: State Courts, State buildings - the condition of state buildings varies
  • Short term Court building projects $10,706,000
  • A new correctional facility has been estimated as $140 million
Other Areas of State Fiscal Pressure

• Physical Facilities (Cont.)
  • School construction needs statewide have been estimated in broad terms as between $300-$600 million [source](https://vtdigger.org/2020/02/12/state-school-construction-needs-top-565-million/)
  • State IT is a major expense over the next few years. In FY 2022 the Legislature authorized $56 million which is a small share of the projects under development

• Other major initiatives under consideration include:
  • Global Warming: estimates are from $100 to $200 million annually. The initial thinking is incentives for +/− 40,000 electric cars, and major investments in energy efficiency in housing
  • Broad Band: We are hopeful for continued federal funding but estimates are substantially above current resources committed
  • Clean Water: has received some federal funding put total water/wastewater/ stormwater over the next ten years has been estimated at $2 billion.
  • Another estimated $350 million in Brownfield clean up has also been projected
  • Waterbury Dam construction need is about $15 million in state funds

Legislative Issues
  • Education
    • Pupil Weighting
    • School Universal Meals
  • Other issues: Housing, Workforce Training, Economic Investments
