

An aerial photograph of Vermont's mountainous landscape during sunset. The sky is a mix of deep blue and golden yellow, with wispy clouds and a few white contrails. The mountains are covered in dense forests, with some trees showing vibrant autumn colors. In the foreground, a small cluster of buildings, including a barn, is visible among the trees.

BUILDING VERMONT'S CLIMATE WORKFORCE

TO ACHIEVE OUR GREENHOUSE GAS EMISSION REDUCTION GOALS

EAN NETWORK ACTION TEAM

Climate Workforce Network Team

- Selected by EAN membership at Sept '21 summit
- Co-Chaired by: Rep. Gabrielle Stebbins & Dylan Giambatista (VGS)
- Steering Committee meets every two weeks
- Monthly Climate Workforce Coalition Meetings
- Three Working Groups underway:

Weatherization Workforce

Climate Workforce Data

Communications and Outreach

WHO ARE THE STAKEHOLDERS?

HOW CLIMATE WORKFORCE BENEFITS VERMONT

EXCELLENT CAREERS

Climate jobs provide an excellent career path, with great wages that support a strong Vermont economy.

LOCAL INVESTMENT

The sooner we grow our climate workforce and rebuild our infrastructure, the quicker we capture value and keep it in Vermont.

EMISSIONS REDUCTION

A robust climate workforce is the key ingredient to make the improvements to hit our GHG Goals.
